This matter being disposed of, Dr. Bryce reviewed the events of the past year in the history and work of the Church, making special mention of the great losses sustained in the death of prominent ministers and members, and of the success which had followed the policy pursued by the last General Assembly in the appointment of a General Home Mission Secretary and two Superintendents for the great Western field, as well as of the liberality of the people in supplying the funds to carry on the different Schemes. He called upon the Assembly to elect a successor to him in the Moderator's chair.

Thereupon, Dr. Lyle, seconded by Dr. E. D. MacLaren, moved,

That Reverend Donald H. Fletcher, D.D., Minister of the McNab Street Church, Hamilton, be Moderator of this Assembly. To this it was moved in amendment by Mr. M. H. Scott, seconded by Dr. Scrimger, that the name of Dr. Armstrong, of Ottawa, be substituted for that of Dr. Fletcher.

Dr. Armstrong signifying his desire that his name should not go before the house, the mover and seconder of the amendment withdrew the same with the consent of the Assembly, and there being no other nomination, Dr. Fletcher was unanimously elected Moderator. Being conducted to the platform by the mover and seconder of his election, Dr. Fletcher was welcomed to the chair by Dr. Bryce, and addressed the Assembly briefly, thanking the fathers and brethren for the confidence reposed in him in calling him to the high and responsible office of Moderator, and then asked the Assembly to proceed to business.

REPORT REGARDING LOYAL ADDRESSES.

The Clerk reported that the loyal addresses adopted by the last Assembly had been duly forwarded, as directed, and that replies to the same had been received, which he laid on the table.

[1240]

THANKS TO RETIRING MODERATOR.

It was then moved by Mr. Walter Paul, seconded by Dr. Somerville, That the thanks of the Assembly be tendered to Dr. Bryce for his courteous and efficient conduct in the chair during the year of his occupancy thereof, and for the excellent sermon with which he had opened this Assembly. The motion was carried unanimously, and the Moderator conveyed to Dr. Bryce the thanks of the Assembly accordingly.

REPORT OF BUSINESS COMMITTEE.

The Assembly called for the report of the Business Committee, which was given in by Dr. Warden, received, considered, and adopted as a whole as follows:

The Business Committee met this afternoon, when it was agreed to submit the following recommendations to the Assembly:—

1. That the Roll of Assembly, which is in printed form, be held as read.
2. That with a view to have the attendance accurately recorded, each member be requested to write upon a card, which has been provided for the purpose, his name, home address, and the Presbytery which he represents, and to hand this in at the Clerk's office, receiving in return therefor a copy of the stitched reports to be submitted to this Assembly.

3. That the Sederunts of the Assembly be from ten in the morning until half past twelve, and from half past two to a quarter to six in the afternoon, and from a quarter to eight to ten in the evening, and that the first hour to-morrow be spent in devotional exercises.

4. That the Committee on Bills and Overtures be composed as follows:—

The Clerks of Assembly, Clerks of Synods and Presbyteries, who are members of Assembly, together with the following:—

Messrs. Clarence McKinnon, Dr. Alex. Falconer, Dr. R. Murray, Justice Forbes, N. A. McLeod, A. H. Scott, D. Tait, James Croil, A. H. MacGillivray, E. F. Torrance, D.D., D. MacEachern, A. B. Dobson, R. W. Ross, J. R. Bell, Hamilton Cassels, W. D. Bell, J. S. Hardie, Duncan Forbes, Colin Fletcher, John Charlton, J. W. McMillan, S. Maclean, Dr. Carmichael, Hon. C. H. Campbell, Dr. Herdman, W. L. Clay, J. K. Wright, W. S. Graham, Dr. Wm McClure, and that the Committee on Bills and Overtures hold its first meeting to-morrow morning at nine o'clock.

5. That the following be a Committee on the Roll of Assembly: Mr. J. H. Ratcliffe, Convener; Dr. Arch. McLean, Hon. D. Laird.

6. That a Committee, to be known as the Business Committee, be appointed to take charge of the Business of the Assembly, after it has passed the Committee on Bills and Overtures, and to arrange from time to time when all matters shall come before the Assembly. The Committee to consist of the Moderator, the Clerks of Assembly, and five others to be named by the Moderator at the first Sederunt.

CIVIC COURTESIES.

Intimation having been conveyed to the Assembly that it was the desire of the Mayor of the City of Vancouver to present to the Assembly an address of welcome, it was agreed to appoint eleven o'clock to-morrow morning as the hour for receiving the same.

There was also presented and read a communication from the Mayor and Ald-

[1241]

ermen of the city, inviting the Assembly to a luncheon in the City Hall on Saturday, the thirteenth instant, at half past twelve o'clock.

On motion, duly seconded, it was agreed to accept the invitation.

SYNOD ROLLS.

The Clerk laid before the Assembly the Rolls of the several Synods, with accompanying documents, and moved that they be held as read. The motion was seconded and agreed to.

DEATH OF REV. J. CROSKERY.

A cablegram was communicated to the Assembly conveying the sorrowful intelligence of the death of Rev. James Croskery, B.D., M.A., Minister of Mountjoy Presbyterian Church, Ireland, who was under nomination to the vacant professorship in the Presbyterian College, Halifax. This sad message was placed in the hands of the representatives of the College, present in the Assembly, in order that suitable reference may be made thereto.

BUSINESS COMMITTEE APPOINTED.

The Moderator, as requested, named the following as the five members to constitute the Committee on Business, in addition to the Moderator and Clerks, who are ex-officio members thereof, according to the standing order adopted, namely: Dr. Somerville, Mr. J. W. Falconer, Ministers; and Messrs. Justice Forbes, Walter Paul, and Hon. Colin Campbell, Elders; Dr. Warden, Convener.

The nomination was approved of.

The Assembly also desires to acknowledge, with gratitude to God and with thankfulness to the people, the generous response to the appeal made last year for increased contributions, and it observes with warm appreciation the noteworthy advance in the amount of the offerings for Home Mission work in the North-West, as well as in the Maritime Provinces.

The Assembly would strongly wish their people to maintain their liberality to Home Missions, so that the debt may be speedily removed and ample means furnished for carrying on the work with still greater vigor and success.

The Assembly next called for the report of the Western Section, which was presented by Dr. Warden, Convener, in printed form, and the salient points of which he drew attention to in introducing the subject to the Assembly. He closed his remarks with moving as follows:

The General Assembly receives and adopts the report of the Home Mission Committee, Western Section, and gratefully recognizes the good hand of God in the enlargement and prosperity of the work during the past year; places on record its high appreciation of the earnest and self-denying labors of the missionaries, and its deep obligation to the various Presbyterian Conveners for their gratuitous, but invaluable services, and notes with profound satisfaction the rapidly increasing

[1247]

interest that is being manifested throughout the Church at large in this most important department of Church work.

The Assembly expresses its sense of indebtedness to the members of the Atlin Nurse Committee for their valuable services, and its gratification at learning that a Woman's Home Missionary Society has been organized, under whose supervision the work at Atlin will henceforth be prosecuted, and similar work undertaken amongst the Doukhobors and Galicians in Manitoba and the North-West Territories.

The Assembly learns with much satisfaction of the progress made by the Committee on Co-operation with other Churches in Home Mission work, and cherishes the hope that the efforts that are being made to put a stop to unseemly denominational rivalry and to conserve the Church's energies will be crowned with complete success.

In view of the rapid increase in population in New Ontario, Manitoba and the North-West Territories, the Assembly very earnestly commends the work of the Home Mission Committee to the generous support of all the members and adherents of the Church, in order that the foundation of our rapidly developing national life may be laid in righteousness and in the fear of God.

The Assembly instructs the Committee to take action at its next meeting with a view to increase, if possible, the salaries of the missionaries, so faithfully serving the Church in the Home Mission field.

[1250]

The General Assembly recognizes the fact that the number of theological schools in connection with the Presbyterian Church in Canada is in excess of its requirements, and believes that the endowment and equipment of these schools is insufficient for the purpose of securing a high state of efficiency; that the unnecessary number scatters and impairs the educational forces of the Church; that the superior equipment and great resources of American theological schools tends to draw Canadian students from our own theological colleges; and that steps should be taken as soon as practicable to merge these Colleges into an Eastern and Western University and Divinity School; each with endowment, equipment, and resources sufficient to meet in an efficient and satisfactory manner the educational needs of the Presbyterian Church in Canada.

The motion was seconded by Dr. Armstrong.

The Assembly called for the Report of the Committee appointed to revise the printed Roll of Assembly, which was given in and read by Mr. J. H. Ratcliffe,

Its several items being considered, it was, on motion of Mr. Ratcliffe, adopted as a whole. It is as follows:

The Committee appointed to examine the Roll of the Assembly begs leave to report.

In several of the Presbyteries, changes were subsequently made in the appointments originally made, some of which were received too late to reach the Clerk of Assembly before the Roll was printed. Your Committee has looked into these and reports as follows:

1. Miramichi Presbytery sends the names of five elders instead of four. The Presbytery reports the appointment of Mr. Robert McNair, but does not report the resignation of any of the four first appointed. Your Committee is not in a position to say which name should be dropped. It was resolved to substitute the name of Mr. McNair for the last one on the printed roll.

2. We recommend the following changes in the printed Roll:—

Truro Presbytery, substitute the name of Mr. George Burris for that of Mr. Samuel Burris.

Quebec Presbytery, substitute the name of Mr. J. R. MacLeod for that of Mr. J. M. Whitelaw.

Brockville Presbytery, that of Mr. James Lindsay for that of Mr. J. McLaren.

Kingston Presbytery, substitute Mr. Samuel Russell for Prof. Dyde.

Orangeville Presbytery has appointed six elders instead of four. Evidently two have resigned and two others have been appointed to fill the vacancies, but the names of those resigning have not been reported. Your Committee has ascertained that Messrs. Peter McGill, Donald McDonald, James McGregor and Robert H. Edwards are in attendance, and recommend that their names be placed on the Roll.

Chatham Presbytery, substitute the name of Mr. Alex. Bartlet for that of Mr. Robt. Keith.

Glenboro Presbytery, substitute Mr. John Smith for Mr. Duncan Robertson.

Calgary Presbytery, substitute Mr. Hamilton Cassels for Mr. Robert Kilgour.

Mr. James McQueen, who was appointed a commissioner both by the Presbytery of Winnipeg and the Presbytery of Indore, elects to represent Winnipeg, and the Committee recommends that his name be removed from the Roll of the Presbytery of Indore.

Mr. Hamilton Cassels, who was appointed to represent the Presbyteries of Toronto and Indore and Calgary, elects to represent Toronto, and it is recommended that his name be removed from the Rolls of the Presbyteries of Indore and Calgary.

Mr. J. B. Hamilton, who was appointed to represent the Presbyteries of Hamilton and Maitland, elects to represent Maitland, and it is recommended that his name be removed from the Roll of the Presbytery of Hamilton.

Presbytery of Edmonton substitutes the name of Mr. Bryan for that of Capt. Logan.

Presbytery of Rock Lake substitutes Mr. Samuel Polson for Mr. F. J. Hartley.

Mr. Murdoch McKenzie, who was elected a commissioner by the Presbyteries of Honan and Indore, decides to represent Indore, and it is recommended that his name be removed from the Roll of the Presbytery of Honan.

REPORT OF COMMITTEE ON REVISING THE BOOK OF FORMS.

The Assembly called for the report of the Committee appointed to revise the Book of Forms, which was given in and read by Dr. R. Campbell, Clerk, Convener. It is as follows:

Your Committee on revising the Book of Forms beg leave to report that they have completed their work, but have delayed printing the revised book in order that certain important matters coming up at the present Assembly, for decision might be included in it. Meanwhile it may suffice to say that all the legislation of the Church since the last edition was published, has been embraced in the new book. A few minor alterations, nowise affecting constitutional points, have been made, largely on the advice of Clerks of Synods and Presbyteries, with a view to simplifying processes to make them more generally adaptable to the varying circumstances of a Church covering so wide a territory as our own.

With regard to the Overture from the Presbytery of Westminster, asking the Assembly to prescribe a model constitution, to be published separately for the use of congregations, which had been referred to the committee, the committee advise that it will be in the interest of the Church as a whole, that the rules in the Book of Forms be used as a guide in the direction of business, not only by the courts of the Church but also by Boards of Management; and it will be sufficient if they shall all possess themselves of copies of the Book of Forms, out of which they may easily select so much as is applicable to their several circumstances.

On the motion of Dr. Campbell, seconded by Mr. A. H. Scott, the report was received and adopted.

Professor Murray suggested that, prior to the issuing of the new Book of

[1266]

Forms, it would be desirable that the regulations governing the admission of students of Divinity should be made clearer, and moved that a Committee should be appointed for this purpose.

The motion was seconded and agreed to.

REPORT ON SABBATH SCHOOLS.

The Assembly resumed consideration of the reports of the Committee on Sabbath Schools, which had been received at the Tenth Sederunt.

After discussion of the several resolutions embraced in the report, they were adopted as a whole, on the motion of Mr. J. Neil, seconded by Mr. W. R. Cruikshank.

They are as follows:

1. That the resolutions of previous years be reaffirmed, namely, regarding:—

(a) The establishment of a Home Department in connection with each school,
(b) The importance of special effort to lead the young in Sabbath Schools to decide for Christ, and to declare such decision by entering into full communion with the Church.

(c) The recommending for use in our own Sabbath Schools and homes of the excellent series of Lesson Helps and illustrated papers now made complete by the publication of "East and West," an illustrated paper for the older scholars and young people.

2. That the Teacher Training Course, authorized by last General Assembly, and now in operation, be heartily recommended to all our Sabbath School teachers, and to our young people generally.

3. That the Sabbath School Committee be instructed to consider the possibility of arranging for the systematic study of Missions in the Sabbath Schools.

4. That in view of the necessary and growing work of the committee, and in the general interests of the Sabbath School work throughout the Church, the time has come when a Permanent Secretary should be appointed.

The Moderator was asked to appoint a committee to report a name for the position of Secretary, in terms of the resolution just passed, and to define his duties as well as to point out specifically the ways and means for providing for the necessary expenses.

Mr. W. T. Kennedy submitted the following additional resolution which he desired to have incorporated in the aims of the Sabbath School Committee:

That a course of supplemental work—to consist chiefly of the memorizing of appropriate passages of Scripture in class—be recommended to our Sabbath Schools; and that the incoming Sabbath School Committee be authorized to draft such a course, to be submitted to the General Assembly at its next annual meeting.

On motion of Dr. Scrimger, duly seconded, this proposed resolution was referred to the Sabbath School Committee for its favorable consideration.

SUMMER SCHOOLS FOR SABBATH SCHOOL TEACHERS.

Mr. E. H. Brandt, Principal of the Pointe-aux-Trembles Schools, was heard regarding the work carried on in that institution, and especially as to the necessity of improving and enlarging the premises, so as to make them capable of receiving as many desirable pupils as possible from among the French-Canadians. He appealed to the great Presbyterian Church in Canada, represented by the General Assembly, to furnish the means required for properly equipping the institution.

It was moved by Mr. W. L. Clay, seconded by Mr. William Patterson, as follows:—

That the report of the Board of French Evangelization be received and adopted.

That the Assembly place on record its sense of the most valuable services rendered in the prosecution of this work by the late Principal MacVicar, who had been Chairman of the Board for twenty-seven years, and had always taken the deepest interest in its operations.

NOTICE OF MOTION.

Judge Forbes now presented the motion of which he gave notice yesterday, as follows :—

That that portion of the report on the Aged and Infirm Ministers' Fund, referring to the change in the period of connecting with the fund, from fifty-five to sixty years, which was disposed of yesterday, be re-considered and referred to the Committees, East and West, for their consideration, and that they be requested to report their conclusions to the Assembly next year.

It was resolved, on motion, duly seconded, to re-consider the question, and to refer the matter to the Committees, East and West, as suggested in Judge Forbes' motion.

REPORT ON YOUNG PEOPLES' SOCIETIES.

The Assembly resumed consideration of the report of the Committee on Young Peoples' Societies, which had been received at the Tenth Sederunt. The several recommendations were considered and adopted, and, on motion of Dr. W. S. MacTavish, duly seconded, the report was adopted as a whole, as follows :—

1. The Assembly would reaffirm its recommendation of nineteen hundred and one, to the effect "that the attention of ministers and missionaries be called to the fact that all organizations of young people, and all forms of work among the young, other than that of Sabbath Schools, or Mission Bands, connected with the Woman's Foreign Missionary Society, are to be reported to the Assembly's Committee on Young People's Societies, and that pastors and members of Presbyteries are responsible to see that the information sought for through the Presbytery's Convener, be given."

2. Inasmuch as there is such a variety in the names of the Societies, and that many of these names give no indication of the character of the work done, and in view of the fact that the model constitution of the Presbyterian Guild has been officially sanctioned, the Assembly would recommend that Societies, other than Christian Endeavor, adopt the name of Presbyterian Guild, or some such modification of it as would show the character of the Society, if this can be done without unduly disturbing present relations.

3. That Presbyteries be encouraged to organize Presbyterial Unions, and that Unions be urged to assume some definite work, such as the support, wholly or in part, of a missionary in the home or foreign field.

4. That Societies be encouraged to purchase the books recommended in connection with the Plan of Study, and to make them the nucleus of a missionary library, or to add them to such a library already in existence.

5. That the formation of Mission Study Classes be commended to the favorable consideration of Young Peoples' Societies.

On motion of Dr. W. S. MacTavish, duly seconded, the following resolution was added to the recommendations of the Committee just passed :—

6. That attention be called to the Manual issued by authority of the Committee, and that it be recommended for use in all Societies.

[1271]

PETITION ON RESIDENTIAL SCHOOLS.

There was presented a petition from the Presbytery of Calgary, and a resolution of the Synod of British Columbia, asking for the countenance, encouragement and sympathy of the Assembly, in favor of the project of establishing schools for boys and girls in important centres in Alberta and British Columbia.

Dr. Herdman, Dr. A. O. Macrae, Mr. D. Swanson and Dr. John Campbell, Victoria, were heard in support of the petition.

Dr. Bryce moved as follows:

The General Assembly having heard the proposal to establish at Calgary a Boys' Residential School, to be known as the "Western Canada College," and which already has the pledged support of a long list of influential local shareholders, as well as an undoubtedly favorable field of operations in immediate prospect, the Assembly, understanding further, that, although this College is not to be under the direct control of our own or any other Church, yet, according to the terms of its printed charter, a copy of which has been placed upon the Assembly's table, as well as the explicit assurances of its promoters, the religious and moral character of the training to be imparted will be adequately safeguarded, with a view to this institution becoming a definite and decided factor in the development of the family, social and ethical life of the growing North-West; and, being informed that the Presbyteries of Calgary, Edmonton, Kootenay, Kamloops, Westminster, and the Synod of British Columbia, have recommended these institutions, heartily commends the "Western Canada College" to the financial and moral support of all friends of education and good citizenship, as well as to the confidence and patronage of the homes of Alberta and contiguous territory.

The Assembly further commends the residential institution which is proposed for Kamloops, designed as it is, primarily, to bring within the reach of the children of the isolated and scattered ranches and valleys of the interior of British Columbia, the advantages of the public school system, but under distinctly Christian influences.

The Assembly also learns with pleasure that a Ladies' College, undenominational, but under decidedly Christian auspices, is already established in Victoria, under the management of one of the ministers of our Church.

And, with a view to strengthening in the far west these educational efforts, which have already entailed much sacrifice on the part of their promoters, the Assembly declares itself willing to receive a report from time to time of the affairs of the institutions at Calgary and Kamloops.

The resolution was seconded by Judge Forbes, and adopted.

[1272]

APPLICATIONS OF STUDENTS.

The Assembly called for the report of the Committee, appointed to consider the applications of Presbyteries on behalf of students, which was given in and read by Dr. R. A. Falconer, Convener, who moved that it be received and its recommendations considered seriatim. The motion was seconded and agreed to.

Having been severally considered, the recommendations were adopted as a whole, as follows, on motion of Dr. Falconer, duly seconded:

1. That the application of the Presbytery of St. John on behalf of Mr. G. S. Gardner, be granted and that Mr. Gardner be allowed to proceed as a regular student in the second year in Theology.
2. That with regard to the application of the Presbytery of Ottawa, on behalf of Mr. D. J. Craig, the Committee would recommend that the Presbytery arrange a two years' course in one of our Colleges for Mr. Craig, such arrangement to be made in conjunction with the Senate of the College preferred, and, if his work be regarded as satisfactory, that he be eligible to be taken on trials for license.
3. That in the matter of the application of the Presbytery of London, on behalf of Mr. R. J. Campbell, your Committee recommend that the Senate of Knox College be asked to allow Mr. Campbell to attend and take the work of the third year in Theology, and to write on the examinations; and that his case be thereafter reported to the Assembly.
4. That the application of the Presbytery of Minnedosa on behalf of Mr. W. McWhinney, be granted, and, that in view of his character and attainments, as well as to the exigencies of his work among the Indians, the Presbytery be allowed to ordain Mr. McWhinney as Minister-Evangelist.
5. That the application of the Presbytery of Dauphin on behalf of Mr. Alexander Fraser, be granted, and that the Presbytery be allowed to take Mr. Fraser on trials for license.
6. That the application of the Presbytery of Calgary, on behalf of Mr. E. G. Hegh, be granted, and that the said Presbytery be allowed to take Mr. Hegh under their care for additional study, especially in the English branches (and Greek, if thought advisable), for a period of two years, following which Mr. Hegh is to take one year in Theology; but that his case be thereafter reported to the General Assembly for authority to ordain him.
7. In regard to the application of the Presbytery of Kootenay in behalf of Mr. William Lee, your Committee would recommend that Mr. Lee be referred to the Senate of Manitoba College for a three years' literary and theological course, and that if his work be satisfactory to the Senate he be eligible for license.
8. With respect to the application of the Presbytery of Winnipeg in behalf of Mr. A. F. Smith, inasmuch as the papers in the case presented to the Committee were incomplete, your Committee would recommend that Mr. Smith be referred to the Senate of Manitoba College, and if they are satisfied that his training has been equivalent to that required for ordination as Minister-Evangelist, the Presbytery of Winnipeg be given permission to ordain him accordingly.

SIXTEENTH SEDERUNT.

At the same place, on the same day, at half past two o'clock in the afternoon.

The General Assembly of the Presbyterian Church in Canada met, as per adjournment, and was constituted, Dr. Herridge leading in prayer at the request of the Moderator.

The Minutes of the last Sederunt were read and sustained.

REPORT OF COMMITTEE ON MISSION AT INDORE.

The Assembly called for the report of the Special Committee, to whom it was referred to consider the memorials presented to the Assembly regarding the disposal made of the matters in issue relating to the work carried on in Central India by last Assembly, which was given in and read by Dr. Herridge, Convener, who moved that it be received and adopted. The motion was seconded by Mr. D. J. McKinnon, and carried unanimously.

The Report is as follows:

The Committee appointed to consider whether or not it is advisable to re-open the case of the Central India Mission, as adjudicated upon by the last General Assembly, begs to report that, having patiently investigated the matter committed to its care and heard at length all the parties interested, it would express its unqualified confidence in Dr. Wilkie's singleness of purpose, great ability, and integrity of character, and would acknowledge the eminent service which he has rendered to the Church's Mission in Central India, both in its educational and evangelistic aspect. At the same time, it believes that the Foreign Mission Committee has acted with much wisdom and patience in its conduct of the whole trying situation, and that the course taken by the last General Assembly was the best available one under the circumstances, and, therefore, advises that the question be not re-opened before this Assembly. Nevertheless, in view of the fact that the evidence

[1275]

brought before it seems to show that the attitude of Dr. Wilkie towards the other members of the Presbytery of Indore is not more responsible for the trouble than their attitude towards him, the Committee would suggest that a previous recommendation of the Foreign Mission Committee be carried into effect, and that a Commission be appointed, with Assembly powers, to investigate the affairs of the Mission, and take such action as may be deemed best in view of all the interests involved in it; and that in the meantime strenuous efforts be made by the Foreign Mission Committee to secure for Dr. Wilkie some suitable field in connection with the Foreign Mission work, for which his high gifts and his great enthusiasm so well fit him, and to which he has dedicated his life.

It was then moved by Dr. Falconer, seconded by Mr. John Hogg:

That the thanks of the Assembly be tendered to the Committee, and especially to the Convener, for the great care and labor which they have bestowed upon this question, and the unanimous and satisfactory decision which they were enabled to submit to the Assembly.

HYMNAL COMMITTEE.

The Assembly called for the report of the Hymnal Committee, which was presented by Dr. Herridge, in the absence of the Convener, and which, being printed and in the hands of members, he contented himself with pointing attention to, concluding with a motion that the report be received and adopted. Mr. W. J. Dey seconded the motion, which was carried.

REPORT OF THE CENTURY FUND COMMITTEE.

The Assembly called for the Report of the Century Fund Committee, which was presented by Dr. Warden, Convener, and to the contents of which, as printed and in the hands of members, he directed the attention of the Assembly.

Dr. Somerville moved as follows:

That the report of the Century Fund Committee be received and adopted.

That the General Assembly expresses its gratitude to God for the success which has attended the effort of the Church in raising so large a sum for the missionary, educational and benevolent work of the Church; its gratification that nearly \$600,000 has been contributed for the Church's aggressive work, and nearly \$1,000,000 for the removal of debt on Church property.

That the General Assembly approves of the action of the Committee in making a grant of \$2,500 to Dr. Campbell for his untiring efforts on behalf of the Fund, and express its appreciation of the valuable service he has rendered.

That it also approves of setting apart of \$3,000 to the Ottawa Ladies' College, and adopts the recommendation regarding the payment of subscriptions, and the division of the sums received pro rata among the several funds recognized as having a share in the Scheme.

The resolution was seconded by Mr. James Croil, and carried.

It was then moved by Mr. James Anderson, seconded by Mr. James Croil:

That in receiving and adopting this final report of the Century Fund, the Assembly record its deep sense of gratitude to the Committee in charge of the Fund, and especially to the Convener, to whose statesmanlike outlook the movement

[1276]

owed its inception, and to whose wise and vigorous oversight it is largely due that it has resulted so successfully.

Principal Gordon drew attention to the fact that the health of Dr. Campbell, who had acted with so much enthusiasm and success while engaged in the service of the Church, as Agent of the Century Fund, had utterly broken down, and suggested that some provision should be made for him from Century Fund sources, in view of his situation, until his health be so far restored as to enable him to resume work.

On motion, duly seconded, the matter was remitted to a Committee for consideration, to report at a later Sederunt.

The Moderator named the following a committee to deal with this subject:—

Dr. Springer, Convener; Principal Gordon, John Hay, Judge Forbes, Dr. Warden, E. Scott, James McQueen, J. K. Macdonald, Charles McKillop, Dr. Somerville, Dr. Herridge.

The nomination was approved of.

It was agreed, on motion of the Clerk, duly seconded, to remit the whole matter to a Committee to be named by the Chair.

The following were named such Committee: Mr. John Charlton, Convener; Dr. Wright, Dr. G. H. Smith, R. Laird, Dr. R. P. McKay, J. H. Ratcliffe, G. C. Patterson, M. L. Leitch, H. Regarding the clause in the report intimating that the General Conference of the Methodist Church had appointed a Committee on Union, Dr. R. Campbell moved that the Committee on Correspondence with other Churches, to be appointed by the General Assembly, be a Committee to give attention to this subject.

The motion was seconded and agreed to.

The Assembly called for the report of the Special Committee on the Individual Communion Cup, which was presented, in the absence of the Convener, by the Clerk,

[1277]

and which, being printed, and in the hands of members, he called attention to in his remarks. He moved that the report be received and adopted. The motion was seconded and carried.

On motion, duly seconded, it was agreed to grant the crave asked for.

At the same place, on the same day, at a quarter to eight o'clock in the evening.

The General Assembly of the Presbyterian Church in Canada met, as per adjournment, and was constituted, Mr. J. R. MacLeod leading in prayer at the request of the Moderator.

The minutes of the last Sederunt were read and sustained.

REPORT ON CHURCH LIFE AND WORK.

The Assembly called for the report of the Committee on Church Life and Work, which was presented, in the absence of the Convener, by Mr. M. L. Leitch, and to which, being printed and in the hands of members, he called the attention of the Assembly in addressing the house.

Dr. Wright moved the reception of the report and the consideration of its several recommendations. The motion was seconded by Dr. W. A. McKay and agreed to. Being considered, they were adopted as a whole, as follows:

1. That the questions as to Church Life and Work for the year nineteen hundred and four be confined to the sphere of the Christian congregation as to its services, organizations and methods.

2. That pastors and elders be advised in their visitations to impress upon the heads of families the value of regular family worship, thanksgiving at meal time, and religious instruction in the home, and to give such guidance as seems necessary.

3. That the ministers of the Church be instructed to make the questions and answers to Church Life and Work the text of discourse at some diet of public worship.

4. That the Assembly take into consideration the question of publishing for use in the homes of our people, a compendium modelled on the lines of the Presbyterian Handbook, published by the authority of the Northern Presbyterian Church of the United States, and also recommend the use of the General Assembly's Aids to Family Worship.

5. That due emphasis be given, in teaching and preaching, to the setting forth of the true relation of those baptized in infancy to the Church; and that parents be admonished to instruct their children as to their duty and privilege in entering into full fellowship with the Church.

The following resolutions were added to the recommendations of the Committee, on motion of Dr. Wright, seconded by Mr. H. W. Scott:

6. This Assembly, recognizing the intimate connection between the curtailment and suppression of the liquor traffic, and the peace and safety of home life, would hereby renew its testimony as to the debasing character of that traffic, in that it is repugnant to the spirit of the Christian religion, and inimical to its prevalence and power, and would hereby reassert its conviction that the Church of Christ can make no compromise with a traffic so antagonistic to all human happiness, all social virtue and all religious life; and the Assembly rejoices in the wonderful growth of temperance sentiment, as manifested in the result of the recent Referendum in Ontario, and hereby expresses the hope that our people, by their influence and example, may bear their full share in banishing from our beloved country this inveterate foe of our race.

7. In order that the Church may give to the home the fullest measure of assistance, it be recommended to all congregations to hold during the year a series of special services for the pressing upon our people of all the matters contained in this report.

8. That Presbyteries be urged to have returns made of the Church Life and Work report to the Convener of the Assembly's Committee in due time.

1. The General Assembly reaffirms its faith in the need, and therefore the right, of all men to a weekly day of rest.

2. The General Assembly urges upon her Ministers, Sunday School teachers and parents to place an earnest emphasis in their teaching upon the sacredness and worth of this day.

3. The General Assembly invites all her membership to a hearty defence of the day, and in particular to such personal interest in its purpose and self-denial in its observance, as will reduce to a minimum late Saturday trading, social gatherings, travelling or pleasure-seeking during its whole course.

The following resolution was added to the recommendations of the report, on motion of Mr. Clay, duly seconded:

4. The General Assembly recognizes the excellent work of the Lord's Day Alliance, and commends it to the support of all our people.

1. Candidates who may be considered by the Senate of Manitoba College to have equivalent standing to any of the foregoing.

2. In case of Minister-Evangelists, a diploma should be issued by the Senate of Manitoba College, embodying the terms on which they may be received into the regular ministry of the Church.

WEST CHURCH, NEW WESTMINSTER.

The Assembly called for the report of the Committee, to whom was referred the petition of the congregation of West Church, New Westminster, which was given in and read by Dr. Somerville, Convener, who moved that it be received and adopted. The motion was seconded by Dr. J. S. Black, and carried. The report is as follows:

Your Committee, appointed to consider the petition of the congregation of West Church, New Westminster, has had under consideration the matter referred to; has heard at length members of the Synod of British Columbia, Presbytery of New Westminster, St. Andrew's and West congregations, and unanimously agrees to the following finding:

1. That there were irregularities both on the part of the Presbytery and of the Synod in dealing with the case.
2. That the site at present occupied by West Congregation was chosen and occupied in an irregular way.
3. That, inasmuch as the carrying out of the Synod's decision, to remove the building at present occupied by West Congregation one block farther from St. Andrew's church, would not materially affect any vital interest of St. Andrew's congregation, but would be a real hardship to West Church, your Committee recommends that the site of West Congregation be sanctioned by the General Assembly, and that all parties be counselled to follow the things that make for peace.

The motion was carried.

UNIFORMITY OF PUBLIC WORSHIP.

The Assembly called for the report of the Committee on Uniformity of Public Worship, which was presented, in the absence of the Convener, by Dr. Scrimger, and which, being printed and in the hands of members, he directed attention to in speaking to the house. He moved that the report be received and adopted. The motion was seconded by Dr. Armstrong and carried.

COMMITTEE TO CONSIDER AN ALLOWANCE TO THE LATE AGENT OF THE CENTURY FUND.

The Assembly called for the report of the Special Committee appointed to consider whether anything further, and, if so, what should be done by the Century Fund Committee, for the late Agent of the Fund, in his now enfeebled condition of health, which was given in and read by Dr. Scrimger, Convener, who moved that it be received and adopted. The motion was seconded and carried. The report is as follows:

The Committee appointed to consider the matter of a further provision for Dr. R. Campbell, late Agent of the Century Fund, have to report that, while fully appreciating the value of Dr. Campbell's services, regret that they cannot see their way to recommending any action beyond what has already been taken.

REPORT ON THE MATTER OF THE ORDINATION OF MR. SWARTOUT.

The Assembly called for the report of the Special Committee to whom were referred papers from the Presbytery of Victoria and Mr. Swartout, which was given in and read by Mr. J. Charlton, Convener, who moved its reception and adoption.

[1290]

The motion was seconded by Mr. John Hogg, and carried. The report is as follows:

Your Committee, to whom was referred papers from the Presbytery of Victoria and Mr. Swartout, would respectfully report:

That, having given the reasons advanced by the Presbytery of Victoria, as to why it had not proceeded with the ordination of Mr. Swartout, due consideration; and also having considered Mr. Swartout's answer to such reasons; and having given the parties in the case full opportunity to be heard, your Committee finds:

1. That nothing has emerged from the consideration of the papers, or from the discussion of them, that affects the character and good standing of Mr. Swartout in his missionary work. On the contrary, it has appeared that Mr. Swartout is a whole-souled missionary, devoted to his work, a work which has in it some features of remarkable success.

2. Your Committee also finds that certain matters connected with Mr. Swartout's methods of work, which seemed to the Presbytery of Victoria to be reprehensible and a hindrance to his ordination, have been, as your committee believes, satisfactorily explained and removed, and the way thereby opened for a fuller measure of harmony between Mr. Swartout and the Presbytery. Your Committee, therefore, sees no reason why the Presbytery of Victoria should not, at its earliest convenience, carry out the expressed desire of the General Assembly that Mr. Swartout should have every facility given to him, by ordination, for the best accomplishment of his work; and your Committee begs to recommend that the General Assembly direct accordingly.

DOMINION TEMPERANCE ALLIANCE.

There was presented a communication from the Dominion Temperance Alliance, inviting the continued countenance and co-operation of the Presbyterian Church in Canada in the work of reform, which the Alliance is endeavoring to effect, and asking the Assembly to name four delegates to represent it at the annual meeting of the Alliance. The Assembly received the communication, and, as requested, named four gentlemen to represent it, viz.; Messrs. A. L. Geggie, W. Frizell, A. Gilray, D.D., and J. A. Paterson, K.C.

DOMINION WOMAN'S CHRISTIAN TEMPERANCE UNION.

There was presented a communication from the Dominion Woman's Temperance Union, conveying the greetings of the Union and congratulating the Assembly on the stand which it has taken on the question of Total Abstinence from intoxicants. It further asked the co-operation of the Assembly in the crusade it has undertaken against the use of cigarettes by boys.

The Clerk was instructed to acknowledge receipt of the communication, and to inform the women of the Union of its entire sympathy with them in their efforts to repress both smoking and drinking habits among the young.

MEMORIAL FROM PRESBYTERY OF MINNEDOSA.

There was presented and read a memorial from the Presbytery of Minnedosa, craving that the missionaries laboring among the Indians within the bounds should be brought into the same relations to the Presbytery that the missionaries to the white population stand in.

[1291]

Mr. J. A. Cormie was heard in support of the memorial. On motion, duly seconded, it was agreed to refer the memorial to the Foreign Mission Committee, Western Section, to report thereon to next Assembly.

MEMORIAL FROM PRESBYTERY OF LANARK AND RENFREW.

There was presented and read a memorial from the Presbytery of Lanark and Renfrew regarding the status of Rev. Robert Campbell, D.Sc. The Assembly agreed, as requested, to authorize the Presbytery to retain Dr. Campbell's name with his full status as a member of the Presbytery so long as he continues to reside within the bounds.

INSTRUCTIONS TO COMMISSION OF ASSEMBLY.

The Assembly called for the report of the committee, to whom it had been referred to draft instructions for the guidance of the Commission appointed to deal with the affairs of the Mission in Central India, which was given in and read by Dr. Wright, and is as follows :

That having reviewed the circumstances, and in consideration of the fact that the Commission appointed has full Assembly powers, this Committee is of opinion that the Commission should be allowed the fullest scope in the investigation of the affairs of the Central India Mission. The Committee would suggest that the Commission should hold its first meeting in September, nineteen hundred and three, in the City of Toronto. Dr. Wright moved the reception and adoption of the report, Mr. J. S. Hardie seconded the motion, which was carried.

REQUEST OF DR. DUVAL *re* REV. JOSEPH HOGG.

Dr. Duval made a request of the Assembly that the name of Mr. Joseph Hogg, who recently resigned his pastorate in the City of Winnipeg, should be retained on the Roll of the Presbytery of Winnipeg. The Assembly declined to comply with the request of an individual, seeing that the Presbytery of Winnipeg had taken no action in the matter. Dr. Duval asked to have his dissent recorded, which was allowed.

CLOSED.

APPENDICES.

REPORT OF THE HOME MISSION COMMITTEE, WESTERN SECTION, 1902-3.

To the Venerable the General Assembly:—

It is with profound gratitude to Almighty God that your Committee on Home Missions submit this report, the most gratifying and encouraging they have ever had the pleasure and privilege of presenting.

As regards the interest taken in this work by the Church at large, the liberality displayed in support of it, the rapidity with which it has increased in magnitude owing to the rapid development of the country, and the importance of the results that have followed its vigorous prosecution, the past year stands unrivalled in the history of Home Mission enterprise.

During the last few years of his life, the earnestness and enthusiasm of the late Superintendent were bearing more abundant fruit than ever. The Church was realizing, with increasing clearness, the vastness of the responsibility laid upon her, and the magnificence of the opportunity presented to her: and before he was called to his rest and reward, Dr. Robertson had the satisfaction of seeing the tide of interest in the work that lay so near his heart rising steadily throughout all sections of the Church. This growing interest in Home Missions was intensified by his lamented death; and when the last General Assembly, believing that the circumstances of the country demanded a more strenuous effort in the department of Home Missions and a more adequate supervision of the rapidly extending Home Mission field, appointed a General Secretary and two Synodical Superintendents to carry on the work that had so vastly increased during Dr. Robertson's incumbency, the Church showed its appreciation of the Assembly's faith and courage by contributing to Home Missions with a liberality never before evinced.

The estimated expenditure for the past year was \$100,000. This amount the Church was asked to place at the Committee's disposal, and the response was \$108,207. The grandeur of the opportunity has appealed powerfully to the Church's imagination, and her sense of responsibility has been aroused by the gravity of the situation.

The heartiness and enthusiasm with which the people have responded to the appeal made to them have not only afforded your Committee the extreme satisfaction of meeting all claims upon the Fund and granting every application made for assistance in the opening of new fields, but also encourages them to hope that as the demands of the work increase, the contributions in support of it will advance in equal ratio.

The great desideratum now is an adequate supply of the right kind of men, men of practical sagacity and fervent piety; men of wide outlook and large, generous instincts, and yet, withal, men of faith and prayer and whole-hearted consecration. If our rapidly increasing Home Mission fields can be kept continuously supplied with workmen that "need not to be ashamed, rightly dividing the word of truth," then, by God's blessing, the forces of vice and lawlessness and irreligion will be overborne, and the foundations of national life in our vast Western heritage will be laid in righteousness and purity and the fear of God.

PROGRESS OF THE WORK.

The past year has been a year of progress all along the line. The note of hopefulness, present in all the reports from Presbyteries, sounds forth with ringing clearness from the reports of the great majority of the Presbyteries of the West. New fields opened; students' fields becoming fields for ordained missionaries; ordained missionaries' fields advanced to the status of augmented charges; augmented charges attaining to the full dignity of self-supporting congregations; increased liberality on the part of the people

of the mission field, and gratifying additions to the membership of the Church, call for devoutest thankfulness to Him who has crowned the year's endeavours with such a large measure of success.

The number of new fields opened during the year was fifty-nine, of which eleven were within the bounds of the Synods in Ontario and Quebec, and forty-eight in the Western Synods. Twenty-six mission fields were advanced to the status of augmented congregations, nineteen of them belonging to the two Synods in the West; and three fields, one in each of the three Presbyteries of Rock Lake, Melita and Qu'Appelle, assumed at once the full burden of self-support without passing through the usual experience of receiving assistance from the Augmentation Committee. The number of churches built during the year was thirty-four, and of manse fourteen.

The total number of fields under the care of your Committee is 457, and in these various fields there are 1,182 preaching stations. The families number 13,681, and the communicants 15,173. During the year the additions to the communion roll amounted to 1,654. The people contributed toward the support of ordinances amongst themselves the sum of \$90,755, or at the rate of \$5.98 per communicant. This is 25 per cent. higher than the average rate of giving toward stipend throughout the whole Church, as reported to the last Assembly.

Even in Quebec, and in the older portion of Ontario, where comparatively little development has been taking place, the success of the year's operations is exceedingly encouraging. A perusal of the extracts from the reports submitted by Presbyterial Conveners will show that steady progress is being made in the work carried on both in the small settlements of English speaking people in the rural districts of Quebec, and in the weaker sections of the Church throughout the Province of Ontario. Fields are being consolidated; churches and manse are being built; and, what is specially gratifying, in the districts contiguous to lumber camps, the missionaries are giving a larger measure of attention than ever to the religious needs of the thousands of men who, for many months of the year, are deprived of the opportunities of worship, and are far removed from the influences of Gospel ordinances. The great majority of these men are not Presbyterians; many of them are not even Protestants; but they show a grateful appreciation of the efforts put forth on their behalf, and our Church is surely under obligation to do everything she possibly can for their religious welfare. In this connection it may be mentioned that your Committee again made a small grant in aid of the undenominational work that is being carried on among the shantymen by one of our ministers, the Rev. A. Fitzpatrick, a work that is receiving, as it deserves, the sympathy and support of people of all classes and all creeds.

In what is known as *New Ontario*, very rapid development has been taking place; and the Assembly will be gratified to learn that the work of the Church has at least been keeping pace with the progress of the country. Three new fields have been opened during the past year in the Temiscamingue district and four in the Presbytery of Algoma. Faithful, fruitful work has been done also among the men engaged in the construction of the Temiscamingue railway.

The case of the *sojourners* in the summer resorts of Muskoka and the lower St. Lawrence has not been overlooked, and the labours of the missionaries in these districts have been supplemented by the valuable and greatly appreciated services of visiting clergymen.

The Newer West. It is in the vast stretch of territory lying west of Lake Superior that the most rapid changes have been taking place; and it is there, in the interests of the East as well as of the West, in the interests of the country as well as of the Church, that the great bulk of the Church's energy must be expended for many a year. No thoughtful Christian who contemplates the marvellous development that is going on in Western Canada, can fail to realize that God is summoning the various branches of His Church in this young Dominion to greatly increased earnestness and zeal in religious work in their own home land.

The important onward-step taken by the last General Assembly, in making provision for the more efficient prosecution of Home Mission Work, has been abundantly justified by the remarkable development of the country during the past twelve months.

Already, this spring, thousands of immigrants have reached our shores from various countries of Europe; and before the season closes our population will have been increased by at least 50,000 settlers from the United States alone.

The problem of the West is the problem of supplying this vast body of future citizens with the ordinances of religion, and permeating our rapidly expanding national life with the uplifting, broadening, saving influences of pure Gospel truth.

The accomplishment of the task that devolves upon us is rendered more difficult and expensive by the presence of a large foreign element, and by the policy that has been followed of allowing these foreigners to settle in large colonies, a policy that cannot fail to retard seriously the process of their assimilation. The preservation of some of the characteristic features of our national life depends upon that process of absorption going steadily on. Unless we can raise these people to higher intellectual and religious levels, and imbue them with a deeper appreciation of our Canadian institutions, the consequences to ourselves may be serious in the extreme.

Of these alien races who have come amongst us, the Doukhobors and Galicians are, by far, the most numerous. The *Doukhobors*, though primitive and simple-minded, and easily swayed by forceful, fanatical leaders, are of a deeply religious nature, and thoroughly honourable in their business dealings. They require, however, to be taught "the way of God more perfectly"; and then, under the influence of the freedom and enlightenment of the land of their adoption, they will speedily become loyal and valuable citizens.

Work amongst the *Galicians* is even more necessary than work amongst the *Doukhobors*, if for no other reason than this, that it will have to be carried on for a much longer time and amongst a much larger number. The supply of *Doukhobors* is said to be already exhausted, but the supply of *Galicians* is practically unlimited. In Central Europe, hundreds of thousands of eyes are turning eagerly toward this fair land of promise, and even without the stimulus furnished by the efforts of Government officials, the tide of *Galician* immigration is likely to flow with increasing volume for many years. More quick than the *Doukhobors* to adapt themselves to the conditions of the new life into which they have been transplanted, but lacking some of the attractive and admirable features that the *Doukhobors* possess, the *Galicians* constitute a large, inviting and very important field of Christian effort. In this field, for the past two years, your Committee have been feeling their way along the lines of medical and educational work; and the results of the efforts put forth have been extremely gratifying. Suspensions have been removed, prejudices have been broken down, confidence has been awakened and an opening has been made for more distinctively aggressive work of an evangelistic character.

A new medical mission was opened last fall in the Pleasant Home district, forty miles north of Winnipeg, and the Rev. Dr. Hunter, a recent graduate of Knox College, as well as a graduate in medicine, was appointed missionary. At Teulon, which is Dr. Hunter's headquarters, it is proposed to open a hospital, if the necessary funds can be secured; and the Atlin Nurse Committee has been asked to enlarge the scope of its efforts so as to include this work, and work of a similar kind at other points in the North-West.

During the year, public school work was carried on by missionary teachers at Sifton, Riding Mountain, Valley River, Ethelbert and Insinger; but, while recognizing the valuable services rendered by these teachers, it was felt, last autumn, that the time had come for handing over this educational work to the Government, to whom it properly appertains. Some of the schools have already been taken over by the Government, and the remainder will be handed over to them as soon as they are ready to undertake the responsibility of carrying them on. More detailed information as to the plans adopted by your Committee for work amongst the *Galicians*, as well as amongst other foreigners in Manitoba and the Territories, will be found in the reports of the two Western Superintendents, which, along with the report of the Superintendent in Northern Ontario, are herewith submitted.

The presence of a large *Mormon* colony in Southern Alberta constitutes a serious problem, to which the office-bearers and members of the Church, from the Atlantic to the Pacific, cannot give too early or too careful consideration. All credit for their excellent qualities of thrift and sobriety and enterprise is freely given to these *Mormon* settlers, and the question of their practice of polygamy is not here raised. They emphatically assert that no plural marriages are contracted in Canada. The reasons for prosecuting mission work in this *Mormon* belt are very well set forth in a resolution

adopted by the Home Mission Committee of the Synod of British Columbia, which will be found, quoted in full, in the report of Dr. Herdman.

The Rev. G. A. Hamilton continues to render faithful service at Cardston, the point at which mission work in the Mormon settlement was first opened; while, at the new town of Raymond, which is rapidly increasing in population, the Rev. A. R. McIntosh reports "a splendidly organized Sabbath School and well attended services."

No changes have occurred during the year in the staff of missionaries in The Far North. The work in Dawson, under the Rev. A. S. Grant, continues to prosper; and the introduction of a valuable pipe organ has made the services of the Church still more attractive.

The estimation in which the Rev. John Pringle is held by the people of Bonanza was shown last winter in his election to a seat in the Yukon Legislative Council.

The Rev. George Pringle has from two to three thousand men to look after, on Hunker, Gold Bottom and Last Chance Creeks—a district in which no other church is at work.

He also conducts services at Gold Run and Eureka Creeks, besides making occasional trips, alone or in company with his brother, to Duncan, Montana, and other Creeks. Log churches have been built at Hunker, Gold Bottom and Gold Run. Reed organs have been purchased for the Gold Run and Hunker churches, and libraries of 200 books have been procured for each of these stations.

The development of the town of White Horse has not been what was expected, and therefore, in spite of the faithful and energetic work of the Rev. J. J. Wright, the progress of this mission field has not been as rapid as it at first seemed likely to be. Notwithstanding this, the grant for the past year was not all required, and the people hope this year to still further reduce their claims on the Home Mission Fund.

The Rev. E. Turkington, of Atlin, while regretting that the results of the year's work, either spiritual or financial, are not as great as he had hoped they would be, says that "the past year has been fairly prosperous in many ways," and that "the prospects for the future are brightening all the time." \$150 spent in adding a small room to the church at Discovery for the convenience of the missionary while visiting that section of the field, a special contribution of \$85 toward the new Woman's Ward in the hospital, an expenditure of \$90 on necessary repairs to the Atlin church, and a special collection of \$30 for the Home Mission Fund, represent the efforts the Atlin field has made to "help others also"; and, as Mr. Turkington points out, "these items mean a good deal to a small handful of people over and above their ordinary givings."

THE ATLIN NURSE COMMITTEE.

The important work undertaken by this Committee of ladies is well and widely known. The hospital at Atlin has been a very great boon to the people in that distant outpost of our Canadian civilization, and a very valuable aid to our Church's work. Last summer Miss Mitchell and Miss Bone, the nurses who were sent out when the hospital was first opened, and who have since rendered such faithful and self-sacrificing services, felt compelled to seek rest and change. Their resignations were accepted with deep regret; but the Committee was fortunate in securing Miss McTavish and Miss Smith to take their places. These nurses have already secured the confidence and esteem of the Hospital Board and of the community generally, and the work continues to make satisfactory progress.

During the year the Atlin Nurse Committee sustained two grievous losses in the removal by death of its President, Mrs. J. K. Macdonald, and its Treasurer, Mrs. Justice MacLennan. The loss of the Atlin Committee is the loss of the Church at large, as well as of the individual congregations to which these earnest Christian workers belonged.

FORMATION OF A WOMAN'S HOME MISSION SOCIETY.

In acceding to the request that the sphere of its operations should be widened so as to include hospital work amongst the Doukhobors and Galicians, the Atlin Nurse Committee pointed out that this would necessitate a change in the designation of the Committee, and expressed an earnest desire for the organization of a general Woman's Home Mission Society. A large deputation from the Atlin Nurse Committee appeared before your Committee at the annual meeting in March, setting forth the desirability of the proposed step, and soliciting your Committee's advice and co-operation. After long and very careful consideration of the whole subject a small sub-committee was appointed "to co-operate with the ladies of the Home Mission Societies throughout the Church, including the Atlin Nurse Committee, with the view of perfecting a constitution for a society to be an auxiliary to the Home Mission Committee." Notices were accordingly sent out to the existing societies, and a meeting was held in Knox Church, Toronto, on Monday, May 18th, when the Woman's Home Mission Society of the Western Section of the Church was formally organized. A large Committee was appointed to draft a constitution and nominate officers and report at a subsequent meeting.

Your Committee have again to express their grateful appreciation of the valuable assistance rendered by the Woman's Missionary Society of Montreal. Besides continuing to assist in the maintenance of two missionaries in the North-West, this Society has materially lessened the labours of the hard-working wives of a number of our Western missionaries by valuable gifts—gifts that had much more than a mere money value. This good work was participated in also by other societies and individual ladies in different parts of the Church.

SUPPLY OF MISSIONARIES.

The one discouraging feature in the year's operations was the inability to secure a sufficient supply of students or catechists to man the various Mission fields during the winter months. More than thirty fields, some of them very important and promising, had to remain vacant during the latter half of the Home Mission year. The problem of winter supply has always been a difficult one; and the abolition of the summer session at the very time when the rapid expansion of the Home Mission field demands an increased number of missionaries, is going to make the problem still more difficult. Your Committee are endeavouring to procure additional labourers from the old country, who, before entering upon the special course of study arranged for at the last Assembly, will have to give a year's service in the Mission field.

MINISTER-EVANGELIST AND CATECHIST COURSES.

It is gratifying to know that the men who came out from Great Britain with the expectation of taking the Minister-Evangelist course have not only rendered valuable and efficient service in their various fields of labour, but have also given a good account of themselves in the classes they have been attending during the past winter in Manitoba College.

Your Committee are in correspondence with catechists in the various Presbyteries with the view of initiating next summer the course of instruction for catechists which was adopted by the Assembly of last year.

Ministers who may know of men capable of doing effective work as catechists are earnestly requested to lose no time in putting these men in communication with the Convener or the General Secretary.

SALARIES OF MISSIONARIES.

Your Committee had under consideration, at the annual meeting in March, a resolution of the Kootenay Presbytery regarding the salaries of missionaries within its bounds. This resolution, which was forwarded by the Synodical Committee of British Columbia, asked that salaries should be increased to the following figures:—

Where neither house nor horse is required.....	\$800
“ horse but not house “ “	850
“ house but not horse “ “	900
“ both house and horse are required.....	950

The Synod's Committee approved of the proposed changes, except the first; their recommendation being that the salaries of missionaries who require neither house nor horse should remain at \$750. They further recommended that this increased scale of remuneration should prevail not only in the Kootenay Presbytery, but also in certain districts of the Presbyteries of Kamloops, Edmonton and Calgary. The whole question was remitted to a Sub-Committee, the report of which, when it was subsequently presented, was adopted as follows:—

1. That the scale of remuneration of missionaries in the Synod of British Columbia remain as at present, but that authority be given to the Synodical Committee, subject to the approval of this Committee or its Executive, to increase the salaries of missionaries up to the figures proposed by the Presbytery of Kootenay in any field in which, in the judgement of that Synodical Committee, circumstances render such increase necessary.
2. That the scale of salaries in New Ontario be made the same as in Manitoba in every case in which it can be shown that the expense of living is equally high.
3. That in determining the salary to be paid in any exceptional case in any part of the Church, account be taken of exceptional circumstances in connection with the missionary as well as in connection with the field.

It was agreed that this change in the scale of salaries take effect from April 1st, 1903.

OVERLAPPING IN MISSION WORK.

The Committee appointed to confer with similar Committees appointed by other Churches regarding the matter of overlapping in the Mission field has had three lengthened conferences with the Committee nominated last September by the General Conference of the Methodist Church. Your Committee are very glad to be able to report that the tone of these conferences was extremely gratifying, and that at the last meeting, at which all the Home Mission Superintendents of both Churches were present, the following recommendations were unanimously adopted:—

1st. That a letter, couched in identical terms, be sent by the Missionary Secretaries, on behalf of the joint Committee, to the Superintendents of Missions of their respective Churches, and also to the ministers or missionaries in charge of Home Mission fields, setting forth the action of the General Assembly and General Conference, the views and wishes of the joint Committee, and the expectation that they will co-operate in all practicable ways to promote the end in view. We also recommend that the letter be published in the denominational papers of the two Churches concerned.

2nd. That we strongly urge the Superintendents of both Churches to keep the principle of comity and co-operation steadily in view, and to apply the same wherever practicable in the arrangement of the work. To this end we recommend that the Superintendents whose jurisdiction covers substantially the same field, meet together at intervals for consultation, in the spirit of mutual helpfulness, and ready concession, respecting the opening of new fields, or the possible readjustment of fields already occupied.

3rd. That where a field has been occupied for at least one year by one of the Churches, the Superintendents be recommended to act as far as possible on the principle of non-intrusion, having due regard to the promotion of the Kingdom of Christ, and the interests of the two Churches.

4th. That ministers and missionaries of both Churches whose Missions cover the same territory, in whole or in part, be recommended to consult, where it seems neces-

sary or desirable, regarding a possible readjustment of their fields, when that can be done to mutual advantage, and report their views to their respective Superintendents, District Meetings and Presbyteries.

SPECIAL CONTRIBUTORS.

The scheme, initiated by the late Superintendent, of assigning a particular Mission field to any individual or congregation making a special contribution of \$250 to the Home Mission Fund appears to be meeting with increasing favour. The number of these special contributors reported to the last General Assembly was 153. This year the number is 184, and the hope is cherished that before the year closes there will be a large addition to the list. The keeping up of the correspondence between the contributors and the missionaries in the field is a matter of great difficulty and involves a very large amount of work; partly because of the frequent changes in the staff of missionaries, and partly because of the inexcusable carelessness that some of the missionaries display. Your Committee deeply regret that any of these generous donors should have failed to receive the reports from missionaries that they had been led to expect. Special efforts are being put forth this year to secure interesting reports from the missionaries in all the fields assigned to special contributors.

PRESBYTERIAL CONVENERS.

Attention is again called to the valuable, but gratuitous services rendered by the conveners of the Home Mission Committees of the various Presbyteries; and the Church is asked to recognize gratefully its deep obligation to the men, especially those who have large districts under their supervision, who, besides attending to their own congregational work, are toiling so laboriously for the larger interests of the whole Church.

FINANCES.

It is earnestly hoped that the fact of there being a balance on the right side at the close of last year's operations will not lead any one to suppose that there may safely be a lessening of contributions during the present year. The balance in the treasury at the close of the year must not be understood to imply that a larger sum was contributed than the necessities of the case demanded; it was really due to the fact that through lack of workers the full measure of needed work could not be overtaken. If it had been possible to keep all the fields supplied during the whole year, the development of the work was so great that even the splendid response of the Church to the appeals made would hardly have been sufficient to prevent the balance being on the other side. It must also be borne in mind that in the receipts of last year there was included the sum of \$6,000 from the British Churches which cannot be counted on for the future.

STUDENTS' MISSIONARY SOCIETIES.

The Missionary Societies amongst the students of the different colleges have again given a large measure of assistance to your Committee; and the Church is indebted both to the students and to the friends who have contributed to the funds of their societies, for the opening of some new fields as well as for the supply of many of the older fields. The Knox College Missionary Society is reported to have undertaken this year the supply of a larger number of fields than ever before; and your Committee think the same statement could be made of the societies connected with Manitoba, Queen's, and Montreal Colleges.

It is a matter of regret that the Annual Reports of these societies were not forwarded to your Committee so that extracts from them might have been embodied in this Report.

THE SITUATION.

The magnitude of the work that confronts the Church in the vast Home Mission Field is appalling. New Ontario, Manitoba, the North-West Territories, and British Columbia—more than half a continent—rapidly filling up with settlers from many lands; the national life of our young country cultivating the tastes, practising the manners and forming the habits that are to determine its character all the coming time; the task of laying the foundations of this national life in righteousness throughout this vast extent of territory clamouring to be performed at once if it is to be performed at all—such is the situation!

Surely it is sufficiently grave to call for anxious thought and earnest prayer and unremitting effort.

All of which is respectfully submitted.

E. D. McLAREN,

General Secretary.

TORONTO, May, 1903.

Convener.

REPORTS OF SUPERINTENDENTS.

REPORT OF THE SUPERINTENDENT OF HOME MISSIONS IN NORTHERN ONTARIO.

In this part of the field, during the past year, the work has been progressing quietly. With few exceptions, all the fields were partially, if not fully, supplied during the winter months. Most of them, however, and to a greater degree than in former years, received full supply.

In the two northern Presbyteries, North Bay and Algoma, in addition to the usual supply of the regularly organized Mission fields, for the first time, these Presbyteries tried to do something to meet the spiritual wants of "the stranger within the gates," by giving supply of gospel ordinances to the men in the lumber camps and along the line of the North Bay and Temiscamingue Railway now under construction.

This, in a measure, is a new departure on the part of these Presbyteries, but yet quite in keeping with the object they have in view, in supplying gospel ordinances to those within the bounds who are destitute of the means of grace. In past years, it is true, some attempt has been made to meet the wants of the lumbermen, but never in so systematic a manner as during the past season. So far as we know, the Presbyterian Church is the only Protestant denomination which has, thus far, engaged in this branch of the work systematically.

In the Presbytery of North Bay, Mr. W. G. Brown, graduate of Montreal College, was our missionary among the lumbermen along the line of the C.A.R. east of Scotia Junction. Mr. Brown was heartily received by the men in every instance. When the time came to break up camp in the spring Mr. Brown had reason to feel that his many weary tramps through the woods in the discharge of his onerous duties had not been in vain, so far as the appreciation of the men was concerned.

Along the line of the Temiscamingue Railway Mr. J. H. Laverie has been doing a good work among the men employed in construction. He had not just the same kind of material to work among as Mr. Brown in the lumber woods. These latter are, as a rule, either English speaking or French, both of which languages Mr. Brown has at his command. Mr. Laverie, while perhaps Mr. Brown's equal as a linguist, had to deal with all nationalities, nearly,—Norwegians, Finns, Poles, etc., many of whom were quite strangers to the English language. Mr. Laverie speaks very kindly of the efforts made by the staff of engineers and others in charge of the work to secure his comfort during his visits along the line. They offer to provide him with a horse, now that the snow has gone, and the means of getting around less easy than during the winter. His work has been very much "a work of faith," as we know it has been "a labour of love," on his part. As a Church we cannot be too thankful that such men as Messrs. Brown and Laverie were found ready to come forward and offer their services so readily in what, to many, would appear so uninviting a field. Mr. Laverie will continue his labours along the line during the summer. We hope he will continue till the work is completed, which will be another year at least.

In the Presbytery of Algoma, the Rev. E. D. Pelletier has been engaged during the greater part of the winter in similar work among the lumbermen in that part of the country. His knowledge of the French language and the French character would give him facilities for the work which one destitute of these qualifications would not possess.

During the past year the following additions to the staff of ordained missionaries have been made. In the Presbytery of North Bay, Messrs. Craigie, Brown, Laverie and Dr. Hay entered upon the work in October last; Messrs. Craigie and Brown retire and Mr. Miller, recent graduate of Knox College, takes up the work as ordained missionary at Depot Harbour. In the Presbytery of Algoma, Messrs. M. W. Byron, P. W. Currie, J. A. Morrison and J. F. Evans came to us in October last. The three first named continue in the work. In the Presbytery of Barrie, Mr. Hugh Brown was appointed to the Uffington field, and more recently Mr. H. N. Konkle as ordained missionary to the Utterson field. Bala, one of the old Mission fields in Muskoka has passed over, at their own request, to the care of the Committee on Augmentation. They are about to call Mr. Donald McKay, a recent graduate of Knox College. In the Presbytery of North Bay three of the fields under the care of the Home Mission Committee have passed over to the care of the Augmentation Committee, viz., New Liskeard, the capital of Temiscamingue, Mattawa and Sturgeon Falls. The latter has just had settled among them the Rev. J. R. Mann, who has every prospect of accomplishing a good work in the united congregations of Sturgeon Falls and Cache Bay. Mr. Pitts, their first and only ordained missionary at New Liskeard, will likely be settled ere long in that interesting part of the field. This season he has three students assisting him in the wide field which is opening up in that newest part of the Province.

The following statement will show the advance that has been made in certain directions during the past year.

Congregations that have advanced from the list of Mission Fields to Augmented Congregations:—Presbytery of North Bay, Sturgeon Falls, Mattawa, New Liskeard; in the Presbytery of Barrie, Bala. From Student Supply to Ordained Mission Fields:—In Algoma, Providence Bay, Silver Water, Massey Station; in the Presbytery of Barrie, Uffington.

The present season will, we have reason to believe, show considerable development in various parts of the field. In the Temiscamingue region several new points will be opened up in the newer parts of the country, as well as in different parts of Algoma. Both Presbyteries are seized of the importance of the work entrusted to them and may be relied on for the faithful discharge of the duties entrusted to them.

A. FINDLAY.

REPORT OF THE SUPERINTENDENT OF HOME MISSIONS IN THE SYNOD OF MANITOBA AND THE N.W.T.

MY DEAR DR. WARDEN,—

I beg leave to submit the following report of my work up to April 1st:—

I was present at the July meetings of the Presbyteries of Regina and Qu'Appelle, and with them considered fully the Home Mission work within their bounds.

During August I visited in the Regina Presbytery, Balgonie, Rose Plain and Cottonwood mission fields.

In September I visited Manitoba College, for the purpose of securing as many students as possible for winter supply, and on their advice I met the sub-committee of the Synod, and in a general way discussed with them the work demanding immediate attention.

I went to Arcola, visiting the three stations there. A meeting of the whole field was held, at which it was decided to extend a call to a minister; to begin immediately the building of a manse; and arrangements were also made to start the building of a new church in the spring.

In the interests of the work in Saskatchewan I visited the Prince Albert Presbytery and assisted in making such arrangements as we thought would most fully meet the expansion of our work in that district. Our plans were not fully carried out because of the lack of missionaries for winter supply.

Later I visited the Doukhobor settlement west of Rosthern (Petrovka) for the purpose of becoming more fully informed of Mr. Sherbinin's work among the Doukhobors in these villages and what the prospects were for more aggressive work there. Mr. Sherbinin was labouring there under the auspices of the old country Quakers, but without any guarantee of support. He had given such reports of his work to members of the sub-committee as interested them very greatly, especially in his educational work among the children. This work was done in their homes, under most unfavourable circumstances. Mr. Sherbinin stated that a schoolhouse that would accommodate about thirty pupils would be a great advantage to the work, and that such a building could be erected at a cost of about \$300. The Committee decided to grant this amount should my report be favourable. I found a very hopeful educational work begun by Mr. Sherbinin and a very interesting mission started, and reported accordingly. The grant was given, and the school built and occupied most of the winter.

Before the meeting of the Synodical Committee I attended the meeting of the Dauphin Presbytery. This is almost a purely missionary Presbytery, with a large missionary territory. The fields are new and promising. The expansion of our work here is likely to be very great in the next few years. We arranged the work as best we could with the information available, but the lack of winter supply defeated our plans in several important fields. I visited two of the fields along with Mr. Scott, the convener of the Presbytery, and later I visited Grandview, Gilbert Plains, Valley River and Ochre River, and made a full canvass for self-support in Grandview and Gilbert Plains. The increased subscription list showed that these fields were practically able to undertake self-support. I began subscription lists in Ochre River and Valley River, with satisfactory results.

After the meeting of the Assembly's Committee, in October, I visited our missions on the Soo Line, Weyburn, Yellowgrass and Drinkwater, and made a complete canvass of the field in Yellowgrass toward self-support, and although this field more than doubled its subscription, with the present grant the missionary will not receive the minimum salary. In Weyburn, at a congregational meeting, it was decided that they qualify for ordained supply by adding nearly 50 per cent. to their subscription list and to begin, as soon as practicable, to build a manse. At Drinkwater, at a congregational meeting, it was decided to build a church, which will be dedicated in April. Rouleau also decided to build a church.

Later I visited Buffalo Lake and Summerside, augmented congregations in the interests of self-support. Buffalo Lake was receiving \$150 and Summerside, \$250 of a grant. I began to canvass in Buffalo Lake, and arranged for its being completed. I made a complete canvass of Summerside congregation. The result of the canvass showed that both fields were able to undertake complete self-support.

In October I visited Ellesboro, which is a field for an ordained missionary. I made

a complete canvass of the field, the result of which enabled the congregation, a few weeks afterwards, to call their missionary, offering a salary of \$900 and manse, both of which they provide themselves.

Later I visited McCreary mission and Arden congregation, in the Portage la Prairie Presbytery, and at a congregational meeting held in Oakdale in connection with Arden congregation, it was decided to build a church, the present one being unfit for winter services and in the extreme corner of the station.

I then visited Russell with a view to the rearrangement of the field in that part of the Minnedosa Presbytery, but found that the people were not ready for any change.

I spent a Sunday in the Saltcoats Mission, and found it much stronger than it had been reported. This field, if the Gaelic station to the north would be suited with the appointment of an English speaking minister, or if a Gaelic speaking minister could be found for it, would be self-supporting.

My next visit was to Melita Presbytery. My first visit there was at Estevan. At a congregational meeting it was decided to call the late Rev. Adam Gunn. A qualified and unofficial promise was made to become self-supporting in the autumn. Mr. Gunn, during his short ministry, had greatly attached the congregation to him, and the work seemed in a most prosperous condition. His death was a great blow to the congregation, and a great loss to the missionary work in the West.

I then went east along the Estevan branch, visiting the fields in view of rearrangement and the better oversight of our work. I visited Carnduff, Gainsborough, Estevan and Waskada, and held congregational meetings at all these places. The opinion of the majority was that a new field should be opened with Carievale as centre, another with Medora as centre. These arrangements would send two more men into this district, give weekly services in six stations now receiving fortnightly, and open seven new stations. This report was received and adopted by the Melita Presbytery.

In January I visited Beresford field, in Brandon Presbytery, with a view to raising it to the status of ordained supply. The field preferred rather to continue its present status for another year.

Hillburn field, in the Qu'Appelle Presbytery, was the next place visited in the interests of self-support. The grant to this field had been reduced in two years from \$250 to \$50 without the field increasing their subscriptions. At a congregational meeting it was decided that the field undertake the full support of their minister.

My next visit was to Wapella, which for some time has been in a most unprosperous state. At a congregational meeting it was decided that they raise the required amount for ordained supply, and ask that a capable missionary be sent them. We trust that the appointment of Mr. Forbes, who has begun his work under most favourable auspices, will restore harmony and be a cause of strength to this field.

I spent the following week in the Brandon Presbytery, visiting Kenton and Lenore to effect rearrangements of fields, made necessary by the building of two branch railroads through this district, and also to adjust a difference of opinion as to a working boundary between the Brandon and Minnedosa Presbyteries. After visiting the district my report of the situation was accepted by both Presbyteries.

My next visit was to Glenboro Presbytery, to the following fields:—Nesbit, Hilton, Elm Creek and Egremont. At a congregational meeting at Nesbit the payment of a long standing debt to the Church and Manse Building Fund was arranged for, and it was decided to extend a call to a minister and to provide a manse. Hilton and Ninette joined in one Mission field is only a temporary arrangement. The geographical connection of Hilton is with Treesbank. Ninette has better connections in the Rock Lake Presbytery. All the Gaelic speaking people in the Highland settlement near Hilton I recommended to join the Hilton church, as the great majority of the old people and all the young people understand an English service. Should they do this, and support according to their means, they would be a source of great strength to that field. At Elm Creek I found a large unorganized field receiving student's supply. For this field for the coming year I recommended the appointment of an ordained supply. At Egremont the field thought the Presbytery made too great haste in sending them ordained supply, but wished to maintain their present status, and as they have no manse, asked for the appointment of an unmarried ordained man. This completed the month of January.

February I attended the meetings of the following Presbyteries:—Regina, Qu'Appelle, Melita, Dauphin, Glenboro, Brandon and Minnedosa. These Presbyteries being so far apart, and so many of the branch roads only having a tri-weekly service, I was unable to fulfil the arrangements I had made for visiting fields during February, except

the one of Poplar Grove. Congregational meetings were held at the three stations, and it was decided to qualify for augmentation and extend a call to their present missionary.

My plan of visiting was on Sundays to take the services of the missionary and hold a short congregational meeting at the close of each service. The missionaries always had three appointments. On week nights I addressed as many meetings as I could get to, on an average about three a week. Some of these were very well, some not so well attended, but I found these meetings of very great advantage to the work.

When Dr. Reid retired from the Medical Mission work among the Galicians, and the Galician teacher, Danylczyk, and the Galician colporteur, Syrotuik, both left our work, our work among the foreigners seemed to be in a most demoralized condition. The foreign elements increasing every day by immigration, and our workers giving up the work, presented a most serious aspect of things and called for the best consideration of those who had the work in hand. We regarded the time opportune for doing direct evangelistic work among the foreigners. The work of our teachers and of our medical missionary, although not accomplishing all we would like to have done, yet broke down the prejudices to a very large extent of these foreigners to education, and modified their suspicion of missionary work. We decided to open a Mission among the Galicians at Sifton and Ethelbert, and in the district east of Rosthern, in Saskatchewan. As we did not understand the language of the Doukhobors or Galicians, nor the inner life of these people, we thought it necessary to secure the services of some missionary who knew these peoples, understood their language, and would be willing to devote himself to this work. After a good deal of correspondence we secured the services of Mr. Sherbinin, a man in whom we have the utmost confidence. He speaks the languages of both Galicians and Doukhobors, and while his special field of labour will be among the Doukhobor villages east of Rosthern, he holds himself in readiness to visit with the Superintendent, any of our missions among the Galicians or Doukhobors that we may consider in the interests of the work. Mr. Scott, of Dauphin, who has secured the confidence of many Galicians in that district, and who knows our work among the Galicians thoroughly, seemed to us the best man to begin work at Sifton, the heart of the Galician colony. We offered him the appointment, which he accepted, and will begin work some time in May. Mr. Arthur, of Rosthern, who has taken two years of the medical course and passed his examinations, interested himself in the Galicians of that district. We approached him with regard to opening a mission in that district, and offered him the appointment, which he accepted, and will begin work in May. Rev. Mr. Munro, of Swan River, who has taken the medical course in London for medical missionary for foreign work, was offered, and accepted, the appointment of missionary at Ethelbert, to continue the medical work begun by Dr. Reid, giving special attention to the missionary part of it. He will, also, begin work in May.

It is further proposed that Nursing Homes, as a valuable adjunct to Mission work among these foreigners, be established in each of these Missions. We have also engaged the services of two colporteurs among the Galicians. A member of the graduating class in McGill Medical School, who has taken both Arts and Theology in Queen's, has written asking about the work among the Galicians at Yorkton. The Committee will favourably consider an application from him with a view to beginning work in that district. Mr. Stepaniantz, of Union Seminary, is appointed to begin Mission work among the Doukhobors in the Yorkton district.

We are at present approaching the Church and Manse Board for such loans as are necessary to build manse in Sifton and Ethelbert for the missionaries appointed, so that the work may begin under the most favourable auspices. One condition of appointment to this foreign work is that the missionary learn the language with all possible speed, and that he submit to regular examinations in the language. We are encouraged by the willingness with which our missionaries are taking hold of this work, and we hope that our efforts will be crowned with very great blessings to these people by the great King and Head of the Church.

Yours truly,

J. A. CARMICHAEL.

REPORT OF THE SUPERINTENDENT OF HOME MISSIONS FOR THE SYNOD OF BRITISH COLUMBIA.

To the Convener and Members of the General Assembly's Home Mission Committee, meeting in Toronto, in March, 1903.

BRETHREN:— In presenting to you, and to the other Committees concerned, my first Annual Report on the interests committed to my care I wish to recognize with gratitude the cordial support given me in my work by the Presbyteries, the Presbytery Committees and Conveners, and the individual ministers and missionaries of the Synod.

Separate statements on the other branches of the work will go forward to the Augmentation and Sabbath School Committees; this report dealing only with Home Mission conditions.

The Synod, territorially considered, includes British Columbia, the Atlin and Yukon, Alberta, Athabasca, and a portion of Assinaboia. In all these provinces, territories, and districts, we already have, or are now arranging for, Missions of our Church. In fact, the name "Synod of British Columbia" might, with advantage, be widened out to one more inclusive of the actual territory occupied, unless a formation of a Synod of the North-West is an early likelihood.

There are six Presbyteries in the Synod: Calgary and Edmonton on the east side of the Rockies, Kamloops and Kootenay within the mountain ranges, and Westminster and Victoria on the Pacific coast. Of these three pairs of Presbyteries, the first is concerned mainly with ranching and farming interests, the second with metal-mining, railroading and fruit growing conditions, the third with the city life and the logging, fishing, agricultural and coal mining trade of the Pacific shores. It is into Alberta chiefly that the great and increasing tide of immigration is flowing.

The following table will show the number of Mission fields within the Synod on dates March, 1902 and March, 1903:

Presbytery.	Separate Grants Passed for 1902.	For 1903.
Calgary	14	18
Edmonton	19	27
Kamloops	17	17
Kootenay	16	14
Westminster	10	16
Victoria	11	9
Totals	87	101

The net increase in the number of Mission fields for the whole Synod is thus fourteen. The details of the changes summarized in the above table are as follows:—

Calgary Presbytery added six fields this spring, (Big Bow, Claresholm, Cowley, with one Hungarian and two Scandinavian Missions) and gave up two fields to Augmentation (Didsbury, Okotoks) leaving a net increase of four, for the Home Mission list. Edmonton Presbytery added ten fields (Edwell, Ellerslie, Goshen, Millet, Peace River, Swan Lake, Tail Creek, Vegreville, and two Scandinavian Missions), and gave two congregations to the Augmentation list, (Red Deer, Wetaskiwin), leaving a net increase of eight. Kamloops Presbytery added Glenemma, and took over Fairview from Kootenay Presbytery, at the same time keeping its numbers even by passing Kelowna on to the Augmentation list, and giving up North Bend, to become a part of the Agassiz field within the Presbytery of Westminster. Kootenay Presbytery added Arrowhead and Slocan Mines to its list, but closed out Cascada, gave up Fairview to Kamloop's Presbytery, and combined New Denver and Sandon into one Mission, and Michel and Morrissey into another, emerging from these changes with a net decrease of four on its list. Westminster Presbytery added six fields (Agassiz, Loggers' Mission, North Vancouver, Sapperton, Steveston, Whonnock). Victoria Presbytery closed out Alberni Canal, and merged Englishman's River into the Wellington Mission, thus reducing the number of fields on its list by two.

A little space may well be accorded to the new fields now formally added to the list:

1.—Calgary Presbytery. *Big Bow* will probably have its base of operations at Grassy Lake, between Medicine Hat and Lethbridge. The idea is, to follow up the ranchers already in, and those who are finding their way into, the ranching country that for over one hundred miles stretches along the banks of the Big Bow and Little Bow Rivers. A circuit-rider, resourceful and fond of untracked desolate distances, is needed for this work. *Claresholm* is the southern part of the Porcupine Hills Mission, and comprises a large district in Southern Alberta well adapted to ranching, and, as is expected by incoming immigrants, to mixed farming as well. *Cowley* is in the noted Pincher Creek ranching country. The *Hungarian Mission* is designed to include and provide for the Czechs and Bohemians of Lethbridge, Frank, and possibly Fernie. The two *Scandinavian Missions* have their headquarters at Lethbridge and Claresholm respectively, and men of earnest evangelical eloquence have been put in charge.

2.—Edmonton Presbytery. *Edwell* is the eastern half of the Hornhill (now Penhold) field, stretching south and south-east of Red Deer, through a rolling country full of farms, many of them owned by families recently come from the States. *Ellerslie* is a farming district lying south and south-east from Strathecona on the North Saskatchewan. *Goshen* (including Independence and Riviere Qui Barre) has just been visited on behalf of the Presbytery by Rev. A. Forbes, who writes: "I had a communion service here at Independence, and admitted twelve by profession of faith; also baptized fourteen, of whom seven were adults." Mr. Forbes then went on to another district known as Devil's Lake, where he found nineteen families anxious for service, then crossed to White Whale Lake, where many settlers were met with, making for a new district called Wahoo. New missions will soon have to be blocked out in this region, which lies west and north-west of Edmonton. *Millet*, between Leduc and Wetaskiwin, is fast growing into a village and district of consequence. *Swan Lake* is west of Red Deer; *Tail Creek*, south of Buffalo Lake, and about sixty miles east of Lacombe; *Vegreville* fifteen miles east of Beaver Lake, and seventy-five from Edmonton. The two *Scandinavian Missions* in this Presbytery have their headquarters in Wetaskiwin and Millet respectively. Our missionaries there are men of much ability, and have just made a plea to the Presbytery to be reinforced by the sending in of additional labourers, Swedish or Danish in nationality like themselves, that the numerous Scandinavian communities of Northern Alberta may be more adequately supplied with services. But, of the whole list of new fields being opened up within this Presbytery, there is none more important and strategic than *Peace River*. At last, in the providence of God; at last—and who shall say that there is no romance in missions?—we look for a fulfilment of the dream which the late revered Superintendent of Missions cherished for years, and in the hope of which the Presbyteries of Edmonton and Calgary also shared, that our Church, so cautious usually, so fond of beaten pathways and clustered population, should break a record once again, and fling its boundary lines far northward; and send a flag and a trumpet voice up beyond the railways and the towns, into the dim distances and the pioneering days of a vast and vague country. Mr. R. A. Simpson, from the Glasgow Bible Institute, offered himself two years ago for just such a mission, and was then provisionally accepted, and he goes this summer to break ground and undertake foundation work in a field 500 miles beyond Edmonton, annexing incidentally to our Church's territory of operations the great province known at present as the unorganized provisional district of Athabasca. Pray for Peace River! And let the Church sustain with sympathy and willing hands this latest addition to her Mission staff and Mission roll.

3.—Kamloops Presbytery. *Glenemma*, by the combining together of two or three agricultural settlements in the Vernon country, formerly worked as a part of the old Lumby Mission, has been formed into a separate charge. It is hoped also to give more full and regular supply to the Cariboo country—a district full of long staging distances and pathetic records, with many of its historic mining centres situated hundreds of miles from the railway.

4.—Kootenay Presbytery. *Arrowhead* is to be a River Mission, its constituency clustered in villages and small settlements on both sides of the Lower Columbia River and the Arrow Lakes, most of them not accessible otherwise than by boat, and one or two of them precarious enough as to permanency. (For at Brooklyn, for example, which was once a strenuous Mission centre, are only two or three inhabited houses today). *Slocan Mines* is a field for an energetic student, to proclaim the tidings of

redemption to the miners of the Slocan Lake country—beautiful for its scenery, rich in its minerals and lumber.

5.—Westminster Presbytery. *Agassiz* is a Mission which has been formed by absorption of the North Bend field, and of several points formerly belonging to the old field of Mission. Among its essential factors are large saw mills, a Dominion Government Experimental Fruit Farm, and two summer resorts, well frequented. The *Loggers' Mission* is the first one of the kind our Church has ever undertaken on the Pacific Coast. It was planned out, and is to be financially supported, by Mount Pleasant, Vancouver, and the purpose is to send in a young missionary of selected aptitudes, to hold services and converse with the hardy men who fell and handle the huge timber in the inlets along the coast line north a hundred miles or more, whence connection with the city ports, is by tug boat once a week. *North Vancouver* consists of settlements on the north side of Vancouver Harbour; but all sides will be thought of, and the extension of city suburbs sympathetically watched; and the work may have as one of its features, also, a genuine Harbour-Mission ministry to the crews of the ships, which call at this port, from all distances, under many flags. *Sapperton* is to the east and north of New Westminster city. *Steveston*, near the mouth of the Fraser, has in summer a large population of canners and fishermen, and is now connected with Vancouver by rail and daily train service. *Whonnock* is formed by scission from the old Haney field and fusion together of several adjacent points along the Fraser.

6.—Victoria Presbytery opens no new Missions at present. The conditions do not even permit of last year's lists being maintained intact.

From the status of Students' Missions to that of ordained men's fields, there passed this spring within the Synod the following number: six in Calgary Presbytery (Claresholm, Cochrane, Foothills, Gleichen, Nanton and Raymond); one in Edmonton (Belmont); two in Kamloops (Barkerville, North Thompson); one in Kootenay (Upper Columbia); none in Westminster and Victoria.

It may, in addition, be noted, that several fields, put now for the first time on the list, are to be supplied, not by students but by ordained men; (Peace River, Arrowhead, and in Westminster Presbytery alone, Agassiz, Sapperton, Steveston, Whonnock).

Since the spring of 1902, manses were built or bought at Lacombe (Edmonton Presbytery), at Salmon Arm (Kamloops Presbytery), and Grand Forks (Kootenay Presbytery). Churches were built at Frank and Raymond (Calgary Presbytery), at Long Valley in the Lamerton field, at Sturgeon River in the Belmont field, and at Wetaskiwin in connection with the Presbyterian Scandinavian Mission (Edmonton Presbytery); at Field (Kamloops Presbytery); at Windermere in the Upper Columbia Mission (Kootenay Presbytery); and at Agassiz (Westminster Presbytery).

It may be also mentioned that the church at Mountain View has been repaired and fitted up (Calgary Presbytery); that the church at Nakusp in the Arrowhead Mission has been renovated, and the old Sandon church debt paid off (Kootenay Presbytery). Before the Assembly meets, it is likely that a manse will have been built at Crochane, and a church at Dry Forks, in the Cowley or Yarrow field (Calgary Presbytery); and that churches have been built or begun at Partridge Hill, in the Fort Saskatchewan field, at Independence; in the Goshen field; and at Red Deer, (Edmonton Presbytery); also at Fire Valley, in Arrowhead Mission (Kootenay Presbytery); and probably a church purchased at Ainsworth, also in the Kootenay Presbytery. Reference may be pardoned here in passing to the recent completion of exceptionally fine edifices, erected by the self-supporting congregation of Edmonton and Medicine Hat, within the eastern limits of the Synod; also to the fact that Cranbrook, which only a little while ago was a mission congregation, closed last calendar year free of debt, and well equipped with good buildings and thorough internal organization.

I regret that I have not had time to visit, as yet, every portion of the Synod—not having even touched the work in the Presbytery of Victoria.

I shall not dilate upon the general outlook over the Synod, save to remark that it goes without saying that it will tax all our resources to keep up with the incoming rush of immigration into North and South Alberta. Much of this immigration is from the States, and of a high quality. While there may be a little friction at times between Canadians and Americans, it is likely to be only local, casual and temporary. A large percentage of the Americans now coming in are Canadian born, and in any case the ideals of the two peoples are not antagonistic, and there is a strong common-sense and a spirit of friendliness, which augur well for the prospects of the country. Only, the forces which work in a new country are largely materialistic; this is the opportunity

then for insistence upon the great thought that a man and a nation are to live not by bread alone, but by the words which proceed from the mouth and heart of the Eternal Father. If some form of co-operation, with safe-guards, could be agreed upon with the Churches, the problem of a more adequate evangelization might be measurably solved. Co-operation also in the higher Committees of the Churches might result in the adoption of a general policy on many of the larger pressing Western questions—such as those connected with the Indians, the foreign population, education, immigration, intemperance.

As regards local Presbytery questions and ideals, Kamloops Presbytery is specially anxious for co-operation, or even union, with other churches, having in view more efficient presentation of the gospel to its fields, many of them much divided denominationally.

The Presbytery of Kootenay, with reason, considers that the minimum allowed in the way of salary for its missionaries ("ministers-in-charge" is the name which it prefers to use) is not sufficient to meet honorably the high cost of living in the mining districts—and a recommendation to this effect, and asking for liberty to fix a rate higher by \$50 to \$75 per annum than at present, to apply not to the Kootenay only, but to any other exceptionally expensive districts within the whole Synod as well, was unanimously and cordially agreed to at the Vancouver meeting of the Synodical Home Mission Committee (February, 1903). In respect to the Presbytery of Edmonton, where we have a large number of towns to supply with service, our present policy is one of centralization, that is, of so arranging the work as to keep our ministers more in the towns themselves, giving more regular service there, and grouping together the outposts into separate missions, where practicable.

It may be noted that the Presbyteries of Edmonton, Calgary, Kamloops and Kootenay have discussed with animation and in a practical way the question of having schools or colleges for boys and for young ladies inaugurated within the bounds of the Synod—one probably at Kamloops, the other in some Alberta town or city. It is argued that this is the growing time, and that the establishment of such institutions would impart an important uplift to Home Mission interests and to general religious life and work, especially on their educational and social sides.

Besides the ordinary mission work of a Canadian Synod, it must be remembered that we have in this Synod three missionaries engaged at work within the limits of the Mormon settlements of South Alberta (Rev. G. Hamilton, of Cardston; A. R. McIntosh, of Raymond; and a student at Mountain View).

We have four Canadians among the Scandinavian population (Reverends N. P. Grose and J. Pind, in Northern Alberta; and Rev. A. Linde and Mr. H. E. Hegh, in Southern Alberta). We have one German missionary also, Rev. G. F. Vetter, of Glory Hill, east of Edmonton, and have applied for a labourer to commence services with the Hungarians along the Crow's Nest Railway line.

The thanks of the Synod are due to all donors, and to the supporting College Missionary Societies, and perhaps especially to the American Presbyterian Church of Montreal, for taking up the fields of the Presbytery of Edmonton, which are strung along the lines of the C. and E. Railway all the way from Olds to Strathcona.

What is the West, what is this Synod doing for itself? Not as much as it should, not as much as it will. At the present, outside of general congregational contributions, help as follows has been pledged within the Synod in the way of relieving the strain upon the general fund, by taking up special Missions under engagement to pay \$250 a year for three continuous years—viz.: by

- 1.—Calgary (Knox Church).
- 2.—Vancouver (St. Andrews' Church).
- 3.—Vancouver (Mount Pleasant).
- 4.—Vancouver (First Church, a donor).
- 5.—Vancouver (Sabbath School of First Church, and S.S. of St. John's Church, combined, one-half each).
- 6.—Medicine Hat and Lethbridge combined, (Sabbath schools, Societies and special donations).
- 7.—British Columbia Province Christian Endeavour Union (Young People's Societies of Christian Endeavour).

There are also promises of further help in this direction from Cranbrook and Fernie Sabbath Schools, and a donor in Knox Church, Calgary. We have thirty-two self-

sustaining congregations in the Synod, and it is to be hoped and expected that each one of these will ere long attach itself, in whole, or in part, to the support of a Mission field, or at least make as generous appropriations as possible to the Home Mission Fund for maintenance and extension of the work.

I will close this report on the Home Mission section of my work by giving *verbatim* the reasons passed by the Synod's Home Mission Committee last September, for prosecuting religious work amongst the Mormons.

Victoria, B.C., September 11th, 1902.

"The Committee discussed at considerable length the question of work among the Mormons. The Mormons are settled along the line of the St. Mary's Railway, between the Crow's Nest Pass Railway and the International Boundary. They number about 5,000, and are steadily increasing and becoming more aggressive. The Gentile population is growing less, and may be expected to diminish steadily (that is, in some sections, at least) in view of the difficulty in maintaining their own views in the midst of such a large Mormon population. The question that must now be faced is whether or not the Church is prepared to meet the whole expense of carrying on this work, the local assistance that was expected to increase from year to year being likely, according to present indications, to diminish instead of to increase. The general opinion of the Committee was that the work should be prosecuted more vigorously than heretofore, that our missionaries among the Mormons should be recommended to do house to house work; explaining and defending the Christian position on the points in dispute, that the authorities of Manitoba College should be requested to give special attention to the subject of Mormonism in the study of theology, and that literature, couched in kindly and courteous terms, be prepared for free distribution among the Mormons, and that one or two members of the Assembly's Committee be requested to visit the district next spring with a view to bringing the whole subject before the next General Assembly.

"The grounds on which this opinion is based are as follows:—

1.—"Our duty to the non-Mormon population throughout that whole district, subjected as they are to the ceaseless proselytizing influences set in motion by the Mormon hierarchy.

2.—"Our duty as a Church to proclaim a full and pure gospel to all classes of our citizens.

3.—"The danger of disaffected Mormons—who are likely to increase through educational and other influences—lapsing into infidelity, unless some Church is at hand to point out to them the way of life.

4.—"The importance of hearing testimony to the truth, even though the immediate results may seem to be disappointing."

While the above findings of the Synod's Committee may not have spoken the final word, they certainly embody views of those in our Church who have come into anything like close touch with Mormonism. I am glad to be able to state that the authorities of Manitoba College intend to give a place in their theological lectures to the study of the Mormon system, and take the liberty of commending the other recommendations to the interest and sympathy of the whole Church. I remain, brethren,

Yours in the service,

J. C. HERDMAN.

REPORTS FROM PRESBYTERIES.

The following extracts are taken from reports furnished by the Home Mission Conventions in the several Presbyteries:—

At Chicoutimi, owing to removals, it has been found necessary to ask the co-operation of the Board of French Evangelization in supporting a bilingual missionary, who will minister not only to the few English speaking families left in Chicoutimi, but also to both English and French people in the whole Saguenay district.

A new field has been opened at Riviere du Loup.

At the summer resorts along the lower St. Lawrence good work was done during the summer months chiefly by visiting clergyman.

Last summer the Convener made a tour of all the fields under his supervision, involving a journey of 1,600 miles.

The work is mainly in districts where the English population is slowly decreasing. At *Avoca* a manse has been completed, and at *Arundel* and *De Salaberry* one is nearing completion. The missionaries in both of these fields have done valuable work in the visitation, during the winter months, of the lumber camps in their vicinity.

Lost River—Is an old settlement of Highland farmers who love the Gospel, but whose numbers are steadily diminishing.

Kensington and Mount Royal Vale—Although in a stationary condition at present, is occupied with hopefulness as one of the strategic points of the future.

At *Grenville, Joliette, Maisonneuve, Mille Isles and Trout Lake* interest seems to be markedly on the increase.

Montreal Annex—Has become an Augmented charge.

Manse have been built at *Vars and East Templeton*.

Ottawa Rev. N. McLaren and Rev. J. Taylor spent considerable time last winter amongst the shanties, and their visits were greatly appreciated by the shantymen.

Alice—An entirely rural district north-west of Pembroke. Has two churches and a manse. People liberal.

Renfrew *Bathurst*—A rural district west of Perth. Two churches. A manse in process of erection.

Calabogie—On the K. & P. Ry. The lumbering industry on which the village depended has ceased, and the field is crippled.

Chalk River—A divisional point on the main line of the C. P. Ry. Two churches and a manse. A difficult field to work, but one that must be cared for, as ours is the only Protestant Church giving service in the district.

Killaloe—On the Parry Sound Ry., with a wide outlying country.

Lanark—A village mission that pays its own way.

Rockliffe—An extensive field along the C.P.R. and Ottawa River.

Scotland—A hopeful field on the C.P.R., west of Cobden. A manse has been lately built, and improvements are to be made on the church this summer.

Brockville Satisfactory progress is reported in the two fields of Morton and Stone's Corners.

Two fields have been added to the list, making a total of seventeen. In **Kingston** one of these new fields, *Foxboro*, arrangements have been completed for the erection of a brick church. Manse have been built at *Matawatchwan* and *Poland*.

In *Maynooth* the only Protestant service is that of our Church, the Anglicans and Methodists having both withdrawn from the field.

The most encouraging field in this Presbytery is that of *Cordova Gold Mines*, where, within a year of the church being opened, the Presbytery has felt itself justified in appointing an ordained missionary.

Kew Beach—Has become an Augmented charge.

Toronto *Brown Hill*—A new field, is the outcome of a Union Sunday School; the people have transferred the property to the Presbyterian Church and asked to be organized into a Presbyterian congregation.

Two fields, *Bala and Minesing*, have been transferred to the care of the **Barrie** Augmentation Committee.

Ordained missionaries are to be appointed in *Baysville and Utterson*. There will then remain outside of the "Tourist Stations" only three fields supplied by students or catechists.

There are thirty mission fields, with eighty-five preaching stations in this Presbytery. The average Sabbath attendance was 3,130, and 156 communicants were received into the Church during the year. Eleven ordained missionaries and nineteen students are employed this summer.

Three fields, *Sturgeon Falls, Mattawa and New Liskeard*, were raised to the status of Augmented Charges. Two others, *Depot Harbour and French River* asked for the services of ordained missionaries. In the French River field no other Protestant Church is represented, and during the winter months, within a radius of twenty-five miles, there are at least 1,500 men in the lumber camps without a missionary.

In the Temiscamingue District, stations have been organized at *Milberta and White River*. A missionary has also been appointed to labour in the new territory opening up north and west of *New Liskeard*. This makes a total of four missionaries in the Temiscamingue District.

Valuable work has been done by Rev. J. H. Laverie, among the men engaged in the construction of the Temiscamingue Ry., and by Rev. W. G. Brown amongst the lumbermen in the camps along the Canada Atlantic Ry. Mr. Brown visited, more or less frequently, fifty camps, and came into contact with not less than 2,000 men.

Four new stations have been opened. Churches have been, or are being erected, at *Blind River, Rock Lake Mine, Gordon Lake, Goulais Bay, Cockburn Island, Burpee, White Lake and Hilly Grove*.

One hundred and twenty names were added to the membership of the Church.

In the rear of *Blind River*, in the Massey district, and along the line of the Algoma Central Ry., there are supposed to be at least 3,000 men employed in lumber camps. Rev. E. D. Pelletier spent four months last winter in work amongst these men, visiting nearly every camp, and holding service wherever practicable. Although two-thirds of the men are French Catholics, as a rule, all turned out to the services and listened attentively to the preaching of the Gospel.

Owen Sound At *Lion's Head* and the *Indian Peninsula* ordained missionaries are now stationed, where, formerly, there were only students.

Saugeen *Cedarville* expects soon to become an Augmented charge.

The report from *Port Robinson* is the most hopeful in years. In **Black Hamilton** Heath, substantial progress has been made.

Locke Street, Hamilton, shows a decided advance.

Chatham Some progress is being made in every field. In *South Bush* a new church is to be erected this summer.

In two fields, *Camp Bay and Manitou*, the missionaries rendered valuable service to the settlers as well as lessened the demands upon the Home Mission Fund by acting as public school teachers.

In the *Ignace* field a new station was organized at *White Fish Valley*, where a new church was erected at a cost of \$600, and opened free of debt.

A manse has been secured for the missionary at *Fort Frances* and the church debt reduced by \$700.

At *Schreiber*, improvements have been made on the church property involving an expenditure of \$200, and at *Rosspoint*, one of the outlying stations of the *Schreiber* field, an effort is being made to erect a church at a cost of \$600.

Rainy River—Formerly known as the *Beaver Mills* field, is now supplied by an ordained missionary; a new station has been opened in United States territory, and at *Rainy River* station a new church has been built, capable of accommodating 250 people, and is already well filled.

It is estimated that there are 2,500 men in the lumber camps in the *Lake-of-the-Woods* district, and a large number are similarly engaged in the *Port Arthur* district. Some of these camps were visited, at great inconvenience, by Rev. A. J. Bruce, while others received attention from Rev. Thos. Dodds, who has given the Church another year's faithful and valuable service at *Emo*.

Certain re-arrangements have been effected, and two stations have been transferred to this Presbytery from the Presbytery of *Glenboro'*.

These changes have led to the formation of a new field consisting of *Dunrea and Lilly Hill*, to which *Ninette* in the *Glenboro'* Presbytery may yet be added.

The newer portions of the Mountain City field are settled by Icelanders, and the work amongst these foreigners is proceeding satisfactorily.

Plum Coulee—Which includes people of all creeds and of many nationalities, is now self-sustaining with student or catechist supply.

Cartwright—A self-sustaining mission field is looking forward to becoming a settled and self-sustaining congregation.

Riverside—Has been put on the list of self-supporting congregations.

Glenboro' Satisfactory progress is being made in all four fields. A new church has been opened at Elm Creek.

Portage la Prairie The progress in this Presbytery would have been greater had it not been for the lack of winter's supply.

Extensive re-arrangements have taken place throughout the whole of the Presbytery's Mission field, which, it is hoped, will tend to increased efficiency and greater success.

The most gratifying progress has been witnessed in the Westbourne field, where, during the past year, both the membership and the liberality of the people have doubled.

The year has been marked by a decided advance. This advance would have been more marked had not three promising fields been left vacant during the winter months owing to the scarcity of student missionaries.

At *Grandview* a comfortable church has been built, the cost of which is all provided for; and at the same time the field has been able to do without any grant from the Home Mission Fund.

At *Gilbert Plains*, the grant has been reduced to \$1 per week.

At *Winnipegosis* the church property has been improved and the debt reduced.

The work among the Galicians in this Presbytery has been productive of good results. Barriers have been broken down and prejudices removed, and many of the people have learned to feel kindly toward the Church that has taken such a practical interest in their educational and religious training.

Brandon *Elkhorn*—Has become self-sustaining for student supply.
Tarbolton—Although enjoying the services of an ordained missionary, makes no demand on the Home Mission Fund.

At *Bradwardine*, one of the stations of the Tarbolton field, a new church has been erected.

South Brandon and Petrel, are both self-sustaining for student supply.

Of the eighteen Mission fields supplied during the past year, four were **Minnedosa** Missions to foreigners.

Yorkton—Is the centre of the foreign population in this Presbytery, and it is said that no less than eighteen different dialects are spoken in Yorkton and its neighbourhood.

The Galicians and Doukhobors are much more numerous than the people of any other foreign nationality.

Three missionaries laboured amongst the Galicians, two of them as day school and Sabbath school teachers and the third as a Colporteur.

West of Yorkton, at Otthon, we have a Mission in a small Hungarian settlement.

The work in the fields settled by our own people is going on satisfactorily. Two new fields have been organized, while two others, Shell River and Saltcoats have been advanced a stage and become ordained missionaries fields.

Three years ago there were only two self-sustaining congregations, one **Melita** Augmented charge, and three ordained missionaries' fields: now there are seven self-sustaining congregations, four Augmented charges and eight ordained missionaries at work.

Five new fields were opened this spring.

Commodious and substantial church edifices are in process of erection at Estevan, Alameda, Waskada, Carnduff, Lyleton and Carlyle.

Arcola—Built a new manse, and is to build a church this summer; and *North Portal* has a manse in process of construction.

Three fields, Carlyle, Estevan and Pierson, were raised to the status of Augmented

charges, while *Lauder* passed at once from the condition of a Mission field to that of a self-supporting congregation.

Great progress has been made during the year within the bounds of this **Regina** Presbytery. New churches were built at Balgonie, Yellow Grass and Milestone, while two others are in process of erection, at Drinkwater and Rouleau.

Owing to the influx of American settlers, two new fields, Craik and Davidson, have had to be opened up on the line of the Regina and Prince Albert branch of the C. P. Ry.

So many ranchers have lately settled between Moose Jaw and Maple Creek that it has been found necessary to open two new fields for their benefit, Cypress Hills, south of the C. P. R., and South Saskatchewan, north of the railway.

Another new field, Parkbeg, has had to be opened, west of Moose Jaw. Two other fields have been added to the list through sub-division of the Greendyke and Yellow Grass fields.

Cottonwood—Has become an Augmented charge and *Summerside* (with only twenty-five families), and *Buffalo Lake* have become self-sustaining.

The past year has been a banner year in our Presbytery; the faithful **Qu'Appelle** work of the past is now yielding abundant fruit.

Three new Mission fields have been established, viz.:—Golden Ridge, Newdorf and Welwyn. *Ellisboro* passed at once from the status of a Mission field to that of a self-sustaining congregation. Four Mission fields, Grenfell, Fleming, Poplar Grove and Fort Qu'Appelle became Augmented charges, and two Augmented congregations, Hillborn and Abernethy, became self-sustaining.

A large immigration is expected within the bounds of this Presbytery this year, and a considerable number of these immigrants will be foreigners. This will involve a large increase of our Home Mission work.

During the past year four new fields have been opened in this Presbytery and all the old fields greatly strengthened by the increase in population. One field, Saskatoon, has been raised to the status of an Augmented congregation.

This Presbytery has fourteen Mission fields amongst English speaking **Calgary** people, and two Scandinavian Missions. A Mission amongst the Hungarians in the southern part of the Presbytery will be opened as soon as a suitable missionary can be secured.

During the year three Missions have moved up to the status of Augmented congregations, viz.:—Didsbury, High River and Okotoks. Four new Missions have been opened up within a year, Cowley, Big Bow, Claresholm, and Lethbridge, the two latter being Scandinavian Missions. A new church has been opened at Raymond where the Rev. A. R. McIntosh is making satisfactory progress, although the non-Mormon element in the community is extremely limited.

At *Cardston*, the centre of the Mormon district, the Rev. Gavin Hamilton continues his faithful labours, which have already been productive of important results.

From *Frank* the Rev. D. G. McPhail writes hopefully (in spite of many difficulties) of the prospect of this field becoming self-sustaining before very long.

Excellent work is being done at *Banff* by the Rev. Dr. Wardlaw Taylor, who reports eleven added to the roll at the last communion.

Ordained missionaries have replaced the student supply in the fields of Foothills and Porcupine Hills.

North of Ashcroft on the main line of the C.P.R., in the old historic **Kamloops** Cariboo district, we have four missionaries employed.

The *Clinton* field is some forty miles from Ashcroft; Cariboo Road is a hundred miles further North, *Quesnelle* about eighty miles farther, while *Barkerville*, the centre of the mining excitement in the early '60's, is almost three hundred miles from the line of railway.

The missionaries in these four fields have this wide territory to themselves, as ours is practically the only Church doing missionary work along the Cariboo stage road.

Ashcroft—The point of departure for the Cariboo country is like many other towns in B.C., in that it has not yet fulfilled the promises of its earlier years. The missionary

conducts services at Savonas to the east and Spence's Bridge to the west on the line of railway.

North Thompson—Is a field extending for many miles northward from Kamloops up the valley of the North Thompson River.

In the Nicola field, population is sparse, and development tardy.

Princeton—Is a ranching and mining country, seventy miles south of Nicola Lake. The building of the proposed "Coast to Kootenay Ry.," would mean a very rapid increase of population throughout this whole district.

Salmon Arm—With five preaching stations, is largely an agricultural and lumbering field. A manse was built during the year.

Illecillewaet—Is a purely railway field, extending from Sicamous Jct., to Roger's Pass.

Golden—Is a thriving town on the Columbia River at the foot of the Kicking Horse Pass. The missionary holds service also at Beaver mouth and in some lumber camps.

Field—At the foot of Mt. Stephen, is becoming every year a more noted place of resort, and good work is being done by our missionary there, Mr. T. M. Murray. His own hands did the greater part of the work in taking down the church edifice in the abandoned town of Donald, and rebuilding it at Field.

Trout Lake—Reached from Revelstoke via Arrowhead and Thompson's Landing, is largely a lumbering and mining field.

Lumby and Glenenna—Are agricultural fields in the Okanagan Valley.

Kelowna and Peachland—On the eastern and western shores of the Okanagan Lake, and in the centre of a fine farming and fruit-raising district, are likely to make steady progress.

Fairview—Is in a mining and ranching country.

Grand Forks—Has become self-sustaining and has also erected a manse for the missionary.

Kootenay In view of the business depression prevailing in these districts, it has been deemed wise to unite Morrissey with Michel, and New Denver with Sandon. A new field has been constituted along the shore of the Arrow Lakes, with headquarters at Arrowhead.

Although this Presbytery has only been in existence a few years, the last of its original members, Rev. M. D. McKee, left the bounds during the past year.

At **Ainsworth**, where only Presbyterian service is now given, our people have purchased the church building erected some years ago by the Methodists.

A new church has been erected at **Agassiz** and three new fields **Westminster** have been opened, viz.:—**North Vancouver**, **Steveston** and the **Logger's Mission**. The last named is to be an itinerant Mission among the loggers along the shore of the mainland, on Vancouver Island and on the Islands in the Gulf of Georgia. There are many logging camps in this district, with from twenty-five to two hundred men working in each of them.

Steveston—At the mouth of the Fraser River and the centre of the salmon-fishing and salmon-canning industries, is to be the principal point in the new field of this name, which will include a considerable number of canneries, and an important agricultural section of country.

Several changes have been made in some of the older fields, which, it is hoped, will consolidate and strengthen the work.

One new field was opened during the year, with **Crofton** as its principal point. **Crofton** is a new smelter town and associated with it are **Duncans**, the centre of a farming district, and **Chemainus**, where there is a large saw-mill.

Alberni Canal Mission—Has been closed, owing to the cessation of mining operations, and Wellington for the same reason has had to be united with Englishman's River.

Denman Island—Has associated with it **Hornby Island** and **Union Bay**. These points are separated from one another by three or four miles of ocean, and the only means of communication on Sabbath is a row boat. The entire white population numbers only 250, and ours is the only Church that gives these people service.

Ladysmith—Is the shipping point of the Extension Collieries. At the beginning of the year the population was about 3,000, the services were better attended than ever,

and the church debt was being largely reduced. Now, owing to difficulties between the coal companies and their employees, the mines are closed, and large numbers of the miners have left the place.

South Wellington and **Extension** are suffering even more acutely than **Ladysmith** from the same cause. Other Churches have withdrawn their missionaries. We feel bound to continue our work even though it necessitate heavy demands on the funds of the Committee.

REPORT OF THE HOME MISSION COMMITTEE, EASTERN DIVISION, 1902-1903.

To the Venerable the General Assembly:—

Your Home Mission Committee, Eastern Section, is unable to report much that is exceptional in connection with their work during the past year. There has been diligent effort and sustained activity in the various mission fields under their oversight, fair progress in the way of growth, organization, and consolidation of their work generally, and in some quarters a most gratifying increase in the number of accessions to the membership of the Church, as well as a very marked advance in the amount of the contributions both from the Mission Fields and the congregations generally. In the number of communicants added to the Church during the past year in our Home Mission Fields there has been an increase of a little more than 30 per cent. over the preceding year. The amount paid by the fields to the Catechists is upwards of 11 per cent. more than for 1901, while in the congregations in charge of Ordained Missionaries the increase has been nearly 6 per cent. The contributions for the Schemes of the Church in fields supplied by Catechists have increased by 78 per cent., while their gifts to the Home Mission Fund have increased by no less than 149 per cent.

One element of discouragement in the Eastern Section is the slow increase of the population. In some places the increase is noteworthy, but in many places it is stationery or decreasing. In Cape Breton, and especially in the vicinity of the Sydneys, large numbers are pouring in in connection with the mining and industrial development of that region. In consequence of this fact the old congregations have been greatly strengthened, and new congregations are springing up in various directions. It has been the aim of your Committee to strengthen the hands of the Presbyteries in their efforts to make provision for the spiritual needs of the people.

In the Eastern Section the various Presbyteries for the most part oversee and direct the work within their own bounds, and so far there is only one Superintendent of Missions in the East, and his labours are directed to the necessities of the Presbytery of St. John. His report is as follows:—

"The past summer has been a very interesting and encouraging season with us in our Home Mission Fields. We have had the largest number of missionaries employed in our history—thirty-five in all, supplying 110 preaching stations with 1,300 families,—visiting 2,000 families. On profession of faith 180 were added to the communion roll, which attests in the strongest manner to the faithful labours of our missionaries and catechists. A new station has been opened which includes a number of families on both sides of the International boundary, some living in the State of Maine, and others in Victoria County. The outlook in the field is very encouraging. A new ordained Missionary Field has been established in the suburbs of Moncton, at Humphreys, and with the assistance of St. John's congregation, a commodious Church is to be erected in the early summer.

"In church building we have one new church to report—one bought from another denomination, and preparations for the building of three others.

"When we turn to the last census we find food for reflection. The number of Presbyterians in our Province is 1,100 less than ten years ago. The decrease is largely in the Presbytery of St. John—chiefly in the counties where we were expecting it, viz., Kings, Charlotte, and Westmoreland. York also has a decrease of sixty persons. Farms are often deserted by our people, and where there is a filling in of these poor districts the people are of other denominations, generally Roman Catholic.

"But turning to the Presbytery reports we find that we had a gain of 252 families, or 1,260 persons. There is a decrease in every strong congregation within the bounds, and others report exactly the same number of families as ten years ago.

"Three report an increase. Some of our old missions show a decrease. It appears that if the mission stations be omitted the Presbytery returns show a decrease of 100 families, but including the mission stations, they show an increase of 252 families, which puts Home Mission work in a very strong light, since the mission fields have added 350 families, or 1,750 souls to the number of Presbyterians within the bounds during the last ten years.

"The outlook for the coming year is much more hopeful than for a decade or more. Trade generally is much improved. The harvest was abundant, prices are good, and farmers are enjoying a year of unexampled prosperity. Coal and oil have been exploited in such a manner that they will take a place among our other industries in the near future. Several branch railways are opening up new country. The export trade has developed in such a manner that the city of St. John has almost the same business activity in winter as in summer. During the past year the signs of growth have been marked. It is estimated that over \$1,000,000 will be expended in building alone during the coming season. In many directions indications point to a period of unusual prosperity throughout the Province. In all, there is encouragement to discharge our duty faithfully, whether in what is little or what is great, and to strive the more earnestly to interest more deeply the hearts of our people in those things which abide."

Your Committee have had under their oversight thirty-two Mission Charges, under the care of as many ordained missionaries, of whom two have been called and settled. Two others being in charge under a two years' appointment are paid from the Augmentation Fund. Reports have been received from all the missionaries who have been in charge for the whole year, and from some of those who have served for only part of the year. These reports show 100 preaching stations with an average Sabbath attendance of 5,107, 1,736 families; 2,535 communicants, of whom 222 were added during the year, and 233 single persons not connected with families. Still further, they contributed \$11,083.73 for the support of their own missionaries, \$1,640.27 to the Schemes of the Church, of which \$269.65 were for Home Missions. They received from the Home Mission Fund in the way of grants in aid \$7,213.45, being \$1,400.70 more than last year.

Forty-eight students have been employed as Catechists, of whom six have been assistants to settled pastors. The other forty-two fields have 1,343 families, 342 single persons not connected with families, 1,128 communicants, of whom 92 were added during the year. In their 109 preaching stations they had an average attendance of 5,662 persons, and they contributed no less than \$6,509.88 towards their support. For the Schemes of the Church these mission fields have given \$503.58, as against \$278.47 during the previous year, and to the Home Mission Fund they contributed \$227.57, as against \$91.42. The Committee have aided these fields to the extent of \$2,449.25, or at the rate of \$1 for \$2.66 contributed by the fields.

Your Committee has to report that the year closed with a considerable balance against the Fund. On February 28th the debt was \$1,609.44, an increase of \$431.21 over what it was at the same date last year. Of the expenditures, it is expected that one sum of \$350 will be refunded, in which case the expenditure will be really \$81.21 more than the receipts on the operations of the year. Further, your Committee are not sure that the regret of the Assembly, in view of the debt, may not be exceeded by their joy when they learn that the debt this year is due solely to the fact that the amount contributed by our people in the East for missions in the North-West is much larger than it ever was before, and nearly double what it was in the year immediately preceding. Your Committee rejoices in this fact, because it shows that the horizon of our people in the East is not bounded by narrow limits, and that they are impressed with the needs of the Great West, and desire to have a share in the work of carrying the Gospel to all who come to this Dominion for the purpose of making it their home, a work to which the voice of patriotism summons them almost as imperatively as the voice of piety.

If further evidence were needed that the interest of our people is not declining in the work of Home Missions it can surely be found in the fact that the contributions this year are considerably larger than they have ever been before, being \$3,177.35 more than for the previous year, and \$4,378.15 more than in 1900-1.

Still further, the receipts from congregations in 1901-1902 were \$12,912.20, whereas last year they amounted to \$16,006.88.

As usual, the following summary is given for the purpose of showing at a glance the sources of our supplies and the direction in which the funds have gone:—

REPORT OF THE AUGMENTATION COMMITTEE— WESTERN SECTION, 1902-03.

To the Venerable the General Assembly:—

In submitting the report of the Augmentation Fund, for the past year, your Committee most sincerely and most heartily thank God, the giver of all good, for his continued goodness to the Church, and for his putting it into the hearts of the members and adherents to support so liberally the work committed to the care of your Committee. The year has been one of advance along the whole line. In 1901 the sum given by the Western Section of the Church for Augmentation was \$22,976, and in 1902 the sum was \$24,117; in 1901 seventeen Augmented Charges became self-sustaining congregations, and in 1902 twenty-one; in 1901 sixteen Home Mission stations were transferred to the list of Augmented Charges, and in 1902 twenty-eight.

Your Committee is pleased to mark the growing evidence of the desire of the Augmented Charges to support themselves, and be as little burdensome to the Fund as possible. The increase for stipend—sixty-six cents per communicant—is most gratifying.

In order to stimulate Augmented Charges to do their duty to their pastors, the following important resolution was passed at a meeting of your Committee in March:—
“The Committee resolved that in any case in which the grant just made does not give the minister the minimum stipend, it would become responsible for one half the amount needed to raise the salary to the minimum, provided the congregation raise the other half; this additional grant to be paid only upon the express condition that the Executive be furnished, before its meeting in October, with an extract minute of the Presbytery, showing that the congregation has been dealt with in this matter, and that the amount called for under this resolution from the people has actually been provided by them and not by the minister himself.”

As the national expansion grows; as God has placed so much wealth and influence in the hands of our Church; as the Home Mission work develops; as the vast importance of the Church's influence as a factor in the making of character and in the moulding of races is more and more recognized; and as the Augmentation Fund has done much to aid Home Missions and the Church generally, your Committee would most respectfully ask the Assembly to urge all its members, all Synods, all Presbyteries and all congregations to do all in their power to raise the \$30,000 needed for this department of Church work.

The following changes have been made during the year:—

BECOME SELF-SUSTAINING.

Synod of Toronto and Kingston—Zion (Kingston), Springville, Queensville, Penetanguishene, Tarbutt, Bethel	6
Synod of Hamilton and London—Aylmer, Fingal, Bothwell, Monkton, Southampton	5
Synod of Manitoba and North-West Territories—Pipestone, Belmont, La Riviere, Abernethy, Hillburn, Buffalo Lake, Summerside	7
Synod of British Columbia—Grand Forks, Chilliwack, Sapperton	3
Total	21

NEW CONGREGATIONS.

The following new congregations were put on the list April 1st, 1903:—

Synod of Montreal and Ottawa—Montreal Annex, Victoria (Montreal), Aultsville, Lunenburg	4
Synod of Toronto and Kingston—Queensboro, Kew Beach, Blackbank, Bala, Midhurst, Mattawa, New Liskeard, Sturgeon Falls	8
Synod of Manitoba and North-West Territories—St. Paul's (Winnipeg), Plumas, Estevan, Pierson, Fort Qu'Appelle, Grenfell, Fleming, Poplar Grove, Saskatoon, Cottonwood	10
Synod of British Columbia—Didsbury, High River, Okotoks, Red Deer, Wetaskiwin, and Kelowna	6
Total	28

Considering the changes in the modes of living during the past twenty years—changes entailing extra expenses; having due regard to the rise in prices, and to the general advance in wages, your Committee is of the opinion that the minimum ought in justice to be raised at least \$50.

In order to draw the attention of the Church to the claims of augmented ministers, and to elicit the opinion of the Presbyteries, your Committee submit the following recommendation:—“That the Presbyteries within the bounds of the Western Section of the Church be asked to consider the advisability of raising the minimum, and if so, to what amount.”

All of which is respectfully submitted.

SAMUEL LYLE,
Convener.

REPORT OF THE AUGMENTATION COMMITTEE, (EASTERN SECTION), 1902-3.

To the Venerable, The General Assembly:—

The past year has been a prosperous one in the work entrusted to your Committee in the Eastern Section of the Church. Fifty-two congregations have called for aid and received it, as against fifty-five for the previous year, and nearly all of them have had the continuous service of their pastors during the whole year. The receipts have been \$249.44 more and the grants which needed to be paid have been \$738.13 less, so that instead of decreasing the working balance of the fund, as has been done by a small amount in former years, it has been increased.

As authorized by the last General Assembly the deferred applications were dealt with in October and the following grants additional to those that were then sanctioned were made.

Presbytery of Wallace.

Earltown \$200 00

Presbytery of Lunenburg and Yarmouth.

Clyde River and Barrington 300 00

Presbytery of Miramichi.

Blackville 100 00

These grants added to those already sanctioned by the Assembly made a total of \$9,287.00 promised in the event of all the congregations being settled throughout the whole year.

The receipts for the year have been \$9,406.50. The payments on account of grants for the twelve months from March 1st, 1902, to March 1st, 1903, were \$8,524. One sum of \$33.33 was paid to Cape North for the months of January and February, 1902. Office expenses amounted to \$269, and all other expenses to \$113.06, making a total expenditure of \$8,939.39, leaving a credit balance on the operations of the year of \$467.11, which, added to the working balance of \$2,642.25 reported last year, made it at the close of the year \$3,109.36, in addition to the \$2,250 which had been allocated from the Century Fund. Since the closing of the accounts at the end of February last \$375 additional have been passed over from the Century Fund, so that the working balance of the Augmentation Fund at present is \$5,734.36.

It is satisfactory to be able to report that four congregations have this year become self-sustaining, the same number as was reported last year. These congregations are Little Harbour, in the Presbytery of Pictou; Noel, in the Presbytery of Halifax, and Loggieville and Blackville in the Presbytery of Miramichi.

The increase in local support has this year been only \$457, so that there is room for the cultivation of the grace of liberality in this direction.

The Committee have agreed to request the Assembly to so modify the terms upon which a congregation can be placed on the Fund as not to discourage the addition of members to the Church, and the reporting of the same to the Assembly.

All of which is respectfully submitted.

EDWIN SMITH, *Convener.*

E. A. McCURDY, *Secretary.*

REPORT OF THE BOARD OF FRENCH EVANGELIZATION, 1902.

To the Venerable the General Assembly:

During the past year the work entrusted to the care of the Board of French Evangelization has steadily advanced, notwithstanding the peculiar forces and forms of opposition which it has had to contend against and the great loss which it has been called to sustain by the death of the lamented Principal MacVicar who, on the 15th of last December, passed to his eternal reward. "His works do follow."

At the first meeting of the Board, after this sad event, the following resolution was presented by its senior missionary and unanimously adopted :

"This Board, representing our French missionaries labouring in Canada, and in some ways all the French Canadian converts, records its sense of the irreparable loss sustained by the sudden and unexpected death of the Rev. D. H. MacVicar, D.D., LL.D.

"For a period of over forty-one years Dr. MacVicar devoted a great deal of thought, energy and unwearied zeal to the cause of French evangelization in Canada, carried on (1) By the French Canadian Missionary Society, of whose committee he was for twelve years an active member and wise adviser; (2) As the first and only Chairman of the Board of French Evangelization of the Presbyterian Church in Canada up to the very hour of his death; (3) And as the founder of the Montreal Presbyterian College, which has equipped and sent forth into the Master's vineyard a large number of devoted and faithful young French Canadians who will never forget the cordiality and sympathy with which he greeted them in the class-room as well as in his study and home, nor his words of genuine appreciation of their work and nationality. As a faithful servant of his Master he gave the last hour of his life to the work near and dear to him, discharging the duties of chairman at an important meeting of the executive of the Board, and returning to his study in the college, whence, with manuscript in hand, waiting to meet his class, he was called to a higher service.

"The Board expresses its sincere sympathy with Mrs. MacVicar and her family in their bereavement and commends them to the gracious care and guidance of God, 'a Father to the fatherless and a Judge of the widows.'"

COLPORTAGE.

The importance of this simple agency cannot be over-estimated. In a quiet, unobtrusive way our colporteurs have done a great work. Wherever they go they call attention to the Bible, offer it for sale, read and explain it in the homes of the people and to individuals and little groups of listeners by the way, and thus seek to make known the unsearchable riches of Christ. Their primary aim is not converts from Romanism, but conversions to the "faith once delivered to the Saints" and to a knowledge of "the true God and only Saviour, Jesus Christ." In a sense all missionaries of the Board are colporteurs, giving paramount importance to the Word of God and endeavouring to bring it home to the heart and conscience of the people. And all in the language of the apostle appeal to the friends of the gospel, "Brethren, pray for us that the Word of the Lord may have free course and be glorified." During the year 2,628 copies of the Scriptures, in whole or part, were sold and loaned, and 35,118 tracts and religious papers distributed by colporteurs, teachers and missionaries.

MISSION SCHOOLS.

In proportion to population Quebec has a larger number of school-houses, convents, classical colleges and seminaries than any other province in the Dominion, and withal by far the largest number of illiterates.

A few months ago a chairman of the Police Committee of the city of Montreal, in a public address, said, "If they (French-Canadians) do not occupy the place they should—and we do not—it is due to the lack of education. . . . However, we are French, that is to say, intelligent and endowed intellectually and morally."

"We are not an inferior race, as it is sometimes said, but because we lack instruction we are in inferior conditions. . . . Out of fifty French-Canadian candidates for places on the police force only ten can read in an intelligible and rational manner. The other forty have to be refused. . . . The Scotch and English write well and read intelligibly and surprise us by their practical knowledge. . . . And yet the English and Scotch are not more intelligent than we are, and a proof of it is that we speak their language and they do not speak ours."

Much is truthfully said and written of a similar character, and prominent citizens have banded themselves into a society, or league, for the purpose of improving, if possible, the present deplorable system of popular education. In this widespread and growing demand on the part of the people for educational reform is found the explanation for the presence of so many Roman Catholic scholars in Protestant schools in the larger centres of population and also in our modest mission day schools, and in the Central Mission Schools at Pointe-aux-Trembles.

During the past year seventeen mission schools were aided by the Board, and about an equal number begun and fostered by the Board have within recent years developed into regularly organized dissentient schools. These schools have provoked more than one parish priest to open schools where otherwise there would be none.

THE POINTE-AUX-TREMBLES MISSION SCHOOLS.

The Schools are situated on the north shore of the St. Lawrence River nine miles east of Montreal. They were founded in 1846 by the French Canadian Missionary Society, and were purchased by the General Assembly of our Church in 1880, and since enlarged. On the mission property there are two buildings, one for boys, which can accommodate about 100, and the other for girls, with accommodation for about seventy. Upwards of 5,000 French Canadians have been educated here. Many of these now occupy positions of trust and influence as ministers, teachers, physicians, lawyers, farmers, mechanics, etc. Pupils are admitted between the ages of thirteen and twenty-five, the average age last year being about fifteen. A preference is given to the sons and daughters of French Roman Catholic parents, and to the children of recent converts from Rome, living in parishes where there is no Protestant school. The session begins in October each year and continues for seven months. The pupils reside in the buildings and thus enjoy the advantages of a Christian home, under the supervision of earnest, devoted, Christian teachers. They all take their share of housework. The day's duties are thus laid out:—Rise at 5.30 a.m.; all are in the class-room studying privately from six to seven; breakfast at seven; house and out-door work from 7.30 to 8.30; family worship, when all assemble together, boys and girls. School begins at nine, the first hour being given to Bible study, and continues till twelve. Then dinner, followed by recreation to 1.30. Classes resume till four; recreation from four to five; classes from five to six; tea at six; recreation to seven; family worship (boys and girls in their separate buildings); studying privately in the class-room till nine, and all in bed and lights out at 9.30 p.m. Eight teachers reside in the buildings.

Special prominence is given to the religious instruction of the pupils, and to the teaching of God's word on the points of difference between Protestants and Roman Catholics. It is no exaggeration to state that comparatively few, if any, of our English-speaking young men and women are better acquainted with their Bibles, or are better able to give a reason for the hope that is in them, than are the pupils of the Pointe-aux-Trembles' Mission-Schools.

Great care is exercised in the selection of pupils from the increasingly large number of French Canadians applying for admission. The schools are visited and examined monthly by a committee of the Board. In January and at the end of the session written examinations are held in all subjects taught. The work of the past session on the part of both pupils and teachers was very satisfactory.

When the Board acquired the property in 1880, it resolved to admit no pupils gratuitously, except Roman Catholics whose parents were unable or unwilling to contribute; all others are required to pay something, in proportion to their ability, towards board and tuition. The amount received in this way during the past session was \$2,026. A considerable portion of this amount was money earned by the pupils themselves during the preceding summer. After deducting these fees, the average cost to the Church of each pupil is \$50 per session. The Board desires that the institution should be supported by means of scholarships of \$50 each, guaranteed by private individuals, or Sabbath Schools and Young People's Associations. A particular pupil is assigned to the donor of a scholarship, to whom reports as to the progress made are forwarded from time to time. In this way a Sabbath School contributing a scholarship is put directly in correspondence with the Mission Schools, and the letters, if read publicly to the Sabbath School, tend to keep up their interest in the work. It is hoped, therefore, that many more Sabbath Schools and Young People's Societies will assume the support of pupils. From those unable to do so a contribution is earnestly asked. The Board has no hesitation in warmly commending the schools as worthy of public confidence, assured that no means are likely, by the blessing of God, to be more efficacious in the work of

French Canadian evangelization, and in advancing the cause of Christ in the Province of Quebec.

The teaching staff, composed of trained and experienced teachers whose Christian character and missionary zeal give them special fitness for the work, is as follows:—Rev. E. H. Brandt, Principal, Rev. T. Abram, Mr. A. R. Ross, B.A., Mr. E. Tremblay, Madame J. Bourgoin, Mlle. V. Giroux, E. Bourgoin and E. Duolos.

THE PRINCIPAL'S REPORT.

Once more we have seen the old home of Pointe-aux-Trembles deserted. The last days of April marked the end of the 57th Session.

Books have been put aside, and the scholars are now scattered all over the Province. May they spread around them the good seed of the Gospel.

As in the past, we have had, during the past session, our joys and sorrows, but if we sometimes journeyed under dark clouds and met with the difficulties peculiar to all missionary enterprises we had many proofs of the everlasting love and care of our Heavenly Father. In spite of the scarcity of fuel and the usual dangers of a long and hard winter we did not suffer from cold; we got our daily bread, and we had not to deplore any serious disease. These blessings we owe to the divine protection of God and the Christian love of the numerous friends of our institutions, to whom we are greatly indebted.

We received 161 pupils—99 boys and 62 girls. Nearly half of them come from Roman Catholic homes, the rest are children of converts, with the exception of two.

Our flock could not be increased on account of our great poverty and lack of room, though more than 100 new applicants knocked at our door and were left outside.

Though four evangelical denominations are engaged in this work of education among the French, yet we get a larger number of applications every year, showing that education is more prized than ever in our Province.

The work done during this session, both intellectual and spiritual, is satisfactory. Our aim at Pointe-aux-Trembles is to teach the young French-Canadians how to think for themselves; we do not try to burden their memory with so many pages of arithmetic or grammar, but we try to develop their minds so that they may see the truth in everything and be able to discern between good and evil. I think we have succeeded pretty well in this preparation of our pupils.

"I am surprised," said a man, "to see the progress of my boys at P.-a.-T., not only in the knowledge they have got there in seven months, but in their way of reasoning."

During our spring examination one of our new boys, a Roman Catholic, said, "I know that Pointe-aux-Trembles cannot be compared with the Roman Catholic schools where I have been, for I have learned here what is freedom and truth."

"It is here," said many at our farewell meeting, "that we understood for the first time what is duty. We have formed here the desire to be useful to our fellow-countrymen."

In a land like ours, where Rome has so wonderfully succeeded in ruling over the intellectual and spiritual faculties, a school like ours is a bright star in the dark night. Through our Institution is done one of the most effective works towards the advancement of the kingdom of God and the prosperity of our country.

Thousands have been brought to light and made free in this sacred place, and are to-day ministers, missionaries, teachers, farmers and mechanics, being witnesses of the Lord where they are.

Twenty-four of our scholars sat at the communion table for the first time and became members of the church. Thirteen of them have been recommended by the Presbytery to the Board to work as missionaries and teachers among their fellow-countrymen during the summer months.

The sum of \$2,200 has been contributed by pupils for fees and collections. This is a very encouraging fact, showing how they appreciate what is done for them.

The Board, seeing the progress of our work, feel it is their duty to make a strong effort to repair our two old buildings and add to them new wings so as to receive a larger number of pupils. We believe that the time has come to win Quebec for the Gospel. France is getting rid of its army of nuns and friars, and our Province will be a common refuge for these thousands of birds of prey. Let us raise our voices, we, the children of God, and tell our French-Canadian brethren that salvation is to be found in the Gospel, and not in the shade of the Romish altars.

I hope the friends of the youth will generously answer to our cry and give us the means to build and equip good schools where we will be able to educate under the influence of the Gospel those who will be the nation of to-morrow.

We seize this opportunity of expressing our hearty thankfulness to all our benefactors for their generous support and their warm sympathy.

Now, dear friends, let us unite our efforts and look forward for the extension of our educational work and remember that Pointe-aux-Trembles Institute is like one of the houses of which the Lord spoke when he said : " And when the flood arose the stream beat vehemently upon that house and could not shake it, for it was founded upon a rock."

E. H. BRANDT, *Principal.*

* New Fields

PRESBYTERY REPORTS.

Huron.—Grand Bend. The French Mission forming part of this charge continues to flourish. The pastor enjoys the confidence of both French Protestants and Roman Catholics, the former taking their share in the work of the congregation, and a few of the latter every year uniting with it. The Gospel solves all racial differences.

Algoma.—Mr. Pelletier was removed by Presbytery from Chelmsford to Blind River early in the year, and then in the fall sent to work in the lumber camps, where the majority of the men were French-Canadians, who "all heard with pleasure the reading of the Bible and the preaching of its simple and pure doctrines and the singing of our hymns, which were not only a novelty to them but will also prove a blessing." "I visited Chelmsford lately and spoke to a good congregation, but I noticed a change among the people, many English families having left. The French-Canadian Protestants, to my surprise, were more numerous, although they have had no one to speak to them in their own tongue, yet they remain steadfast. I baptized five children. A man speaking both languages should occupy that field."

Glengarry.—The mission has suffered by removals. The missionary has been energetic and encouraged in his work. In Cornwall, where there is a large French-Canadian population, open-air meetings were held during the favorable season with good results. The little congregation hopes to see its beautiful church free of debt in the very near future. Four or five places within the bounds of the Presbytery were visited more or less regularly. There are over 200 French Protestants connected with the English-speaking congregations of the Presbytery.

North Bay.—The colporteur appointed to this field gave up work owing to illness and there was no one to take his place.

OTTAWA.

St. Mark's.—During the year the congregation took possession of their new church, which stands on the same site as the old one destroyed in the great fire, and is free of debt. "Thank God," says the pastor, "we have been cheered and encouraged, and this year has been one of merited improvement. Two R.C. families, and a bright, intelligent young Catholic, after more than two years of patient and prayerful teaching and study of Scripture truth, have cast in their lots with us. These will be lights to others."

Hull.—Mr. T. Bonnefant colported here and in Ottawa part of the year, and on the whole was well received and sold a considerable number of copies of the Scriptures.

Masham.—Faithful work has been done among the people and encouraging progress made. The school is approaching self-support and was taught last year by Mlle. Giroux, a Pointe-aux-Trembles girl, and daughter of an elder of the church of the place.

L'Ange Gardien and Perkin's Mills.—The distance between the stations and the character of the roads make this a laborious field. The population of the latter is largely dependent upon the mines, and is fluctuating. Lately the outlook has improved and the people are coming back. Although few additions are to be noted and little aggressive work done during the year, there has been a revival of interest in the regular services and in providing for repairs and improvements in the church at L'A. G.

Namur and G. Lac.—This is a hopeful and promising field in which the present missionary has labored for thirteen years. An aggressive and stable work has been done, as the presence of a fine church and two schools, all paid for, testify, with a third school to be opened this year.

Desert and Six Portages.—This is an immense field, extending on both sides of the Gatineau to the Barriere. The missionary is deservedly held in high esteem by French and English Protestants and Roman Catholics. The missionary gave the winter months to visiting the lumber camps. The work has been carried on with zeal and energy and good results, although its very nature precludes tabulation of the latter.

Monte Bello.—Faithful work was done throughout this district as far north as Ripon by a student. The number of French Protestant families are few, but they are trophies of the Gospel and are a wonderful evidence of its elevating power.

La Lievre.—Two colporteurs did excellent work in this vast district, and discovered several isolated Protestants and sold many copies of God's Word to Roman Catholics.

MONTREAL.

L'Eglise St. Jean.—While there has been no marked numerical growth there has been development of congregational life and activity. The W.M.S., Y.P.S. and S.S. are active and prosperous. The church debt has been substantially reduced and the pastor and session are maturing plans for its extinction.

Lacroix.—In spite of fluctuation of families the numbers have kept up. The pastor has been much encouraged by the growth of interest on the part of the young in church work and by their profession of faith in the Saviour. The S.S. is prosperous and the mission-day-school doing a good work.

St. Jean Baptiste.—This mission continues to grow and the pastor has met with much to encourage him in his work. Regular organization has been effected, and already the accommodation is insufficient. There is a good S.S. and an efficient mission-day-school.

St. Charles St. Mission.—This mission is supported conjointly by St. Paul's Church and the Board of French Evangelization. The morning service is in French and the evening in English. The S.S. is carried on in both languages. St. Paul's Church carries on a sewing class for girls and women and a Boys' Improvement Society, both of which are attended by a number of French boys and girls. The mission-day-school is efficient and largely attended.

St. Hyacinthe.—Notwithstanding removals of many families due to closing and changing of factories in the city, the congregation holds its own and makes steady progress on the French side. At a recent communion three converts from Romanism were received into membership of the church, one of whom is a cousin of the R.C. bishop.

Chambly-Canton.—A neat and commodious mission building has been erected and paid for, excepting about \$35, through the activity of the missionary. The missionary and his family have won for themselves and their cause the respect of the community, which at one time was anything but cordial. The missionary teaches a mission-day-school, which is well attended. There is a hopeful outlook for the Gospel in this place.

New Glasgow.—Besides N.G., where services are held in English for a gradually decreasing English-speaking population, services are held regularly in French at St. Sophie, St. Hypolite and St. Jerome. The pastor has won the respect of both the Protestant and Roman Catholic community and says that the prejudices of the latter are giving way before the light of the Gospel.

Belle Riviere.—This is a large field, where the French Protestant families are widely scattered. The missionary has won the confidence of the R.C. community and is quietly doing much to remove their prejudices and to bring them to a knowledge of the truth. The mission was regularly organized during the year.

Lachute.—Mr. Matthieu is the oldest active missionary. Although nearing his fourscore years, his delight is to tell his former co-religionists, whom he gathers in little cottage meetings, of the Gospel and its saving power.

Grenville.—The pastor removed from the French manse in the country to a new one provided by the English congregation in the village. The work is vigorously prosecuted and the missionary exerts a wide and growing influence.

Arundel and Desalaberry.—There is a wholesome tone of progress. The missionary spent several weeks in the lumber camps on the Rouge, where as elsewhere the large majority is French Canadian.

Valleyfield.—Excellent work has been done in this field under the supervision of the pastor and session of the Presbyterian Church of the city. There is great need of a suitable place of meeting, to provide for which the congregation is considering the erection of an addition to the church for the S.S. At present there is only the church for all purposes.

Joliette.—A new school-house and church have been built and provided for by the few spirited families of the place. The missionary is greatly encouraged, and the outlook was never so bright.

Italian Mission.—Early in the year the mission was called to mourn the loss of its devoted and gifted young missionary, Valentino di Genova. He was a fruit of the mission and received his training at the Pointe-aux-Trembles schools and the Montreal Presbyterian College. His heart's desire was the evangelization of his fellow-countrymen amongst whom he laboured with acceptance and success until death claimed him. During the balance of the year Mr. A. Giovannitti, a young man of good gifts and education, who spent one session at Pointe-aux-Trembles and was converted there, took up the work and carried it on with success. He expects to return to New York in the spring. His successor is not yet in sight.

Lachine.—Excellent work has been done in Lachine and on the locks by a colporteur, whose work must be productive of good results among the barge men and others. In this work the pastor of St. Andrew's, Lachine, has taken a deep interest.

St. Jerome, St. Gabriel and Hochelaga districts were all visited by colporteurs, and a large number of copies of the Scriptures sold and many religious papers distributed.

Labelle.—This district, lying between the Rouge and the Lievre, was visited by two colporteurs, who were on the whole well received, although their sales were few, owing in part to the poor circumstances of the new settlers.

QUEBEC.

St. Jean.—The pastor and people have been encouraged. They have made substantial additions to their numbers, one new member belonging to one of the leading families of the city, who was so disgusted with the teachings of his church that he was on the point of discarding all faith when the pastor met him, and after patiently dealing with him for a couple of years, won him for Christ. People who know little of Rome know nothing of what such a victory means.

Lorette.—The pastor of St. Jean's Church supplemented the work of the Indian colporteur here by giving regular services on Sunday afternoons. As a result two families united with the church.

St. Sophie and N. Ham.—Although thirty miles apart these fields were worked by one missionary. It was laborious work, but good seed has been sown which will not be lost. A school was taught at N. Ham by Mlle. E. Touchette, a Pointe-aux-Trembles' pupil.

Ditchfield.—This field has suffered from removals. The missionary has been able to preach the Gospel to a large number of Roman Catholics in their homes at the several stations. The two mission schools opened in this field have been handed over to the School Commissioners.

St. Francis District.—Excellent work has been done by a colporteur throughout a great part of this District.

Port-au-Persil.—There is little to note of this field. The little church, for which the means were largely provided by Miss Janeway, of New York, and a few of her friends, who spend the summer at Murray Bay, has been completed. Excepting the Protestant churches at Murray Bay and Tadousac for summer residents, this is the only Protestant church on the north shore of the St. Lawrence below Quebec. Mr. John McLaren the Protestant patriarch and pillar on the Saguenay, has turned his 90th milestone and is still hale and active.

Lake St. Jean.—The representative of the Students' Missionary Society of the Presbyterian College, Montreal, did good work in this wide field, over which there are scattered seven or eight French Protestant families. This is a significant fact, for five years ago there was not one French Protestant family in the district.

Chicoutimi.—The Board make a small grant to the school at Chicoutimi. The missionary, who was also the teacher, was English, and supported by the Protestants of the place and the H.M.C. Owing to removal of Price's saw mills the English Presbyterian families removed, leaving only a few French and fewer English families who are Presbyterian. Other arrangements are being made to continue our work in this stronghold of Romanism.

St. Cyprien and Cacouna.—This very wide field, over which a number of Protestant families is scattered, and affords scope for more than one man. During the year the English Presbyterian families at River-du-Loup, where there were a couple of French Protestant families, petitioned to have the missionary give them a service fortnightly in English. The petition was granted, so that our missionary's headquarters are now at Riviere-du-Loup, where there is a small group of French and English Presbyterian families.

Ste. Blandine.—This field is in Rimouski county. Good work was done by a student and by the Protestant families in the face of great opposition. The trial of faith through which these little groups of isolated evangelical Christians have to pass is something wholly unknown to English Protestants.

St. Valier.—There has been no marked change here during the year. The "rebels" are rebels still and the knowledge of the Word of God is making its way. A colporteur laboured among the people, receiving assistance from time to time from the missionary at Quebec. A school was carried on in the house of one of the people during the winter months.

Nicolet.—A colporteur laboured in this district for part of the year with fair success.

Ste. Anne.—Here and in the adjoining county of L'Islet a colporteur worked during the summer and sold a good number of copies of the Scriptures.

Ste. Damase.—It was in this district that Father Chiniquy spent the last summers of his life, and his quiet labours were not in vain. Last summer his son-in-law, Rev. Prof. Morin, of McGill University, was invited by the people to preach to them. This he did for eight weeks to audiences varying from fifteen to fifty, and representing over thirty families. Upon his departure, at the request of the people, a missionary was sent, and is there still. Eleven families have separated from Rome, the first to do so being the chairman of the local school board. Land has been granted for a church, to build which steps have been taken by the people, who will receive help from the Presbytery and Board.

MIRAMICHI.

An intelligent farmer on the lower St. Lawrence received a Bible from one of our missionaries. Shortly afterwards he settled at St. Alexis. Last spring he wrote our missionary at Cyprien inviting him to come and instruct him and his family in the Bible. Later a young man from Pointe-aux-Trembles, a recent con-

vert, was sent, and spent the summer in his home, teaching a class of seven scholars and doing such missionary work as was possible in the neighbourhood. During the summer the father and mother were received into the Presbyterian Church at Metapedia, and the two eldest of seven bright children were sent to the Pointe-aux-Trembles Schools. Although a poor family the missionary had free board for the summer. In this way light has been kindled among the French-Canadians of the Metapedia Valley that shall never be put out.

ST. JOHN.

Edmundston, etc.—Energetic and aggressive work has been done and the influence of the missionary felt and appreciated. The missionary gave some time, by request of the Board, to visiting congregations within the bounds of the Synod in the interests of the general work. Two of our colporteurs labouring for the Bible Societies of N.B. and N.S. did good work in this field and the adjoining county. They were arrested and imprisoned, but liberated, their persecutors paying the cost.

St. Leonard's.—Satisfactory work, with good financial and spiritual results, was done among the English at St. Leonard's and Vanburen, and successful colportage work among the French.

WORKERS' CONVENTION.

For the first time in the history of the Mission the workers met in convention in Quebec city last October. Three days were spent in discussing various aspects of the work. The addresses and papers were of a high order and some of them of permanent value and have since been published by The Presbyterian Record. A fine spiritual fervor and missionary zeal marked every session and left no room for doubting that French Protestantism is coming to its own; and aims at nothing short of the evangelization and emancipation of the Province. Good results of the convention are manifest, and arrangements made to hold another immediately preceding the meeting of Synod this year.

VISITATION OF CONGREGATIONS.

The Board has all along sought to keep the church informed of the conditions and needs of the work by the circulation of literature and occasional visitations of Presbyteries and congregations by its representatives. It has become convinced that in the present conditions a more systematic effort must be made in order to secure a larger revenue for the extension of its work, and therefore resolved unanimously at its last meeting to make application to the General Assembly for authority to appoint some one for a year to present the work of the Mission in the congregations of the church.

THE POINTE-AUX-TREMBLES SCHOOLS.

The Board met last March at Pointe-aux-Trembles, and many of its members from a distance were thus enabled to look into the practical working of the schools. While most favorably impressed by the general methods pursued, the thoroughness of the teaching, the spiritual tone and excellent discipline of the schools, all were fully convinced that the accommodation and equipment were far from what they should be. After a study of the situation it was resolved unanimously to ask the General Assembly to authorize the Board to take such steps as may be deemed necessary to provide adequate accommodation and equipment for the carrying on of the missionary work at Pointe-aux-Trembles, and further that in the meantime the consideration and preparation of the plans and details to be submitted to the General Assembly be referred to the Executive. These have been prepared and are herewith submitted.

ROMAN CATHOLIC INCREASE.

The following paragraph is taken from the Montreal Presbytery's report on French work, as presented by its convener, the Rev. G. C. Heine, and is both interesting and instructive as showing the proportion of Roman Catholics, and especially French speaking Roman Catholics, to the whole population of Canada according to the last census. There is good reason to believe that the bulk of the French Canadian Protestants have not been enumerated as such. French Canadian enumerators seemed to take it for granted that French speaking families were Roman Catholics and so recorded them without formally putting the prescribed question.

In 1891 Roman Catholics formed 41.2 per cent. of the population of Canada; in 1901, 41.5, a gain of three-tenths of one per cent., or over 1,400 souls.

In 1891 they were 86.77 per cent. of the population of the Province of Quebec; in 1901, 86.68 per cent., being a decrease of nine one hundredths of one per cent. or 1,340 souls. During the last census decade the percentage of Roman Catholic increase in the Dominion was 11.9, and in the Province of Quebec 10.6; of non-Catholic increase 10.6 and 11.6 respectively. Roman Catholics have increased 1.3 per cent. more in the Dominion than in Quebec, while non-Catholics have increased one per cent. more in Quebec than in the Dominion. This interesting fact may find its explanation in the movement of the French-Canadians to other provinces and to industrial centres in the Eastern States.

FRENCH CANADIAN EXPANSION.

The increase and expansion of the French Canadian element within the Dominion is worthy of note. In 1871, and also 1891, the French Canadians formed a small fraction over 29 per cent. of the total population of the Dominion; in 1901, 30.7 per cent. During the same period they have increased in the Province of Quebec from 78 to 80 per cent. of the population. It is significant to note some of the places in which the French-Canadian increase has been made and its extent. In the city of Quebec the figures change from 58 to 84 per cent., and in the county of Quebec from 61 in 1851 to 84 in 1891, and 90 in 1901, and within the limits of old Montreal from 45 in 1851 to 55 in 1891, and 57 per cent. of the whole population in 1901. The Eastern Townships had the English for first settlers and were supposed to belong perpetually to them. In 1851 the French population in the Counties of Stanstead, Sherbrooke and Missisquoi formed 9, 15 and 19 per cent. respectively of the population. In 1871 the English were in the majority in eight counties, and in 1901 in three. The percentage of French population in these eight counties, as given by the recent census, is the following:

Compton.....	in 1891, 45; 1901, 55
Stanstead.....	" 38; " 46
Sherbrooke.....	" 54; " 58
Richmond and Wolfe.....	" 70; " 73
Shefford.....	" 77; " 77
Brome.....	" 33; " 36
Missisquoi.....	" 50; " 54
Huntingdon.....	" 31; " 39

A like gain is seen in the Northern Counties:—

Argenteuil.....	in 1891, 39; 1901, 46
Ottawa.....	" 66; " 73
Pontiac.....	" 30; " 39

In the Province of Ontario the French Canadians formed 2.7 per cent. of the population in 1851; 4.7 in 1891, and 7.3 in 1901, the number increasing from

75,389 to 158,698 in the last census decade. In the following counties the percentage gain is indicated by the figures :

Glengarry	in 1891, 22 ; 1901, 33
Prescott	" 67 ; " 71
Russell	" 33 ; " 54
Carleton	" 11 ; " 17
Ottawa	" 33 ; " 33
Renfrew	" 9 ; " 12
Nipissing	" 33 ; " 51
Cornwall and Stormont	" 20 ; " 26
Algoma	" 8 ; " 12
Kent	" 10 ; " 13
Essex	" 25 ; " 30

In the Maritime Provinces the French element is more than holding its own, and has grown during the same period from 6 to 10 per cent. of the total population of Nova Scotia, and from 10 to 13 per cent. of Prince Edward Island, and from 20 to almost 25 per cent. of New Brunswick.

SUMMARY.

The work has been carried on by thirty-one pastors and ordained missionaries, seventeen students, evangelists and colporteurs, and seventeen teachers in forty-one counties in Quebec, four in Ontario and three in New Brunswick. The average Sabbath attendance of persons over ten years of age at eighty-five preaching stations in forty mission fields was 1,859, representing 800 families, and 366 single persons not connected with these families (apparent decrease in figures is due to omission of English statistics in mixed fields) ; the number of communicants, 1,090, of whom 139 were added during the year ; of Sabbath School scholars, 800 ; of scholars at mission day schools, 557, of whom 281 came from Roman Catholic homes ; of copies of Scripture distributed, 2,628, and of religious tracts and papers, 35,118. The fields contributed \$6,638, and the schools, \$2,376, making a total of \$9,014, being an average of upwards of \$11 per family. Total receipts, \$34,178.12, total expenditure, \$35,518.05. Required for current year for the ordinary Pointe-aux-Trembles and French Evangelization Funds, \$36,000.

The missionaries have been diligent in sowing the good seed of the Word. They have had much encouragement, with some discouragement. It must be borne in mind that in a work like theirs, demanding consecration, zeal, tact, faith and perseverance, the net results cannot be tabulated by ordinary arithmetic. The enlightening and spiritual influences of the devoted missionary is effecting a disintegration all the time. The old prejudices are passing away and being replaced by good-will and confidence. As a consequence there are large numbers belonging to the Church of Rome who are no longer Roman Catholics in either thought or sentiment. They linger under the ægis of the old church because it is convenient to do so. Once the way opens and they can separate from it without boycott and social ostracism there will be thousands who will throw off the galling yoke of spiritual bondage and enter into full enjoyment of the liberty of the children of God. In the meantime we must hold aloft the Gospel of the only Saviour, who said, "And I, if I be lifted up, will draw all men unto me."

Respectfully submitted.

REPORT OF THE FOREIGN MISSION COMMITTEE. EASTERN DIVISION.

NEW HEBRIDES.

The Mission in the New Hebrides has experienced varied fortunes during the year 1902. Some of the missionaries who had been away on furlough have returned and others have left their fields for rest and recuperation. Dr. and Mrs. Annand returned from Australia in July, much the better for their change and again resumed control of the Training Institution. But their staff of helpers has been completely changed. Dr. McKenzie and his family were in Australia, when he wrote his report in February, recovering from the results of what seemed to him unavoidable exposure and overwork. Mr. and Mrs. Robertson and family had a year of exceptionally good health.

The S.S. "Mambare," upon which they depended for their Maritime Service, was wrecked not far from Santo on August 30th, but happily all the passengers were rescued, as well as the mails, stores for the missionaries and part of the cargo.

An interesting fact reported is that a number of British settlers have taken up land on South Santo. Fourteen of these colonists had arrived, five of whom have families, and, drawn to the mission family by the kindness of Dr. and Mrs. Annand, they have sought to make themselves helpful in connection with the Church services.

Similar interest attaches to the statements of Dr. McKenzie with respect to the presence on his field of the representatives of both the British and French Governments and of the happy relations, not only between the residents themselves, but also between them and the missionaries and the Mission.

The outlook on Erromanga is brighter now than it was a year ago, and it will be remembered that it was much brighter then than it had been twelve months earlier. It is quite true that the embers of the strife of two years ago have not yet so completely died out that the missionary can with safety reopen his schools and recommence his Sabbath services all over the island, but the area fully occupied is steadily increasing, and Mr. Robertson hopes soon to be able to cover the whole field. The damage done by the hurricane two years ago, with the exception of the Martyrs' Memorial Church, has been so fully repaired that all the native and European buildings at Port Narevin and Dillon's Bay are better now, and more suitable and substantial than they were before. Funds have been supplied from the Australian colonies, Scotland and Canada to the amount of nearly four hundred pounds sterling, of which about the half was contributed by the Canadian Church. Mr. Robertson has been able to carry on his regular work with much encouragement and by the publication of his interesting story of the mission, "Erromanga, the Martyr Isle," he has done a service to the cause of missions generally, as well as to the Church with which he is connected. The Committee is sure that the General Assembly will join with it in congratulating Mr. Robertson on the interesting manner in which he has traced the history of the mission and in appreciation of the

fitting tribute of respect and affection for his noble predecessors who laid down their lives for the Master's sake.

Fuller details of the work on the various islands occupied by our missionaries will be found in their reports in the appendix.

TRINIDAD.

The Mission in Trinidad has had another year of prosperity. Whether attention be directed to the amount of work done by the missionaries and their helpers, to the numbers who are under instruction in the schools and churches, to the number of baptisms and the considerable increase in Church membership, to the consolidation and growth of the work, to the position which the various fields have attained in getting rid of debt, to the provision which is being made for doing more effective work by the erection of new churches or to the very noteworthy liberality of the converts from heathenism, much may be safely inferred "respecting the grace of God which has been bestowed upon the churches" in Trinidad. On every field the activity has been great and incessant. The Churches already in existence have been fairly filled with attentive hearers, many of whom are devout worshippers. A new Church, costing \$3,200, has been erected under the eye of Mr. Thompson, at Balmain, and was dedicated on March 29th last. Another has been sanctioned in Mr. McRae's field at Riversdale. Five thousand children, who, but for your mission would be growing up under the shadows of ignorance, and in the darkness of heathenism, are in the mission schools, and every day for nearly an hour they are instructed in the truths of the Gospel. Three hundred and sixty persons have been baptized and one hundred and seven have been received into the communion of the Church. Tunapuna is out of debt. San Fernando, with its imposing pile of mission buildings, including colleges, schoolhouse, two manses, one of which has just been completed, is in the same happy position. Princetown has only a very small debt, and Couva, which has a larger one, hopes to pay it all off in four years.

The Church in Canada has contributed generously to support the mission, but as in former years more than two-thirds of the funds that were required to carry on the work was received from Trinidad sources. The accounts of the mission show that no less than \$58,281.56 were expended during the past year and that this amount less \$220 excess of expenditure was received from the following sources:—

Canada.....	\$18,493.38
Proprietors.....	1,728.00
Native Church	6,507.22
Donations.....	271.57
Government for schools.....	23,084.57
Sundries, rents, etc.	7,976.82
Total.....	\$58,061.56

The General Assembly will share the gratification of the Committee in learning that the number of the communicants in good standing at the close of 1902 in connection with the Mission in Trinidad was 917, of whom 107 had been added during the year; that the net increase for the year was 57, and that the native Church contributed during the year an average of \$7.38 per communicant. Surely of these recent converts from heathenism it can be

truthfully affirmed "that the abundance of their joy and their deep poverty have abounded unto the riches of their liberality."

During the past year the Trinidad Mission Council, under the pressure of largely increased rates on the part of the insurance companies, have matured a plan, under which the Mission proposes to keep their buildings insured without an immediate increase of cost, and with the hope that ultimately it may be largely diminished. The proposals are as follows:—

(1) That the Mission Council ask the F. M. Committee to continue to pay to the Mission Council at the rate of twenty shillings per £100 for all Churches or Houses insured by the Council, and the company's rates for any left to the company. Ask the F. M. Committee, in the event of a loss by fire before the Council is fully prepared, to lend the Mission Council at interest such sum as may be necessary to enable it to rebuild the building destroyed, and to ask no more from the Church in Canada.

(2) Let the Mission Council form at once an Insurance Fund and place on that Fund all their small and isolated risks.

Keep insured for a time with the company with which it has already been doing business, the larger and connected risks. Let the Mission Council manage this Fund, inspect our risks, make rules as to isolation by distance and by planting evergreen trees, and report annually to the F. M. Committee.

When the Fund warrants it, withdraw more risks from the company.

Aim at making the Fund always safe and so prosperous that in time all our risks can be taken at one per cent. Later it would be open to consider whether premiums might be reduced or abolished or a Fund created for the renewal of buildings.

After careful consideration these proposals were approved.

DEMERARA.

The past year has been a very trying one for your Mission in Demerara. Mr. George Grant, after spending some months in Trinidad in acquiring the language, had only fairly commenced work, when he was laid down by fever, which proved so serious and persistent that he was pronounced unfit for the climate, and ordered home by his physicians. Yielding most reluctantly to their advice and to the judgment of the members of the Trinidad Mission Council, he resigned and returned to Canada. He has even yet been able to do but little in the way of public work, but is taking means for the recovery of his strength with a view to service in the ministry at home.

Mr. J. B. Cropper's health also had so far been impaired that he, too, had to take furlough to Canada, where he remained some five months, seeking to deepen the interest of the Church at home in the work which lies so near his heart. Shortly before he left Demerara, his father, who resided with him, and often gave wise counsel and most efficient help, was removed by death, a dispensation which had made the rest and change all the more necessary. In consequence of his absence, the whole weight of the mission work in Demerara fell on Mr. Sutherland, whose strength was sometimes scarcely equal to the heavy task. Happily your Committee were successful in securing a most suitable successor to Mr. Grant in the person of Rev. J. D. Mackay, Cobourg Road, Halifax, who went to the Mission Field in company with Mr. Cropper on his return to his work in February last, and is now at work with his brethren.

KOREA.

The year in Korea has been characterized by cheering progress in every direction. The number of converts and inquirers is steadily increasing. The efforts of those who have learned something of the truth to master that truth more fully themselves, and to make it known to others, have been most praiseworthy. The stations that have been occupied for some time claim a steady growth. New stations are springing up in every direction. In Song Chin, which, before the last Assembly had been fixed upon as the centre of Dr. Grierson's labours, much time has been taken up in connection with the erection of the necessary buildings. These have now been completed, and in the work of building Dr. Grierson was very much aided by the presence, skill and counsel of his father, Mr. John Grierson, to whom your Committee feel deeply grateful not only for this service, but also for other help which he gave in various ways to all the missionaries who are unanimous and very cordial in their testimony to the value of his presence and aid.

The missionaries in Korea are very urgent for more labourers from Canada. The Committee have an offer of service from Mr. G. E. Forbes, whom they regard as a most suitable person for the work. Towards his support upwards of \$900 per annum have been promised, in addition to what the contributors are now giving in connection with their various congregations towards Foreign Missions, most of this amount being for a period of ten years. For this object one of the aged ministers of the Church has already placed in the hands of your Committee the sum of \$3,000, expressing the wish that of this amount \$500 per annum might go towards the payment of the salary of an additional missionary.

Two of the missionaries, Messrs. Foote and McRae, have been very seriously ill with native fever, but through the goodness of God both have been spared, and at the date of the most recent letters received were at work as in the past.

FINANCES.

Almost the only discouraging feature in connection with the work under the care of your Committee is the increasing debt on the Foreign Mission Fund. The year which ended March 31st, 1900, was the last in which there was not an adverse balance against the fund. At that date there was an apparent balance in favour of the fund of \$1,511.02, but, as a result of underdrafts on the part of some of the Mission Treasurers, there was a real though very small debt. On March 1st, 1901, the debt had risen to \$3,433.40. The debt at that date had been incurred partly in consequence of extension of the work in Trinidad and Demerara, but mainly in the purchase of Mission property in Korea, and in grants, which have been made in the same field towards the erection or repair of needed buildings.

When the accounts closed a year ago the fund was in debt to the amount of \$4,543. When they closed on February 28th, 1903, the debt had risen to \$14,461.87. This large and startling increase requires explanation. The explanation is twofold. In the first place the credit balances of some of the Mission Treasurers in the hands of the General Treasurer on February 28th, 1902, exceeded the overdrafts of others by \$2,026.19, which fact made the real debt a year ago \$6,569.19, instead of \$4,543. On the other hand, when the accounts for the past year closed at the end of February last, the overpayments made to some of the Mission Treasurers exceeded the credit balances of others by

\$1,863.97, which deducted from the adverse balance of \$14,461.87, would make the real debt \$12,597.90, an increase, therefore, of \$6,028.71 during the year. In the second place, of this amount, \$3,895.80 may be regarded as extraordinary expenditure, as may be seen by reference to the expenditure in the fields, mainly in Trinidad and Demerara, and nearly the whole of the balance is accounted for by the shortage of \$2,286.39 in the receipts for Foreign Missions for the year ended February 28th, last, as compared with those of the preceding year.

The receipts for the past year were \$36,875.58, or eliminating a sum of \$400, placed to the credit of the fund, which cannot fairly be regarded as receipts \$36,475.58, as against \$38,761.97 for the previous year, being a decrease of \$2,286.39. The amount received from bequests has been \$1,630, as against \$1,526.75 for the preceding year, to which latter sum ought perhaps to be added \$1,161.96 drawn from and exhausting the Legacy Fund.

Your Committee, however, while deeply regretting this increase of debt and diminution of income are not disheartened by the situation, and steps have already been taken looking towards its removal at an early day. Such steps seem to be imperatively necessary, not only because so heavy a debt is a constant embarrassment in carrying on the regular work of the Missions, but also because our missionaries in Korea are urgently pressing for an increase of their staff in view of the wide doors which seem to be open to them in that most interesting field. Your Committee are most anxious as soon as possible to make an additional appointment, which has, for some months, been under consideration, but they hesitate about doing so until the debt has been either removed or so far reduced that it would be prudent for them to carry out their wishes.

From the W. F. M. Society your Committee have received even a larger amount of assistance than ever before. With a wisdom, which commands the respect of the Committee this Society has striven to the utmost of its ability to strengthen the hands of the Committee, and with a liberality, which is beyond all praise, they paid into the F. M. Fund last year, no less than \$14,343, or \$1,143 more than the previous year. This handsome contribution is nearly forty per cent. of the whole amount of the receipts for the fund, a fact so significant that it seems unquestionably to justify the statement that if the whole membership of the Church were doing for Foreign Missions in anything like a fair proportion to what is done by the members of this Society, the financial embarrassment of your Committee would be brought to a speedy end. The importance of this assistance being maintained from year to year, as well as the work of the Society in imparting information and in deepening interest, prompts the desire that "The Lord may keep this thing for ever in the hearts" of the women of the Church.

WESTERN SECTION.

FORMOSA.

Oxford College and the girls' school were in session from the beginning of the year till June 21st. They then closed for a vacation till September 17th. There were two classes in Oxford College, senior and junior. All students in attendance for the first half of the year had studied under Dr. G. L. MacKay. New students were purposely declined for the first session after the death of the veteran missionary. At the close of that session three students had completed the work prescribed for them, and were sent to out-stations to preach the Gospel of Jesus. Five others were sent to supply vacancies for a time. At the girls' school for that session there were none in attendance, except students' wives.

On Sept. 17th College again opened, with 12 students in the senior class and 30 in the junior. However, by the end of the first term 8 of the junior men were advised to retire, chiefly because of lack of ability to study.

The Girls' School opened on the same date as Oxford College. In addition to students' wives, there were 10 other girls and women in attendance.

The teachers in Oxford College throughout the year were: Koa Kau, Yap Sun and Mr. Gauld. But in addition, during the Autumn term, Pastor Giam taught for a short time; and, after his arrival, in November, Rev. Thurlo Fraser taught writing, being as is known, an excellent penman.

During the first half of the year Mrs. Gauld taught singing to all the students, male and female. During the latter part of the year she gave an additional hour a day to the Girls' School, besides taking a general oversight thereof. She was assisted there by Mrs. G. L. MacKay, and two other women, one a Chinese, the other a Pepohoan. Pastor Giam, and others among the native workers expressed their hearty appreciation of the assistance Mrs. Gauld had given in both our male and female schools.

The work in the 60 out-stations was carried on with varying degrees of apparent success, or in some cases non-success.

During the year the contributions toward the debt of the "MacKay Memorial Church," Tsui-tng-kha, amounted to \$265.87. There still remains a debt of \$293. The total amount raised during the past two years for this fund was \$1,386.12.

The native contributions for all purposes, as the Statistical Report shows, was \$1,622.30.

In connection with the Tsui-tng-kha congregation unsolicited by the missionary, the congregation declared itself ready to support its own evangelist for the year 1903. This makes one addition to our list of self-supporting Churches. At the time it was proposed to dispense the Sacraments there, a nephew of the evangelist died of plague in the Church. At the same time the dread epidemic was very prevalent in the town, so that the season was judged unfavorable for these special services.

Since our last report, Mr. Gauld visited out-stations East, West and South, at least twice, with only two or three exceptions. During his winter visits to the East coast Pepohoan stations, he felt that there were signs of more Christian zeal on the part of our Pepohoan people than he had been able to detect during former visits of the last two years. This may have been due to the slack season, and the consequent greater leisure of the people. The

evangelists showed more energy in preparing for examination work that had been prescribed for them. Being better prepared, they were happier in examination.

The appointment of a Native Helper to the East Coast is kept ever in view. The work there is peculiar in that, so far it is nearly altogether confined to the Pepohoan. It seems more difficult to maintain among them, than among the Chinese a high level of moral earnestness. It is believed that one of our strongest native workers, appointed as Pastor to the oversight of that work, would do much to maintain Christ-like zeal, and energy, and moral worth among our evangelists there, and as a consequence amongst the people. At the same time he might do much under the Spirit to spread the Gospel among the prouder, but more substantial Chinese.

During the year two new chapels were built, one at Tiong-lek, the other at Pak-koan, while at Pang-kio a building was purchased for the Church. The chapel at Pak-koan is a very frail daub and wattle affair, still it serves as a place in which the Pak-koan fishermen may meet to worship their Master, who so long ago sent out some of the Galilean brethren to be "Fishers of Men." Christians at all of these places are yet few in number. If, however, they show the same energy in preaching, and living the Gospel, they have manifested in asking for it, and helping to prepare places of worship, no doubt the Spirit will own their efforts to the gathering of souls.

At one or two places the work has been greatly hindered by dissensions among professing Christians. "By this shall all men know that ye are my disciples, if ye have love one to another" is ever true.

On November 5th Rev. Thurlow Fraser and his wife arrived at Tamsui. Without the delay of a week, Mr. Fraser began to apply himself with energy to the study of the Chinese language. Now he is studying both Japanese and Chinese. Needless to say that his arrival was hailed with gratitude and delight by the Senior Missionary and Formosan Christians.

SUMMARY.—There are now 61 chapels and 55 evangelists. The total number of communicants is 2,037. There were 58 adults and 65 children baptized during the year. There are in all 678 baptized children in the Mission. The total contributions of the Native Churches for the year amount to yen 2,164 or \$1,082 gold.

CENTRAL INDIA.

It is with gratitude to God we report that the Province of Central India has had copious rains, and an abundant harvest, and that the famine distress has been relieved. In consequence of the dreadful experiences of the last five years, many villages were practically obliterated. In others the population was so greatly reduced as to have been unable to gather the bountiful crops of the past year.

VILLAGE WORK.—It is a cause of much regret to the Presbytery that the burden of caring for famine children, with a reduced staff, has made it impossible to follow up the work in the villages, although an effort was made, so far as possible to accomplish this. Many hearts were found more susceptible and responsive than formerly. The grateful remembrance of help received in days of darkness predisposed to a sympathetic hearing of the missionary's message. It must be acknowledged, however, that, as might have been expected, many forgot and hardened their hearts.

Villages in India are more numerous than Canadians can well appreciate.

The people of these villages are constantly on the street at central places, and the missionaries, meeting them there, find more easy access into their homes. Mr. F. H. Russell and Dr. O'Hara give as much time as possible to villages around Dhar. From Neemuch, Ujjain, Mhow and Rutlam excursions are made by both lady and gentlemen missionaries to surrounding villages, where abundant opportunities are found of scattering the seed.

PREACHING.—Multitudes, who will not come into the Church, are reaching by street preaching, but the Church services are regularly conducted, and many Hindus and Mohammedans are in attendance. In June of last year a man of the drover caste, who had come from a village 80 miles away, heard the singing in the Dhar Church, and came in to listen. He felt this was what he wanted and remained for some days. His conversion was so apparent that he was baptized. He returned to his own village, and came back to Dhar after a few days with three others, who had become interested through his influence, and reported still others wanting baptism.

Congregations pass through such vicissitudes as are common in the home land. They sometimes mourn the loss of valuable members and again rejoice in large additions to their numbers.

Sabbath School work is prosecuted with success. On Christmas Day 700 children from the different Mission Sabbath Schools were assembled in the College Hall, in Indore. Prizes were distributed by the kindness of English officials to such as were specially successful in an examination covering the work of the whole year.

BOARDING SCHOOL.—There are 86 girls in the school, but 70 of these are famine children. The presence of so many famine children has affected seriously the attendance of the children of Christian parents. Naturally fears exist amongst parents as to the influence upon their own children of association with children gathered promiscuously in times of famine. The health of the pupils in the school has been better than usual, and many of them are bright, earnest Christians, who give promise of usefulness. There have been some baptisms, and others, formerly baptized, have been received into full membership. Five of the girls formerly trained in the school are now teachers, and give good satisfaction.

The Mhow Girls' School has an attendance of from 75 to 130, varying through sickness, the marriage of older girls and the opposition excited by Christian instruction. Miss Leach is now in charge.

Miss Ptolemy is in charge of three schools at Indore. The ordinary public school subjects are taught, with constant effort to instil Scripture truth. Twelve in the schools have professed faith in Christ, whose baptism has been postponed, which step when taken will mean persecution from relatives.

MEDICAL WORK.—Medical work is carried on in hospital and dispensary at all the different stations. Many thousands receive treatment, and interesting cases are reported of patients who came for bodily healing and found healing for the soul.

Dr. Nugent reports a Brahmin, who came fifty miles for treatment, who proved to be a sincere seeker after truth. For ten days he remained, receiving instruction, and when the time came to return home, he took off the sacred thread and string of beads, giving them to the missionary, and expressed his determination to teach these things he had learned to his friends.

Another man, a Sadhu, who had for years visited heathen shrines, seeking

peace and finding none, came for instruction to Dr. Nugent, and professed faith in Christ. He, too, promised to publish the good news wherever he went.

In the Indore Hospital there were 250 in-patients during the year, there being as many as 30 at one time, taxing the capacity of the hospital to the full. There were a number of deaths, chiefly amongst the famine girls. The simple faith of these dying children was a joy and reward to Miss Turnbull, who is in charge, and ministered to their comfort.

In the dispensary 8,252 treatments were administered, and 134 women were treated in their own homes. Some of these visits were to distant villages, and some of the patients were of high social standing.

At Dhar similar work was done by Miss O'Hara. In the hospital 268 in-patients were treated, and in the dispensaries there were 22,162 treatments. As well as the hopeful, there are many sad cases. One woman, who was brought in 18 miles, was operated upon, and was on the way to recovery, when, in the doctor's absence, the husband carried her away on horse back, with, of course, fatal results.

Some men of wealth refuse to have their wives treated, if even a nominal fee is charged. They think the physician's opportunity to lay up merit in Heaven is sufficient reward.

A Brahmin widow, who had spent five years visiting Hindu shrines, having heard from another patient that she could be treated by one of her own sex, came, and, as a result, asked baptism, and will be a messenger to others.

In Neemuch Miss McKellar reports 193 in-patients in the hospital and 11,517 treatments in dispensaries, not including Widows' Home and Orphanage. Besides, 140 homes were visited, and 523 visits paid. It is to be remembered that all patients who come to the dispensaries receive instruction, which consists in a statement of Gospel truth, with the singing of a hymn and prayer. The death of Lpuibai Paul, a gentle loving soul, eager for duty and loyal to Christ, was a grief to the missionaries and the loss of a valuable assistant to the Mission.

BHILS.—Dr. Buchanan reports 126 baptisms amongst the Bhils—of these 23 were children. The Mission has been conducted so far on the principle that there should be no paid agents. Every convert is led to understand that his duty is to tell others the Gospel in which he has believed. They are "saved to save." Some of them go out Sunday after Sunday to the surrounding villages as preachers. Two farms are supervised by the Mission, which give employment, and teach better methods of farming, as well as give opportunities to teach the truth. A contract for building eleven miles of public road, as relief work proved a satisfactory enterprise, both for saving life and as an educational process.

FAMINE CHILDREN.—There are in all about 1,200 orphan children in charge of the Mission. There has been a measure of concentration, but not so much as was expected when the report was presented last year. The fact that the Famine Fund is being more rapidly exhausted than was expected has caused hesitation as to the erection of buildings; yet, being distributed as they are at different centres, has its compensating advantages, and the results are already encouraging as to conversions and future usefulness.

FAMINE GIRLS.—There is a Girls' Orphanage four miles from Neemuch, in which are 241 children, some of them still bearing marks of the dreadful famine. They grind and cook their own food, and are regularly taught as in other

schools. They are taught to make point-lace, buttons, etc., and for silk embroidery and drawn thread work won a silver medal at the exhibition of Indian Christian industries held at Madras last December.

During the year 25 were enrolled as followers of Jesus Christ. One of these came from the Mission in Jaward. She is a widow, and when her husband died deserted her friends on account of ill-treatment. One of the girls, who had run away from her friends three years ago, returned to them a bright Christian. She had no desire to remain, however, having been weaned from their heathen practices.

In Dhar there is a Girls' Orphanage, in which similar work is done, and with similar success. Over 50 per cent. of the girls have confessed Christ in baptism. They are truthful, affectionate and easily managed. Many of them have been married, and some of these are exerting a distinct influence for good in their neighbourhoods.

The Industrial Home at Indore has now become distinctly a Widows' Home. This institution was, in former years, entirely under the direction of Mrs. Johory, and much earnest and useful work has been done in behalf of the very many girls who passed under her influence. There are in the home about 80 girls at the present time.

FAMINE BOYS.—In the Industrial Home at Indore there are 80 boys who have made good progress in study and work. In the "All-India" S. S. examination some of the boys took 68 per cent., and one boy took 94 per cent. During the year 8 boys made profession of faith in Christ. When the weak, starved, sad-faced, ignorant boys of famine days are compared with the same boys of to-day the missionaries feel that they have not laboured in vain.

The orphanage at Mhow is in course of erection, and there the boys are to be gathered for industrial and other training. Missionaries at other points will thus be relieved for other work claiming their attention.

The great amount of labour involved in caring for these famine children has also interfered with the ordinary primary school work in connection with the different stations. Some of them have been suspended, probably to be resumed at a later date, whilst, because of the increase in the number of Government schools, some of them may never be reopened.

BLIND.—Interesting work is being done for blind children at Ujjain. Loss of sight is exceedingly common, owing to the ravages of smallpox and other diseases, as well as neglect on the part of parents and the absurd treatments of native doctors. These sufferers naturally appeal to human sympathy, and much is done to brighten the sadness of their lives. The introduction of the Braille System for the Blind has given access to the whole Bible and to many books and magazines, which has opened a new era of opportunity and possibility to these afflicted children. Besides the cultivation of their intellects, they are trained industrially, so as to be able to maintain themselves.

COLLEGE.—The Indore College and High School continue to prosper. The attendance is large, larger than ever before, and the standard of work done has been cordially commended by the Government Inspector. The Rev. R. A. King, B.D., of New Westminster, has been appointed Principal of the College, and the Committee feel that they have secured in Mr. King a young man of such scholarly attainments and personal qualities as will, with the divine blessing, insure the prosperity of the institution.

The death of the Rev. Norman H. Russell has been an irreparable loss to the Mission. Young and hopeful and buoyant in spirits, his influence was felt in every department of the work, and his presence was an inspiration to his associates. Village work was his special desire, and a book, published by him but a short time before his death, entitled "Village Work in India," was received with public favour. He had been charged by the Presbytery with the oversight of the erection of the orphanage at Mhow, which responsibility, in addition to other duties, proved too much for his strength. His early removal has elicited much sympathy throughout the Missions in India, in many of which he was personally known. The death of one of his children, but a few days before he was himself taken, intensified the sorrow of his family and friends, who mourn his loss. To them the sympathy of the Church has been cordially extended.

In addition to Mr. King, Rev. D. J. Davidson, M.A., and Mr. J. M. Waters, M.D., are under appointment, and will, it is hoped, reach India in November of this year. Mr. George Menzies, M.D., and Rev. D. G. Cock, M.A., joined the Mission last fall. These additions of capable men, with their devoted wives, will greatly strengthen the hands of a staff weakened by removals, and which at best was insufficient for the ever-increasing burdens that rested upon them.

In the last report of the F. M. C. there was presented to, and adopted by the General Assembly, a resolution by which Dr. Wilkie's connection with the Central India Mission was terminated.

By the same resolution, Dr. Wilkie's future relationship to the Committee was referred to the Committee for further consideration. After conference with Dr. Wilkie, and most careful consideration of the whole question, the Committee regretfully came to the conclusion that it was not practicable to continue his services.

The General Assembly also instructed the Committee to consider how far Dr. Wilkie had invested his savings in the College buildings, and, if it should appear that he had done so, to make necessary arrangements by which such investments should be refunded.

The Committee found that, whilst Dr. Wilkie had contributed to the erection of the College buildings, he made no claim, and desired to make no claim for repayment, and that there is, therefore, under the General Assembly's minute, nothing calling for action by the Foreign Mission Committee.

The Committee paid in full all accounts presented by Dr. Wilkie for repairing and improving the College, as well as travelling expenses from India to Canada, and further agreed that, in view of the long and valued services of Dr. Wilkie, and his unexpected retirement from the service of the Committee, he be paid a sum equal to full salary from the time of leaving India, 3rd May, 1902, up to the 1st July, 1903.

In presenting this report, the Committee desire definitely to state that they have refused to investigate and pronounce upon the past history of the Mission. That was done, rightly or wrongly, by past Committees and Assemblies.

Their action in separating Dr. Wilkie from the Mission was taken solely on account of his declared inability to work harmoniously with his brethren, and their declared inability to work harmoniously with him, and not in any degree on the ground of statements or rumours respecting Dr. Wilkie's character, to which the Committee gave no credence, and which they considered to be without foundation or justification, and which they wholly disregarded.

In taking this action, the Committee were not forgetful of the important services rendered by Dr. Wilkie during the years of his connection with the

Central India Mission. The Indore College, which has been developed through his energy, has grown to be an important educational institution, in affiliation with the Calcutta University, and embracing all departments from primary classes to the university degree.

It is a cause of sincere regret to the Committee, as it will be to the whole Church, that conditions have arisen which have deprived the Mission of the services of one who has shown himself to be possessed of such capacity for work and in a field where the need is so great, and that, after taking into fullest consideration all the circumstances, the Committee has been unable to see its way to initiate new work in India, in which Dr. Wilkie might be employed.

HONAN.

Rumors of further disturbances in China have not disturbed our missionaries in Honan. Their reports are cheerful and full of hope. The officials of every grade have been most obliging and thoughtful, calling upon them in the most friendly manner. The people, following the example of their rulers, have been most respectful and cordial. Instead of the old-time sneer and contemptuous epithet, most Chinese seem to deem it a privilege to greet the foreigner with a friendly bow. Never have there been so many or apparently so sincere listeners as now. This is true of every part of the field. Doubtless the door to the hearts of the people is widely open. This is a golden opportunity for bountiful seed sowing.

The Mission, as well as the Church, was saddened by the lamented death of the Rev. Thomas Craigie Hood. He was a young man of peculiar simplicity and beauty of character, giving promise of great usefulness. One of his fellow-missionaries wrote:—"He was certainly, taking him all round, one of the finest characters I have ever known. He was a most lovable man, strong in his convictions of what was right and firm in standing by his principles, yet he seemed always ready to listen to other men's views. I do not remember ever hearing an impatient word escape from his lips. If he had besetting faults, they certainly were not much in evidence, for I cannot recollect any."

The following was Mr. Hood's last message to the Church:—"Are there those who hesitate to offer themselves for the work 'till things become more settled'? Are there Christians withholding their gifts 'till China is more safe, and less likely to destroy life and property'? Why not be brave and break the box of ointment? What, though it should turn out to be but our anointing for the burial? There will be those who ask with indignation: 'To what purpose is this waste'? Never mind; it shall be told for a memorial! Offer NOW for service, give NOW for the work, for what is done for China must be done in faith."

He was returning to Hwai Ch'ing, where he had previously spent two months, and was accompanied by a native helper. On the way thither on the 18th September, 1902, he was smitten with cholera. At four o'clock on the morning of the 19th, feeling that the end was drawing nigh, he arose from his bed, and wrote in his diary the following words of farewell:—"4 a.m. I fear I have cholera. Reached here last evening, and had severe diarrhoea. Since then worse and worse. If it is God's will that I shall give my life in this little hovel, then His will be done. I should like for the work's sake to live longer. May some young man, better fitted physically for the work than I have been, take up the work. May our churches never give up till all the heathen about us have heard the glad sound. Farewell to the F. M. C. Fare-

fell to the dear Home Church. Farewell to all friends. Farewell to dear father, dear sisters and brothers each one, farewell. We'll meet again and with us will meet thousands of those who now sit in darkness—God grant it."

His attendants carried him into the city of Hwei Ch'ing, where he died at nine on that evening in his own rented inn. As soon as the sad news became known, the Rev. R. A. Mitchell had the remains borne to Wei Hwei and buried within the New Mission Compound he had secured in that city a short time before.

STATIONS :—Chang Te, Wei Hwei and Hwai Ch'ing are now the three central stations. Hsin Chen, one of the first group occupied by the Mission, was abandoned as a central station before the outbreak. It is now worked from Wei Hwei as an out-station.

The new buildings at Chu Wang were destroyed, and are not to be rebuilt. That station is now to be worked as an out-station in connection with Chang Te.

I.—CHANG TE DISTRICT :—Chang Te, being the centre and chief city in this district, it was felt that a Godward movement there would influence the whole surrounding region.

In the early part of 1900, the enemy had tried hard to hinder street preaching. They had enjoyed a temporary triumph because of the flight in the summer of the same year. It was now the turn of the missionaries to triumph. Throughout February and March they daily preached before the city-god temple to greater crowds than ever. When the sun grew too hot for open-air work, they secured a room at the most advantageous part of the street, where the Gospel was preached daily, until the end of September. Mr. Griffith was appointed Station Pastor, and in that capacity, had all Christian work in the compound, as well as the oversight of Christians in the outlying districts, and the superintendency of the schools.

(1) **CH'U WANG** :—Dr. McClure and the late Mr. Hood held a most successful station class at Chu Wang in February. Mr. Goforth and Dr. Leslie conducted Communion services there in April, and Mr. Griffith again in November. The services were well attended, and all looked hopefully forward to a wide expansion of the work in the near future. Two of the helpers, Messrs. Ch'ai and Ch'eng, have given most of their time to work in Ch'u Wang district. They spent a month preaching in the city of K'ai Chou, and report cheerfully of the interest there. All the chief centres in the Ch'u Wang district have been visited once, and some of them three times by the Foreign Pastor. A hopeful work of grace has begun at Chang Ts'un, a few miles from Ch'u Wang. Sixteen men have already been accepted as catechumens, and the interest is extending to other villages. Fifteen adults and two children were baptized and forty-three were accepted as catechumens during the year.

(2) **TS'I CHOU** :—Mr. Goforth, with the purpose of holding extended evangelistic services in all the cities and larger towns of the district, commenced work at Ts'i Chou, a city of about 50,000 inhabitants, 23 miles north of Chang Te. A compound was secured, and, aided by several Chinese brethren, the Word was preached about ten hours daily from October 1st to the end of November. The large room used for preaching was often crowded in the evenings. Mrs. Goforth also spent over a month there receiving and speaking to many women. Many seemed deeply interested. A man from the

country became interested. He then went home, and in a few days returned with five of his neighbors. They studied a few days, and invited a Christian to go and instruct some of the old folks at home. A helper was sent, and after staying with them for some days, he returned and reported about a dozen hopefully interested.

(3) **RESULTS** :—In the Chang Te district 32 adults and 6 children were baptized and 60 were added to the catechumen roll, making a total addition for the Ch'u Wang and Chang Te districts for the year, of 47 adults and 8 children baptized, and 103 catechumens.

(4) **BUILDINGS** :—Our Mission buildings having been occupied by Chinese troops for upwards of a year, were badly in need of repair. The soldiers seemed to have had a talent for smashing window panes and for absorbing all ironware in the shape of locks, bolts and other fastenings. All buildings tenanted by them were so filthy that a complete overhauling was absolutely necessary. The restoring of all to the original state fell to the lot of Dr. Menzies, who succeeded to the satisfaction of every one. He besides planned and built two new houses for foreign missionary residences. The spiritual needs of the workmen were not neglected. Dr. Menzies held a short service with them every morning, and arranged to give them seven days' pay for six days' work. The men were so grateful that they came to all the Sunday services. The result is sure to be a wider extension of the Sabbathidea. The daily wage of a mason or carpenter is about 8c.

(5) **MEDICAL WORK** :—For the greater part of the year medical work has been carried on under great disadvantage, owing to the lack of accommodation and deficient hospital supplies, while other duties have prevented the doctor from giving that close attention to the work which its importance demands.

The attendance of patients has been very satisfactory, specially in the number of in-patients, the wards often being quite full. From April 1st to Nov. 10th they treated 2,150 patients, numbering 8,266 treatments, or an average daily attendance at hospital and dispensary of thirty-five, while numbers occasionally reached eighty. Eighty-nine operations have been performed. Five cases of opium poisoning have also been dealt with, four lives being saved.

Worship has been held with the hospital patients every morning and the dispensary patients have had the Gospel preached to them as they waited, but this work has not been very satisfactory, owing to the waiting-room being separated from the dispensary. This difficulty has latterly been remedied, and patients now pass from the Chapel to the dispensary.

A large number of both men and women have shown intelligent interest in the Gospel. One former patient was baptized during the year, while four or five others were recorded as catechumens. We find our greatest joy in the ministry of healing in these few, who among the many, have found the pearl of great price.

(6) **WOMAN'S WORK** :—During April, May, June and July, classes of a week or ten days' length were held for the encouragement and revival of Christians at six different towns and villages, with an attendance of about 140. These invitations to various points in the field are gratifying features of the year's progress, inasmuch as in the intimate contact which temporary residence in the homes of the Christians gives, one is able to touch their lives at many

more points, and to observe more closely their application of the truth, or failure to apply it to the ordinary relations of life. One sees them in their truer because natural setting. Moreover the maximum opportunity is provided for the exercise of personal influence, admittedly one of the most potent forces in the moulding of character.

In October and November Mrs. Goforth spent 36 days in Ts'i Chou, accompanied by occasional helpers.

II.—WEI HWEI :—After the return of missionaries to Honan, Wei Hwei was selected as one of the central stations, and Mr. Mitchell began work there in 1902. Early in the summer about six English acres, admirably situated for Mission work and healthful residence, were purchased, and preparations have been proceeding with a view to building as soon as possible. Mr. and Mrs. Mitchell left for furlough early in September, and in November Mr. Grant, Dr. Malcolm and Dr. Menzies took possession of the city.

From the very beginning, work was encouraging. The year closed with fifteen baptized Church members and twenty-two catechumens.

(2) MEDICAL WORK.—Want of suitable accommodation made it impossible to do satisfactory work, nevertheless patients continued to increase in numbers until several times the treatments exceeded fifty per day. It is arranged that patients enter the dispensary through the Chapel, giving an excellent opportunity of hearing the Gospel message either from the Station Pastor or Native Helper, who is ever present to point them to the way of life.

III.—HWAH CH'ING—This new populous centre was assigned to Mr. Hood, who spent two months there, aided by Helper Wang and Colporteur Yang. There was much encouragement in the number of people that came to listen to the Gospel message, and the number of tracts sold. Mr. Slimmon is at present in charge of this new station.

SHANGHAI.

The Society for the Diffusion of Christian and General Knowledge has had a year of unexampled prosperity. The sales of literature have doubled that of any previous year, the total being about \$30,000 worth of useful literature. The business has so expanded as to require the appointment of a business manager, and also more commodious rooms for the translation bureau. There are seven translators constantly at work.

Our own missionary, the Rev. Donald MacGillivray, has completed, during the year, the translation of thirteen important books, including such as "Bushnell's Character of Jesus," "The Universe, or the Infinitely Great and the infinitely small," "The Kingdom of God," by Professor A. B. Bruce; "The Life of Dwight L. Moody," "The Spirit of Christ," by Andrew Murray, etc. Besides these important books Mr. MacGillivray has contributed many miscellaneous articles to magazines and reviews, and in addition has acted upon twelve different Committees and Societies connected in one way or the other with the evangelization of China.

Encouraging communications come reporting the benefit received by Native Pastors and others in reading these books. But individual testimonies are insignificant evidence of the result of the circulation of tens of thousands of such books.

When it is remembered that in eleven of the eighteen Provinces in China, Universities of Western learning have been already established, the demand for

Western literature is manifest. It may not be extravagant to say that, if, instead of seven, there were seventy, or even seven hundred translators at work, they would not keep up with the requirements of that vast population, just awakening to a sense of their need.

The Rev. Timothy Richards, through whose representations to the Royal Court, these universities are being founded, urged several years ago that a small percentage of the custom's revenue be devoted to the education of the people by the liberal circulation of suitable literature. Had that, or some similar scheme been acted upon, the great losses of the boxer movement would, in all probability, have been avoided.

MACAO.

It is a pleasure to report that a considerable number of the Chinese in Canada have accepted Christ as their Saviour. As soon as that step is taken they naturally feel a desire to have the Saviour they have found made known to their friends at home. As they are constantly returning to China, it was deemed wise to organize a Mission, in connection with which the influences and services of such as returned could be utilized, and for that reason the Macao Mission has been formed.

There is not much yet to report. Our first missionary, Rev. W. R. MacKay, was designated, in Montreal, on the 16th September, 1902, and arrived in Macao on the 31st October. He was warmly welcomed by the missionaries of other boards, and immediately applied himself to the study of the language.

There is an independent Christian college in Macao designed to provide higher education through the medium of the English language for the better class of Chinese. In this institution, Mr. MacKay has been teaching some classes, which brings him into contact with Chinese students, and gives him experience that will be valuable in days to come.

Although there is a Chinese population in Macao, the Portuguese are in authority. This will probably be an obstacle to work in the city. As Chinese in America come from districts some miles inland from Macao, the work will naturally gravitate in that direction.

Already Mr. MacKay has stationed a Native Preacher, Ching Kwan Tseng, in Ping Lam, a village of about eight thousand, eighteen miles from Macao.

CHINESE IN ONTARIO AND QUEBEC.

Dr. Thomson and his assistant, Mr. Chen Sing, are indefatigable, and the work is full of encouragement and hope. There are in Ontario and Quebec about 2,000 Chinese, and at many points Christian effort is put forth in their behalf. In Montreal there are 16 Sabbath schools, and two night schools, and the Chinese have begun to take advantage of the public school. There is a growing desire on their part to avail themselves of their opportunities, and improve their conditions in life. Thirteen were baptized during the year. Nine of these were baptized by the late Principal MacVicar, which was one of the last public acts of that eminent man and devoted friend of the Chinese.

In Toronto there are six Chinese schools in connection with Presbyterian Churches, which are attended by from 150 to 200 Chinese. The interest amongst pupils and teachers is singularly hopeful. Mr. Thomas Humphries has been employed by the F. M. C. to give a portion of each day to this work, with satisfactory results. Great carefulness is exercised as to the administration of baptism, and some are held back who wish to thus identify themselves

with the Christian Church. There are at present 12 to whom the ordinance has been administered and who are in the full membership of the Church.

The Christian Endeavour Society is a new and interesting feature of this work. Some of the most advanced Christians are taught the Scripture lesson during the week, and they in turn, in the Chinese tongue, repeat what they have learned to their countrymen. Attendance is good, and the bearing of the pupils respectful and devout. In Ottawa there are three Sabbath schools, and nine have professed faith in Christ, the total Chinese population being about one hundred. At many points from Halifax to Winnipeg and the Pacific Coast similar work is done with such appliances as are at the command of ministers, who appreciate and accept the responsibility that rests upon them.

CHINESE IN BRITISH COLUMBIA.

Work amongst the Chinese in British Columbia is increasing in interest and extent. At the following eleven points work has begun, and in some cases with much encouragement:—Victoria, Vancouver, Cumberland, Vernon, Nelson, Calgary, Medicine Hat, Canmore, Olds, Macleod and Lethbridge.

The missionaries itinerate at many other points, where Chinese colonies are found.

Our Superintendent, Mr. Ewing, reports that inquiries come from many quarters as to the possibility of commencing new work, which indicates an awakening sense of its importance. Mr. Ewing has so far assiduously devoted himself to the acquisition of the language, on account of which he wisely refrained from as much itinerating as will be in order in subsequent years.

Agitations as to capitation tax necessarily disturb and increase the difficulties of the situation.

VICTORIA.—The total Chinese population in Victoria is 2,728. The average attendance at the night school is 52, at the weekly prayer meeting 18 and at the Sunday Bible Class 21. Open-air services and visitation in boarding houses, stores, hospitals and homes have been maintained. Two Chinese elders have been elected to the Session of the Chinese congregation. There has been one adult baptism, and the Sacrament of the Lord's Supper was dispensed twice during the year. An attempt was made by Miss Gunn to open a Chinese Girls' School, but without success. They could not be induced to attend.

VANCOUVER.—The average attendance in night classes is 43. Mr. Ng Mon Hing visits diligently in the city, and, in addition to the work in the city, Mr. Colman has visited sixteen outside points, where the welcome was cordial. These points represent an aggregate of 1,267 Chinese. In Vancouver City there are in all 2,013 Chinese.

The Chinese contributed \$167.40, which was largely applied to benevolent objects. Christian Endeavour Societies in Vancouver showed their interest by contributing \$120 towards the expense of the Mission.

CUMBERLAND.—This has been for some time less encouraging than formerly, because of fluctuations in population, but Mr. Hall reports that the past few months have been more cheering than any period in the last two years. The average attendance at the night school is 12. There are about 600 Chinese in the town.

NELSON.—There are 277 Chinese in this town, and Mr. F. W. Laing, a prominent member of the Presbyterian Church there, takes supervision of the

work. There are 21 enrolled, and an average of 12 in attendance. Two baptized Chinese Christians are helpful, and one of them, Mr. Ma Won, gives good promise as a Christian worker.

CALGARY.—There are about 200 Chinese in all, and the work has been exceedingly encouraging. Mr. Porterfield, the Secretary of the Y.M.C.A., superintends, and says:—"We have commenced this year under very hopeful prospects. The interest in the spiritual side of the work is just as great as in the secular side."

There are 18 baptized Christians, 5 of whom were baptized during the year. The Sabbath services are attended by 26 Chinese. At other points, above named, where ministers and other Christian workers have begun to take an interest, sufficient time has not elapsed to speak of results. We doubt not that results will come. There will be a harvest from the seed sown.

INDIANS IN MANITOBA AND NORTH-WEST TERRITORIES.

In past years somewhat full reports of Indian Missions were submitted to the Assembly. This report, which is much condensed, will yet, it is hoped, give such a bird's-eye view as will not be unintelligible.

1.—**CECILIA JEFFREY SCHOOL.**—This is a new Boarding School. In that region on the west and south of the Lake of the Woods, there are 500 pagan Indians, 226 of whom are children under 18 years. There are at present 15 in the school. A good field for school work.

2.—**PORTAGE LA PRAIRIE.**—This is one of our oldest and best Boarding Schools, if not one of the largest. There are 26 children on the roll. Three miles south of the town is the Indian village, of well-to-do Indians, 130 in all. The Church is neat and attended by 30 or 40; of these 19 are communicants. The fine farms about the Portage give plenty of employment, and hence increasing comfort.

3.—**SWAN LAKE.**—From being one of the most hopeless, this Reserve is becoming one of the hopeful ones. New families are joining them, so that they number from 130 to 140 in all. There are 20 children of school age, and 13 in attendance. When first allowed to come to the school, it was on condition that they should not be taught the "praying religion," not have their hair cut, and not be sent away to another school, industrial or boarding. The promise was given that these things would not be done without consent, and yet three boys have already gone to the Regina School, and others will follow. Confidence has been won, and already this, one of the vilest bands in the West, is becoming industrious and responsive to good influences. The drink fiend is being successfully fought, and this year 200 acres of land will be placed under cultivation.

4.—**ROLLING RIVER.**—Total population, 96, of whom children number 35. There is visible improvement in the quality of homes and the home comforts. Land is being more and more brought into cultivation, and the sale of wood from the Reserve is a profitable industry. A morning and afternoon Sabbath service is conducted at different points on the Reserve, the former of which is well attended. A school will soon be begun. Dr. Gilbert, the missionary, is gaining access through medical skill—even the medicine men availing themselves of his services.

5.—OKANASE.—This Mission is as Christian as an ordinary Christian community. There are 91 in all, and of these 40 are children, 20 are of school age. Of the latter 7 are in the Regina Industrial School, and the remaining 13 on the day school roll. There are no pagans. The whole population takes an interest in the Church, 45 being on the Communion roll. They contributed last year \$20.10 to Foreign Missions and \$7.35 to Manitoba College. Drink is there, as in so many other places, the besetting sin. Mr. McPherson, after years of faithful service, has resigned, and will be succeeded by Mr. James McAlister.

6.—BIRTLE.—This is an excellent Boarding School, probably none better in the Western country. There are 45 children on the roll, and the progress is entirely satisfactory. Mr. McWhinney, the Principal, says:—"Teaching Indian children is a revelation to me. I expected to find them dull and lacking in interest in school work. On the contrary, I find them as quick to learn as white children, and far more eager for instruction. Often I have had them beg for a lesson to be continued rather than have recess." Three of the larger pupils became full members of the Presbyterian Church in Birtle. In industrial and domestic work they are as eager and teachable as in the school-room. Miss McLaren and Miss McLeod, assisted by Miss Finnie, attend to the internal economy of the institution with usual success.

7.—LIZARD POINT.—On this Reserve there is no day school, as the Birtle Boarding School is really their school, and children of school age are there. There are 38 children under school age. The whole population of the reserve is 126, and through death the number is decreasing. The missionary, Mr. Pritchard, reports one-third of the whole population in attendance at Sabbath services, and about 20 at week-day services. The Indians not only attend, but take an intelligent interest, and the missionary is often asked after service to explain remarks made in his address. As it is only about two years ago a church was built upon that Reserve, the progress made is satisfactory. The Indians themselves purchased a bell.

Seven infants have been baptized, and some seek admission to the Lord's table, who are kept under instruction. Industrially the progress is manifest in better crops, better houses and less pauperism.

8.—BEULAH.—For this Reserve also the Birtle School provides. It is one of the smallest and one of the most interesting of all our Indian Missions. There are only 68 souls all told, 23 of whom are children. Of these 11 are in the Birtle School and 4 in the Regina Industrial School. They have a beautiful church that will seat 100, and there are 30 on the Communion roll. Two were added during the year and two died. They have a W. F. M. S. Auxiliary that meets weekly, and last year contributed \$50 to the Foreign Mission Fund. They cultivate grain and stock, and are generally moral and prosperous. They appreciate the missionary, and are reasonably attentive to his ministrations.

9.—CROWSTAND.—There are three Reserves side by side, embracing over 70,000 acres of land. The population of the three bands does not now exceed 220. Regular Sabbath services are conducted at two points, with a Communion roll of 38, according to report of last year, this year's report not having come to hand. In the Boarding School 47 children were enrolled. The Rev. Neil Gilmour for six years was missionary and Principal of the school, and

made an excellent record. There are 320 acres of land, and the value of implements, stock, supplies, etc., has so grown that Mr. Gilmour reports a financial gain in six years of \$4,979.83. Mr. W. McWhinney, who was Principal of Birtle, is now in charge, and we doubt not will maintain the good standing of school.

10.—PIPESTONE.—This is another small Reserve of only two miles square and a population all told of 60 persons—of these 20 being children. There is no day school, and the parents refuse to let their children go to the Industrial School, so that children are growing up without education. Compulsory attendance should be enforced. Attendance at Sabbath services is good. There were 8 baptisms during the year, 6 children and 2 adults. There are now 10 communicants, 2 having left the reserve during the year.

11.—MOOSE MOUNTAIN.—Three Reserves were consolidated into one in 1901, and it now includes Crees, Salteaux and Assiniboines, 199 in all. There are 72 children in all, 25 being of school age. There are 12 of these in the Regina Industrial School. A day school was started last fall on the Reserve and there are 18 on the roll, making good progress. The Mission is a comparatively new one, but, as to attendance at religious services, school attendance and material progress, there is encouragement.

12.—HURRICANE HILLS.—This is one of the discouraging Reserves. There are in all about 200, largely pagan. Five adults and five children were baptized during the year. The Lord's Supper was dispensed once; five communicants partaking. There is no day school. Some of the children are in the Regina Industrial School.

13.—MISTAWASIS.—There are 76 communicants on this Reserve, being an increase of 8 over last year. So large a Communion roll, in a total Indian population of 160, indicates a prosperous Mission. There are 33 on the day school roll, with an average attendance of 21. The W. F. M. S. Auxiliary contributed \$36 and the congregation \$91.25. There were 11 baptisms during the year.

14.—ROUND LAKE.—This is perhaps the best known of all our Indian Missions, and certainly one of the most interesting. There are five Reserves under the care of our missionary, the Rev. Hugh McKay, with a population of about 400. Some are pagan and some are Roman Catholic, but there is steady progress. There were 5 adults and 6 children baptized, and 5 added to the Communion roll during the year, making a total of 38 communicants. The attendance at Church is very gratifying, some driving ten miles to service. The attendance in the storms of winter is better than in the summer. Mr. McKay reports having seen four blind people led into the church at one time. The removal of certain ringleaders has given access to points hitherto difficult to reach. There are 25 in the Boarding School, and progress is satisfactory. The number has been reduced by the rigid exclusion of all scrofulous children, which has improved the health of the school.

15.—FILE HILLS.—This Boarding School is in close proximity to four Reserves, the total population of which is 231. Miss Kate Gillespie and her sister are in charge of the school, and in addition are giving much time to evangelistic work and with evident success. There are 86 children on the Reserve, 17 of whom are in our school, the majority being found in neighbouring Roman Catholic schools. Four ex-pupils of this and the Regina School have established comfortable and prosperous homes. Eleven children (including

two infants) were baptized during the year. Two adults were baptized, one a school girl and the other a leading man on the Reserve. There are 7 on the Communion roll. This is virgin soil, so far as Mission work is concerned, and the more difficult because of Roman Catholic opposition.

16.—MAKOCE WASTE RESERVE (Prince Albert).—In this small school 21 children are enrolled, 8 of whom attend regularly. Services are held for adults and attended by from 23 to 30. Miss Baker and Miss Cameron have had charge of this work for years, and report many evidences of change for the better. It is slow, but the tendency is upwards.

17.—REGINA.—It is regretted that an exceedingly interesting report from Mr. Sinclair, the Principal of the school, cannot be given in full. Keeping up the supply of pupils is the greatest difficulty, and is an increasing one. As the revenue depends upon the number in attendance, the existence of the school depends upon this supply. There are at present 93 pupils, but sixteen of these are under ten years, and receive only half the grant.

In other respects, the work is full of encouragement. The pupils who have gone forth are reflecting credit upon themselves and the institution, as domestic servants, farmers and farmers' wives. One young man, John Hunter, won for himself distinction in the South African war.

Some of the pupils have come to appreciate so highly the value of the school as to seek an extra year—a sort of post-graduate course.

Miss E. L. Cornelius, a full-blooded Oneida Indian young woman, is teacher in the junior department, and has proved peculiarly capable. She is a graduate of the Hampton Normal School, and applies the most recent and approved educational methods. The demeanor of the sexes and the general tone of the school has decidedly improved. Vulgarity or suspicious behaviour on the part of any of the pupils is promptly reported by other pupils, and thus officers and pupils combine to maintain the moral character of the institution.

Eight pupils were received into the full membership of the Church during the year. One lad, who had left the school, and had tempting encouragements to start farming, expressed an earnest longing to be a missionary to his own people. Being afflicted with *scrofula*, and fearing that would prevent his acceptance as a student, he wrote: "I have prayed God earnestly that He would spare me this affliction, but the lumps are still there. I shall still stick to my resolution, and will give my life to His service whatever it is worth."

The demand for engineers, in connection with threshing and other Western industries, has led Mr. Sinclair to take steps to secure a traction engine for training in that department. Through the generosity of friends, chiefly in Regina, this has been made possible.

SUMMARY.—In these 17 missions there are one Industrial School, six Boarding Schools and five Day Schools. On the different Reserves occupied there is a total population of about 2,200, of whom 560 are children. About 370 children are on the school roll. There were 45 baptisms during the year. Whilst the Gospel is preached to the adult population, and there are about 375 communicants, the principal factor is educational work.

INDIANS IN BRITISH COLUMBIA.

ALBERNI.—Beautifully situated at the head of the Alberni Canal stands the Village of Alberni. About a mile from the village two Indian bands, the Sheshahts and Opitsheshahts, dwell. The Boarding School along side the vil-

lage has an attendance of 43 children. It is conducted as such institutions usually are, giving the children the benefits of industrial training within the home, and on the farm outside. There were in the past 16 acres of land in connection with the school. The remainder of the farm, from which the school site was taken, was, this year, in the market for arrears of taxes, and was purchased by the Committee, subject to redemption within two years. We thus have the prospect of 176 acres, much of which is valuable land, which will not only be a valuable training for boys, but also aid in maintaining the school. The day school is still conducted by Mrs. K. Cameron with good success. There are 26 boys and 16 girls on the roll, 42 in all. The children have made good progress, and constant attention is given to religious instruction.

BARCLAY SOUND.—There are four bands in the Sound. The two largest are the Uclulahts and Ohiahts, and at their villages day schools and regular religious services are conducted. The two smaller are systematically visited by Mr. Swartout, who can give them his message in the Ahts language. There has been a decided change for the better in the drinking habits of the people, and there have been some professions of faith in Christ.

The attendance at school is not only interrupted by their wanderings, but also by the custom that regards girls "of age" at twelve years, when they are supposed to give their thoughts to marriage and not to education.

AHOUSAHT.—The importance of endeavouring to keep the children continuously under instruction has led Mr. Russell to take into his own home 25 children. With limited accommodation the inconvenience is manifest, but the need is urgent. Efforts have been made, so far unsuccessful, to get a Boarding School grant from the Government. Without Government authority, children cannot be retained in the home, when some parental whim wishes to have them removed. Children received into Boarding Schools established by Government are received on such conditions as protect them from needless interruptions in training.

There are on that Reserve in all about 100 children, 60 of whom are of school age. It is to be regretted that Government aid is so reluctantly given in work for which the Government is responsible by treaty, and in which the importance is so manifest. The total population of the Ahousaht band is about 300, and they are amongst the sturdiest on the coast. The progress already made in social conditions is sufficiently encouraging to justify long expectations.

GENERAL.

1.—Enlarged opportunities and pressing appeals have led the Committee to make a larger number of appointments during the last year than has been usual in one year. With so many open doors, and men offering their services the Committee felt that, not only would the General Assembly approve this action, but that the Church would provide for their maintenance.

2.—For thirty-seven years the Foreign Mission Committee has been carrying on work amongst the Indians within the bounds of our own Dominion. The Committee feel that the time is at hand when that work should be transferred to the care of the Home Mission Committee, and, with that end in view, have adopted the following resolution:—"That the Convener and Secretary be instructed to confer with the Home Mission Committee and with the Women's Foreign Mission Society in order to ascertain whether, in their judgment, it is desirable to transfer the work now done in Canada, or any part of it, to

the Home Mission Committee, and, if so, on what terms such a transfer should be made."

3.—The F.M.C. having taken into consideration the confession of Faith constitution, Canons and scheme of local organization of the proposed Church of Christ in India, Presbyterian referred to them by the last General Assembly adopted the following resolution:—"Whereas the doctrinal basis of the proposed United Church in India is in general accord with the recognized standards of Presbyterian Churches, especially with the Westminster Confession, the Welsh Calomistic Confession and the Confession and Canons of the Synod of Dart; whereas, a union into one organic body of the many Presbyterian sections of the Native Church in India, will give visibility and prestige, in the presence of so vast a heathen population, and will inspire confidence and co-operation in aggressive work; whereas, the tenure of property and the relations already existing between missionaries and the Home Boards and Churches they represent will not be affected by this proposed union; therefore, the Committee recommend that the General Assembly approve of the proposed union, and sanction the connection of our missionaries and congregations in Central India, therewith."

4.—The Presbytery of Minnedosa are making application to the General Assembly for leave to ordain Mr. W. McWhinney as missionary to the Indians on the Crowstand Reserve. It is important that the missionary on that distant Reserve should have the power to dispense ordinances, and Mr. McWhinney, in scholarship and character, as well as efficiency in service, is worthy of such recognition.

5.—The Committee have prepared the following outline of policy for the administration of Foreign Mission work:—

I.—STATIONS.

(1) Establish few stations and locate them in important, strategical centres, always having regard to sanitary conditions and the strength of the population.

(2) Appoint to each station not less than two ordained ministers, one medical man or woman, two or more trained nurses, a suitable staff of teachers, male and female, and Zenana visitors, where required.

(3) In opening new fields each Central Station should be equipped with comfortable residences, a building or buildings suitable for School and Church purposes, and an hospital, when considered necessary.

(4) Select carefully the men who are to be sent out with a special view to three things: 1. Evangelistic spirit. 2. Skill in teaching. 3. Capacity for organization and administration.

II.—EDUCATION.

(1) In each Mission field, i.e., India, China, and Japan, establish and equip one College chiefly for training young men for the ministry. The College at the same time to provide a sound general education as an auxiliary to the spread of the Gospel, and as a means of attracting those whom we cannot otherwise hope to reach. The Gospel is for all; for the rich as well as the poor.

(2) The Canadian agents, while prosecuting earnestly the work of preaching the Gospel to the people to whom they have been sent, to regard as their chief work the raising up of a native ministry and through them the establishment of the Church.

(3) The ministers at each Station to look out young men who have gifts and graces qualifying them to be teachers and preachers. Use and train them as primary teachers, catechists, and exhorters, under their own personal supervision until their fitness has been sufficiently tested, and then send the best of them to the College for further education and training.

(4) The College graduates so far as possible to be employed as teachers and preachers in the Stations from which they came in order to provide each Station with its own corps of native agents.

(5) In the education of both men and women, the latter especially, the utmost care must be taken not to educate them away from their own people, thus unfitting them for the station in life which in God's providence they must occupy.

III.—SELF-SUPPORT.

(1) Fully realizing that the greatest need of the heathen world to-day is self-supporting, self-propagating Christianity, the Foreign Mission Committee believe that the chief endeavour of each Mission should be to establish independent, self-reliant and aggressive Churches in every Station, and to this end, the principle that the disciple must deny himself for the Gospel's sake should be constantly emphasized, and all converts should be diligently taught, from the very first to give rather than to receive.

(2) Realizing also that in order that Christianity may become self-supporting and self-propagating in any country, it must be begun and continued on a practical basis; therefore each Mission should use every effort to carry on operations on a basis within the possibilities of the resources of the people and country where the Mission is located. That is to say, in the matter of School and Church buildings, methods of work and cost of administration, many of our home ideas must necessarily be laid aside so that the work inaugurated by foreign men and foreign funds may not be wholly and utterly beyond the means of the Native Church to support and perpetuate.

(3) Believing that any individual or nation is richer with the Gospel than without it, and that any heathen people are better able to support the Gospel than heathenism, it should be the earnest endeavour of each Mission to secure the maximum of voluntary workers with a minimum of expenditure of foreign funds on native agents. In striving to attain to this ideal, missionaries should urge upon all converts the fact that those who embrace Christianity should be willing to sacrifice more for the sake of Christ than would equal what they were compelled to do and to give for their heathen abominations and ceremonies.

IV.—MANUAL TRAINING.

The aim of manual or industrial training in connection with Foreign Mission work is to make self-reliant, intelligent, and skilful workmen who shall be able to compete successfully with their as yet unchristianized fellow-workmen, able to maintain themselves and families, and in time to help to support the Gospel. To this end specially qualified instructors should be provided by the Mission.

V.—ADMINISTRATION.

The Foreign Mission Committee regards each Mission field as a self-governing community entrusted with large powers of administration. At the same time the Foreign Mission Committee reserves to itself the right of initiative, supervision and negative, in accordance with the rules sanctioned by the General Assembly and in harmony with the principles and practice of the Church.

W. F. M. S.

5.—The W. F. M. S. has had another prosperous year. The total receipts were \$52,284.75, being \$4,664.37 more than that of the preceding year. Their auxiliaries and Mission Bands now number 1,023, with a total membership of 23,018.

FINANCES.

6.—From the accompanying financial statement it will be seen that the receipts from the Church are considerably greater than in the preceding year. The expenditure, however, increased by \$26,000, so that the large balance on hand in the Ordinary Fund at the beginning of the year has been about exhausted. The Reserve Fund or working balance has been increased by an additional contribution of \$2,500 from the Century Fund, so that it now stands at \$47,500. This, however, is only available for meeting salaries, etc., during the year, and must be intact at the close of every year. It is not, therefore, available to meet any shortage or deficit that may arise. The total estimated expenditure for the current year is \$151,645. Of this amount \$51,815 is for the work of the W. F. M. S. The estimate for the work directly under the Foreign Mission Committee is \$99,827, which is \$35,000 in excess of the receipts from the Church last year. In other words, to meet the expense of carrying on the work for the current year, it will be necessary, apart altogether from the Funds of the W. F. M. S., to receive from the Church \$35,000 in excess of the amount got last year. The Committee direct special attention to this, and earnestly solicit the hearty co-operation of ministers and sessions in securing the amount required. It means practically an increase of 90 per cent. on the amount received from congregations last year. The additional expenditure is consequent upon the enlargement of the work and could not well be avoided. The Committee, however, did not feel justified in yielding to the urgent appeals from the missionaries in the different fields for an increase of the staff to the extent they desired, yet it is important that the staff should keep pace with the requirements of the work, and it is hoped that the growing liberality of the Church will make a steady increase possible in the future.

APPENDIX.

I.—NEW HEBRIDES.

ERROMANGA.

Thirtieth Annual Report of Rev. H. A. Robertson, D.D.

I noticed not long since that, as there are now so many labourers in the Foreign Mission Fields of our Church, the missionaries must make their reports very short, if they are to be printed, and especially if they are to find a place in the F. M. Report of the Assembly. It is more difficult sometimes to make a report, or letter, short than long, and it is simply impossible to say in a few words what one would like to tell of the work within the bounds of his station or field of labour. But how much better it will be to have brief reports from all the missionaries of the Church than fuller statements from only a few of them.

Matters are looking much better on Erromanga now than they did a year ago and very much better than they were two years ago. We have not yet been able to reopen schools or Sabbath services in the Unepang district; that is to say, on the south side of the island, but in time we hope to do so. We have visited thoroughly a large number of districts during the year and have settled four teachers at old stations, and the people of four others districts have just applied for teachers. All classes and services have been specially well attended at our two Central Stations, and particularly so at Dillon's Bay. There about forty young boys and girls attend most regularly.

The Sacrament of the Lord's Supper was dispensed at Potnarevin in April. One hundred and twenty Church members were present, and perhaps two hundred and fifty others, who are not Church members. There has been no sickness of a serious nature among the Erromangans this year. Indeed, the general good health of all our people has been exceptional for more than a year. As a family, we also have enjoyed a large measure of good health, so that we have been able to attend regularly to all our various duties at both stations. By a great effort we have repaired the damage done to buildings, etc., by the hurricane of January, 1901, and, through the liberality of friends in Canada, Britain, Australia and the New Hebrides, we hope, in August and September of the coming year (1903), to replace at Dillon's Bay "The Martyrs' Memorial Church." We have at present fifteen teachers. We married fifteen couples this year, and received from the grooms £6 towards the Teachers' Fund. We have prepared seven hundred pounds of Arrowroot this year, but hope to make a much larger quantity in 1903. We have only one teacher labouring under another missionary at present, as both Ukina and his wife, who did splendid work for over three years, died on South Santo a few months ago.

Along with Naling, the only Erromangan teacher at present labouring on another island, Ukina and his wife were highly esteemed, not only by Mr. and Mrs. Bowie, but also by their people on South Santo.

A year ago an Erromangan teacher and his wife and a single woman of Erromanga all died at Dr. Sandeland's Station at St. Phillip's Bay, Santo. But of this faithfulness and excellent work I gave a statement, gathered from Dr. Sandeland's letter.

EFATE.

Report of Rev. T. W. M'Kenzie, D.D.

Having received permission from Mission Synod to take a furlough, we came up from the islands in November, and took a house up here on the Blue Mountains, where we intend spending most of our time. A severe attack of sciatica prevented me from sending my report at the end of the year. I am only just now getting clear of it. I had a large amount of manual labour before leaving, and in consequence was a good deal run down. I ordered material for a weather board Church, with corrugated iron roof for Pango, one of our out-stations, and had arranged with the Mission carpenter to come and erect it. The steamer was wrecked, however, the trip he was to have come south. I

then set to work and built it myself, the natives, of course, rendering all the help they could. Putting on the iron in the heat of the sun was especially trying, and in consequence I had an attack of lumbago and sciatica. Did not get quite rid of the latter, and a week or two of cold wet weather after coming here brought it on more severely, so that it became chronic.

During the past year there was nothing startling or unusual in the work. In addition to spending sometime at the out-stations, I visited How Harbour, and spent a week with the people there, dispensing the Communion and marrying several couples. Had charge of that station in Dr. Macdonald's absence. Dispensed the Communion twice to our own natives, and had several accessions to the Church on both occasions. The collections amounted to about £20, and of this sum gave £5 to the Ambrim Hospital, and £5 to the Training Institution at Santo. Four young men from Mele, three of them married, were sent to the Institution, and another, who had completed his course there, went with Dr. Crombie to open a new station on Wala Malekula. At the head station our people enclosed, at their own expense, their village, including Mission premises, with a substantial fence of wire netting.

An important event was the arrival of the British resident, Captain Rason. He and Dr. Farant, the French resident, are on very good terms, and no doubt their united efforts will be productive of much good to the group. Dr. Farant is a very courteous gentleman, and seems anxious to protect the interests of the natives. On several occasions he has helped us, and we have always found him most sympathetic and obliging.

As usual our people prepared a quantity of Arrowroot, upward of 2,000 pounds, as a contribution to the Mission. As in former years, the several villages paid the salaries of their own teachers. I forgot to bring my note book, and so cannot give statistics.

I hope to get printed in a few weeks a Hymn Book, as there are none of the old ones left. It will contain about a hundred and fifty hymns. Of these about one-half are in the old book. Most of the others I translated here lying on my back. We teach the young people English Hymns, and they take great delight in singing them.

SANTO.

No formal report from Dr. Armand has been received by the Foreign Mission Committee, but the following letter, written on December 17th, 1902, is almost an equivalent.

Another year with its joys, and its sorrows, has almost gone. Time slips by quickly. Thirty years ago last Guy Fawkes' day we first left our native land for the New Hebrides; and on the nineteenth of next month it will be sixteen years since we last saw our loved ones in Nova Scotia. Many and great have been the advances made in the world since 1872.

We, too, have witnessed wonderful changes in these distant isles. Workers have been rewarded with cheering success. Few labourers, I think, see greater results from their efforts than do missionaries. Few there are, too, that enjoy life more than they. The hundred-fold promised is not withheld. The progress made in any one month, or year, may not appear great, but after many days fruits show forth in all their beauty. Let us all, therefore, in whatsoever good work we are engaged, go on with cheerful confidence, for the crown shall certainly be ours.

There has been little of special importance connected with our Training Institution duties during the past year. Steady routine work has been carried on. The results cannot be put down in figures. Time alone can reveal them. This, however, we can say: the Master has been with us according to promise.

Perhaps the most noteworthy event on S. Santo has been the incoming of British settlers to occupy the vacant land around us. Numbers came, and some have gone; but the majority are still here carving homes for themselves and their families out of the tangled tropical bush. Like all pioneers they are called upon to endure hardness in opening up this new country. We trust that in due time they, too, may be abundantly rewarded.

A few weeks ago a French cutter came into our harbour with her flag at half-mast. We soon learned that a tragedy had been enacted that morning

at North Malekula, by the bush people there, in which an English recruiter was shot dead, and one of the native crew dangerously wounded. We buried the body of the recruiter in our cemetery that night by lamp light. A mother, and sisters, will mourn over the untimely death of an erring son and brother. His death was not unexpected by some, as he was "wanted" by the natives in several places in the group.

No one need be surprised to hear of one or two more of his class meeting with the same retribution; in fact, it is the only way the natives have of protecting themselves. They are kidnapped by white men, and their evidence is not accepted in the investigations. We have been distinctly told by our Commissioner that no charge against a man can be sustained unless under oath of a white man, or a Christian teacher, neither of whom is likely to be present when an outrage is committed.

* * * * *

Seven of our time-expired students returned to their homes by the Moresby. Six of them "were detained two months by the wreck of the Mambare." Of the seven only one got a first-class certificate, and all the others got third-class. To help fill up these vacancies, three married couples came by the same steamer. At present we have thirty-six students, ten women, and seven young children.

The health of our community keeps fairly good. The weather has been changeable of late with strong and cool winds. The rains though frequent have been light. The rainfall so far this year is below the average, being 62.72 inches.

Our holiday season is near at hand. On Tuesday evening next we close our class-rooms for a fortnight. The usual recreations are being provided for. Our young people are looking forward joyfully to these happy days. Doubtless the shortness of our vacation intensifies their pleasures. Could we, the teachers, get away to a cooler region to recruit our strength we might give a longer rest to the pupils, but that cannot be. There are mountains in sight of us more than a mile high, but their tops are usually enveloped with clouds, so they are not likely to become health resorts. At present they are almost inaccessible.

A few weeks on some cool mountain during the hot weather would be very beneficial to us. The synod having met here in Tangoa this year, we have not spent a day away from the island for eighteen months. Our work keeps us closely at home.

JOHN MORTON,
Secretary to Mission Council.

PRESBYTERIAN COLLEGE.

By Rev. John Morton, D.D., President.

The teaching staff continued as in 1901, except that, during the absence of Mr. Macrae, Mr. Thompson took his class.

There were two classes, a senior and a junior. The number of students was fourteen. In the senior class were several who were school teachers, who should complete their course in another year. These ought to prove very valuable in the work.

We have others among our teachers who are also preachers, but who cannot attend College on account of the School work. One problem before our College is how to teach and train these men. The work in their case, and probably in the case of some others, must be to some extent extra mural, supplemented by short terms in school holidays. For this work text-books are necessary, and on general grounds it seems desirable that the results of Reverend Lal Bihari's studies on "Hinduism and Mohammedanism in relation to Christianity" should be secured and printed while he is yet with us. This applies to others also of our teachers.

Some changes in the College work will probably be made in the near future and will be duly reported.

THIRTY-FIFTH REPORT

Of Rev. John Morton, D.D., Tunapuna.

During the year Rev. H. H. Morton had charge of the schools and of finance. In all other matters we worked in common along the lines reported last year. I attempt only to indicate marked features of the year's work.

I. CONSOLIDATION.

1902 has been largely a year of consolidation. Our people have been enrolled according to locality and by families. Out of one general roll 17 duplicate books, one for the missionary and one for the district, have been constructed, by which every adherent can be identified at a moment's notice. The time and toil given to this will, we are sure, bear good fruit in promoting fellowship and organization and in enabling us to keep in touch with our widely scattered flock. Our roll shows 1,790 baptisms in this district commencing November 10th, 1881, with Alexander Campbell Blackburn, called after a brother minister, now of Merigomish, then in Trinidad.

II. SEPARATION.

The separation between the heathen and Christian community has become more marked from the fuller recognition on both sides of what the Church means. While this has its discouraging aspect we hope it is a step toward a higher Christian ideal and a more effective tribal conscience which will promote discipline and good morals.

III. INDUSTRIAL TRAINING.

The gift of carpenter's tools reported last year has given an impulse to industrial training. A number of our lads have been taught to earn a living chiefly in carpentry and agriculture.

IV. HINDI PRINTING.

A supply of Hindi type has been purchased locally for \$500 and an edition of Hindi hymns will be issued with the New Year. On hearing of this movement Mr. George Cadbury, Birmingham, very promptly and generously sent \$120; Mr. William A. Cadbury, \$150, and Mr. Peter A. McGregor, of New Glasgow, \$25, as a mark of their special interest. As the superintendence of this new departure falls on myself, I was slow to undertake it. Though we have met with even greater difficulty than was anticipated, I believe we have been providentially guided and that the time has come for a local Hindi Press.

V. THE GOSPEL.

While recognizing the fact that man's nature is complex and that he needs work and food and a healthy human interest, we do not for a moment overlook the chief means and the great end. The Gospel has been proclaimed widely and faithfully. The help of my son as assistant has not reduced the number of my services, but has enabled us to give double attention to all the outlying stations.

The faithful Rev. Andrew Gayadeen still holds the Caroni quarter and has given full proof of his ministry.

Rev. Paul Bhukhan was removed to Sangre Grande, 24 miles east from Tunapuna, a district that is fast becoming important and where there is scope for years of toil.

VI. OTHER WORKERS.

Mrs. Morton's health has been good throughout the year. She has worked on her usual lines. Sixty-four names have been added to her temperance roll. The "Girls' Home" has been in operation since June. Six girls have been in training, besides two motherless little ones. In this work she has been ably assisted by her Bible woman, Deborah Talarum. Two of the girls are to be married very shortly and new ones are expected to come in.

Over 60 girls have been trained in this home, 16 of whom have been married to teachers or catechists. With very few exceptions, the girls have done exceedingly well. The cost of the home was \$139.25. \$36 of this was earned by teaching sewing in the Tunapuna school, and \$25 came as a donation from Mrs. Riddell, of San Fernando.

At the Yaws Hospital a Sabbath morning service for about 150 children was kept up in Hindi and English, which was frequently taken by Mrs. Morton.

Our mission band under her direction earned \$43.08. Sewing in the schools was superintended as usual, and five evenings in the week she conducted a night school for working lads, assisted sometimes by Mr. or Mrs. Harvey Morton.

This school has been at work for four years, at a cost of not more than \$1.50 a month, besides lighting. The average attendance has increased from 19, as reported last year, to 32. Five of the advanced lads are taking a primary catechist's course under myself and are helping in Sunday School work. The eldest of the five also takes services. Besides helping in the night school, Mrs. H. Morton assisted in the Tunapuna Sunday School and helped to brighten our services by her singing.

VII. SPECIAL THANKS

are due to Messrs. George and William Cadbury, Birmingham, who, besides the donations previously referred to, have each contributed one hundred pounds sterling to our funds.

Thanks are also tendered to all our helpers and contributors.

I feel grateful to the Foreign Mission Committee for providing me with an assistant, without whose services the special work indicated could not have been undertaken.

Miss Blackadder speaks for herself.

THIRTY-SECOND REPORT

Of Rev. K. J. Grant, D.D., San F'do, Trinidad.

Brevity has been enjoined, hence in this our thirty-second report, we will avoid details that might be of interest.

This district is credited with two Canadian Missionaries, but Mr. Fraser has not been above four months in residence during the past two years, owing to his appointments by Council in other fields. His weekly visits, to pay, give out medicine, attend to matters of discipline in out-districts, together with Miss Archibald's visits to country schools, have given relief from an anxious and yet necessary part of the work.

Our eldest daughter, after about two years' service in the Girl's School,

recently retired, being physically unequal to the work. The Central School in which she taught shows a daily average (boys and girls) of 210. This is the practicing school for the students of the Training School, who, to attend an hour daily for practical teaching, simply descend a staircase to enter the several class-rooms. The cost of the Training School is wholly met by Government.

On the same floor with the Training School is Naparima College. From the teaching work Mr. Frank Smith, after three years, and Mr. Harry Kent, after one year's service, retired five months ago and have been succeeded by Mr. C. M. Pasea, B.Sc., A.B., and Mr. E. W. Coffin, B.A., both graduates of Dalhousie, Halifax.

The Local Cambridge examination of the students of Naparima College, taken in December, and reported on in March, was highly creditable to the teaching staff. Only one boy failed.

In Church Finance this year has been a testing one. A resolution passed two years ago committed the Central Church to self-support, but the unprecedently low price of sugar made the year a hard one. Curtailment was the order in every department, hence the meeting of engagement in the matter of salary required a struggle.

To this was added the cost of flooring a part of the Church, setting up 22 new pews, putting in three Gothic windows, painting the church inside and outside, and the up-keep of the Sabbath School. Total raised by the San Fernando Church, \$2,910.02. In this we include a bequest by an East Indian of \$100.

I may add that the Gothic windows were a gift by a Chinese member in memory of her late husband and his mother; and that the women of the Church through the Society of Happy Workers raised \$100 by special effort.

Our people gave willingly and generously, and a most hopeful feature is the interest shown by the women, young and old, in the finances of the church.

Of our staff of preachers three have led conspicuously in Christian liberality, viz., Babu Lal Bihari, A. Girdhari and C. Prayag. Their instructions and example have told mightily. To many of our dear Indian workers we are greatly indebted for faithful and fruitful service.

We have pleasure in reporting unabated interest in Sabbath and day school work, and, in a word, everything that makes for expansion and stability.

We would not have you think that we always sail in smooth waters and that the currents and breezes are always favourable, but we have so much to comfort and cheer that with every opening year we should take up a new song.

SIXTEENTH REPORT

Of Rev. W. L. Macrae, Princetown, Trinidad.

In April we left our field on furlough. Mr. Fraser, who then removed to Princetown, endeavoured to "Hold the Fort" here while keeping a grip of his work in the San Fernando Field. Under the pressure his health gave way, and for five weeks he was so seriously ill that his life was despaired of for some days.

An extra man, who could devote his whole time to vacancies of this kind, and at the same time be ready to fill up a gap when one should occur, would be a wise provision, and one that would promote the best interests of this Mission.

Until the month of April, in addition to the usual work, plans were made for the remaining months, which Mr. Fraser and Mr. Soudeen faithfully carried out. Two school houses were built, one at Brothers Settlement and the other at Chirkoo Village. The former was included in the estimates and the cost of the latter was covered by the sale of two teachers' houses and small savings in several directions. The Jordan Hill School was then removed to this village and amalgamated with the Cedar Hill School, the village being midway between the two. Thus one large school now does the work (and that to better advantage) of two small ones.

Two new men, Paul Niamat Khan and Peter Topaulsing, have been under training as catechists, and are giving promise of future usefulness.

The Friday afternoon class was regularly sustained. In this connection Mr. Soudeen has rendered invaluable assistance as well as in all other phases of the work, particularly the finances.

The Mission Band, under Mrs. Fraser's direction, did excellently.

Although the year has been a trying one, the contributions of the Native Church have exceeded that of last year by \$100.

The Sunday Schools have contributed (including the Children's Day Service) \$124.62, the Princetown Sunday School alone \$64.56, Mr. Ferreira's class topping the list with \$26.26. This we think a creditable showing, as the average attendance is only 49, and, with three exceptions, all Indian children.

We are now back to our work again after a very pleasant and profitable furlough, and, as we begin the year with renewed health and vigour, we look forward with greater hopefulness than ever to the great work before us.

TWELFTH REPORT

Of Rev. A. W. Thompson, Couva, Trinidad.

The plan of previous years was followed in working out the general problems of the Couva district during 1902.

A comparison of the "returns" hereto appended, with those of past years, will show that the trend of things keeps steadily upward. All through the year our constant aim has been to awaken the minds of our Christian people to a right appreciation of the responsibility that rests upon them for the conversion of their fellow-countrymen and of the need of individual personal effort, as well as worthy liberality if this is to be accomplished.

A "forward movement" is already under way.

The statistics for the year will be found in the Summary given by the Secretary of the Mission Council on another page.

EIGHTH REPORT

Of Rev. S. A. Fraser, San Fernando, Trinidad.

We resided in San Fernando three months this year, from the first of January to the first of April, when it fell to our lot to take up the work of Mr. Macrae in Princetown during his absence on furlough. I spent Monday of every week and also Tuesday of every other week assisting in the work of San Fernando country district.

Miss Archibald took charge of the sixteen schools in the country during my absence and kept the account books of this district for the year.

She also, assisted by Rev. Lal Bihari, did a very important work in going over our large Baptismal Roll and searching out the whereabouts of every man, woman and child, and writing their names in a small district book for the use of each catechist, and a duplicate book for the use of the missionary when he visits that particular locality. All removals from or to any district will now be noted, and books compared once a month. In this way we will be able to know where every Christian is and keep track of our people as they move from place to place.

In Princetown I had the valued assistance and counsel of Mr. Soudeen. The year has been in some respects a trying one, particularly in this district on account of the low price of sugar, which resulted in the abandonment of some estates and the curtailment of work on others. Some of the poor people were unable to sell their canes at any price. This made it difficult to realize the estimated amount of contributions from the Native Church.

Our staff also suffered considerably from fever, and, to make matters worse, I took ill with a bad form of malarial fever, said to have been contracted in Couva last year, which laid me up for five weeks. As Mr. Macrae was in his district the first three months and the last two weeks of the year, I leave the report of the work done to him.

In San Fernando twelve catechists were employed the first half and fourteen the last half of the year, doing the same work as reported last year. With one or two exceptions, they have done faithful work. All are given instruction every Friday in addition to the college training a number are receiving.

Three Bible women were employed under Miss Archibald, doing for the women what the catechists do for the men. Regular meetings were held in a number of places, besides teaching and visiting heathen women in their homes. There is much need for a further extension of this work.

Rev. D. Ujagar Singh has been ill for the whole year with chronic asthma. He could not do more than supply occasionally for us on Sabbaths.

We are doing our best to inculcate into the minds of our people the idea of self-support.

Thanksgiving services were held in five of our outlying districts, to which the people brought of the fruits of the land and offered them as a thanksgiving. We realized in this way \$216.

The contributions in this district show an increase over last year of \$58.19. Of this amount \$100 was a bequest from a member to Susamachar Church. \$247 was a special amount raised by the congregation of Susamachar for the painting and re-seating of the Church. The balance of \$211.19 was an increase in the ordinary contributions. The total contributed for the year by the Native Church was \$2,915.02.

Our schools, with a total enrollment of 2,321 and daily average of 893, have done excellent work. In the Government examination of five schools there were only three failures.

Religious instruction is faithfully given for three-quarters of an hour every day in all our schools. Large numbers of the heathen children can give not only the Titles and Golden Texts, but also a short account of the lessons for the quarter. As a result one influential heathen complained very bitterly against one of our teachers, that he had spoilt all the boys so that he could not get them to dress up as formerly to represent the gods in a heathen play.

To curtail expenses and pay our debt we closed two of our small estate schools, but the total average for all is only nine less than last year. Dewi School received Government aid from the first of April.

The Government have again changed the school laws, raising the minimum attendance required from 30 to 40, rendering it more difficult to maintain existing schools or get aid for new ones.

Sunday School work as usual has received a considerable amount of attention. The attendance is not so large as at the day schools on account of the prejudice of the heathen against sending their children to a purely religious school.

We have put forth a special effort to get all our school children to pledge themselves against the use of liquor and tobacco. Rum, ganja and opium, licensed to be sold by the Government, are the curse of this island and the greatest enemy to our work.

We sold old Shady Grove College house and erected a new one on the old site, in which we are now comfortably settled. This makes the sixth house we have moved into since our return from Canada three years ago.

We are pleased to say we have succeeded in wiping out our debt.

A call comes to us for a catechist to labour in a place twenty miles distant from here in the woods. We hope to be able to respond this year. Notwithstanding drawbacks and hindrances, the work of the Lord is progressing steadily—Jesus shall reign.

We wish to thank all the kind friends at home for their contributions of clothing, Sunday School cards, papers, etc., and especially the Kirk congregation at Gairloch for their substantial help.

SECOND REPORT

Of Rev. H. H. Morton, Tunapuna, Trinidad.

The work of the Tunapuna Field that has fallen especially to my charge has been our schools and finance.

I have had fifteen schools assisted by Government, and one unassisted, to supervise.

A school has been opened at Cumut in the woods. It is assisted by Government in place of the Arouca School, which was given up in April, when the Government withdrew assistance.

The fifteen assisted schools cover a district 35 miles east and west by 15 miles north and south. The unassisted school is situated in the woods at Las Lomas. It is hardly accessible except in the dry weather.

In the assisted schools, during the first hour's instruction, the scholars are taught reading, hymns, catechism and Bible knowledge in their own language.

while the other four hours are devoted according to Government rule entirely to secular instruction in English.

The most important and difficult part in supervising our schools is to secure efficiency in religious instruction and to interest and impress the children. Every month a new Hindi Hymn is given out to each school to be learnt with a certain portion of the Hindi catechism and of the "Story of Jesus." On my visits to the schools the children are closely examined, their progress noted, and marks awarded to the teacher accordingly.

For the last two years prizes have been awarded to the teacher who secured best results. The prize this year fell to David Lakham, the teacher of our Maracas School. This method of examining and encouraging is found to be very beneficial both to the teachers and scholars.

In connection with our Maracas and Tunapuna Schools some carpentry has been taught with good results.

Several of our schools also have a garden cultivated and cared for by teachers and pupils.

This year a special effort has been made to lead our school teachers to take more direct part in Sabbath services. Some have come forward and done good work among the people of their district in addition to their day school and Sunday School duties.

Among our teachers there are seven who can take full charge of a religious service, some doing so regularly.

This year we have had four night schools in operation at Tunapuna, St. Joseph, Woodbrook and Longdenville. Most of the night school scholars are working boys, some of whom have attended our day schools. To many it has been their one opportunity. Here they have learned to read the Bible in their own language, and in some cases to read and write in English as well. In these night schools Christian and heathen lads alike meet. Many careless ones have been brought in and several have professed Christ.

The average attendance at the four night schools is:—Tunapuna 32, St. Joseph 23, Woodbrook 13, Longdenville 17.

These schools have been proved to be a very effective method of work among the people, which we hope to extend and further develop during the coming year.

I have to report that I am now able to instruct and preach with more freedom in Hindi. I have had charge during the year of three services each Sabbath in Hindi (with often one or two Sunday Schools thrown in), and two weekly night services. At these latter our magic lantern has been greatly used as an aid to instructing the people.

III.—DEMERARA.

SECOND REPORT

Of Rev. George A. Sutherland.

The year 1902 did not open with such promise as had been anticipated. The health of Rev. J. B. Cropper was so much impaired that an early furlough was deemed imperative, while our junior missionary, Rev. G. A. Grant, already felt the tightening grip of malaria. Under these conditions it was decided not to open a new field before the return of Mr. Cropper from his intended vacation.

Before the latter could leave, however, Mr. Grant was forced to seek change and rest at his home in Trinidad. It soon became evident that his constitution was not adapted to a malarial climate, and, on the urgent advice of his physicians, he tendered his resignation. He sailed from Demerara July 19th, leaving us with a sadness we cannot forget. Scholarly, devoted, and loving this his chosen work, it seemed hard that he must forego the joy of his labours.

On Mr. Cropper's departure on furlough, Trinidad was unable to provide a suitable superintendent for his field, and so I was entrusted with the direct oversight of that extensive field, excepting Whim, which the Rev. J. Rae of the Church of Scotland kindly consented to superintend. I regret to say that I have been unable to carry out the work which I proposed for this field, and which I consider the best that would do justice to a work so full of promise, and planted by the Church's unpaid servant, Mr. Cropper. I lost much time through recurring attacks of fever and ague. I have recently begun to improve, and cherish the hope that I have passed through the most critical period of acclimatization.

The mission staff has been reinforced by the addition of Mrs. Sutherland in October, while the close of the year brought the good news that the Rev. J. D. McKay, B.D., had been secured for the field.

The W. F. M. S. has kept the field well supplied with needed clothing, while mission bands have been a constant joy to us by sending cards, toys, picture books and children's papers.

CENTRAL DEMERARA.

The property at Better Hope has been greatly improved. The tropical weather, playing havoc with the paint and paper of the manse since the earlier days of Mr. Slater, rendered the interior very unsightly, and to no small extent unsanitary, while the church had not been shingled for thirty years, and had long been a prey to wood ants.

On securing from the estate a grant of \$287.00 and from the native church a special subscription of over \$50.00, the buildings were put in good repair at a cost to the church of about \$120.00, which may be yet reduced to \$80.00. A large water vat and other minor repairs were also provided by the estate. Our cordial thanks are again due to Mr. Alexander Crum Ewing.

The English work at Better Hope remains as reported last year, the weekly services and day school holding their own, and the prayer-meeting and Sabbath School making some advance. An addition of 7 (seven) to the membership is counterbalanced by removals through change of residence. The black and colored population is not increasing.

The attendance at the Hindi service in December has been the largest since my arrival. The East Indian Sabbath Schools at Better Hope, Plaisance and Montrose are doing good work, but more teachers are needed.

The Colonial Company have fitted up for our use a building at La Souvenir on Success Estate, where a week-day school and Sabbath School are conducted. About 30 (thirty) children attend.

The Ogle Estates have given us a school building capable of seating 250 children and with rooms for the teachers. The school was started in June. Over 90 children are registered, with an average attendance of over 50. The

leading proprietor of the Ogle Estate is Mr. W. Middleton Campbell, to whom for this school and for a cash donation of £50 the Church is deeply indebted.

Catechists are stationed at Ogle, Plaisance, Better Hope and Chateau Morgat. The work will be extended as soon as additional native workers can be secured.

EAST DEMERARA AND BERBICE.

The first station in this field going east from Georgetown is Clanbrook at the 20th milestone, thirteen miles east of Better Hope. Here the Government have given us the use of a building and material to fit it for our own purposes, free, on condition that a school be established and otherwise at a small rental. The catechist resides in it, and holds night school and weekly services on Sunday. It is proposed to open the day school early this year.

Helena, at the 26th milestone, is our oldest and strongest station in the eastern field. Ramchavran, the catechist, has done commendably well in keeping up all departments of the work in the absence of Mr. Cropper.

De Hoop, some 3 miles inland, has been equipped during the early part of the year with a mission building for school and religious purposes. Day school has not yet been opened, but Gyanchand ministers to the spiritual needs of this prosperous settlement.

Navor, at the 41st milestone, is the centre of a field some 10 miles long. Sukra, one of our newest catechists, is in charge, and the work has been fairly well upheld—not extended.

Bushlot, at the 56th milestone, has been equipped with a mission building and a small house for the catechist. Here Juman finds an open field 7 miles to the west and 12 miles to the east, and begs for a bicycle. The people of Cotton Tree at the 65th milestone have asked for a school, and there is a good opening at Blairmont at the 68th.

Here we come to the Berbice River, which is a little too wide for the milestones to span, and so we begin our count again at New Amsterdam on the east bank and reach Whim, our extreme left, at the 18th mile. Here another mission building and a suitable catechist's house have been erected during the year. Our work here owes much to the Rev. Mr. Rae.

Ramphol, our catechist, has thousands of East Indians under his pastoral care. Here, as in all the fields, the work of the catechists is in part the Church services and school, but mostly open-air meetings and house to house evangelization.

Of the year's work in general, it may be said that, although we have been unable to open new territory through the lack of native helpers, our mission has been strengthened by organization and equipment. It has been distinctly a year of building. We have strengthened our stakes, if not lengthened our cords, for which and for manifold other blessings this report is submitted with profound thankfulness.

REPORT OF REV. J. B. CROPPER.

THE FIELD.

East Demerara and Berbice is the name adopted for the eastern of the three fields into which the Colony has been divided for the purposes of our mission work. Helena, the headquarters of the field, is about twenty miles from Better Hope. As at present occupied the field stretches from a station known as Clonbrook on the east coast of the County of Demerara to the Whim settlement on the Corentyne Coast in the County of Berbice, a distance of sixty-five miles along the foreshore of the Colony. There are at present six stations or local centres: Clonbrook, Helena, DeHoop (East Bank, Mahaica Creek), Novar, Bushlot and the Corentyne Coast, Berbice. The first named is twenty miles from the City of Georgetown and six miles to the west of Helena.

The second and third are on the Mahaica Creek, DeHoop being about four miles above Helena.

The fourth is fifteen miles from Helena along the foreshore eastward.

The fifth is fifteen miles further in the same direction on the west coast of the County of Berbice.

And the last named is, at its central point (the Village of Letter Kenny), seventeen miles from the town of New Amsterdam eastward. Within this district are several sugar plantations and a number of villages in which the people live on their own or on leased lands. Within the same are also three of the settlements formed by the Government for the locating of immigrants who have completed their terms of service and residence and are willing to commute their right to a return passage to India for the free grant of a plot of ground. These six stations cover but a small portion of the field, and are, some of them, large enough to be sub-divided.

CATECHISTS.

A catechist is stationed at each of the centres named above, and one man, recently added to the staff, is under training. Six of them are the fruit of the work at Better Hope, and one, the latest, is a product from the field itself. Four of them were baptized by Mr. Slater at Better Hope before the mission was taken over by the Canadian Church, and three of them received baptism at my hands. They have not yet had the training and experience of their fellows in the sister mission of Trinidad, but in other respects they bear favourable comparison with them.

In counting the work done in mission fields it should never be forgotten that the catechists are the men who do the greater part of the personal work. An effort is being made to keep our catechists engaged in agricultural work during a small portion of each week. They will in this way be kept in closer touch with their people, and will also teach the "dignity of labour," a lesson very sadly needed in colonial life in the tropics.

SERVICES AND MEETINGS.

Services are conducted regularly at stated hours every Sabbath at the central stations, and out-door meetings are held on week days and Sabbaths at all convenient places. At Helena and Bushlot an effort is being made at regular Sabbath School work, but the inadequacy of the staff has prevented even an attempt being made at the other stations. The missionary conducts the services at one or more of the centres each Sabbath.

At Helena the work is furthest advanced in the matter of organization, and rather more of the missionary's time is given to this place than to others. This probably will not be always the case, other centres will gradually be brought into line and a more even distribution will be made of his time. The Sacrament of the Lord's Supper is dispensed at this station on the first Sabbath of each quarter.

DAY SCHOOLS.

Of these there are two in this field, one at Helena and one at Novar. The former is on the list of aided schools and receives a grant from the Colonial Treasury. Effort has more than once been made to have the Novar School added to the list, but, although it has been brought up to the standard of the Government's requirements, the applications have been refused, lack of funds being the reason given by the authorities for their last refusal. The attendance at these schools is small—averaging less than thirty daily, but at Helena there is good prospect of an appreciable increase.

PROPERTY AND BUILDINGS.

During the year past buildings have been put up at Letter Kenny and Auchlyne (Corentyne district), and at Bush Lot and DeHoop. They are inexpensive wooden buildings of 30 x 17 and thereabouts.

At Clonbrook the Government has most kindly made over to the mission the use of a large and commodious building, which serves both as residence and school and meeting-house. The only condition attaching to the holding of this building is that a school for East Indian children be maintained. This school will shortly be started.

Lots of land have been purchased at Bush Lot, Helena and Novar, and at DeHoop and Letter Kenny, proprietors (East Indians) have given unsolicited, sites for the buildings. The house occupied by the missionary is the residence provided by the Government for the Superintendent of East Indian settlements.

Beyond a few small lots of land and the small buildings in this field the Church owns no property in the Colony, and it is pleasing and encouraging to feel that favour has been shown to such an extent by both estate owners and Government that the free use of all the main buildings we occupy has been granted to us.

MISSIONARY.

I left the Colony on furlough on the 30th of August. The strain of double duty had told on me and I was physically unequal to an honest day's work. I trust to return in a few weeks with renewed strength.

I crave leave to insert here a personal explanation. The misapprehension has prevailed throughout the Church that in accepting service under the government as East Indian Immigration Agent I had ceased to be a direct missionary of the Church, and only rendered such service to the mission cause as my leisure time permitted.

Instead of this, however, I am primarily and essentially the servant of the Church, and am, by permission, rendering certain or specific service to the government—a service which is in line with regular mission work.

Before recommending to the Church that I be permitted to render this service, it was stipulated that my connection with the Church would in no wise be changed, and that I should still be free to carry on the work of the mission. This was readily agreed to by the government and has been duly observed.

I desire to place on record my thanks and those of the mission to the proprietors who have assisted us pecuniarily and otherwise; to the government for its generosity in the grant of the building at Clonbrook and to the many friends whose acts of kindness have facilitated work and laid both the mission and myself under obligation to them.

Above and beyond all do I acknowledge "the good hand of our God upon us" so that, in spite of blundering and mistakes on the part of the workers, the great work has gone forward with steady progress. Trusting to the continued guidance of that "Good Hand," Missionary, Catechists and Teachers go into the work of 1903.

IV.—KOREA.

WORK AT WONSAN, KOREA, DURING 1902.

Names of missionaries.	Arrived in Korea.
Rev. W. R. Foote.....	Sept. 1898.
Mrs. W. R. Foote.....	Sept. 1898.
Rev. D. M. McRae.....	Sept. 1898.
Mrs. D. M. McRae.....	Sept. 1900.
Miss Louise H. McCully.....	Sept. 1900.
Miss K. McMillan, M.D.....	Oct. 1901.

The work of Wonsan station comprises that carried on in the Central Church, town of Wonsan, where all the missionaries make their home, with a large outlying district which is worked by itineration.

During the past year the Wonsan Church has had Rev. W. R. Foote and Rev. D. M. McRae as co-pastors. Rev. A. F. Robb, who has spent his first year in Wonsan in study, has joined in the services, and led the meetings when the pastors were absent.

The women's and girls' work has been under the charge of the women missionaries, Mrs. Foote, Miss McCully and Mrs. McRae, with Dr. McMillan and Mrs. Robb, to render what assistance they could in a first year on the field.

The Wonsan Church has at this date 77 communicants, with a class of catechumens numbering 48. The growth has been more marked in the deepened interest on the part of the Christians than in new members added. The contributions for ten months have amounted to 2,602.27 Yang (\$200).

Wonsan station includes the large Central Church in the town, where all gather on Sunday mornings, and the two adjacent villages, Sin Pungni and Kai Mal, where regular Sunday and Wednesday evening prayer meetings are held.

The work of the sub-stations has been divided by giving Mr. McRae the district lying north of Wonsan, which includes the Provincial capital of Ham Hung, while Mr. Foote has taken the district to the south. Mrs. McRae has travelled with her husband and worked among the women of the northern circuit and Miss McCully has gone to the women in the southern circuit.

WONSAN SOUTHERN CIRCUIT.

Rev. W. R. Foote, Mrs. Foote, Miss L. H. McCully.

Sub-stations, 13; adherents, 161; catechumens, 27; baptized during year, 3; catechumens received during the year, 25.

In this circuit there are two unorganized churches with church buildings. Connected with each unorganized church are sub-stations. Besides the sub-stations, which can be grouped with others forming a church, there are others,

which, on account of distance from other Christians, cannot be so classified, and remain to be reported as isolated sub-stations. Of this latter there are several on this field.

Anpyon is the oldest unorganized Church in this circuit, being opened in 1899. The Church building was opened this year, and is situated in the town of Anpyon, where there are 8 baptized members, 8 catechumens, 7 families and a few single individuals, making a total number of 42 adherents. During the year this place has been visited several times by the missionaries, and the progress during the year has been most gratifying.

The school, which before this year has been tentative and sustained with some considerable effort, has been reorganized, and placed on a firm basis, and a new teacher employed. The new Church is free of debt. This Church, though not large, is in some ways setting a good example by not only managing its own affairs in a prompt and punctual manner, but by taking steps to contribute towards the support of a home missionary.

There are two sub-stations connected with Anpyon situated in good centres for work. In these sub-divisions are 3 baptized members, 3 catechumens and 10 adherents.

The other and largest unorganized Church is in Ho Yang county, with the Central Church situated at Sang Sin Won. This Church was first visited by a missionary in 1900. The following year a Church was erected. As this place is over 80 miles from Wonsan, we have not been able to give it as much personal attention as we would like to have done. However, the progress has been good. There are now connected with the Church 2 baptized members, 15 catechumens, 15 families and 52 adherents. Connected with this Church is the sub-station of Sok Sai Kol, where there are 5 catechumens and 10 adherents. There are two other places in Ho Yang, where there are believers which are not yet enrolled as sub-stations.

The isolated stations are far apart in many places, yet we trust they are centres around which other sub-stations will spring up so we can group them into churches.

This is a new field, and we have not yet visited all the counties. There is no more fitting way to illustrate the beginning of work on this field than by the parable of the leaven. In only two places can we speak of the sub-stations as forming a fair congregation, and in very few cases are they in large villages, but here and there dotted over this circuit are more than twenty places where Christians live, fifteen of which have been enrolled either as unorganized churches or sub-stations.

WONSAN NORTHERN DISTRICT.

Rev. D. M. McRae, Mrs. McRae.

Sub-stations, 20; adherents, 293; catechumens, 59; baptized during the year, 52; catechumens received during the year, 47.

In this circuit there are four unorganized churches, the largest of which is in Ham Hung city, the capital of Southern Ham Kyung Province. This Church, including Ham Hung, consists of 3 sub-stations, with 22 baptized persons and 100 adherents. The Church building has been enlarged, and the boys' school on the church compound has more than doubled its attendance. Two boys from this school passed a most creditable examination into the catechumenate. Indeed, the whole work in this place is most interesting and encouraging.

Ham Hung county contains one other unorganized Church, that of Yun Mot Kol, one sub-station, with 12 baptized and 21 adherents. Apart from these two unorganized churches there are three remote sub-stations, one with four, one with two and one with 35 adherents, making in Ham Hung county a total of 7 sub-stations and 162 adherents.

Hong Won county.—In this county, which lies north of Ham Hung, there is one unorganized church in the county town, including one other sub-station. The total number of baptized members is 16, adherents 35.

Chang Chin county.—In this, our only inland county, the work has just begun. We have 2 sub-stations, with 18 adherents.

Chin Pyung county.—In this county there is one unorganized church at Pan Chun. This church, including Pan Chun, where a church building is being

erected, consists of 4 sub-stations, with 5 baptized members and 43 adherents. In this county there is also one remote sub-station, making a total of 5 sub-stations and 47 adherents.

Ko Won county.—In this county work is beginning to open up, and we have this year to report 2 sub-stations, with 23 adherents. At one of these, Kon Nomi, we have 10 catechumens.

Moon Chun county.—In this county there are 2 sub-stations, one with 2 baptized, and one with 2 catechumens.

This year we would earnestly plead for more missionaries, two at least, to aid in these circuits, the rapidly growing work of which is already far beyond us.

FOURTH REPORT OF REV. W. R. FOOTE.

This year has been one of progress and encouragement. After our last annual meeting, as the weather was too cold to itinerate, I turned my attention toward class work. As I had three separate theological classes to hold, I first prepared the lessons so the classes could follow closely one after another.

The first one, in Wonsan, was large, and was in session two weeks. Several members of the mission took part in the teaching, and also Elder Kim, from Pyeng, whose services were much appreciated.

The next class was held in Anpyon, where our congregation was strengthened as the result of our visit. At the close of the class, the Christians bought a dwelling-house, which they have, by alteration and repairs, made into a Church. This they did altogether at their own expense. The school was also put on a better basis.

The last class was held in Ho Yang county. Each evening we held an evangelistic service, and at the close of our visit the Sacraments of baptism and the Lord's Supper were administered. This point is over 80 miles from Wonsan. On our way going and coming we visited several points, where we have work, and found two new out-stations.

After a short rest at home Dr. McMillan, Miss McCully and I took a long trip of over 200 miles, and called at several villages, where we had done some seed-sowing, visited several new places, and spent a few days in two Christian villages, where we found churches. Both these churches are nearer Seoul than Wonsan, so we proposed to our Seoul brethren that they allow us to withdraw from all places which can be more easily worked from Seoul than Wonsan, which proposal was accepted, but in return we were given several additional counties on the east coast, which can only be reached from Seoul with great difficulty.

After another breathing spell at home, I went 180 miles overland to Pyeng Yang to take part in teaching a large class of native agents at the summer theological class, and to study methods employed in that very successful work. I returned home at the beginning of the rainy season, where I remained two months, spending the time with my language teacher.

Early last month, being clerk of the Council, I went to Seoul to attend a meeting of that body.

Such is a brief outline of my personal work. During the ten months since our last annual meeting, I have been away from home 121 days, 76 of which were spent in itinerating in my own field. While at home local matters claimed considerable attention, among other things, I conducted a special class in Bible study two afternoons or evenings of the week.

Concerning the work itself there has been good and steady growth. The unorganized churches have been strengthened and several new out-stations have been added.

Mrs. Foote's work has followed along the same lines as last year. An evening class for women was held once each week part of the year, assistance was given in the special class for Bible study and on Sundays and other days, as time permitted, work was done among the women. Thus has passed another year, and at its close our thanks are due and hereby tendered to many who by words of cheer, fervent prayers and otherwise have brightened our pathway; but most of all to Him who has kept us an unbroken family and crowned our lives with many blessings.

FOURTH REPORT OF REV. D. M. M'RAE.

In beginning this report of our fourth year in Korea we cannot but recall our closing words of last year, "We place our hope in the future." One year of that future has passed, and what have we now to offer? Surely less than the least of our expectations, yet never before have we been able to record, as we now wish to do, so rich an abundance of the Father's love and so great an evidence of His tender care.

The very beginning of that future, from which we hoped so much, and which we had planned so full of classes and wide itinerating was, as you know, spent on a sick bed, and it was not till the month of April that we have aught to report beyond the great kindness of our fellow-missionaries, as well as of our Korean friends, and that unity and blessing, which we have reason to believe this illness under God brought to the native Church, especially in Ham Hung.

ITINERATING.

As the greater part of my work has been done in the country, I shall first report under this heading. I have been absent from Wonsan station in all 132 days; of these 98 were spent on my own circuit, 11 in Song Chin, when it was our pleasure to be present at the opening of the new Church in that station, and 23 days attending the annual Presbyterian Council of Missions and meeting of the Executive Bible Committee in Seoul. Distance travelled 1,266 miles; of these 640 were on my circuit. During the year God has in a special manner blessed the work in Ham Hung circuit.

This year we have to report 13 new sub-stations. Last May I baptized 52 men and women, and after examination received 47 as catechumens.

This year the Hong Won Christians bought a building, and by making alterations and repairs fitted it into a place of worship. At Yun Mot Kol framed timber has been bought, a site for a new Church building secured and work of erection begun. At Pan Chun a new Church building is nearing completion. One school for boys has been opened at Hong Won.

CLASSES.

I held in all three central classes, the first at Ham Hung, in which over one hundred were enrolled, was begun by myself, and carried on during part of my illness by my helper, the Wonsan evangelist, and Mrs. McRae's Bible woman; the second and third, held at Hong Won and Ham Hung respectively, were encouraged and blessed by Mr. Robb's presence and aid; at each of these places the Sacrament of the Lord's Supper was dispensed for the first time. As in previous years, my helper Cha Eul Kyung, has proved invaluable, going about to the various sub-stations preaching and teaching classes. The result of his work speaks for itself.

This year, for the first time, I had in my field a colporteur, supported by the British and Foreign Bible Society. I found him of great assistance.

My work in Wonsan has been confined to language study, preparation for class work, Sabbath School and Sabbath and Wednesday evening services. The Sabbath School class, of about 30 baptized men, I found especially interesting.

Mrs. McRae's work has, like my own, been mostly confined to the country, over which she has travelled 530 miles by chair and 410 by steamer; she has been 95 days away from Wonsan, 30 days in Ham Hung at the time of my illness, 32 conducting classes, with Mrs. Robb's kind assistance, among the women of Ham Hung, Hong Won, Yun Mot Kol and Pan Chun, at which time they met 56 Christian women for regular Bible study besides the hundreds of heathen, 11 in Song Shin, and 23 days attending the annual Presbyterian Council of Missions in Seoul.

This year she has had under her direction a Bible woman supported by the British and Foreign Bible Society, who has been invaluable in country work, teaching and selling books and assisting in classes. The Sunday class of little girls at Wonsan has been continued, but want of a building or a room limited further work among them.

During the month of July and part of August Mrs. McRae much enjoyed

meeting with Miss McCully's mid-week class of women during her absence at Song Chin, and rendering what assistance she could at the class held in Wonsan last February.

Looking to God for grace and wisdom, and with renewal of our hopes as expressed last year, this report is respectfully submitted.

FOURTH REPORT OF REV. DR. GRIERSON.

Rev. Robert Grierson, M.D.

Mrs. R. Grierson.

Mr. John Grierson, not under appointment.

This station has now been opened a year and five months, during which time preliminary work in the shape of house-building has occupied the missionaries' time. It has at last been all brought to completion, so that now the missionaries will be free to do the more directly evangelistic work called for in this virgin field. There has been some growth during the past year, and in no part of the field has there been retrogression.

When the station was first opened in May, 1901, there was but one recent believer living there, and in the whole immense field attached there were only four other places where believers lived, and in each of these really only one believer of whom we felt sure. Not one of these was a regularly admitted catechumen or baptized person, so that the whole constituency consisted of five non-baptized believers.

Now at the close of seventeen months there are, including Song Chin, seven places where a number more or less numerous regularly meet for worship, and one other place with one baptized believer alone. In the whole field there are now fourteen baptized adults, twenty-two catechumens and three baptized infants. Owing to inability to travel to Kapsan, several promising groups of new Christians have not yet been enrolled as catechumens.

Counting these and the persons in the whole field, whom there is good evidence to believe are Christians at heart, the whole constituency now, not including children, is over sixty people. It must be stated, however, that of the fourteen baptized persons, only eight were added on profession of faith, the other six being received by certificate from Wonsan.

House-building, which was not completed at the time of last annual meeting, was stopped almost immediately thereafter by the onset of very cold weather, and not resumed until the month of April. Trouble with the Japanese contractor threw the house unfinished upon the missionaries' hands, and they were compelled to carry it on to completion themselves. In this predicament the assistance of Mr. John Grierson was valuable.

ITINERATING.

Owing to the necessity of constantly watching and aiding the building, this branch of work was much interfered with. Three short trips only were taken to visit the Christians at Puk Chung and Yea Dong, twenty-six days in all being so spent. Also one abortive attempt to reach Kapsan blocked after one day's journey by a flood of rain makes a total of twenty-eight days away from home and 279 miles travelled.

SUB-STATIONS.

These are Yea Dong, with four catechumens; Ankok, with four baptized and one catechumen; Puk Chung, one catechumen; Yang Gai, three catechumens; Whang Su, one baptized; Yu Po Dong, ten adult believers not yet enrolled; Myeng Dang Dok, ten adult believers not yet enrolled. At Puk Chung, Ankok and Yea Dong short study classes were conducted. The other stations have been visited by colporteur and helper during the year.

SONG CHIN STATION WORK.

Since last annual meeting the local Church has grown in grace, in strength and in numbers. In place of some who returned to their homes, in Ham Hung and elsewhere, after helping in house-building, other new believers have come

in, and the Sunday services have averaged twenty-three persons during the past year. In Song Chin there are eight baptized persons and nine catechumens regularly enrolled. During the past summer there have been classes for study on Tuesday and Friday evenings, besides regular Sunday and Wednesday evening services. The Church building began last year has been carried on to completion. Forty-three Sunday collections, amounting to 231 nyong, have been devoted to the building fund, and they have besides this raised for the same purpose by special effort 212 nyong. The whole cost of the Church building then, including the contributions reported last year, totals about 1,000 nyong or seventy-seven dollars Canadian currency. They also gave a collection of twenty-two nyong to the Bible Society. The opening of the new Church on August 10, when Mr. and Mrs. McRae and Miss McCully from Wonsan and other Christian from out-stations were present, was a joyful day.

TRAINING CLASSES.

Only one was held for a fortnight in the spring in Song Chin for the whole field, and was attended by nine delegates from three of the sub-stations and local men, making a total of twenty-three. The subjects were "Bible Study," "Church History," "Biblical Geography," "Stereopticon Study of Scripture," "Life of Christ," etc., and the results, as indicated by a written examination at the close, were very satisfactory indeed. Mr. John Grierson's illustrated lectures on the "Tabernacle" and his stereopticon lectures on "Bible History" both at this class and at other times during the year have been very highly appreciated by the native Church.

SCHOOL AND WOMEN'S WORK.

The weakness of the Church and the heavy burden of the Church building work has made it impossible to undertake the opening of a school for the children of the Church, but they have been taught on Sabbath in the Church, and for a number of months daily by one of the Christians, who, while keeping shop at the same time, took care of four boys and instructed them in Chinese. The children also studied every day for a week in the missionary's house in the month of September.

The women of the Song Chin Church have been taught regularly on Sundays by Mrs. Grierson and her language teacher, and have made much progress in knowledge. After the middle of August also the women and children of the Church met in the new Church once a week for Bible study and study of the native script under Mrs. Grierson's supervision. In Yea Dong, too, as a result of a visit by Miss McCully's Bible women, accompanied by one of the Song Chin women, the wives of three of the Christians, none of whom had before attended service, were brought to regular attendance, and it is hoped to a saving knowledge of Christ.

MEDICAL WORK.

Owing to press of other work, medical practice was not begun in any formal way until July 1, when a daily clinic was opened in the hospital and continued until the middle of August, when it was discontinued because of a proposed journey to Kapsan. The number of patients seen was not great, owing to the news of the opening not getting abroad and the rainy season rendering travel difficult. Yet several operations under chloroform were done, and a quantity of medicine sold. As it is now proposed that Mr. Robb occupy the hospital building until another residence can be erected, the hospital work will be closed, and the opportunity taken advantage of for long itinerating trips during the remainder of the year by the doctor.

BIBLE DISTRIBUTION AND PIONEER WORK.

One colporteur of the British and Foreign Bible Society has been working in the field since January 1, and another has been employed since the middle of August. These have sold a large number of Gospels and Bibles and tracts,

and have done pioneer work in the northern field, as well as visiting the sub-stations. Besides these a number of travelling merchants from south of Wonsan converted in Song Chin in 1901 have in their travels to the north preached the Gospel as far as the northern border, one even, crossing into the Chinese and Russian territory across the river, where there are large numbers of Koreans settled. Our field then, besides the huge territory included in actual Korean soil, takes in this multitude beyond the Tuman River, and we must aim at giving them the Gospel of salvation in their own language. God has given us a wide field. We pray for His Grace to open hearts to the Word and for more workers to carry the message over the mountains to this great population.

SECOND REPORT OF REV. A. F. ROBB.

As a woodman without his axe or a seamstress without her needles, so is a missionary without a knowledge of the speech of the people about him. The past year has been chiefly devoted by Mrs. Robb and myself to the first great work of every new missionary—the study of the language.

The succession of strange sounds, which assailed our ears on our arrival eleven months ago, no longer falls altogether meaningless on our ears, and the characters which then appeared so mysterious have now a familiar look. During my recent visit to Seoul, I passed the First Year Oral Examination given by the language examiners of the U. S. Presbyterian Mission (North), and expect soon to receive from them the questions for the written examination.

A month was spent in Ham Hung at the time of Mr. McRae's severe illness there. Late in the spring Mrs. Robb and I accompanied Mr. and Mrs. McRae on an itinerating trip of a month's duration in the Ham Hung district. Mrs. Robb aided by teaching the women reading and singing, and I was able to give assistance in the men's classes.

I have also had the privilege of assisting a little in some of the Wonsan Church services and the prayer meetings at Kai Mal; and since July Mrs. Robb has had charge of a class of women in the Wonsan Sabbath School, with an enrollment of 20 members.

During the past month I attended with pleasure and profit a meeting of the "Council of the Presbyterian Missions in Korea" at Seoul. This was in some respects an epoch-making Council, as an Act was passed providing for the establishment in due time of a United "Church of Christ in Korea, holding the Presbyterian Form of Government."

Our Year in Korea has served to deepen our love for these people and our gratitude to God and the Church for the privilege of labouring here. We look forward joyfully to a life of service for Christ and the Church in Korea.

THIRD ANNUAL REPORT OF MISS L. McCULLY.

This report of the past ten months' work must begin with a note of praise to the Father of all mercies, who has given blessings for soul and body above all I could ask or think.

As a result of the work I have had assigned to me, I have to report as follows:—

SUNDAY SCHOOL CLASS.

Since my last report five have gone from my class, and as just the same number have been added, the roll stands as before at twenty-three. Out of the five gone, two have been called to the better land, one, a most devoted student, and who was, we believe, fully prepared for the call. The other was only an occasional attendant, but we hope that she, too, had received the truth. Two others have moved away, one, I am sorry to say, back to a heathen home, and one woman has gone out as a Bible woman under Mrs. McRae's direction. Of the five new ones, two have come from Pyeng An Province, and three, having lately learned to read, have been sent on from the other class. We have followed a course of study in John's Gospel, and the women on the whole have studied faithfully. The average attendance has been rather small, only amounting to eight.

MID-WEEK MEETINGS.

The regular Thursday afternoon meeting for women has been continued all this year in the Wonsan Church. About twelve women have attended with considerable regularity, and some nine others have come occasionally.

Another meeting was started last June, which is held every Tuesday afternoon in Sin Pungni. Twenty names are enrolled, of which six are young girls. They all attend pretty regularly.

The course of study at both these meetings is the same, being very simple teaching on the Life of Christ. They take the nature at present rather of a class than an evangelistic meeting. Almost all who attend are Christians.

During my absence from Wonsan this year my Sunday class was taught by Mrs. Foote, and the week meetings by Mrs. Foote and Mrs. McRae respectively.

At the time of the large Annual Class in February we were greatly encouraged by our first attempt at holding a separate woman's class. Our two new missionaries, Mrs. Robb and Dr. McMillan, were able to assist in teaching those who could not read, while Mrs. McRae and I gave lessons to those more advanced. The attendance was on the whole good.

ITINERATING.

I have taken this year six itinerating trips, which have occupied in all 64 days, and covered about 1,860 li or 620 miles.

Two of these were quite long, the first taking me down to the church at Sang Sin Won, 90 miles distant, and from there 50 li farther on to a place which has newly opened up. I spent ten days at the church. The rest of the twenty-six days, which this trip occupied, was spent principally among heathen. On our return we stopped at Chong Dok, where a Christian family lives, and a day or two later came to Hak Po, where I stayed one night with a family who had very recently decided to become Christians.

The second long trip took us as far as Chol Won, a distance of about 125 miles. We stayed for two days each in two small churches. In the second place the women had never attended service, and were very shy. Both going and coming we stopped at many places, and had opportunity to preach the blessed Gospel to many who had not heard it. The whole trip occupied sixteen days.

Three trips were made to Anpyon and neighboring villages. In March I taught a class in Anpyon, and all the year I have endeavoured to direct the study of the women's class there by preparing lessons, which I have sent or taken to them.

My last trip was made in June, in company with Dr. McMillan, to Hak Po, and occupied seven days. It was a busy season, but we met and talked with quite a number of women, and did some teaching in the home where we stayed.

BIBLE WOMEN.

For six months and a half of the past year our native woman, Hannah, worked under my direction as a Bible woman of the Bible Society. For four months one yen a month of her salary was paid by the women of our Wonsan church. Then they wished to send out one entirely themselves, and by their contributions we were able to keep one of their number, Lydia, in the field for three months and a half. Their contributions since January have amounted to 196 yang (about \$30). As their monthly offerings are not yet sufficient to support a woman entirely, we have decided to accept her partial support from the Bible Society until we can have a larger contribution from our women.

These two women have done faithful work, both when in company with me and when alone. They have visited many homes where the Gospel was never heard, and sold quite a number of testaments, Gospels and tracts. They have made a special point of trying to urge their native sisters to learn to read and have induced a number to buy the Primer for that purpose.

I spent over five very pleasant weeks of this summer at Song Chin, where I had the pleasure of being present at the opening of the new church.

Last month I went to Seoul to attend the meeting of Council, and felt it to be a most profitable, as well as pleasant visit. It was indeed a privilege to meet with so many of our co-workers in this land.

My language study has not made the progress I could desire, but still has occupied a share of my time.

My earnest prayer is that all the seed sown this year may be watered by the Holy Spirit, and bear much fruit to the glory of God.

SECOND REPORT OF MISS M'MILLAN, M.D.

Almost a year has passed since my arrival in Korea—a year all too short, when measured by the amount of work I have been able to accomplish. Last annual meeting my assignment was : that I devote my time to language study, and methods of work, and that I render what assistance I could, medical and otherwise, to the work of the station ; so that during the year my time when in Wonsan, not taken up with unavoidable household duties and helping to oversee some repairs done to our house, was almost entirely given up to the study of the language. In February last my first teacher was appointed by the Wonsan Church, and entirely supported by them, to carry the Gospel to the heathen of this town and neighboring villages—the first worker to be entirely supported by a church in our Mission.

At the time of Mr. McRae's illness, I spent three weeks in Ham Hung, and one week in the seaport of that city. When there I learned what it is to be sick out in the country here ; but, although his symptoms were exaggerated by neglect and improper food at the beginning of the disease, God graciously spared him for further work among this people. My enforced seclusion when in Ham Hung has given me greater sympathy with those of my sisters in this dark land, who are not allowed outside their narrow homes.

During the year, in company with other missionaries, I made two itinerating trips into the country south of Wonsan, which occupied twenty-three days, and I was more than ever impressed by the greatness of the work to be done. I saw how much need little groups of people seeking after the light have of some one to teach and guide them aright, and the trials and constancy of those scattered workers, who have their entire village, and those of even their own homes opposed to them ; how they will travel some miles to meet with another family so that together they may keep the Sabbath, and also how ignorant in all places the women are. I also went to Seoul at the time of the meeting of Council and had the advantage of seeing some of the medical work done there.

When in Wonsan, on Sunday mornings, I did what little I could to help care for the large class of women, not able to read, who came to Sunday School, and since July a class has been given to myself, whom, with the assistance of my language teacher, I try to tell the simple Gospel story.

I have as yet done no regular medical work, partly because it was considered best for me to devote most of my time for the first year to language study, and partly because I had no place to keep or dispense my medicine. But even among the few whom I have treated, I have seen some very sad cases ; one in particular impressed me as such : A little boy, who, shortly after I came here, had an attack of meningitis, but recovered. When I was in Ham Hung he had a second attack. Early in the morning after my return the father came for me, but I found the little one dying. In their anxiety to save their child, the parents did all they heard might help him, often to his injury. Hearing that we gave fever patients cold baths, and thinking that their boy might have fever, they put the comatose child in a tub of cold water. A few hours later he died. The father of this child has only lately become a Christian, but has remained steadfast under many trials. He has lost his property ; his only son has turned out badly, squandered his father's money and given him much trouble. And now, since the beginning of our annual meeting, his wife has died of cholera in his absence. We feel sure, however, that she had accepted Christ as her Saviour, and that she will be counted among the fruits of missionary labour in Korea.

Since writing this report another of our Church members has died with cholera, after an illness of a little over twelve hours.

MEDICAL REPORT OF MISS M'MILLAN, 1902.

Before coming to Korea, I was granted, by the F. M. C., the sum of \$150 for medical outfit. Of this sum I paid \$30 for instruments and drugs, when, acting on advice received, I waited until my arrival and location before purchasing more.

At our last annual meeting I was given one year for the study of the language before beginning medical work, therefore I only treated those cases which I considered absolutely necessary, supplementing the meagre stock, I had brought, by the purchase of small quantities of medicine from time to time, amounting in all to \$6.00.

For the drugs given to Koreans I received \$7.00, leaving a balance on my hands of \$121.

Part of this amount I expect to pay for drugs, probably now on their way from England, and part for drugs to be purchased in America.

REPORT OF THE BOARD OF THE PRESBYTERIAN
COLLEGE, HALIFAX, 1902-1903.*To the Venerable the General Assembly :*

The Board of the Presbyterian College, Halifax, has this year to report the completion of the consolidation of the funds of the Schemes of the Eastern Section, so far as these are under its management as a corporate body. The new arrangement went into effect on September 1st, 1902, with an interest bearing capital of \$239,466.39, made up of the amounts credited to the various funds of the Church as per statement to be found in the report of the Finance Committee, to which Committee, and very especially to its Convener, the thanks of the Assembly as well as of the Board are due.

Besides the above-mentioned amount, the Board has capital of its own to the amount of \$67,200, of which \$50,000 is in the College Buildings, and \$17,200 in the Professors' houses, the rents for which are credited direct to the College Fund account, and the charges against which are debited to the same account.

Details of all matters connected with this change will be found in the report of the Finance Committee.

The regular work of the College has been carried on along the lines indicated in the appended report of the Senate.

It is already generally known to members of the General Assembly that Rev. D. M. Gordon, D.D., Professor of Apologetics and Systematic Theology, was last autumn called by the trustees of Queen's University to become Principal of that Institution. On Dr. Gordon's acceptance of the call, his chair in the College at Halifax became vacant soon after the beginning of the current year. Arrangements were made with the authorities of Queen's for the services of Dr. McComb for the remainder of the session.

As soon as the Chair became vacant, the Board took the course prescribed by the Assembly for securing a suitable successor. Presbyteries were informed of the facts of the case, nominations were invited, and were made. At a meeting of the Board held on March 3rd, these nominations were considered. After the most careful deliberation, the Board unanimously agreed to nominate to the General Assembly the Rev. James Croskery, M.A., B.D., of Omagh, Ireland, as a suitable person to be appointed to the Chair of Apologetics and Systematic Theology in the Presbyterian College, Halifax.

Financially the year has been fairly prosperous, though the fund has a heavier debt than it had a year ago. The receipts for the year were \$12,740.54, as against \$11,873.38 from the same sources during the previous year, an increase therefore of \$867.16, which again was \$967.58 above the amount contributed during the year 1900-1901. The income from interest has been \$8,228.43, as against \$8,946.03, of which last mentioned amount, however, \$1,327.29 was derived from the turning into the fund of a special deposit receipt, of which only a very small part properly belonged to that particular year. The income from donations was \$75, as against \$253 for the preceding year, and from congregations \$4,335.81, as against \$3,998.14. Re-payments were \$200.55.

The expenditure for the year has been as follows:—For salaries of four professors and one lecturer in the Presbyterian College, \$8,300; for salary of one professor in Dalhousie College, \$1,750; for assistant librarians, \$30; for other expert help in arranging books in new library, \$40.01; for taxes and water rates, \$256.95; for painting professors' houses, fences and outbuildings, \$294.50; for other repairs, \$411.81; for telephone, \$45.00; for expenses connected with legislation and consolidation, \$420.30, of which \$200, the customary fee for a private bill, was afterwards refunded; for printing, \$124.10; for insurance, \$271.60; for travelling expenses of members of the Board, \$97.95; for interest, \$59; for office expenses, \$418.50; transferred to library fund, \$20; for care of new College building, \$182; for equivalent to steward for loss of land used for site for the professors' houses, \$50; for fuel, \$114.61; for extra light, \$10; for furnace for Dr. Currie's house, \$118.05; for furnishings, etc., in College residence, \$194.73; for missionary books for library, proceeds of R. McG. McC. bequest, \$7; all other expenses, \$7.81; making a total of \$13,223.91, or \$483.37 in excess of the income, which, added to the amount of debt on the fund on March 1st, 1902, of \$124.12, makes a total debt on March 1st, 1903, of \$607.49.

The receipts for the Bursary Fund were \$1,351.39 as against \$978.56 for the previous year. Of this amount, however, \$235.20 came from payment of arrears of interest on investment of McKenzie Bursary, while of the balance \$385.81 came from congregations, \$601.88 from invested funds, \$42 from donations and \$86.50 from repayments.

Twenty-four bursaries were given to students amounting to \$837.72. The boarding department of the college was aided last year to the extent of \$259, the grant being at the rate of fifty cents per week per student, instead of one dollar per week as formerly.

Prizes were awarded also to the amount of \$55. The portion of cost of legislation in connection with consolidation, which fell to the Bursary Fund was \$10.18 and of office expenses \$39.27, which, with a temporary loan of \$25, now repaid, made an expenditure of \$1,226.17. The income for the year having exceeded the expenditure by \$125.22 the debt of last year was reduced by the same amount, and on March 1st, 1903, stood at \$121.23.

The Library Fund had a credit balance of \$439.13 on March 1st, 1902. Of this amount \$419.14 was put into the Consolidated Fund, leaving a balance of \$19.19. The receipts for the year were \$153.34 and the expenditure \$128.09 leaving a balance to credit on the transactions of the year of \$25.25, which added the \$19.19 makes the credit balance on March 1st, 1903, \$45.24.

For several years the Board have been under the necessity of reporting a considerable amount of debt on the new college building though the amount has been lessening year by year. It is with feelings of peculiar satisfaction, therefore, that the Board are now able to state that the debt has been completely removed. Last year it stood at \$3,174.89 on which interest had to be paid to the amount of \$115.11, making a total liability of \$3,290. Towards the removal of this debt \$367 have been received from old subscriptions through the College Building account and \$393 more, for the most part from similar subscriptions through the Century Fund account, making a total of \$760, thus reducing the amount to \$2,530, which was paid off by a grant of the same amount from the Century Fund in accordance with the power given to the Committee in charge of that Fund at the last meeting of the General Assembly.

It is already known to many members of the Assembly that the fiftieth anniversary of the ordination of Principal Pollok occurred on March 1st, 1902, and it is the pleasant duty of the Board to inform the Assembly that his Jubilee, was celebrated in an interesting manner by a public gathering in the Convocation Hall of the College, at which suitable services were held, a number of addresses given, the presentation of \$1,000 made to Principal Pollok by his friends, and by him appropriated to the establishment of a Lectureship in connection with

the College, which the Board has designated "The Pollok Jubilee Lectureship." On the same occasion it was intimated that a friend of the College and a relative of the Principal, Miss Jessie Fraser, had resolved to establish another lectureship to be called "The Catherine Pollok Lectureship," "in memory of the three Catharines, wife, daughter and grand-daughter of Principal Pollok," and for this purpose she herself gave \$1,000, for which the very cordial thanks of the Board were conveyed to her.

The Board is certain that the Assembly will join in congratulations to Principal Pollok on the attainment of his Jubilee and in the hope that he may be long spared to continue to labour for the promotion of the interests of the Institution for which he has already done so much.

At the last meeting of your Board it was unanimously agreed to ask the General Assembly to empower the Synod of the Maritime Provinces if it sees cause to give the use of the houses occupied by the professors free of rent in addition to the salary which they have been receiving, and an equivalent to the fourth professor, for whom no house has been provided.

The Board desire to intimate to the Assembly the great satisfaction with which they learned of the action of the Century Fund Committee in making provision for the payment of the balance of the debt on the new College building.

All of which is respectfully submitted.

REPORT OF THE SENATE OF THE PRESBYTERIAN COLLEGE, HALIFAX, SESSION 1902-1903.

The most important event in the life of the College during the past session has been the appointment of our Professor of Systematic Theology and Apologetics, Dr. D. M. Gordon, to succeed the late Dr. G. M. Grant, as Principal of Queen's University. While an honour has been done thereby to this College, the Senate is deeply sensible of the loss it has sustained by the transference to another college of one, who, by his splendid Christian character, courteous bearing, prudent counsel, wide experience, and well poised scholarship, has done fine service to our students and ministers in these Maritime Provinces. For the second part of the session the work of Dr. Gordon's classes was conducted by Professor McComb, whose lectures have been highly appreciated, while his strong mind and thorough attainments have been a great stimulus to the life of the College. The Senate regards with much pleasure the nomination of the Rev. James Croskery—a man of distinguished scholarship—to the vacant chair, and hopes that his coming will prove a great blessing to our Church.

Though the final year is small, the Senate is glad to report that the outlook in respect to attendance is more promising than it was. Our first year is larger than it has been for some time, and we hope that soon the numbers will regain their normal condition. But we would again strongly direct the attention of Presbyteries and ministers to the necessity of seeking out young men with suitable gifts to study for the ministry, for it is abundantly evident that the magnitude of our incoming population will tax the resources of every part of our Church, if we are to carry to these settlers the ordinances of religion, to say nothing of the increasing cry for help that reaches us from heathen lands.

During the past year there have been twenty-three students in attendance.

Third Year.—W. J. Johnston, B.A., Ewen McDonald, B.A., M. J. Macpherson, M.A., E. H. Ramsay, B.A., J. S. Ross, B.A.—5.

Second Year.—J. A. Bradley, B.A., Wm. Macdonald, B.A., R. G. Mackay, F. S. Vance, B.A.—4.

First Year.—G. A. Christie, B.A., H. J. Fraser, H. A. Kent, B.A., R. B. Layton, B.A., J. A. Mackean, Norman Macqueen, C. Macrae, A. J. W. Myers, B.A., D. J. Nicholson, B.A., A. A. Smith, R. H. Stavert, B.A.—11.

General Students.—J. B. Carr, B.A., G. S. Gardner, G. W. Langille.—3.

The work of the classes has been as follows :—

I. *Church History.*—The general history of the Christian Church from the Reformation to the present time, and the history of the Scottish Church from the fifth century to the age of the Covenant and the Restoration.

II. *Homiletics.*—Upon three days of each week lectures were given and homiletical exercises performed. Upon these subjects written examinations were held in the middle and the close of the session.

III. *Hebrew and Old Testament Exegetics.*—The Junior Class went through Davidson's Hebrew Grammar and Reader twice. In the Senior Class selections were read from the more difficult parts of the Hebrew Scriptures. Hermeneutics was treated in a short course of lectures; a study of the Book of Daniel, the first thirteen chapters of Isaiah, and lectures on Zephaniah, Haggai and Zechariah occupied the rest of the time.

IV. *Apologetics and Systematic Theology.*—Since Dr. Gordon's removal, Dr. McComb lectured to the Junior Class on "Modern Aspects of Apologetics," and on Dr. Bruce's text-book; to the Senior Class on "Introduction to the Study of Theology," "Pauline Theology," and "The Doctrine of the Incarnation."

V. *New Testament Exegetics.*—In the Junior Class the Grammar of New Testament Greek and Textual Criticism of the New Testament were studied, and lectures delivered on "Introduction to the Gospels," and topics arising out of gospel history. The Gospel of Matthew (i.-vii., xi.-xiii., xvi.-xxv.) was translated with a full exposition. In the Senior Class, 2 Corinthians and 1 Peter were carefully read and discussed, and the second part of the history of the Apostolic Age, including the rise of the New Testament Canon, formed the subject of lectures.

VI. *Elocution.*—In the first year attention was devoted to general principles of speech, gesture, and especially to the removal of any peculiarity or defect in respiration and vocalization. In the second year the work consisted in a study of the history of oratory, variety of delivery, preparation for public speaking, extemporary speaking, and the nature of expression. In the third year the subjects of study were "Practical Administration of Public Worship," "Procedure in Church Courts," and such other matters as lend themselves to the development of public speaking. In addition, students of the second and third years delivered extemporary discourses in the presence of the professors and the classes.

Two courses of lectures were delivered during the session, one consisting of five lectures on the "Religious Life and Thought of the Nineteenth Century," by the Rev. A. S. Morton, B.D.; the other consisting of two lectures, by the Rev. Gordon Dickie, M.A., on "The Kingdom of God."

These prizes were awarded :—

The Senator Mackeen prize of \$25 for the best public speaker of the third year, to E. H. Ramsay, B.A.

The Wiswell prize, for the best reader of the second year, to William Macdonald, B.A.

The Carruthers prize, for the highest marks in Elocution in the first year, to R. B. Layton, B.A.

The Crawford prize of \$20, given by the Rev. Henry Crawford, for the best English essay, both composition and delivery to be considered in making the award, was divided between H. J. Fraser and H. A. Kent, B.A.

The "Robert J. Grant" memorial prize was given to E. H. Ramsay, B.A.

The degree of B.D. was conferred on the Rev. Hibbert R. Read, B.A., who took as his final examination the Department of Systematic Theology.

The degree of D.D. was conferred on the Rev. H. A. Robertson, of Erromanga.

In accordance with the instructions of Synod the Senate is co-operating with the Synod's S.S. Committee in preparing for another summer school for S.S. teachers, to be held in the college from July 14-24, 1903, and also for schools of a similar kind in St. John, Charlottetown and Sydney.

The following resolution was passed by the Senate at its meeting held on April 29th, 1903 :—Owing to difficulties of interpretation in the present regulations for the entrance of students upon the study of theology, the Senate requests the General Assembly to appoint a committee to consider what, if any, changes are necessary in the subjects required by the Church of those who are entering upon the study of theology.

All of which is respectfully submitted.

ALLAN POLLOK,
Chairman.

Clerk.

PRESBYTERIAN COLLEGE, MONTREAL.

REPORT OF THE BOARD OF MANAGEMENT FOR THE YEAR 1902-1903.

To the Venerable the General Assembly:

The Board of Management of the Presbyterian College, Montreal, beg to present their annual report for the year 1902-03, and to transmit the report of the Senate.

The number of students enrolled was fifty, of whom one died during the session. Seven completed their course, and are now qualified for licensure, of whom one is able to preach in both English and French.

The financial statement appended shows that in all the funds the year's expenditure has been fully met by the revenue. The Ordinary Fund shows a balance on hand of \$316.28.

The special subscriptions for the Exegetical Chair which expired last year were renewed for another term of five years to the amount of \$1,767.50 per annum.

The most important event affecting the institution during the year was the sudden death, on December 15th last, of the distinguished Principal who was its first Professor, and who had presided over it for the long period of thirty-four years. Called by the Church to this important position at a comparatively early age, the late Dr. MacVicar threw himself into the work of the College with all his energy, and to his enthusiasm is mainly due the success which the institution has attained. He was a born teacher, and left his impress on every student who passed through his classes. His ability as an administrator, organizer and financier was such as to evoke the loyal support and substantial assistance of many friends, and thus enable him under God to build up a strong institution with such endowment and other equipment as to furnish a fair guarantee for its permanent usefulness in the service of the Church.

At a meeting of the Board, held as soon as possible after the Principal's death, a suitable minute was passed and a copy sent to the family, provision was made for the conduct of the work during the remainder of the session, and a joint committee of the Board and Senate was appointed to look out a suitable successor. As senior Professor, the Rev. Dr. Campbell became acting Principal. The class in Systematic Theology was conducted by Professor Scrimger. Dr. Barclay also kindly gave his assistance for one hour a week.

In accordance with the regulations of the Assembly regarding vacancies in the several Colleges, the Board intimated the fact of Dr. MacVicar's death to the various Presbyteries, and invited nominations to the Chair of Systematic Theology. In response to this a number of nominations have been sent in. The Board, however, believing that it might be easier to induce some teacher of acknowledged standing to accept the Professorship if offered the Principalship as well, are of the opinion that if a suitable person can be found, it would be in the best interest of the institution to seek some one for the double position, have pursued their inquiries with that end in view. So far the inquiry has been without satisfactory result, and the Board would recommend:

1. That they be authorized to continue their inquiry for a suitable person as Principal and Professor.

2. That in order to afford a wider choice, they be authorized, if necessary, to make a re-arrangement of the Chair of Old and New Testament Exegesis, Dr. Scrimger having intimated his willingness to take the Chair of Systematic Theology, should this be thought desirable.

3. That a Commission of Assembly be appointed with authority to confirm the nomination of the Board for the double position, or failing that for the two positions separately, in case they should be prepared to make such nomination or nominations—for both or either—before January 1st next, and to provide for their induction into office.

4. That in the meantime Dr. Scrimger be asked to continue the class in Systematic Theology, and that the Rev. Professor Clarke Murray, of McGill University, be appointed lecturer for the session, in Christian Ethics, at a salary of \$500.

All of which is respectfully submitted,

DAVID MORRICE, *Chairman.*

MONTREAL, April 21st, 1903.

REPORT OF THE SENATE OF THE PRESBYTERIAN COLLEGE, MONTREAL, FOR THE SESSION OF 1902-1903.

To the Venerable the General Assembly:

The following extract from the minutes of Senate sufficiently explains itself: "The members of the Senate of the Presbyterian College, Montreal, desire to place on record their appreciation of the services rendered by the late Principal MacVicar, D.D., LL.D., to the College of which he was the first Principal, and practically the founder. For thirty-four years, as Chairman of the Senate, he laboured with unceasing diligence and great energy for the welfare of the institution. The breadth and wisdom of his views on all educational matters, and his large experience and special qualifications as a teacher, made his counsels on College studies and methods extremely valuable. His unfailing courtesy towards his colleagues, his tact, sympathy and keen insight, made him a model presiding officer. His influence on theological and general education, on Sabbath School work, and on the ministers he trained as well as on the thought and life of the city, and of the Church to which he belonged, will not soon pass away."

The sudden bereavement thus referred to took place on the afternoon of December 15th, 1902. An appropriate memorial service, presided over by the senior professor as acting principal, was held in the David Morrice Hall of the College, and the Faculty and Senate, alumni and students, with representatives of other Colleges and Churches, swelled the long procession of sincere mourners that made up the funeral cortege.

In addition to this great loss, the Academic body has also been called to mourn the early death of Mr. George Macmillan, of New Haven, P.E.I., a student

of great promise in the second year of his Arts course, neither taking lectures nor residing within the College walls, but enrolled as an intending theological student. In other respects, the past session has been a healthy, peaceful, and successful one, all alike, professors and students, contributing to its harmony.

The late Principal taught the class in Systematic Theology up to the day of his death. In the second term the work was chiefly performed, and with much acceptance, by the Rev. Professor Scrimger, D.D., M.A., with some help from the Rev. James Barclay, D.D., M.A., of St. Paul's Church. To Drs. Scrimger and Barclay the cordial thanks of the Senate are due.

Professor Campbell, as usual, taught the classes in Biblical History, Church History, and Apologetics; Professor Coussirat, the French Literary and Theological Classes; Professor Scrimger those in Introduction and Greek and Hebrew Exegesis; and Professor Ross those in Homiletics and Pastoral Theology, in Biblical Theology, and Church Government. Elocution was taught by Mr. J. P. Stephen; and the Senate once more expresses its appreciation of the valuable gratuitous services of Mr. A. T. Taylor, F.R.I.B.A., R.C.A., in Ecclesiastical Architecture.

Mr. William J. Morrice continued to contribute the highest prize of the year, in his Travelling Fellowship of \$500. The McCorkill endowment beginning to bear interest, the main part of this constituted a second fellowship of \$400. The names of other generous benefactors of the College will appear under the head of Academic awards.

At the beginning of the session in October, 1902, Mr. H. Arnott entered the third year in Theology; Mr. W. H. May, the second; and Messrs. L. Bourgoin, A. M. Giovanetti, M. Jack, B.A., H. Joliat, O. F. MacCutcheon, A. D. MacKenzie, J. D. MacKenzie, G. W. Mingie, G. S. Mitchell, E. E. Mowatt, A. E. Ormiston, and T. Wilson, B.A., entered the first year. Mr. H. J. Keith, M.A., repeated some of the studies of the second year.

Fifty-five students were enrolled, but fifty only attended the lectures of the session.

TORONTO, March 23rd, 1903.

QUEEN'S UNIVERSITY AND COLLEGE.

REPORT OF THE BOARD OF TRUSTEES.

The Trustees of Queen's University respectfully submit the following report of the sixty-second session of the University :—

APPOINTMENT OF PRINCIPAL.

A year ago our report was submitted to the Assembly under the shadow of the great loss sustained by the University in the death of Principal Grant. During the months following the Board addressed themselves to the task of securing a successor, and at a meeting held on November 6th it was decided to invite the Rev. Daniel M. Gordon, D.D., Professor of Theology and Apologetics in the Presbyterian College at Halifax, to accept the Principalship. This, after due consideration, Dr. Gordon agreed to do.

The man of our choice (himself a Canadian) stands in the front rank of Canadian scholars and preachers; he has occupied the highest offices in the gift of the Church, and will bring to bear upon his new duties as Principal of Queen's valuable and ripe experience both as administrator and professor. The trustees confidently look forward to the uninterrupted expansion of the many sided interests of the University under his efficient leadership. As has been our uniform practice, Dr. Gordon was also appointed Primarius Professor of Divinity, subject to the approval of the General Assembly, which approval the trustees now respectfully ask.

All the friends of the University rejoice that the position laid down by Principal Grant has found an occupant in all respects worthy to fill it, and we believe that the Supreme Court of Church will cordially approve of our choice.

It is expected that the formal installation of the new principal will take place early in the course of next Session, when the trustees hope to have the pleasure of welcoming to Queen's not a few of the leading educationists of Canada and the United States.

ALUMNI CONFERENCE.

Last February the eleventh annual conference of Theological Alumni was held, with a large attendance and a rich and varied programme. One of the many pleasant features of the meeting was the attendance of the Principal elect, who, by his presence and contributions, gave fresh interest and stimulus to the proceedings. While the programme contains many topics, Biblical subjects and problems of Christian Sociology were largely in the majority. From year to year it is noticeable with what exceptional ability great living questions are examined and discussed. Many of the papers are published from time to time in the "Queen's Quarterly," and those who read that periodical will know that they rank with those of a like character published anywhere in the English-speaking world.

ATTENDANCE.

The number of students in attendance continues to increase. The total number last Session in Arts, Theology, Medicine and Science was 853, an increase of forty-eight over the previous year.

FINANCES.

The financial statement for the year closed shows a slight deficit. A number of circumstances contribute to this result. The expansion of the University does not carry with it an equal expansion of revenues. Each new building means increased expense for maintenance. Increase of students calls for additions to the

staff if work is to be efficiently done, and the growing charges on the revenue can only be met by increased endowment.

We are pleased to report that the contributions to our part of the Assembly's College Fund this year show an increase although the amount is still far short of the sum fixed by the Assembly, and we desire again to call the attention of the Church to the accumulated deficit caused by the incompleteness of this Fund. In view of the constitutional changes about to take place in the relation of the Theological faculty to the University we would draw the special attention of our friends to this deficit.

CONSTITUTIONAL CHANGES.

The constitutional changes which have been under consideration for the past three years have now been embodied in a bill which has been introduced in Parliament at Ottawa and is expected to become law during the present session.

Whilst these changes will, in the words of the General Assembly's resolution of 1900, make the constitution of Queen's more in harmony with the nondenominational work she is doing, it is impossible that Queen's should ever forget the Church which gave her birth. She must always cherish the deepest affection for her spiritual mother, and her origin and past history can never cease to exercise the most beneficial influence upon her future.

J. B. McIVER,

Secretary-Treasurer.

KINGSTON, May, 1903.

REPORT OF THE THEOLOGICAL FACULTY.

During the past Session there were thirty-two students in attendance on the various classes in Theology. Seven of these have completed their course of study, viz.: W. F. Crawford, B.A., T. J. S. Ferguson, B.A., R. H. Fotheringham, B.A., A. G. Mackinnon, B.A., K. C. McLeod, D. M. Solandt, B.A., and F. W. Mahaffy, B.A. To the first six of these testamurs were given for having passed with credit all the classes on the prescribed course. One—W. F. Crawford—graduated as B.D., and Rev. J. A. McConnell, B.A., also received the degree of B.D., after a rigid examination. The diligence and earnestness of the students were highly commendable. The work of the Session was interrupted in some degree by the transference of Professor McComb, early in January, to Pine Hill, Halifax, in order that the newly elected Principal might be set free to assume the duties of his office. But in the absence of Dr. McComb, Professor Macnaughton gave a course of lectures in Church History, which were much appreciated. Dr. Thompson gave the second part of his valuable course in Pastoral Theology and Church Government. Professors Ross and Jordan carried on the work of hearing and criticising the discourses, and gave a series of lectures on the construction and delivery of the various kinds of discourse, and on the conduct of public worship, prayer, etc. They also lectured an hour a week each in Old Testament and New Testament Theology, in addition to the special work of their own classes, thus supplying, in part, the lack that was caused by the vacancy in the Divinity Chair. Mr. J. P. Stephen, Principal of the Montreal School of Elocution, conducted a class on that subject with much satisfaction. The Alumni Conference was largely attended: instructive and stimulating papers were read, giving rise to vigorous and profitable discussion. That the work of the Conference is each year becoming a more valuable educative influence is generally recognized.

HEBREW AND OLD TESTAMENT EXEGESIS.

The Professor of Hebrew and Old Testament Exegesis has under his care the following classes:—

1. *Junior Hebrew.*—In this class the study of the language is begun, Dr. A. B. Davidson's Grammar being the text-book. Efficient instruction was given by the Fellow in Hebrew, Mr. J. Wallace, M.A., B.D., who took the students over the

first seventy-four pages of the Grammar, examined the written exercises and read the prescribed passages from the Hebrew Bible. Twelve students took the final examination and eleven passed, five in the first division, three in the second, and three in the third. Of these twelve students two were in the Theological Department and ten in Arts.

2. *Senior Hebrew.*—This also is a class for the study of the language and may be used by students in Arts as a class that counts in the work for a degree. Eighteen students took the examination in this subject, eight of whom were in various stages of the Theological course, and the remaining ten were Arts men, mostly of the final year. The class took up the Grammar at a point where it is left by the Junior class and proceeded to the study of the irregular verb and the syntax of the language. Written exercises were handed in and the class read the Book of Jonah and passages from Samuel and Isaiah. The class meets three times a week.

3. *The Regular Theological Class.*—(1) On Tuesday mornings throughout the Session chapters xl.-xliii. of Isaiah were read as a subject of study in exegesis and textual criticism.

(2) On Thursday morning a course of lectures was delivered on "The Prophetic Literature of the Hebrew People." The origin and the nature of prophecy was discussed as an introduction to a study of the teaching of the prophets. A book on this subject recently issued by the professor was prescribed for supplementary reading.

(3) From Christmas to the close of the Session a special course of lectures was given in Old Testament Theology, the subject being the teaching of the Old Testament as to the nature and action of the Spirit of Jehovah.

4. *Honour Class in Old Testament Criticism.*—The attendance in this class is voluntary. It is open to those who have taken two years in Hebrew. The Honour course extends over two years and includes some of the subjects prescribed in this department for the degree of B.D. Nine students attended this class, which met twice a week before Christmas and three times afterwards. The Book of Ezra was studied with special reference to the Aramaic passages, and much careful detailed study was given to the "Servant" passages in the second part of Isaiah.

Last Session in this class one hour per week was spent on the German text-book in Old Testament Theology. This year none of the students had a sufficient knowledge of German for that work, but it is expected that it will be resumed next year.

CHURCH HISTORY.

In Church History the period dealt with this Session was the first three centuries. Professor McComb read and lectured on portions of Eusebius' Ecclesiastical History, besides giving a course of lectures on the history of Dogma. Professor McComb having been called away to the Presbyterian College, Halifax, to take the place of Principal Gordon there, Professor Macnaughton, formerly on several occasions lecturer on Church History in the University, delivered lectures on the following subjects connected with the period selected:—

1. The Persecutions, with a careful examination in detail of the Neronian persecution.
2. The intellectual and religious condition of the Pagan world during the period.
3. The beginnings of Church Organization and the development of the Episcopate.

APOLOGETICS.

The course extends over two Sessions. The class, which consisted of twenty-one members, met three days a week during the entire Session. Lectures were

delivered (1) On the causes which have given rise to the unbelief of our time, and the best methods of dealing with those who are exercised by doubts, (2) The Theistic problem was discussed with a considerable degree of fullness, (3) The various theories of the universe and man which are offered as substitutes for Theism, (4) The teaching of the Gospels in relation to the modern secularistic and socialistic movements, (5) A brief survey was also given of the history of unbelief from the 18th century to the present day. Examinations on the lectures were held from time to time, and an essay was prescribed during each term. Parts of Books I. and II. in Bruce's Apologetics were read by the students for the final University examinations.

NEW TESTAMENT CRITICISM AND EXEGESIS.

This class met two hours a week. The first twelve chapters of the Acts of the Apostles were read and the development and growth of the Apostolic Church were fully discussed. The Epistle to the Romans was taken up during the second term, and the first six chapters were carefully studied and the doctrines set forth in them were considered at some length. Lectures on Introduction and Criticism were also delivered, and the class was exercised in the task of paraphrasing. From the beginning of February until the close of the Session a third hour was devoted to the study of New Testament Theology—the doctrinal teaching of the Pre-Pauline period of the Apostolic Church. Twenty-nine students were in attendance, and their devotion to the work was worthy of all praise.

QUEEN'S COLLEGE, KINGSTON, April 27th, 1903.

Examined and found correct.

J. E. CLARK,
D. CALLAGHAN,

Auditors.

REPORT OF THE COMMITTEE APPOINTED BY THE GENERAL ASSEMBLY TO CONFER WITH THE TRUSTEES OF QUEEN'S UNIVERSITY.

The Committee met with the Trustees of Queen's University in the Board Room of Knox College on the 21st May, at 10.30 a.m.

On motion Dr. Caven took the chair, and the meeting was opened with prayer by Principal Gordon. Mr. G. M. Macdonnell, K.C., was appointed secretary.

The Draft Bill regarding Constitutional Changes in Queen's University, as passed by the Board of Trustees, was presented by Dr. Gordon, and read and explained clause by clause.

Having completed the consideration of the Bill down to clause 34, Dr. Gordon submitted the Report to the Committee which had been appointed by the Board of Trustees to adjust the share of the Theological Faculty in the funds of the University. This Report is appended to the present Report.

After full explanations had been given in regard to the financial arrangements on behalf of the Theological Faculty, the Chairman asked the members of the General Assembly's Committee individually whether they approved of the report of the Committee of the Board of Trustees. They having severally signified approval, it was moved by Mr. J. K. Macdonald, seconded by Dr. Torrance, and unanimously carried, "That the Assembly's Committee having read and considered the Bill, and having heard Principal Gordon's full explanation of its provisions, especially in reference to the Theological Faculty and the financial arrangements therefor, this Committee express their hearty approval of the Draft Bill, and more especially of those clauses which provide for the separate incorporation of the Theological Faculty and the financial arrangements affecting the same; and, as desired by the Trustees of the University, the Committee hereby recommends the General Assembly to join with the Trustees in petitioning Parliament for the passage of this Bill." The mind of the Assembly's Committee is sufficiently expressed in this resolution.

All of which is respectfully reported.

WM. CAVEN,
Chairman of Committee.

REPORT OF THE COMMITTEE OF TRUSTEES ON THE FINANCIAL ARRANGEMENTS BETWEEN THE UNIVERSITY AND THE THEOLOGICAL DEPARTMENT.

To the Board of Trustees of Queen's University.

The Committee appointed to consider the financial relations between the University and the Theological Department, and to submit an estimate of the amount that should be set apart for the use and benefit of Queen's Theological College, beg leave to report as follows:—

1. The assets of the University prior to the raising of the Endowment of 1879 may be set down as:

Endowment prior to 1868	\$20,000
Value of buildings and land, say	20,000
Endowment of 1868-69	90,000
	\$130,000

It is recommended that the Theological Department, having a right to a proportion of the Assets prior to 1879, shall, in the meantime, receive adequate accommodation from the University in lieu of such right, but in the event of the necessity arising for providing accommodation elsewhere for the erection of a separate building for the use of the proposed Queen's Theological College, the University shall recognize the right of the College to a free site, suitable for a College Building, and to the sum of \$40,000.

The Theological College shall also have the use of the University Library.

2. Of the Endowment of 1879, the Theological Department is entitled, according to the terms of appeal presented to subscribers in securing the Endowment, to the sum of \$50,000, and to a claim upon the Theological books in the library in the event of the Theological College occupying a separate building.

3. Of the Endowment of 1888, known as the Jubilee Fund, the Theological Department is entitled to the following proportion:—

Specified proportion of one-fifth	\$33,000
Proportion of amount for Principalship one-half	16,000
Special Endowment Collection, less expenses (see statement)	16,000
	\$65,000

It is, therefore, recommended that the following amounts be set apart for the use and benefit of the Theological College:—

From Endowment of 1879	\$50,000
" Jubilee Fund, 1888	65,000
" Century Fund	35,000
	\$150,000

Also one-fifth of future receipts on account of Jubilee Fund and all subscriptions specially designated for the Theological Department.

It is recommended that, until otherwise arranged, Queen's Theological College shall pay the tutor in Hebrew.

Respectfully submitted.

DANIEL M. GORDON,
Chairman of Committee.

KNOX COLLEGE.

REPORT OF BOARD OF MANAGEMENT.

The Board of Management of Knox College begs respectfully to present to the General Assembly its Fifty-Ninth Annual Report, and to transmit with it the Report of the Senate.

Seventy-seven students were enrolled in the Theological classes during the past Session. Of these thirty received their diplomas at the close of the academic year. The latter number, the Board observes with satisfaction, is the largest in the history of the College.

The net receipts for the ordinary fund were \$21,304.95. The expenditure amounted to \$20,976.87, leaving a balance at the credit of this fund of \$328.08. It will be observed that the amount of the contributions received during the past year from congregational subscriptions, legacies, etc., has exceeded the sum obtained from similar sources by \$621.70, and that the interest received from investments exceeds last year's receipts by \$1,738.93. This increase has enabled the Board to pay on account of repairs to the building \$602.06, and to pay the heavy assessment levied on the College premises for local rates. Without this increased revenue the accounts for the year would have shown a considerable deficiency.

The hazard to which the library is continually exposed in its present position, of destruction by fire, continues to give much anxiety to the Board. The necessity for the friends of the College to exert themselves in providing moneys for the erection of the proposed Caven Library, is very urgent. The Board hopes that before the date of its next Report, it will be able to state that the building has been completed.

The lamented death of Prof. A. Halliday Douglas, regarding whom such high hopes were entertained, and who so greatly endeared himself to all with whom he came in contact, cast gloom over the College and all connected with it. The Board most deeply regrets the loss the College sustained, and has tendered to his widow and daughter its most heartfelt sympathy.

The Board is greatly indebted to the Rev. Dr. Johnston, London, and the Rev. Alfred Gandier, B.D., Toronto, for their kind assistance in conducting the classes in the departments which would have been under the charge of Mr. Douglas, had he survived.

The Board, realizing the necessity for making an immediate appointment of a successor to the late Prof. Douglas, in order that whoever might be chosen should have ample opportunity to prepare himself for the duties of his Chair for the Session 1903-1904, devoted much time and careful attention to the selection of a suitable occupant for the position. The Board and Senate, in virtue of the powers specially delegated to them by the Assembly, unanimously appointed the Rev. J. D. Robertson, M.A., D.Sc., of the United Free Church of Scotland, North Berwick, to the Chair of Apologetics, Homiletics and Pastor of Theology, in Knox College. Dr. Robertson is a man of great learning and attractive personality. He is well-known as the author of a work on "Conscience," and of another book, "The Work of the Holy Spirit in Christian Service." Both of these books have

attracted much attention. Dr. Robertson has accepted the position and will enter on his duties at the commencement of next Session.

The Board is again much indebted to a committee of ladies in Toronto, for carrying out many much-needed improvements in the College, designed to add to the comfort of the students.

All of which is respectfully submitted.

WM. MORTIMER CLARK, *Chairman.*

Thomson, W. L. Williman.

Nine of these students have not completed the first year, having taken part of the work under the scheme of Theological Options.

The following summary of the several Class Reports is here given:—

Dr. Caven conducted the *Senior* and *Junior* Classes in New Testament Literature and Exegesis and the Class in Biblical Criticism. The *Senior* Class (Second and Third Years) heard exegetical lectures on the Epistle to the Hebrews, chs. i.-iv. and ch. vi. 1-7. As to translation and grammar the entire Epistle was studied by this Class. A series of lectures on "The Life and Letters of the Apostle Paul" was delivered to the *Senior* Class. The Greek critical exercises of the Students of the Second Year were examined and criticised.

The *Junior* Class read critically in the Gospel of John, chs. i.-iii. and part of ch. iv. In this reading a good deal of attention was given to the peculiarities of New Testament Greek. A course of lectures on Hermeneutics was delivered to this Class. The hour on each Monday was devoted to the subject of Biblical Criticism—mainly as bearing upon the Text—in relation to both Testaments. Con-

siderable attention was given to the history of the transmission of the Text and to the history of Textual Criticism.

Dr. MacLaren conducted two Classes in Systematic Theology. The *Senior Class*, consisting of the Students of the Second and Third Years, met four hours per week and heard lectures on all the leading topics in Anthropology, while in the Department of Soteriology, the Covenant of Grace, the Person and Offices of Christ, Effectual Calling and Justification were discussed somewhat carefully. This Class also examined and analysed chs. xxi-xxx. of the Confession of Faith.

The *Junior Class*, consisting of the Students of the First Year, met three hours a week during the first half of the Session, and two hours a week during the second. The subjects handled in this Class were Introductory Discussions, the Inspiration of Scripture, the Rule of Faith, the Attributes of God and the Trinity. This Class studied and analysed chs. i-x. of the Confession of Faith.

The Students in each Class wrote an essay on a prescribed theological theme. Many of these papers displayed decided ability and careful study.

The attendance in both Classes was very regular, and the conduct of the Students in every way satisfactory.

Professor Ballantyne reports that the *Senior Class* in *Church History* studied the history of the Medieval Church and of the Reformation on the Continent of Europe. This course embraced the history of Medieval Missions as well as the principles and methods of foreign mission work. Lawrence's "Modern Missions in the East" was used as a text-book and was read for examination. During the Second Term one day a week was devoted to the Book of Forms; the various duties of the minister in the Courts of the Church being dealt with from the practical point of view. Each member of the Class wrote an essay on "The Moral Effects of the Reformation."

The *Junior Class* studied the history of the Christian Church during the first six centuries. Special attention was given to the Apostolic period. For this the New Testament was read in English and the members of the Class examined on it. Each member of the Class wrote an essay on "The Influence of the Dispersion on the History of the Christian Church." In both Classes text-books were prescribed in connection with the lectures, and a written examination held at the end of the First Term on the work then covered.

In *Apologetics* the *Senior Class* studied the Evidences of Christianity. The members of the Class were required to read the recently revised edition of Fisher's "Grounds of Theistic and Christian Belief."

The *Junior Class* in *Apologetics* was conducted by the *Rev. Alfred Gandier, B.D.* In this Class "Fraser's Philosophy of Theism" was used as text-book, with constant reference to Flint's "Theism and Antitheistic Theories." In addition to examination and discussion of these books, lectures were given, in the First Term, on Positivism, Agnosticism and Materialism; with a criticism of the empirical theory of knowledge, upon which these systems are based.

In the Second Term, after a short critical study of Kant, with the aim of getting a true Metaphysic of Knowledge, Pantheism, Deism and Theism were discussed. The lectures farther embraced a study of the Cosmological, Teleological and Ontological proofs, in the light of modern science and philosophy.

During the Session each member of the Class wrote two essays and numerous Class exercises.

The *Rev. Robert Johnston, D.D.*, conducted the Class in Homiletics during the Second Term. This Class consists of the Students of the Second and Third Years.

Owing to the size of the Class it was impossible to hear sermons from all the

members of the final year, but sermons were received from all and criticised in the Class. Texts were also occasionally submitted, and on these the members of the Class were required to prepare outlines of sermons.

The lectures in Homiletics followed the usual lines, the aim being to make them as practically useful as possible. Two lectures were devoted to the history of preaching, and two to a study of methods of distinguished preachers in preparation and delivery of sermons.

Dr. Johnston, as requested, gave some instruction in Sacred Rhetoric, but the time was too limited to allow of extended work in this direction.

Both *Dr. Johnston* and *Mr. Gandier* speak of the fidelity of the students in attendance and work, and of the pleasure which they had in discharging the duties which the College requested them to undertake.

Professor McFadyen reports that during the Session 1902-3 the *Senior Class* met three and sometimes four times a week. The book of Habakkuk and sections from Jeremiah and Zechariah were read and commented upon. Lectures were delivered upon the ethics of the Old Testament, also upon Habakkuk, Jeremiah and portions of the historical books of the Old Testament. Every member of the Third Year prepared a critical exercise on some selected passage of the Old Testament, which was examined and criticized by the Professor.

The *Junior Class* met three, and occasionally four, times a week. A course of lectures was given on Hebrew Grammar and weekly exercises were prepared by the members of the Class. Selections from the Psalter were read and commented upon. Every member of the *Junior Class* prepared a paper on some question relating to the literature, history or criticism of the Old Testament, which was read and discussed in the Class.

Elocution. In conducting the Homiletical Class *Dr. Johnston* gave as much attention as time would permit to pulpit delivery. During the final term the services of *Miss E. Cornish, M.A.*, were secured and her instructions in elocution were attended by all the Students except two or three who, at an earlier period of the Session, had become connected with an elocution class outside the College. With consent of the Senate these students continued the course on which they had entered.

The Senate desires here to record its appreciation of the valuable service rendered to the College by the *Rev. Mr. Gandier* and the *Rev. Dr. Johnston* in conducting the Classes in *Junior Apologetics* and *Homiletics*.

The *Librarian*, the *Rev. William McWilliam, LL.B.*, reports that the College library has been used to a much larger extent than in any other year since his appointment. This may be partly due to the large attendance of students; but also to an increased interest in the library as an aid to study.

During the past year about 290 books—including pamphlets—were added to the library. The hope is expressed that very soon increased accommodation will be available in the new building which it is proposed to erect. The purchase of books must be materially limited until this hope has been realized.

The *Literary and Theological Society*, of which *Mr. Alexander H. McLeod* was president, met weekly as in past Sessions. The work of the Society was carried on with considerable enthusiasm. One of the public meetings of the Society took the form of an oratorical contest between representatives of the several years. The Premier of Ontario, who occupied the chair on the occasion, bestowed a gold locket upon *James Little, B.A.*, of the Second Year, who was adjudged to have won. For the coming Session *Mr. Gillies Eadie, B.A.*, is elected President of the Society; *Alexander McLean*, 1st Vice-President; *W. Nichol, B.A.*, 2nd Vice-President; *James Little, B.A.*, Critic; *H. B. A. Ketchen, B.A.*, Recording Secretary; *J. E.*

Reid, B.A., Corresponding Secretary; W. M. McKay, B.A., Treasurer; David Ritchie, Secretary of Committee.

Last year the *Students' Missionary Society*, of which Mr. D. J. Davidson, B.A., was president, sent to the field twenty-six representatives, of whom nine were appointed to the North-West of the Dominion, while seventeen laboured in the north of Ontario, three remaining in the Mission during winter. This year fourteen will proceed to the North-West, and sixteen will be stationed in Northern Ontario; three will remain on the field during the winter.

This, and the other College Missionary Societies, have strong claims upon the sympathy and support of the Church, on account of the large service rendered at very little cost, and the very valuable training which the Students themselves receive in this pioneer missionary labour. The officers for 1893-4 are: Mr. W. W. McLaren, B.A., President; N. A. Campbell, 1st Vice-President; R. G. McKay, 2nd Vice-President; Thos. McCord, Recording Secretary; R. B. Ledingham, B.A., Financial Secretary; R. B. Cochrane, B.A., Corresponding Secretary; A. L. Boyd, B.A., Treasurer; A. Thomson, Secretary of Committees.

On each Monday during the Session the Professors and Students met for half an hour, at the close of lectures, for prayer and religious conference. These Monday meetings superseded the Saturday conferences, which were held for many years, and were found to interfere less than the previous arrangement with private study. On one occasion a valuable address was given by the Rev. Prof. Hamilton, D.D., and on another Monday the Rev. Mr. Penn, of the Students' Volunteer Movement for Foreign Missions, gave an earnest and effective address on the great work which the movement represents.

In its report of last year the Senate put on record, in connection with the retirement of the Rev. Dr. Proudfoot, its deep sense of the very valuable services which he had rendered to the College during the long period of thirty-three years. Not long was he permitted to remain with us after the close of his public labours. In January of this year he peacefully ended the earthly life and entered into rest.

In last report, also, we recorded our gratification with the appointment of the Rev. A. Halliday Douglas, M.A., to the Chair of Apologetics, Homiletics and Pastoral Theology. Alas, very short, though efficient and full of promise, was the period of his connexion with the College. His one session with us not only assured us of his high qualifications for the work committed to him by the Church, but attracted to him the affectionate admiration of all the members of the College, and of many besides. Very suddenly, in June last, while visiting his native land, he was called from earthly service to the still higher service and blessedness of heaven. Our prayer is that the Head of the Church will send us one well qualified to fill the place which is left vacant by our lamented brother's death.

The degree of Doctor of Divinity has been conferred upon the Rev. George Bryce, M.A., LL.D., Professor in Manitoba College, the Rev. Alexander Gilray, Minister of College Street Church, Toronto the Rev. Andrew Browning Baird, M.A., B.D., Professor in Manitoba College, and the Rev. Alexander Van Millingen, M.A., Professor in Robert College, Constantinople, and the Rev. William Patterson, of Philadelphia.

The degree of Bachelor of Divinity has been conferred, after examination, upon the Rev. John Alexander Moir, LL.B., the Rev. John Duncan Morrison, B.A., and the Rev. John William MacNamara.

David Morrice, Esq., Montreal, has again earned the gratitude of the College by the gift of \$1,000 to establish the Mrs. Morrice Scholarship.

The Knox College Ladies' Committee have again rendered valuable and needed service, by papering and providing wardrobes for a large number of rooms in the College.

ANDREW JEFFREY,

TORONTO, March 22nd, 1903.

Auditor.

MANITOBA COLLEGE.

REPORT OF THE BOARD OF MANAGEMENT.

To the Venerable the General Assembly of the Presbyterian Church in Canada:

The Board of Management of Manitoba College respectfully submit to the General Assembly their annual report, together with that of the Senate and Treasurer.

There has been no change in the staff since last report, but Mr. F. W. Clark, Lecturer in Classics, was granted leave of absence to allow him to take the degree of Ph.D. in Chicago, and his place in the meantime has been supplied by Mr. A. Calhoun, B.A., a distinguished graduate of Queen's University.

As will be seen from the report of the Senate, the number of students enrolled in the summer session was 45, the largest in the history of the College. The number enrolled this year in arts is also the highest in the history of the College, being 159, making a total of 204 in all departments. The progress of Manitoba University, of which Manitoba College is the leading College, has been remarkable. No less than 767 students have been examined by the university this year. The Convocation for Arts took place on June 15th, 1903, and Manitoba College fully held the high place, both in numbers and success, in winning scholarships that has characterized its history. Though but one of the four affiliated arts colleges of the University of Manitoba, with a fifth in the Baptist institution in Brandon now educating students, Manitoba College sent up 57 per cent. of the students in Arts, and was successful in taking 71 per cent. of the medals awarded, and in securing 57 per cent. of the amount of money awarded for scholarships. The Matriculation Examinations begin on May 19th in the university building.

The minister evangelist students went up to the university and presented themselves at the examinations in the selected subjects in English and Philosophy. The Board is pleased to state that they all passed with credit. The Board asks the General Assembly to have regulations made as to the licenses and standing of this class of labourers. The usual details regarding the work done in Arts and Theology will be found in the report of the Senate.

The Board have received an additional \$5,000 as their share of the Century Fund.

The Presbyterian Church in Ireland, which has for a number of years most generously sent £100 a year for the support of the College, has intimated that it must now cease to do so, but has resolved as an expression of its continued interest in the College and its work to contribute £50 a year for the next two years. One of these payments is included in the financial year now closed. The Board desire to express their gratitude to the Church, not only for the

financial help it has given, but also for the many capable men whom it has sent to labour in the West.

The Board desires also to thank the many friends of the College in the East and the West who have come to its help with personal donations. A list of these contributions will be found appended to the report.

The congregational contributions from Ontario and Quebec are slightly in advance of those of last year.

The date of the closing of the annual financial statement of the College has been altered from April 30th to March 31st. This is in consequence of the recent change in the date of closing the books of the General Treasurer of the Church. Doubtless, because of this earlier date at which our accounts are closed, the usual contributions from the Maritime Provinces has not been received in time to be included in this report.

The congregational contributions from Manitoba, the North-West Territories and British Columbia again exhibit an increase.

During the year 1,041 volumes have been added to the library. Of these 701 were gifts, the principal donors being the Rev. William Forlong, of Edinburgh; the Rev. James Parlam, of Burntisland, Scotland, and Mr. John Ferguson, of London, England.

The Board are grateful to the Assembly for the authority bestowed on the Senate to confer the degree of Doctor of Divinity.

The Assembly saw fit last year to approve of the proposal of the Board and of the Synod of Manitoba to raise the sum of \$50,000 as a contribution to the Endowment Fund of the College in order to establish a new chair to bear the name of the late Principal King. As soon as the Board saw that the harvest was a bountiful one, steps were taken to appeal to the West on behalf of the movement. A large general committee was appointed to further the object, Presbyteries were requested to appoint Conveners, a circular, explanatory of the undertaking, was printed, and arrangements were made for the systematic visitation of congregations largely by members of the Board. The result of the appeal has been that the Board feel warranted in believing that the sum asked for will be raised by the time the canvas is completed.

The Board are deeply thankful for the manner in which the Church in the West has responded to this appeal. The contributions so liberally given furnish an evidence not only of the honour and affection in which the College is held, but also of the growth within the Church of a spirit of self-sacrifice, as well as of expansion, in numbers and resources. All those who have taken part in visiting congregations declare that the scheme has done much to strengthen the tie binding the congregations to the College and the Church, and to quicken the sense of the Church's unity, influence and resources.

The Board desires to thank all those who have promoted the success of the movement, especially the visitors of congregations and the Conveners of Presbyteries.

The Assembly further empowered the Board, if the movement succeeded, to submit the name of the person competent to fill the chair of Old Testament Language and Literature in the College.

The year was so far advanced before the Board felt justified in concluding that the required amount would be raised, that they have only been able at a late date, to issue the usual notices to Presbyteries inviting nominations.

The Board hope to lay before the General Assembly a proposal in connection with this matter at the meeting in June.
All of which is respectfully submitted.

COLIN H. CAMPBELL.

The classes in Old and New Testament Language and Literature were taught by the Principal. Those in Church History and the Hebrew Language by Professor Baird, and those in Systematic Theology, Apologetics and Christian Ethics by Dr. Kilpatrick.

The arrangements for practical training in its different branches, including the science and art of teaching, and Christian Missions, as well as the duties of the Christian preacher, pastor and teacher, have been made still more thorough, and additional time has been devoted to these branches. These arrangements have been much appreciated by the students, and the benefit resulting from them has been great.

The professors in Theology have reported most favourably to the Senate as to the work of the students during the session. Post Graduate work was taken by three students: two of these offered themselves for the degree of B.D.—one in the Department of Old Testament Language and Literature and the other in the Department of Theology. Both were successful in passing the examination, and accordingly the degree of B.D. was conferred on the Rev. Hugh Hamilton, B.A., and on the Rev. R. J. Macpherson, M.A.

The constant aim of the professors is so to equip men that they shall be able to enter on the work of the ministry, with full practical knowledge of all its details, as well as thoroughly instructed in Christian truth and animated by an evangelical spirit.

The special needs of the West are always kept in view, while the unity of the Church from ocean to ocean is not less insisted on.

In accordance with the decision of the General Assembly and the desire of the late Dr. Robertson, no summer session is being held this year, and hereafter the sessions in Arts and Theology will be contemporaneous.

The Senate received authority from the last General Assembly to bestow the degree of Doctor of Divinity. After full consideration, they resolved unanimously to exercise this power, and chose as the first person to receive the degree the Rev. J. A. Carmichael, who had just been appointed Superintendent of Missions for Manitoba and the North-West Territories.

The total number of students enrolled in the Arts Department was 159. Of these 147 presented themselves for the examinations of the University of Manitoba; 10 in the fourth year; 23 in the third year; 23 in the second year; 22 in the first year, and 57 for matriculation; 12 minister evangelists.

It is necessary to state that, on account of the University of Manitoba having in 1901 added another year to the Arts course, thus making it a four-year course, there ought not to have been in the natural sequence any graduating class this year. Some twenty students who had fallen out, however, presented themselves and have graduated this year. Ten of them belonged to Manitoba College. The names of these B.A.'s of 1903 are as follows:—F. M. Borland, J. B. Haig, W. M. Hart, J. P. Jones, John McMillan, E. J. McMurray, Miss I. M. Paterson, Miss J. R. Roy, D. S. Tod, Sterling Williams.

At the request of the last General Assembly, the Senate undertook to make special arrangements this year for the instruction of the new order of minister evangelists. Thirteen students applied to be enrolled in this class and the Senate, after mature consideration, assigned them standing in accordance with the regulations adopted a year ago. The Senate further arranged that for the present session these students should attend a special class in Scripture to be taught by the Principal, and the classes in literature and logic. Permission was also granted to them to attend voluntarily any additional classes. The Senate are glad to learn from the reports of the professors that the attendance, diligence and progress of these students have been very gratifying.

The Principal, besides taking Scripture with the minister evangelists, taught classes in Senior English Literature and in the History of Ethics. Dr. Bryce taught, as usual, the higher English classes. Dr. Hart took the Greek and Latin classes, and Dr. Baird conducted classes in Logic and in Hebrew. Dr. Kilpatrick taught classes in Philosophy.

Of the lecturers, Dr. Manaham had classes in Philosophy and in History; Mr. Will and Miss DuVal in French and German; Dr. MacInnes in Mathematics; Mr. Calhoun in Classics, and their work has been most satisfactory.

The College Journal is conducted with great spirit and the various student societies, religious, literary, musical and athletic have a large membership and perform valuable work.

REPORT OF THE BOARD OF MANAGEMENT OF THE CHURCH AND MANSE BUILDING FUND OF THE PRESBYTERIAN CHURCH IN CANADA FOR MANITOBA AND THE NORTH-WEST FOR THE YEAR 1902.

To the Venerable the General Assembly :—

While this, the twenty-first annual report of your Board, is being written, a stream of immigration is flowing into the Western country of greater strength and volume than any we have heretofore known. Instinctively the regret arises that our late beloved Superintendent of Missions is not with us in the body to see and to share in the expanding life of the North-West. During the month of April just closed some twenty thousand immigrants have arrived in the country, and some twelve thousand came in March. The responsibility accruing to all denominations in consequence of such an inflow is a most serious one, and should be faced with a proper appreciation of its vastness, but with hope and courage.

As will be seen from the financial statement appended, there has been a slight increase in the amount of both loans and grants made during the past year, as compared with the year preceding. It is regretted that in both years a large percentage of the total amount given as grants has been by way of remitting or cancelling portions of the interest or principal, or both, on loans to congregations which had regularly allowed their payments to go behind for years, in spite of repeated applications by the Board. A mortgage to a commercial lender or a loan company would probably have been enforceable and enforced by legal process, and payment secured, to the moral benefit, as well as the financial, of the congregation, but it would be only in the most extreme cases that such process could well be resorted to by the Board. It is hoped that almost the last has been seen of these cases, as they are discouraging to the work of the Board and demoralizing to the congregations.

The balance of the Morton Fund, which amounts to some \$6,000, and of which we have had the use now for so many years without interest, must, we regret to say, be repaid to the trustees of the estate. A recent application was made by the trustees to the court for permission to allow the Board to retain the amount as a surplus undisposed of by the will, the object being one much favoured by the testator. With one exception (The Aged Christian Friend Society of Scotland) the other societies and beneficiaries interested gave their consent, and some of them sent expressions of a most friendly Christian sentiment, and of interest in the work of the Board. These furnished a very pleasant incident to soften the disappointment.

The policy of the Board in the past has been based on the belief that it was not intended that the principal of the fund should be encroached upon.

A different policy has been advocated, and reference made to the latter part of Clause 5 of the Regulations of Assembly of 1887, as contrasted with Clause 8. If the Assembly be in favour of sanctioning any material impairment of the capital to meet urgent needs from time to time, the Board would like to have a pronouncement on the subject. Heretofore the Board has not hesitated to encroach on the capital in any year of great demands, but taking care to recoup at the earliest opportunity, and to avoid any material or permanent impairment.

It is difficult by the mere reading of a list of names and amounts, to gain any adequate conception of the work that is being done by this fund. In many places, where communities are new and settlement is sparse, it would be almost impossible to maintain ordinances were it not for the little Church buildings which the fund assists scattered companies of worshippers to erect, as, for instance, is the case in the Presbytery of Edmonton, with the small congregations of Long Valley, Sturgeon, Independence and Blackfields. The Presbyterian communities in these places would have to wait for two or three years and in some instances longer, but for the encouragement given by the Church and Manse Board to proceed at once to build their churches.

In such a case as Bonanza, in the district of the Yukon, the situation is somewhat peculiar. In that locality there is a large fluctuating mining population. Our missionary's services were greatly appreciated, and his influence strongly felt, but in the small huts and shacks, in which the people lived, no large congregation could gather. Besides this, it was important that the missionary should have some kind of a home. The Board considered it to be a wise investment to lend \$1,000 for the erection of a Church and Manse building to cost \$5,000. By this means the congregation will be equipped for services, and the missionary will have a home where he himself can have some degree of comfort, and to which he can invite his people. A recent letter from Mr. Pringle says the building is now filled to overflowing and the prayer meetings are the best he has known in his ministry.

In Windermere, in the Presbytery of Kootenay, the Board made a grant of \$125 to assist in erecting a small Church to cost \$965. This is a district remote from all railway connection. There are a few scattered ranchers up and down this very beautiful and picturesque valley in the Eastern Kootenays. The missionary's efforts have always been neutralized by the lack of something to give, in the words of our late Superintendent, "visibility to our cause," and impart an air of permanence to the work. The missionary encouraged the people to build a Church of their own. The Board granted \$125, the remaining \$840 the congregation felt they themselves could raise, and so the Church was erected, and Presbyterianism established in that distant valley.

At Flett's Springs, in the Presbytery of Prince Albert and Hymer's Crossing and Beaver Mills, in the Presbytery of Superior, we have illustrations of how in the newer districts of our country, where settlers are pouring in, our Church is making provision for the reception of those of our own faith. In each of these districts the little congregation will be materially augmented, and will grow rapidly in strength, and largely because it is equipped with a building, which invites the attention of the new-comers, and offers them a Church home. The importance of a Church building in a new community can hardly be over-estimated. During the coming year we may fully expect to have very large demands made upon the fund for the erection of Church buildings in the numerous new settlements that are being planted in every section of the North-West.

At a recent meeting of the Home Mission Committee for the Synod of Manitoba and the North-West Territories, the Superintendent of Missions called attention to the fact that the Committee would require to make use of the services of ordained men to a much greater degree than hitherto, both because more of these men are available than formerly, and also because of the more permanent nature of the settlement affected. This means that a considerable number of congregations in the West must erect manses almost immediately. The Home Mission Committee is finding itself seriously hindered in its work by its inability to offer ordained men who are married and have families, suitable homes. Many congregations that have just risen to the status of self-support, and have done so with considerable effort, shrink from assuming the debt of manse building. If the Fund could make more substantial grants, or offer larger loans to these congregations, they would be encouraged to build, and our whole work would be placed on an altogether different footing. The Church must seriously consider this matter, and it may be that, with the enormous expansion to be looked for in the West, it will be necessary to make larger provision for this work of Church and Manse building. The Board concurs in the opinion of the Superintendent that more Manses ought to be built, and a larger proportion of the cost advanced by way of loan than is allowed by the present regulations. And the Board thinks it right to point out that, in order to provide for this expansion, it may be necessary soon to appeal to the Church for an increase to the capital of the Fund.

Another department of our Mission work in the West, which has recently developed, and which possesses great possibilities of growth in the near future, is that among the foreign populations. At Teulon, in the Presbytery of Winnipeg, Ethelbert, in the Presbytery of Dauphin, and Rosthern, in the Presbytery of Prince Albert, the Home Mission Committee is establishing missions, in which medical work will be a prominent feature. The Board was called upon to assist in the erection of buildings at these points, and decided that this work ought to be considered as reasonably falling within the sphere of operations of the Board. It will be readily seen that this department of work must be treated in a somewhat special way. These foreign peoples are not interested in our work, and they cannot be expected to respond for some time with any attempt at self-support, and yet it is essential that evangelical religion should be planted among them. Inasmuch, however, as this work is not strictly within the scope of the Board's powers, the Assembly is asked to approve what has been done and to give directions as to the attitude to be taken for the future.

Since the Fund was established it has aided by loan or grant in the erection of 450 churches, 97 manses, 4 schools and 1 hospital, costing in all \$652,735.

The following applications for loans have been passed during the year ending April 30th, 1903:

REPORT OF THE COMMITTEE ON THE AGED AND INFIRM MINISTERS' FUND (WESTERN SECTION) FOR THE YEAR ENDING FEBRUARY 28TH, 1903.

The Committee begs to submit its report, from which it will be seen there are some features that are encouraging, and for these the Committee expresses thankfulness, while on the other hand the fact that a more generous response was not made by congregations to the special appeal of the Committee, is somewhat discouraging. It was hoped that the increased liberality on the part of congregations would have compensated for the funding of Ministers' Rates, and by that means ensure the carrying out on a scientific basis the business side of the Fund. There is now a debit balance against the ordinary fund of \$3,435.89. This amount of debt, however, has not arisen wholly during the year covered by the Report, as there was a debit balance carried forward from the previous year of \$1,321.43, making the net debit for last year \$2,114.46. It will be borne in mind that the Committee, in the Report presented to the last Assembly, expressed the hope that, in view of the increased Capital Fund, in future the full annuities provided by the rules then governing the Fund would be paid. The Committee, after careful consideration, and notwithstanding that a deficit might follow, decided to pay the full annuities, as provided by the rules prior to last General Assembly. In taking this action the Committee felt that it would not be fair to those ministers on the Fund, who had given more than twenty-five years of ministerial service, that they should continue to be deprived of full benefit, as they have been in past years, and the Committee trusts that the Assembly will concur in this act of simple justice. The value of this action to those ministers who reaped benefit from the change may be judged from the increased amount paid to them, namely, about \$3,000. It may be explained that it meant a difference to annuitants of twenty-six years' service and over of from \$5 to \$75. No doubt this action of the Committee has in some measure added increased comfort to the longer service annuitants. What shall be done in the circumstances must be left to the wisdom of the Assembly, but in the judgment of the Committee, congregations can, without adding undue burdens, be asked to clear off the deficit and increase their annual givings to an extent sufficient to meet the necessities of the Fund.

With reference to the Ordinary Fund, compared with the previous year, a gratifying increase of \$2,129.76 is shown. This is encouraging, but a comparatively small increase in the givings of many of the stronger congregations is all that is needed to make the income and outgo square with each other. Interest on the invested capital also shows an increase of \$2,503.86, which was to be expected in view of the increase in the Endowment Fund. The Committee desires to express its thanks to the Sabbath School Committee and to the Hymnal Committee for kind contributions of \$200 and \$556.50 respectively, received from them during the year.

With regard to the Capital Account, it is a matter of considerable disappointment that the second instalment from the Century Fund was only \$7,500 instead of \$15,000 as anticipated in the last Report of this Committee. This makes the total sum from that source \$52,500. It was anticipated that it would yield \$60,000.

The Committee is of opinion that the Capital Fund should be brought up to the sum of \$250,000, and would strongly recommend the Assembly to give the necessary authority to make the effort to do this by an appeal to the membership of the Church.

The Committee also feels that the time has come when the full measure of justice to the long service ministers on the Fund as annuitants, provided for under the Rules as adopted at last Assembly, should be given. It is therefore recommended that the Assembly give authority to the Committee to pay the full amount as therein provided, and urge congregations to make more liberal contributions for the support of the aged and infirm ministers upon the Fund.

It is further recommended, with a view to avoid any deficit which might arise in carrying out the last recommendation, that, notwithstanding Section c of Rule 3, Ministers' Rates be used as far as may be necessary, and the balance, if any, be added to capital.

ANNUITIES AND ANNUITANTS.

It may be of interest to note the years of service rendered by the annuitants drawing benefit from the Fund last year. There were in all eighty-seven. Dividing them into groups according to years of ministerial service, and excluding special cases and those annuitants who died before January of this year, it will leave eighty. Of these 17 had given 40 years or more of ministerial service; 4, 39; 5, 37; 2, 36; 5, 35; 3, 34; 2, 33; 5, 32; 4, 31; 3, 30; 4, 29; 3, 28; 2, 27; 2, 26; 2, 25; 1, 23; 1, 22; 3, 21; 1, 20; 1, 18; 1, 19; 5, 16; 2, 15, and 2, 11. It may be further stated that the annuities to these eighty ministers on the Fund amounted to \$17,930 under the Modified Rule as practised for some years past, the full rule calling for \$20,885, while under the new rule of last Assembly, the amount would be \$23,408.50. As already stated, the payment for the past year was under the full rule before changed last year. Of those whose names appear on the following list ten have passed away, namely, T. Goldsmith, Jas. Stewart, John Lees, Wm. Meikle, John McMechan, Wm. Lockhead, Geo. Cuthbertson, J. J. A. Proudfoot, A. Henderson and J. M. Jamieson.

\$20,354 06

*Mr. Ross not having been released by his Presbytery has returned this amount to Dr. Warden.

With regard to the Rev. Alexander Campbell and the Rev. David Forrest, who for the past two years have been drawing benefit from the Fund from year to year, it is recommended that they be continued for another year. It would appear that in Mr. Campbell's case there has been a measure of improvement in the state of his health, but not to an extent that would lead to the hope of his being able to return to the active work of the ministry at least in the near future. There is little improvement in the case of Mr. Forrest.

MINISTERS SEEKING CONNECTION WITH THE FUND.

It is evident that the improved condition of the Fund, and the feeling of stability which that improved condition affords, has led a greater number of ministers to seek connection than in former years. Fifty-eight have connected and paid their rates, while others wishing to connect had delayed too long, and had got beyond the age limit. It would certainly be in the best interests of the Fund if all ministers within the age limit (55) would at once connect. It would almost certainly prove to be an ultimate benefit to themselves as well as to their fellow ministers, and their doing so could not fail to exert a helpful influence in favour of the Fund throughout the Church. It is a fair question if, for the same outlay, ministers can make an equally good provision for advanced age.

SPECIAL GRANTS.

In view of the payment of annuities up to the full amount provided under the former rule, the Committee has not felt it to be wise to supplement when the sum of \$350 has been paid. It has, however, been deemed proper to continue the special grant of \$25 to the Rev. A. T. Colter, who is entirely disabled, and having been a non-rate paying minister with rather limited years of service, the amount of his annuity is small.

SPECIAL APPEAL TO CONGREGATIONS.

The Committee having decided to pay full annuities as already explained, thought it wise to issue a Special Appeal to Congregations, and while it may have been helpful in securing the increase in the givings from that source, the response fell much short of what was hoped for. It was rather unfortunate, too, that just about the time congregations were distributing the moneys for the year, some persons took to writing letters to the Church papers, in which questions were discussed, or raised, not likely to help the Fund. It is hoped that the special appeal may yet bear fruit.

AMALGAMATION OF THE FUNDS EAST AND WEST.

In view of the question raised in the Report of the Special Committee appointed at the last Assembly in regard to the amalgamation of the two funds, and which was unanimously approved by the Synod of the Maritime Provinces, and was also approved by this Committee, the Convener, with a view to the collection of data that might furnish a basis on which amalgamation could be carried out, prepared and issued a letter of explanation and blank schedule for statistics, and sent a copy of the letter to each minister in charge in the Western Section. He also communicated with the Clerks of Presbyteries, and sent schedules for the information required. He had hoped to have been able to have presented the result with this Report, but the late date at which the returns have been, for the most part, received, and the fact that some twelve Presbyteries have not yet sent in a return, has made it quite impossible for him to do so. The information will, however, be available when steps looking toward amalgamation are taken. It may be mentioned the Convener has received from the Conveners of the Eastern Section fairly complete returns for the Synod of the Maritime Provinces.

DEFERRED APPLICATIONS FOR RETIREMENT.

The case of Rev. Wm. Hodnett, permitted to retire last year, but in which further information was required, and the Rev. Mungo Fraser, D.D., whose case was before the Committee but the papers had not been received, and was referred to the Committee for action, have both been considered. It has been decided to allow Mr. Hodnett the twenty-nine years of ministerial service claimed. *Dr. Fraser's papers were found to be in order, and he was duly placed on the List of Annuitants.

*Since this was written notice of Dr. Fraser's death has been received.

APPLICATIONS FOR LEAVE TO RETIRE.

Applications for leave to retire and go upon the Fund for benefit have been received from the following Ministers:—

NAME.	PRESBYTERY.	AGE	YEARS OF SERVICE IN CANADA.	REASON FOR SEEKING RETIREMENT.
Rev. John Baikie.....	Paris	71	30½ years	Age.
" Robt. Whillans.....	Ottawa.....	61	30½ "	Throat trouble; chronic [laryngitis.
" Duncan Macdonald, Ph.D.	Montreal.....	68	38 "	Delicate health.
" David Miller.....	Toronto.....	56	15 "	Ill health.
" Jas. Douglas.....	Edmonton.....	70	31 "	Age.
" Robt. Fairbairn	Algoma	66	30½ "	Ser'us cond'n of hernia.
" Jas. Sieveright.....	Algoma	70	45 "	Age.
" John Maxwell.....	North Bay	42	10 "	Infirmary.
" D. D. McLennan.....	Glengarry.....	71	30 "	Age.
" Neil McNish.....	Glengarry.....	64	35 "	Ill health.

The Committee, after careful consideration, recommend that all be allowed to retire from the active duties of the ministry and be placed on the Fund for benefit, except the Rev. J. Maxwell, and that the annuities commence as follows: J. Baikie from October 1st last, R. Whillans from April 1st of this year, D. Macdonald from July 1st next, D. Millar from March 1st last. In the other cases to follow the ordinary rule and date from meeting of Assembly. In regard to the case of Rev. John Maxwell, the illness from which he suffers is not likely to be permanent, and will in all likelihood disappear with a change of occupation. He has not paid Rates, and would, therefore, only be entitled to one-third (\$25), but in view of his circumstances the Committee authorized an immediate payment of the sum of \$50 for one year.

THE NEW RULES.

The Committee has carefully considered the new rules adopted, *ad interim*, by the last Assembly, and fully approve them, subject to the following:—

Rule 3. Insert the words "with the Fund" after the word "connected" in the fourth line.

The Committee, while not entirely disapproving of the grouping system of Ministers' Rates, think that it would be fairer to all parties to have them for each separate age, beginning with age twenty-five and up to fifty-five, and would recommend the change, subject to the concurrence of the Committee on the Eastern Section of the Fund.

Rule 5. That the following be added to the second paragraph: "Provided that in no case shall the rate be less than the age rate at date of connection with the Fund."

Reports in regard to the rules have been received by the Convener from the following Presbyteries:—

Presbytery of Truro, N.S., suggests the following changes:—

Rule 3. (a) A change in the wording, the chief effect of which would be to limit connection with the Fund to "Professors in Theological Colleges of the Church."

(b) A change in the wording.

Rule 5. Proposes to substitute for the present wording: "But a minister leaving the ministry of our Church and transferring his services to a sister Presbyterian Church, or engaging in work under the direction and supervision of the General Assembly, or of the Lower Courts of the Church, shall not thereby forfeit his interest in the Fund."

Rule 7. Omit mark (a).

Rule 8 proposes to add to (a): "When the Fund is not sufficient for full payment according to the rates specified herein, deficits shall be cumulative charges from year to year against the Fund in favour of persons who have suffered loss through such deficit, and shall be payable to them from any surplus that may arise in the Fund during their life time."

(b) Wants definiteness as to when annuity shall be paid.

Presbytery of Algoma. Approves.

Presbytery of Kingston. Approves.

Presbytery of Guelph. Disapproves of clause 2, "are of opinion that invested capital should be used for paying annuities." Rule 3 (clause c) disapproves, think ministers' rates should be used in payment of annuities. Are of opinion "that former ministers should not be kept on a meagre allowance, and provision made for larger grants to younger men in the future." Calls attention to the "disproportion in the rates up to age thirty-five, in which the increase is 50 per cent., and in those above of 33 per cent." Presbytery considered the fixing the age at sixty-five instead of seventy, but recognized the unsurpassable difficulties in the way.

Presbytery of Peterboro. Approved of Rules 1, 2, 3, 4, 5 (part i.), 6, 7, 10, 11, 12, 13, 14, 15. Does not approve of rule 5 (part ii.). Wants this made more definite, as to whether it applies only to services in the Presbyterian Church in Canada. It is also asked what is meant by the word "cognate." As to rule 8 (a), recommends forty-five instead of forty. Also that (b) of same rule be made to read "quarterly payments." Rule 9. Recommends "that ministers not in connection with the Fund be entitled to 2-3 (two-thirds)." It is also recommended that an opportunity be given to every minister in the active service of the Church, of whatever age, to unite with the Fund on payment of a fair consideration." The return then goes on to give reasons, which cannot very well be included in this report.

Presbytery of Minnedosa. Approves, except as to rule 9 first clause. Reason, "that ministers are contributing to the Fund along with their congregation in the annual offering, and therefore unfair to deprive them of all participation in the benefits."

Presbytery of Toronto. Approves.

Of course, these returns are for the Assembly, but the Committee may be permitted to cover two points raised by the Peterboro Presbytery, namely, the sense in which the word "cognate" is used, and as to last part of rule 5. As to the term "cognate work," the sense in which it has been used by the Committee, is work of a religious character, as for example the Rev. Robert C. Moffatt, D.D., who is Secretary and Agent of the Upper Canada Religious Tract and Book Society. It was also held to cover the case of the Rev. W. D. Ballantyne while engaged as editor of the *Canada Presbyterian*.

As to the other point, would the annuity paid to a minister who had transferred his services to another Church be allowed for ministerial services in the sister church. He would only be allowed for service in the Presbyterian Church in Canada, or in those Churches which now form that Church and for service in Canada.

J. K. MACDONALD, Convener.

REPORT OF THE COMMITTEE ON THE AGED AND INFIRM MINISTERS' FUND (EASTERN SECTION), FOR THE YEAR ENDING FEBRUARY 28TH, 1903.

Last year the Committee presented its report with more hopefulness than usual. The outlook this year is still brighter. In spite of the inevitable disturbance which the increase of rates produced, the past year has been marked by substantial progress. The adverse balance of \$902.37, with which the year opened, has been reduced to \$520.21. Had not the rates for 1902 been carried to capital account, the debt would have been wiped out, and a credit balance of \$593.00 would have taken its place. The number that united with the Fund during the year was twenty-five, an excellent showing. Others have expressed their intention to unite in the near future. At the present time 187 are paying rates, although fifty of these are in arrears. This is not satisfactory; nevertheless the amount due is an asset of some value, possibly sufficient to wipe off all present indebtedness.

The collections from congregations aggregated \$623.00 less than during the previous year. The difference is to be accounted for in part by a special appeal made in 1901. It is also in part due to the neglect of a large number of congregations to give anything to the Fund. The number contributing last year was 149 as compared with 176 during the preceding year.

As this is the last report which your Committee expects to submit to the General Assembly, the members desire to record their sense of gratitude to God for what the Fund has accomplished in the thirty-three years of its operations, and their conviction that amalgamation of the Funds will result beneficially to all parts of the Church.

APPLICATIONS FOR LEAVE TO RETIRE.

Applications for leave to retire from the active duties of the ministry and obtain benefit from the Fund have been received from the following:—

NAME.	PRESBYTERY.	AGE	LENGTH OF MINIST'AL SERVICE.	REASONS FOR RETIREMENT.
Donald MacRae, D.D.....	St. John.....	69½	47 years.	Old age and infirmity.

The Committee agreed to recommend that these applications be granted; Dr. MacRae's to take effect on his attaining the age of seventy, on November 26th, 1903, and Mr. Ross's from the date of resignation of his charge. Both are entitled to the maximum annuity.

Respectfully submitted,

ANDERSON ROGERS,
Convener.

MINISTERS, WIDOWS' AND ORPHANS' FUND. (WESTERN SECTION).

To the Venerable the General Assembly :

Your Committee are gratified in being able to present the most satisfactory report for many years. There has been a large increase in the number of annuitants in the last five years, entailing a very considerable increase in the expenditure of the Committee, and for the past two or three years, the revenue has not been equal to the expenditure. Your Committee reported to last Assembly a deficit of \$3,883.42. Special efforts were made to present the claims of the Fund to Presbyteries and congregations, and also to many individual friends. The result amply repaid the effort made, and your Committee are gratified in being able to report that the deficit of \$3,883.42 of a year ago has been entirely removed, and, after meeting the annuities and all other expenses, the year closed with a balance to the credit of the Fund of \$2,021.89. They thankfully acknowledge the valuable assistance received from many ministers and sessions of the Church, and especially the generous help provided by a considerable number of individual friends, who forwarded personal contributions on behalf of the Fund.

Your Committee, in accordance with the discretionary power granted them by last Assembly, intimated to all the ministers of the Church not connected with the Fund, and who had been ordained for upwards of four years, that they could have the opportunity of uniting with the Fund, provided they desired to do so, prior to the 28th February last. Between forty and fifty ministers availed themselves of the opportunity. The arrears paid by these largely increased the receipts for ministers' rates, which amounted to \$5,626.

A careful estimate has been made of the revenue and expenditure for the current year. After deducting interest on investments and ministers' rates, \$12,000 will be required from the congregations of the Church, and it is earnestly hoped that by the hearty co-operation of ministers and sessions, this amount will be got, so that the Committee will be in a position to maintain the present rate of annuity. It is most desirable, especially when the increased cost of living is taken into consideration, that the annuity should be increased from \$150 to at least \$200 per annum. This, however, would necessitate an addition of \$7,000 to the annual revenue.

It is hoped that the new committee to be appointed by the General Assembly will continue efforts to increase the interest of our people in this important part of the benevolent work of the Church, and will keep steadily in view the desirability of increasing the annuities paid at the earliest possible date.

Your Committee had a conference in March, with representatives of the Widows' and Orphans' Committee, Church of Scotland Section, when the question of the amalgamation of the funds of both Committees was considered. This, however, will be reported to the General Assembly by the Special Committee appointed for the purpose.

The following have been added to the list of annuitants since last Assembly :—Mrs. G. L. Mackay, Formosa ; Mrs. E. Macvicar, Montreal ; Mrs. Proudfoot, London ; Mrs. James Stewart, Aberdeen ; Mrs. G. MINISTERS' WIDOWS' AND ORPHANS' FUND, SYNOD OF THE MARITIME PROVINCES.

The Committee of the Ministers' Widows' and Orphans' Fund of the Synod of the Maritime Provinces beg leave to report as follows:—

The receipts for the twelve months ending Feb. 28th, 1903, have been:—

Ministerial Rates	\$2,093 94
Collections, donations, etc.....	266 20
Accumulation, building society	833 30
Interest and dividends.....	4,646 28
	\$7,839 72

The expenditures have been:—

Annuities to Widows and Orphans	\$2,829 70
Salaries, secretary and treasurer	400 00
Current expenses.....	75 25
	\$3,304 95

Leaving a balance of..... \$4,534 77

to be added to capital. The assets of the fund at date are \$134,488.56, as against \$122,367.12 reported last year, showing the very substantial and gratifying increase of \$12,121.44.

Since last reporting, Mrs. Sarah P. Grant has been removed by death from the list of annuitants, and Mrs. Susan McLennan Gunn and her four orphan children have been added to the same list.

The number of widows in receipt of annuity is seventeen, and of orphans, eight.

Since last Assembly your Committee are glad to be able to report that eleven ministers have become connected with the Fund, being more than double the number reported last year, namely, in Class I., Messrs. L. A. Maclean, Pisarinco, N.B.; H. G. Gratz, Alberton, P.E.I.; W. A. Cunningham, Mahone Bay, N.S., and W. Forbes, Noel, N.S.; in Class II., Messrs. W. Meikle, Glace Bay, C.B.; A. J. McNeill, Orwell, P.E.I.; M. H. McIntosh, Cavendish, P.E.I.; J. W. McPhail, Wallace, N.S.; H. H. Morton, Trinidad; Adams D. Archibald, without charge, and J. Wheeler, Harcourt, N.B.

In accordance with the constitution of the Fund which provides for a revision of the Rules every fifth year, amendments to the Rules have been submitted to and approved unanimously by the Ministers connected with the Fund, and by the Synod of the Maritime Provinces.

The Committee desire to call attention to the most important of these. It is proposed that Ministers' Rates be reduced—in Class II. from \$14 to \$12, and in the other Class and other rates of payment in a like proportion, that a reduction of one-third of the above rates be made in the case of retired ministers, and that the time for entering without the payment of arrears be extended from two to three years from the date of ordination; while the annuities to widows have been increased—in Class I., from \$85 to \$97.50, and in Class II., from \$170 to \$195, and to orphans in a like proportion.

The Committee rejoice that they have been able to propose these changes, and they would desire to state that, very considerable though they are, the financial position of the Fund is so satisfactory that, in their judgment, they can be made with perfect safety. They may also be permitted to point out, as affording some evidence that the Fund has been carefully managed, that the present is the third time that reduction of rates and addition to annuities have been made since the amalgamation in 1883.

The Committee earnestly hope that one effect of these changes—which are all in one direction—will be to induce many brethren to connect themselves with the Fund who have not hitherto done so.

The amendments are as follows, for which the approval of the Assembly is, in like manner, respectfully asked.

AMENDMENTS.

V. Ministers ordained and being inducted or appointed to any congregation within the bounds of the Synod of the Maritime Provinces, or to any congregation of the late Synod of the Maritime Provinces in connection with the Church of Scotland which did not enter the union, may be admitted to the benefits of the Fund by entering on or previous to the first day of July, three years after ordination and paying the regular rates from that date. But should any neglect doing so at that time, he may join any time within two years after by paying arrears from that date with interest.

VIII. Every person coming on the Fund shall pay annually on or before the first day of July in each year, the following rates:—

	Class I.	Class II.
Ministers under 35 years of age.....	\$6 00	\$12 00
“ between 35 and 45.....	7 50	15 00
“ “ 45 and 50.....	9 00	18 00

The application of any minister over fifty years of age shall be made the subject of special consideration.

In the case of ministers permitted to retire by the General Assembly, a deduction of one-third shall be made from the above rates, and in the case of ministers without charge, a similar reduction may be made by the Committee if it sees cause.

There shall also be chargeable a marriage equalizing tax (not paid annually, but only on occasion of marriage) for every year exceeding five that the minister's age exceeds that of his wife, at the following rates:

	Class I.	Class II.
Under 45.....	\$2 00	\$4 00
“ 60.....	4 00	8 00
Over 60.....	6 00	12 00

The same to be paid on every subsequent marriage, except when he marries a widow already on the Fund, with the understanding that the Committee shall have power, in special cases, to remit or reduce the amount. In all cases he shall be bound to furnish a statement of the date of his own birth and that of his wife.

IX. Members not making payment of their annual rates on or before the first day of July in each year, shall be subject to the following fines:—

Class I.	Class II.
10 cents.	20 cents.

for each month thereafter until payment is made; and those in whose case arrears

have accumulated to the amount of four annual rates, shall be liable to forfeit their membership and all privileges connected with the Fund, and shall have no claim to the money they have paid into it. Intimation shall in all cases be sent to ministers in arrears before they shall be cut off from the benefits of the Fund.

X. A member shall be entitled at any time to redeem his annual rates by the payment of a single sum, or to commute them into an increased payment to cease on his attaining the age of sixty-five (65), according to the Tables framed for the use of the Fund.

XI. The annuities to widows shall be as follows :

Class I.	Class II.
\$97 50	\$195 00

But in order to enable the widow to recover an annuity, six payments of annual rates shall be made, such payments, so far as they have not been made, to be deducted yearly from the annuity.

XIII. There shall also be paid to each orphan child of any member the sum of \$27.50 when on the higher class, until such child shall reach the age of 18, and for those on the lower class one-half of the above amount. In the event of the decease of both parents, payment shall be made as follows :—When on the higher class, to the eldest orphan two-thirds of the amount payable to the widow, and \$27.50 to each additional orphan, but the aforesaid payment to the eldest orphan shall be transferred, on his reaching the age of eighteen, to the next orphan in age, and so on in succession till the youngest have reached the said age; and when on the lower class, according to the same percentage. In the case of orphans over eighteen years of age, whose fathers died while paying into the fund, incapacitated either physically or mentally for earning their own living, the Committee shall have the power of continuing the annuity for such time and to such an amount as they may see fit.

XVI. These rules shall only be altered every fifth year, and no such alteration shall be made until considered by the Committee, and the proposed alterations be submitted to a meeting of those in full standing as contributors, and adopted by a majority of those present, and afterwards submitted to Synod and Assembly and approved by them.

XXII. The Committee shall have power to deal with the cases of ministers coming from beyond the bounds of the Synod of the Maritime Provinces, and inducted or appointed to congregations of the said Synod, or to congregations of the late Synod of the Maritime Provinces in connection with the Church of Scotland, which did not enter the union, or entering the service of either Church as ministers or professors, which do not come within the operations of Rule V., provided application be made on or before the first day of July, two years after their aforesaid induction or appointment.

A new edition of the Rules will be issued after the Assembly rises, copies of which will be sent to all connected with the Fund, and which others can obtain by application to the Secretary.

The list of annuitants is as follows :—

REPORT OF SPECIAL COMMITTEE *re* AMALGAMATION OF MINISTERS' WIDOWS' AND ORPHANS' FUND.

The Special Committee appointed by last Assembly to consider the desirability and feasibility of amalgamating the Ministers' Widows' and Orphans' Fund, Western Section, and the Ministers' Widows' and Orphans' Fund, Church of Scotland Section, beg leave to report that conferences were held during the year in Montreal and in Toronto. The state of each of the Funds was gone into with some care, and, after consideration, the following resolution was adopted: "That, in the judgment of this Committee, the amalgamation of the two Funds is desirable and feasible," and it was agreed to ask the General Assembly to appoint a Committee to arrange satisfactory details for such amalgamation, to report to next Assembly.

With reference to the other point which was referred to your Committee, it was agreed, in view of the above resolution looking towards the amalgamation of the two Funds, that it is not necessary to take action upon the petition from the Board of the Ministers' Widows' and Orphans' Fund, Church of Scotland Section, relating to the Century Fund, in their last year's report.

All of which is respectfully submitted.

REPORT OF COMMITTEE ON DISTRIBUTION OF PROBATIONERS FOR THE YEAR JULY 1ST, 1902, TO JUNE 30TH, 1903.

To the Venerable the General Assembly of the Presbyterian Church in Canada:—

Your Committee on the Distribution of Probationers have to report that during the year, eighty-three vacancies were reported for supply. Settlements have taken place in forty-one of these, so that there are forty-two now on the roll.

From Appendix I. it will be seen what Presbyteries sent in applications for supply, and the vacancies reported by them; the settlements that were made in these, with the dates and names of ministers, and the vacancies still existing.

Your Committee has to do in all with twenty-seven Presbyteries. Of these, two had no vacancies, namely Paris and Huron. One had as many as twelve, but of these, two had stated supply and one was not prepared to call, four were settled, and in the quarter closing with June five were in existence. One Presbytery had seven vacancies; one had six and so down to one.

All the Presbyteries have not reported their vacancies for each quarter.

The Committee have endeavoured to give effect to the enactment of the Assembly requiring every Presbytery to report all its vacancies prepared to call for at least one half supply. If a Presbytery did not specify the days for which appointments were desired, the Committee took this in their own hands, as a matter of course, and so far as known to them, the arrangements have wrought fairly well. Difficulty has still been encountered from Presbyteries violating the law of the Church in closing their vacancies to Probationers, and giving appointments to Ministers in stated charges, and others whose names were not on the roll.

From Appendix II. it will be seen that there were twenty-eight Ministers or Licentiates who placed their services at the disposal of your Committee for longer or shorter periods of the year. Three of these withdrew for the winter months as noted, two of whom have returned and been re-entered. Four have accepted calls and been inducted; five have taken mission work, principally in Manitoba and the North-West, in which the field of operations is so rapidly and widely opening up. One has apparently left Canada but he did not inform the Committee of his movements, and they failed to reach him by correspondence. Sixteen are now on the roll, and under appointments for the current quarter. It was taken for granted that all these were available for the work given them, as they had made application and were under Presbyterial certificate, but your Committee have reason to know that disappointment was caused to some vacancies, if vacancies also in some cases disappointed the Probationer. Looking at all facts, your Committee are of opinion that there should be fuller contact with them on the part of Probationers, and that these should be called upon to report their diligence in fulfilling appointments given them. A better opportunity will thus be afforded of learning the faithfulness of Presbyteries in sustaining the Committee, and co-operating with it, in giving effect to the enactments of the Supreme Court, and the faithfulness of the men who have applied for appointments in fulfilling those given them.

Your Committee observe from the public press that an Overture has been adopted by the Presbytery of Hamilton having in view to dispense with the present mode of providing supply for vacant congregations in the Church. Of the Overture itself nothing shall be said further than that it is of an indefinite character, but no doubt this feature will be amended in its presentation to your venerable court. All the Committee feel themselves warranted to state at present is that such a scheme as is now in force, somewhat, it may be, modified in form, but in entire agreement in essentials, continued for many years—in some sections of the Church before the union in 1861, again between that union and the one in 1875, and since that union. It may be affirmed then, in general terms, that with an exception just to be mentioned, the Presbyterian Church in Canada has never been without a Scheme and a Committee for the Distribution of Probationers.

Some years ago the Scheme was dropped, the Committee was dispensed with, and vacancies and Probationers were left to manage for themselves; but such were the want and inconvenience experienced, such the unsatisfactoriness and discontent on all hands, that after two years or so, the proposal was made to revive it, and revived it was in a somewhat different, but essentially identical, shape.

Not giving entire satisfaction to all, a proposal was made to establish what appears to be contemplated in the Overture now on hand, and it with a scheme prepared according to suggestion or appointment, was sent down to Presbyteries for their consideration and decision, when a majority of these gave their verdict against the proposal, and in favour of a scheme, either the one in operation, or some other of a similar character.

A Scheme was prepared by the Committee and submitted to the General Assembly by whom it was received and referred to a Special Committee composed of Ministers from sections of the Dominion widely apart. These gave it very careful consideration, reported their conclusions to the Assembly by whom it was discussed in every one of its provisions; changing or adopting these as seemed good to it in its wisdom. Perhaps there never was a scheme of any kind that received such attention and deliberate consideration from the Supreme Court of the Church. The results and conclusions are embodied in the Act under which the Committee is appointed, and in the instructions by which they are to be governed. It is presumed that no more suitable method can be proposed. It secures justice to both vacancies and Probationers. It ought to give universal satisfaction. At the present time it is working as well as can be expected. It has been in existence only three years, and its merits, with increase of knowledge of its provisions, are becoming better appreciated. There are indications that it is growing in favour as it becomes better understood. Your Committee would pray your Assembly not to disturb present arrangements.

Your Committee close with the following recommendation:—"That it be an instruction to the Committee to furnish each Probationer with a blank-form on which he shall report to them the fulfillment of his appointments in the Presbyteries in whose bounds he has laboured.

Respectfully submitted,

ROBERT TORRANCE,

Convener.

REPORT OF THE COMMITTEE ON CHURCH LIFE AND WORK.

To the Venerable the General Assembly :

Your Committee on Church Life and Work submits the following report :

In accordance with the recommendation of last year's Committee on Church Life and Work, adopted by the General Assembly, the series of questions issued in October last to all Sessions within the bounds of the Church, bore only upon that section of the subject embraced in the conditions of the homes of our people.

As it was in the beginning, so has it been this year. A considerable number of the Presbyteries of the Church have seen fit to ignore the whole matter, or at least have neglected to make any return to the Convener of the Assembly's Committee. Why this is the case your Committee do not undertake to say, but think it well to give a list of the reports which have been received.

From the Synod of the Maritime Provinces, returns have been received from the Presbyteries of Inverness, Truro, Halifax, Lunenburg and Yarmouth, St. John and Miramichi—six out of ten Presbyteries.

From the Synod of Montreal and Ottawa : Presbyteries of Montreal, Ottawa, Glengarry, Lanark and Renfrew and Brockville—five out of six Presbyteries.

From the Synod of Toronto and Kingston : Presbyteries of Kingston, Toronto, Orangeville, Owen Sound and Guelph—five out of twelve Presbyteries.

From the Synod of Hamilton and London : Presbyteries of Hamilton, Paris, London, Chatham, Sarnia, Stratford, Huron, Maitland and Bruce—all of the Presbyteries of this Synod.

From the Synod of Manitoba and the North-West Territories : Superior, Rock Lake, Glenboro', Portage La Prairie, Dauphin, Brandon, Minnedosa, Prince Albert—eight out of twelve Presbyteries.

From the Synod of British Columbia : From the Presbyteries of Edmonton, Calgary, Kootenay, Kamloops and Victoria—five out of six Presbyteries.

A total therefore of thirty-eight reports have been received in place of the fifty-five, which might reasonably have been expected. It is cause of regret that there should be such a large part of the Church's territory unrepresented in this report, and it is evident that both as to life and work, these Presbyteries require quickening. A report was also received which had no indication in it as to what Presbytery or section of country it represented.

In the reports received there is great diversity in the care given to preparation, and the form in which they are presented. St. John, Ottawa, Montreal, Lanark and Renfrew, London, Sarnia, Owen Sound, Edmonton and Kootenay are notably good. The endeavour has been made by your Committee carefully to summarize, presenting as far as is possible conclusions on which there is large unanimity, and passing over statements which are peculiar to some one section, and where facts exist it may be reasonably inferred, because of purely local conditions. Before entering on the summary of replies, there are a few observations which seem called for, if the report is to be intelligently considered.

- (1). There are only two Presbytery reports (Montreal and Guelph) which

indicate that all the Sessions have made returns to the circulars issued. In all others reference is made to delinquents, in greater or less number.

- (2). There is no adverse criticism of the action of Assembly in confining inquiry to the one section of Church Life and Work, and there is scarcely any fault-finding with the questions propounded. It is a commonly expressed judgment, that if all is well in the home, all other spheres of Christian activity will be prospered.

- (3). There is evident considerable variety in the way in which reports are prepared. In some cases the minister, in others the Session as a whole, and in others a committee of Session.

- (4). Only in a very few instances is reference made to the questions being discussed at some diet of public worship, and yet in this way more than any other, may direct profit be looked for.

- (5). The complaint is made with great frequency, that Sessions have replied to the questions by a simple "yes" or "no." Such replies are practically valueless.

Passing then from these general observations, the first question asked of Sessions is as follows :

I.—Are the homes represented in your congregation shown to be Christian homes by

- (1). Recognition of God in family worship, thanksgiving at meal times, or other acknowledgment of dependence on Divine help ?

In dealing with this question, it is plain, that in very few cases has there been an effort to obtain exact information as to the facts. It is indeed indicated in one or two Presbytery reports, that an inquiry of this nature is almost impossible, as it would be considered inquisitorial and an unwarrantable intrusion on the privacy of family life. Other reports hold that such information might be obtained, if Sessions did their plain duty. Bearing this in mind, we have a record of impressions made on ministers and elders of the Church. These vary very much, and in consideration of them, certain facts must be borne in mind. Customs prevailing in country and in city ; in old and in newly-settled districts ; the point of view, in many cases, contrasts being made with a generation ago ; the temperaments of those who are responsible for the replies, now optimistic, and again pessimistic.

Family worship is said to prevail in from five to ninety-five per cent. of the families. These are the extremes mentioned. Fifty per cent. is the proportion most frequently stated. The general opinion seems to be that it does not prevail as it did in years gone by. The reasons assigned are the difficulty, sometimes impossibility, of getting members of the family together, and the lack of some form of prayer which might be used. In one case a Session has distributed copies of "Aids to Family Worship," and one Presbytery recommends that the Assembly should publish a Presbyterian Handbook, similar to that issued by the Presbyterian Church of the United States, giving the facts of the Church's work, and also the text of Sabbath School Lessons, Prayer Meeting Topics, and Bible Readings for the current year.

In regard to thanksgiving at meal times, it is much more common than family worship, and it may be assumed that in this way and in other ways, such as private prayer and reading, there are comparatively few families connected with the Presbyterian Church where some recognition of dependence on the Divine aid is not found.

(2). By patience and submission in times of affliction?

In the replies to this question there is remarkable unanimity. With very few exceptions the testimony borne is to the effect that in times of sorrow and affliction, patience and submission are the rule, and frequently, it is said, signs of a higher spiritual life are the fruits of affliction. It is manifestly true that many may say. "Before I was afflicted I went astray, but now I observe Thy Word." Whatever criticism may be made of the fact, the general and emphatic verdict is that affliction is borne patiently and submissively. Here and there, however, other opinions emerge. In some instances despair and stoicism are evident; there is submission and patience in sickness and bereavement, and when the affliction is looked upon as directly from the hand of God, but when it may be attributed to man, or when the suffering is the outcome of financial loss, the rebellious and bitter spirit is found. Giving full weight to these statements, they are present in very small measure in comparison with the great weight of evidence that in such crises the right Christian spirit is ordinarily to be found. Indeed, several state that this spirit of submission and patience is the best evidence of Christianity manifested in our homes.

(3). By readiness to forgive when offence has been given?

There is not as great unanimity in the responses to this question, as in the preceding. Very few reports but note some cases where there is estrangement, and the nourishing of grudges. The position is taken "I will forgive, but not forget;" or, "I forgive, but want nothing more to do with the offender;" and, it is thought that many do not grasp the real meaning of forgiveness. While in almost every Presbytery such exceptions are noted, the general testimony is to the effect, that there is readiness to forgive when penitence is shown. It may be said that the great majority of our people exercise this grace. One Session makes the curious statement, that certain folk seem to esteem it a religious duty to cherish spite.

(4). By honest dealing and endeavour to meet financial obligations?

In the responses to this query, these facts are to be noted. As far as dealing with fellow-men is concerned, there is an evident inclination to boast of the honesty of Presbyterians, as of a somewhat higher grade than the general one. Whether this would receive the assent of those who are not Presbyterians, is a question. In a few cases, complaint is made of extravagance in living, and of the way in which business firms thrust their wares on people, so that the purchaser, although not intending dishonesty, finds himself in difficulty. With considerable frequency the reflection is made, that although our people are honest in their mutual business obligations, many are not faithful in meeting the demands of God upon them. The most discouraging reply comes from the Presbytery of Inverness. It is as follows: "There are some in all our communities who pay their debts promptly, others who are anxious to do so; but the bulk of our people are not intensely earnest about the matter. The rule, 'Owe no man anything,' is not their golden rule. The tendency is to shirk payment of pecuniary obligations, and to postpone as much as possible that disagreeable duty." This is remarkable because it is so entirely out of accord with the general returns. It is to be feared that some in their consideration of the questions submitted to them, have referred them to the community generally, instead of confining, as is plainly meant, the application to the members and adherents of the Presbyterian Church.

(5). By clean living and freedom from excess of any kind?

The general response to this query may be put thus. The homes of our people are as a rule, pure and free from excess. There is a commendable abstinence from overt action, and beyond that we can scarcely judge with accuracy, that would be considered a violation of the principles of the seventh commandment. As to other forms of excess, all over the Church are to be found

occasional transgressions, but these are rare, and there seem to have been very few cases calling for discipline. The use of intoxicating liquor and tobacco are referred to, but the general conditions are apparently encouraging. In a number of cases, too, there is said to be excess in work, in the pursuit of pleasure, dancing being instanced in one or two cases. While the general response is therefore favourable, it seems only right that another kind of statement, which comes from a Western Presbytery, should be quoted. It is as follows: "There is not a town within the bounds, that is not suffering grievously from the curses of strong drink, and the social evil. The rural districts are cleaner in these respects, but the constant communication between town and country must affect even the rural districts adversely. It is folly to try and make ourselves believe that these two evils can exist to the extent that they do, without seriously affecting the character of our home life. Young men, and sometimes mere boys find their way to the brothel, and we are pained to learn from time to time of one and another from respectable homes being 'run in' on the occasion of a police raid. To suppose that women of ill-fame can openly walk our streets, enter places of business, flaunting themselves in gay attire, without attracting the attention of our boys and girls, is criminal stupidity. In fact we know that boys and girls speak of this nefarious business with a freedom that must shatter that feminine modesty which is a woman's proudest adornment, and one of her best safeguards. There is an amount of uncleanness in every town within the bounds of this Presbytery, sufficient to affect indirectly, at least, the spiritual and moral well-being of a large proportion of the young life of our congregations. Boys are growing up so familiar with drunkenness, that they cease to regard it with other feelings than those of amusement." This indictment is put with considerable vehemence, but is singular for that fact, in contrast with all other Presbyteries reporting.

Two Sessions evidently interpreted the question as relating to the use of the wash-basin and bath-tub, and one within the bounds of Montreal Presbytery goes so far as to say—"in the strict physical sense of the words, unclean living is common in the congregation and throughout Canada, especially in the winter. The bath is not used! The cleanliness which is next to godliness, needs preaching."

(6). By sympathy with the sorrowing and needy?

Without exception, the replies to this question declare, that there is abundant sympathy for those in sorrow, and that when there is need, assistance is cheerfully given. A few wish to analyze this virtue, which is apparently so common. There is doubt as to whether the root is Christian love, or humanitarianism, but no doubt, evidently, that the tone of society in our churches from the east to the west, in all districts, new and old, is sympathetic and generous. A number of rural Sessions complain that they have no opportunity of aiding the needy, as need is unknown in their particular localities, and express fear lest this grace shall suffer for lack of exercise. It would be well for those who thus complain, to get in touch with some of the charities in larger centres, and give of their means, as well as seek knowledge of the work done, and the needs ministered to.

(7). By the coming forward of the young people, boys and girls, into the full fellowship of the Church?

There is here very great diversity in the replies received. A minority present the encouraging view, but a considerable minority. The majority come to the conclusion, that the additions to the Communion Roll are very much less than should be expected from the children of our families. The reasons assigned for this are the rage for pleasure, the prevalence of sport, the inconsistency of church members. The one reason presented almost universally is that parents do not exercise the influence they should in the matter. This is repeated over and over again, while one or two think that the doctrines of grace are not urgently enough presented from the pulpit. It also seems to be generally conceded, that if the

young people do not become communicants before twenty years of age, they are unlikely to take the step later. In most congregations the young women are received in greater numbers than the young men, but there are a few exceptions to this. The Sabbath school is given credit in many cases, for being the recruiting ground for church membership.

II.—*Is it your belief, that there is a higher standard of spiritual life in the homes of the congregation, than there was, say ten years ago, or any less time by which comparison may be made? On what do you base your conclusion?*

With the exception of one Presbytery in the Maritime Provinces, the majority claim with greater or less emphasis, that the standard of the spiritual life of our people is higher than it was in the past. It is also true, that a number of the Sessions in all Presbyteries take the opposite view, while quite a percentage are not prepared to express an opinion. These judgments are expressed with considerable frequency: That the standard aimed at is higher, there is freedom from the grosser sins, better attendance at Sabbath services, greater liberality and increased interest in mission work. It is also generally believed that the Christianity of to-day is decidedly higher in its ethical manifestations, while those which may be called more distinctively spiritual, or even mystical, are not as prominent as they were. There are quite a number of references to decreased attendance at prayer-meeting. It may be concluded that the general sentiment is that our people have attained to a higher morality, and this is assumed to be the outcome of greater spirituality. Reference is made in quite a number of cases to increased temptations, as a result of prosperity in temporal affairs.

III.—*What features of family life do you find discouraging?*

As might be expected, a great variety of items have been given in reply to this question, and a full catalogue of these would occupy considerable space. It has not been thought well to give such a catalogue, but rather to concentrate attention on a few features which are cause of discouragement generally, throughout the bounds of the Church.

(a) The undue pressure of business demands and pleasure seeking, which are breaking down the old-time family life.

(b) Lack of parental discipline, and tendency to evade the duty laid on Christian parents to instruct and guide their children by doctrine and example.

(c) The neglect of common and regular reading of the Scripture, and of prayer.

(d) The use of the Sabbath as a day of toil and pleasure.

These seem to be general, and unless Sessions are very much mistaken in their diagnosis, the exercise of parental authority, and training of the family in religious truth by the parents, is falling off in an alarming degree.

Before presenting recommendations, the following general observations are in place.

(1). It seems clear that the course followed of reviewing only one section of Church Life and Work annually is a wise one, and has commended itself to the judgment of Presbyteries.

(2). The practical value of such review is gained largely in the proportion in which ministers at some diet of worship, discuss the questions asked, and the answers received.

(3). It is to be regretted that only thirty-eight out of fifty-five Presbyteries have

made returns of the investigation asked for by the Assembly, and pressure should be brought to bear on the delinquent Presbyteries, so that in another year the returns may be full.

(4). While a vast variety of opinions are expressed in reply to the questions propounded, there is a remarkable unanimity manifested in certain convictions, of the state of the homes of our people throughout the whole Church.

(5). This report may, and ought to be an important factor in the growth of the Kingdom of Christ in our land, and it is necessary that it should be given place and attention, lest we content ourselves with such testimony as may be found in numbers and dollars.

The following recommendations are submitted:

(1). That the questions as to Church Life and Work for the year 1904 be confined to the sphere of the Christian congregation, as to its services, organizations and methods.

(2). That pastors and elders be advised in their visitations to impress upon the heads of families the value of regular family worship, thanksgiving at meal time, and religious instruction in the home, and to give such guidance as seems necessary.

(3). That the ministers of the Church be instructed to make the questions and answers on Church Life and Work the text of discourse at some diet of public worship.

(4). That the Assembly take into consideration the question of publishing for use in the homes of our people, a compendium modelled on the lines of the Presbyterian Handbook, published by the authority of the Northern Presbyterian Church of the United States, and also, recommend use of the General Assembly's Aids to Family Worship.

(5). That due emphasis be given in teaching and preaching to the setting forth of the true relation of those baptized in infancy, to the Church; and that parents be admonished to instruct their children as to their duty and privilege in entering into full fellowship with the Church.

(6). That Presbyteries be urged to have returns made of the Church Life and Work report to the Convener of the Assembly's Committee in due time.

W. J. CLARK,

Convener Assembly's Committee.

REPORT OF COMMITTEE ON SABBATH OBSERVANCE AND LEGISLATION.

To the Venerable the General Assembly:

Your Committee on Sabbath Observance and Legislation desires to report as follows:—

In the absence of any means of gauging public feeling, such as the Committee on Church Life and Work possesses through its series of questions, addressed to the various Sessions, your Committee has to draw its information largely from the public press, and in particular from *The Lord's Day Advocate*, the organ of the Lord's Day Alliance of the Dominion of Canada.

We desire to draw attention to

1.—SIGNS OF ADVANCE.

(a) The whole Dominion of Canada in its larger legislative divisions has, during the year, been organized. The last division, the North-West Territories, formed a Lord's Day Alliance on November 17th, 1902, with seventeen branches.

This gives now in all nearly 400 branches, with an active membership of over 20,000, whose organized existence not only gives visibility to, but helps still further to crystallize and make vital the public sentiment about a weekly Day of Rest.

(b) It has been found necessary to appoint an Assistant-Secretary in the person of the Rev. T. Albert Moore, President of the Hamilton Methodist Conference. Alike for his own and the work's sake, in which for years past he has been keenly interested, he is deserving of, and your committee would hereby bespeak for him, sympathetic welcome and hearty support.

(c) The Attorney-Generals of Ontario, Manitoba and Nova Scotia have agreed to undertake the expense, furnishing counsel, in any prosecution necessary to enforce the law within their Provinces, while the Commissioner of Mounted Police for the North-West Territories has instructed the police to enforce the law within his jurisdiction. Through the action of the Minister of Customs, the Hon. Wm. Patterson, refusing "attendance" on excursion boats from the United States, an effectual stop has been made to a great deal of hurtful business and pleasure-seeking.

During the year conference has been had with various Cabinet Ministers, viz., the Minister of Militia, the Postmaster-General, who is also Minister of Labour, and the Minister of Railways and Canals. Facts were laid before each of Sunday work in their departments, and in each case assurances were given of an earnest desire to have all such reduced to a minimum.

Your Committee would acknowledge with thanks the sympathetic attitude and help of these officials. At the same time it should be borne in mind that nothing but the existence of an organized public sentiment will move them to action or maintain and advance upon the improved conditions in which we rejoice to-day.

OTHER SIGNS OF ADVANCE.

Among these we would note:

(a) The checking of the Sabbath-breaking spirit. The Rev. Principal Pollok reports for the Maritime Provinces what is applicable to the whole Dominion:—"I really think that the recent movement of the friends of the Sabbath, and especially the activity, energy and ability of Mr. Shearer, have had a powerful effect in checking tendencies which appeared some time ago and which caused us some alarm." "An ounce of prevention," according to the old proverb, "is worth a pound of cure." It is safe to say that if, in spite of the great tide of prosperity and the increased call for work, the Day of Rest is being observed as well as formerly advance is really being made.

(b) In increasing measure the labouring classes are realizing the need and value of a weekly day of rest and are giving the church an opportunity of finding a point of contact with great masses of men who look upon her with only too little favour.

The Rev. Chas. W. Gordon, commenting on the defeat of proposed Sunday street cars in Winnipeg, says:—"This defeat, however, was due not so much to the strength of the sentiment in favour of Sunday as a Holy Day, as to the strong feeling among labouring men that it ought to be observed as a day of rest."

Surely every Christian minister and the whole Christian church fail in their plainest duty if they do not seek co-operation with these men on this ground that is common to them both, and if they do not seek to lead them to value the day not only as a holiday, but as a Holy Day as well. We may rest assured that if we fail to fill the day with some form of activity and vital usefulness all efforts to stem the tide of pleasure-seeking and ultimately of labour will be of no avail. The Christian church can never be content with securing the day as a day of rest. She must stimulate the conscience of the people until the element of worship and religious effort dominates the day throughout our land.

(c) Although the "special case," to which in previous reports reference has been made, and in connection with which, among other things, the powers of the Provinces will be fixed re Sunday legislation, will not be argued before the Privy Council until July, and the finding will not probably be received till next autumn, still the Province of British Columbia is petitioning for a Provincial Sunday law. That there is need will be evident when we remember that on the Mainland the only law is that of Charles I. and II. and William IV., and on the Island there is no Sunday law.

The Rev. W. Leslie Clay writes:—"The night cometh, but also the morning." A petition largely signed and representing nearly every section of the Province will be presented to the Provincial Legislature praying for the enactment of such a law as will secure to every worker a day of rest—such law to prohibit all servile labour upon that day except work of necessity and charity, and to be applicable to corporations and individuals, also to prohibit all such games, pastimes, excursions and trade as involve unnecessary labour, and interfere with the right of every man to have the day as a day of rest and of opportunity for worship, if he so desires. And we so petition because we realize the importance of maintaining the day in its integrity as one of the safeguards of our national life. A bill also has been drawn up by the Executive of the Lord's Day Alliance, which, it is hoped, to have introduced."

It should be in the mind of the Assembly that so soon as the powers of the Provinces are fixed by the finding of the Privy Council earnest effort will be required in every Province to amend and enlarge the scope and letter of our Sunday laws.

No greater service can be rendered to our home and church life, to the great body of the people who earn their bread in the sweat of their brow, and to our national well-being than by earnest and unceasing effort to safeguard this weekly day of rest.

II.—PRESENT PERILS.

(a) These come chiefly through our growing industrial development and in particular through railroad construction and transportation, cheese and butter making, pulpwood, beet sugar factories and cement works. In connection with several of these the plea is urged that on grounds of "commercial necessity" the plant must run continuously.

The same plea was urged several years ago of the carbide works at St. Catharines, but, though forced to close on Sunday, the works still prosper. All lovers of the day of rest must be on their guard against this specious plea of commercial necessity, and wait until the case is proven before accepting any such reason for allowing any of these industries a liberty that is not granted to others quite as legitimate and necessary to our industrial life.

That the managers of our railroad systems have a difficult task in preventing Sunday work we readily admit both because of the inadequate equipment in view of the ever-expanding demands, and because of their competition with American roads, to whom one day is as another. None the less, if we are to keep the individual and public conscience from being dulled, and are to save the homes of tens of thousands from being utterly secularized by the coming and going of their head to work, and if we are to guard ourselves against the Continental or American Sunday, we must fight against this growing evil. Our attitude to-day is helping to make the Sunday of the future as really as Moses' attitude made the Sabbath of the Jew. We cannot live to ourselves in this or in anything else.

(b) The peril of perils is that we fail to notice that there is a Sunday question. It is sadly true that in increasing numbers the Christian people use the day as a convenience for travel and the transaction of various forms of business, and sharing in social life to a degree that makes religious service an impossibility. Your Committee know of no sign of our times more ominous of a lowered Christian life than this deadening of the conscience as to personal duty in the preserving of the Holy Day.

A Chicago railroad official, criticized for putting on a new Sunday train, replied that he had long been urged so to do and that he had spent a large sum in advertising the proposed new train in order to awaken a protest which would justify his refusing to put it on, but that not a single Christian man in Chicago had come to his aid with a protest till weeks after the train was running.

The Apostle says:—"Ye are our epistle seen and read of all men." The personal influence, as proven by the life, is in the end the most potent of all. In this matter our Church can have but one duty, the urging upon her ministers and membership a careful bearing lest, unwittingly, they not only sin themselves, but lead others also far astray.

III.—WORK DONE.

(a) In addition to more perfected organization and the stirring of public interest, we may note that over 200 cases have been reported of work in ship-building, railroad construction, mining, etc., made to cease. It is pleasant to read from *The Lord's Day Advocate*, December, 1902, that south of Moose Jaw, a number of American settlers, last year, with their looser thoughts of the day, were carrying on their ordinary work, and that their Canadian neighbours after calling a meeting waited upon the newcomers and explained that such a way of spending the day was contrary to Canadian custom and law and could not be allowed. The timely action was most neighbourly and has had the desired effect.

It is safe to say that, while 200 cases have come to view of work stopped, many others are unreported, and much more work would have been undertaken but for the preventative power of an organized public feeling.

(b) The special case from the Ontario Court of Appeal, aiming at fixing the jurisdiction of the Provinces and the Dominion, as well as at the interpretation of certain clauses, has been advanced a stage by the Attorney-General's action in appointing the Hon. Edward Blake and Mr. J. A. Patterson, K.C., solicitor for the Lord's Day Alliance, to argue the case before the Privy Council. This, as noted above, is set down for July. No doubt the finding will be a signal for a forward movement in every province on the question of Sabbath legislation.

RECOMMENDATIONS.

(1) The General Assembly reaffirms its faith in the need and therefore the right of all men to a weekly day of rest.

(2) The General Assembly urges upon her ministers, Sunday school teachers and parents an earnest emphasis in their teaching upon the sacredness and worth of this day.

(3) The General Assembly invites all her membership to a hearty defence of the day, and in particular to such personal interest in its purpose and self-denial in its observance as will reduce to a minimum late Saturday trading, social gathering, travelling or pleasure-seeking during its whole course.

All of which is respectfully submitted.

D. R. DRUMMOND,
Convener.

THE REPORT OF THE COMMITTEE ON SABBATH SCHOOLS, 1902-1903.

To the Venerable the General Assembly:

In presenting the report on Sabbath Schools your Committee desire first to express their sense of the great loss our Sabbath School work has sustained in the death of the Rev. Principal McVicar, D.D., LL.D. He was one of the leading educationists of our country, and in no department had he made his influence more felt than in connection with the religious training of the young. He was a member of the Sabbath School Committee, and as such had, with characteristic energy, interested himself in every department of the work. The lectures on Pedagogy delivered to his students, the assistance which he gave in the preparation of our lesson helps, and his enthusiastic support of every well considered plan for the development of our Sabbath School work, made him invaluable. We mourn his loss, and our prayer is that others, imbued with his spirit, may be raised up to continue the work which for so many years was with unwearied zeal carried on by him.

Your Committee would briefly direct your attention to the following features of our Sabbath School work growing out of the statistics appended and analysed by Mr. Peck.

The encouraging features are:—The number of diplomas which have been granted for the memorization of Scripture passages, the interest which is being taken in the Teacher Training Course, and the amount contributed to the Children's Day Fund.

On the other hand, the fact that, although the population of our country, especially in the West, is rapidly increasing, the number of our Presbyterian Sabbath School scholars remains practically the same; the discouragingly small number who come each year from our Sabbath Schools into full communion with the Church; the fact that the amount contributed by our Sabbath Schools to the Schemes of our own Church is considerably less than last year; all seem to indicate that we are doing little more than marking time.

The question we have a right to ask is: What can be done to make our schools efficient?

I.—WHAT HAS BEEN DONE?

(a) A Home Study Department was instituted a number of years ago, which, if introduced into all our congregations, would unite the Sabbath School and the home as they were never united before. There is no department of our work which your Committee is more anxious to see successful than this. All recognize its importance, few have as yet adopted it.

(b) At last General Assembly your Committee was instructed to institute a Teacher Training Course for the benefit of teachers and those who wish to become teachers; this course to consist of a Scriptural, Doctrinal and Pedagogical Department. The following is the syllabus which has been prepared:—

TEACHER TRAINING COURSE PRESBYTERIAN CHURCH IN CANADA.

The Teacher Training Course established by resolution of the General Assembly of the Presbyterian Church in Canada at its recent meeting in Toronto is to be conducted under the direction of the Assembly's Sabbath School Committee, and, with a view to promoting the greater efficiency of Sabbath School work, offers a course of study suitable for those who are now Sabbath School teachers or who wish to prepare for teaching.

The Course covers two years, and embraces:—

- (a) Scripture
- (b) Doctrine
- (c) The art of teaching

EXAMINATIONS.—Examinations will be held in May of each year in local congregational centres, the papers to be set and examined by persons appointed by the General Assembly's Sabbath School Committee.

DIPLOMAS.—A Certificate will be granted on the passing of the examination in any one subject; and a Diploma when certificates have been obtained in all the subjects of the course.

The pass in any subject 35 per cent. of the total number of marks is required; 60 per cent. entitles to second-class honors; 75 per cent. to first-class honors.

SUBJECTS OF EXAMINATION, 1902-3.

SCRIPTURE.—The contents and growth of the New Testament, and the Geography and Institutions of New Testament times. A series of weekly lessons covering these topics will be given in The Teachers' Monthly during the seven months beginning with October.

DOCTRINE.—The Shorter Catechism, Questions 43 to 75 inclusive, as explained in The Teachers' Monthly, during the period mentioned above. (The writing out of the "Questions" will count in the examination).

THE PRINCIPLES OF TEACHING.—The Sunday School Teacher, by W. H. Hamill, D.D., chas. 1-9 inclusive.

PREPARATION.—It is hoped that the minister or some other trained teacher may undertake the preparation of teachers or Bible Class scholars in some or all of the departments of the course. Young People's Societies are recommended to take up at least some portion of the work and undergo the examinations. Where no class is practicable, careful individual study should suffice as a preparation for the examinations.

EXPENSE.—The only outlay necessary will be for The Teachers' Monthly, 50c. per annum (five to one address, 40c.); and Hamill's "The Sunday School Teacher," 50c., plus 5c. for postage. For either of these remit to Rev. R. Douglas Fraser, Presbyterian Sabbath School Publications, Confederation Life Building, Toronto.

For any further information desired, apply to Rev. J. M. Duncan, B.D., Secretary Sub-Committee on Teacher Training, Confederation Life Building, Toronto.

JOHN NEIL,
Convener.

It is gratifying to report that, although this course has been in existence only a few months, 490 are reported as studying it, and about 150 have enrolled for examination. Revs. Professor Falconer and Professor Ballantyne have rendered valuable service in the preparation of the lessons, and the success of the course is largely due to the Rev. J. M. Duncan, who has acted as Secretary. The Teachers' Monthly has opened its pages for the insertion of the Scriptural and Doctrinal Departments.

(c) Provision, during the last two years, has been made for assisting schools in needy districts to obtain our own lesson helps and papers; and during the current year about \$300 have been granted to aid in the publishing of a French paper, which is being circulated amongst French Protestant children.

(d) Revs. Dr. Herdman and Carmichael, Superintendents of Home Missions and Sabbath Schools for British Columbia and Manitoba and the North-West, have been rendering excellent service during the past year. And their reports presented to your Committee have given us a knowledge of the importance and the needs of our Western Sabbath School work such as we did not before possess.

(e) In the most of our colleges during the past year systematic instruction has been imparted in Sabbath School methods.

(f) Although not under the auspices of your Committee, we gladly note that in the Maritime Synod arrangements have been made to hold summer schools in Halifax, St. John, Charlottetown and Sydney. The whole time is to be devoted to Sabbath School work. In Knox College, Toronto, a summer school is to be held in July. A considerable portion of the time is to be devoted to instruction in Sabbath School methods. A Sabbath School Agent has been appointed by the Montreal Presbyterian Sabbath School Association to labour within the bounds of the Presbytery. We believe that what is being done in all these centres will be an object lesson to our whole Church, and will suggest the adoption of more efficient methods than have prevailed in the past.

(g) We have now, by the publication of East and West, an excellent paper for senior scholars and the young people—a complete series of Sabbath School helps and papers, which we are confident are more suitable for our Canadian Presbyterian young people than any in existence.

II.—WHAT MORE DO WE NEED?

(a) That the utmost care should be taken in the choice of Godly men and women who are apt to teach as teachers in our schools.

(b) More active interest on the part of all our sessions in Sabbath School work. The minister or missionary may not be able in every place to attend the school, but, where possible, he should be the teacher of his teachers, and at all events he should have frequent personal intercourse with every teacher, that, through prayer and conference, he may stimulate, encourage, strengthen.

(c) Teacher's Institutes in every centre, where it is possible to hold them.

(d) More perfect Presbyterial oversight. Presbytery Committees have not done their work when they have collected statistics and drawn up a few resolutions. They should make their influence felt in every school through correspondence, and where possible through visitation.

(e) As has been stated, our statistics show that the children need more systematic instruction in the mission schemes of our Church than they have yet received. It might be well to consider if some plan could be adopted by

which systematic study of missions could be made an integral part of our Sabbath lessons.

Your Committee are unanimous that there must be a decided advance on the methods which have obtained in the past in our Sabbath School work. It is in many respects the most important work in which our Church is engaged, and at every cost it must be made efficient.

The Committee has been so impressed with the needs and opportunities of the work, that, after full and careful consideration, the following recommendation was unanimously adopted:—

"That in view of the necessary and growing work of the Committee, and, in the general interests of the Sabbath School work throughout the Church, the time has come when a Permanent Secretary should be appointed, and the Committee requests the Assembly to make the appointment.

There is work lying immediately to hand, more than sufficient to occupy the whole time and energy of the most vigorous man, including such as the collecting of statistics; the correspondence in connection with diplomas and grants in aid to needy schools; the direction of the Teacher Training Course and examinations connected therewith; co-operation with Presbyteries in the promotion of the extension and improvement of Sabbath School work; assisting in the conducting of Institutes for Sabbath School teachers, and those desiring to fit themselves as teachers.

Our Church cannot afford to neglect the young, and if she hopes to reap a rich harvest from her Sabbath Schools she must sow liberally.

STATISTICS.

Rev. Wm. Peck, M.A., Secretary.

While many of the Presbytery Conveners have been unremitting and fairly successful in their efforts to secure complete Sabbath School returns, others have not been so successful. In the Ottawa Presbytery but 52 of the 87 Presbyterian Schools have reported; in Barrie but 68 of the 87, and in Superior but 10 out of 28. The reports of Dauphin and Qu'Appelle not having been received, those for 1901 have been inserted.

For a summary statement of Sabbath School Statistics, attention is directed to the tables of Presbyterian and Union Schools appended to this report. The following analysis will explain, however, the significance of some of the items:

NUMBER OF SABBATH SCHOOLS.

For 1902 Conveners report knowledge of 2,687 Presbyterian Schools—53 less than in 1901, and 467 Union Schools—11 more than in 1901. Of these schools reports have been received from 2,496 Presbyterian Schools, a decrease of 17, and from 351 Union Schools, an increase of 11, i.e., in 1902 of 3,154 Presbyterian and Union Schools 2,847 have reported. This seeming decline is more apparent than real. In nearly every case of a Presbytery reporting less schools than in 1901 the Convenor has been but recently appointed, and either has been too late in attempting, or not persistent enough in securing reports from Mission Stations vacant during the winter months.

UNION SCHOOLS.

All Conveners report difficulty in securing reports from Union Schools. Their reports as to the effectiveness of these schools are somewhat varied.

In the sparsely settled districts Union Schools seem a necessity. In the older sections Conveners report them as "fairly effective," "better than nothing," "the good is here the enemy of the better," "injurious to the future welfare of our Church," "lacking in definite teaching," etc.

Of the 14,392 scholars enrolled in these schools, 6,715, or about one-half, are Presbyterians; of the 1,403 teachers, 702, or one-half are Presbyterians, and of the 351 Superintendents, 190, or over one-half are Presbyterians; of the 351 schools reported, 66 use to some extent Presbyterian lesson helps; 59 partly use the Shorter Catechism, and 63 are benefited by using the Presbyterian Manual. It is very noticeable that the attendance of Presbyterians at Union Schools about equals that of all the other Protestant denominations. Are we more tolerant in our views or more careless than others as to the teaching received by these children of the Church?

I.—ATTENDANCE.

Officers, Teachers and Scholars.

In the 2,847 schools reported we have 21,872 teachers and officers, a gain of 155, and 183,538 scholars, a gain of 1,203. Counting the 6,835 reported in the Home Departments of the schools, we have a total enrollment of 212,245, a gain of 2,359. The total average attendance is 127,604. That each Sabbath 77,806 of the number attending—considerably over one-third—are absent, does not speak well for continuity in teaching or careful supervision.

II.—RECITATIONS.

Your Committee is of the opinion that answers given to questions asked under this general heading are too much of the nature of a guess. In most schools careful records are kept of monies received and paid and of attendance, but of little more.

MEMORIZING SCRIPTURE.

The returns seem to indicate that out of the 183,538 enrolled, but 75,647, a gain of 1,035, are memorizing Scripture. The marked increase, however, in the demand for the "selected memory verses" would indicate that increased interest is being taken in this important part of Sabbath School training. Statistical returns indicate that during 1902, 613 have received diplomas for recitation of Scripture.

THE SHORTER CATECHISM.

In 1901, for the first time, schools were asked to report regarding the use both of the shorter Catechism and of a junior Catechism. For 1902 returns indicate that 59,018, a loss of 3,014, were repeating the shorter Catechism, and 16,003, a gain of 4,913, some junior Catechism. Enquiry made seems to indicate, however, that many previously marked as reciting the shorter Catechism were really reciting a junior Catechism. Your Committee is of opinion (a) That our Church should consider carefully the question of a Junior Catechism. (2) That, remembering that the International system of lessons carefully avoids distinctive church doctrine, some aggressive action should be taken to supply its lack by urging the use of the Catechism as a statement of doctrine and as a maker of character. According to school returns, 657 diplomas were granted during 1902 for repeating the Shorter Catechism correctly at one sitting.

GRADING OF SCHOOLS.

Much confusion of thought existing as to what constituted a graded school your Committee issued with Children's Day Literature a plan prepared by the late D. Torrance Fraser, and approved of by your Committee. 1,181 schools, 351 less than in 1901, now report themselves as graded.

TEACHERS' MEETINGS.

Of 2,847 schools, 249, a gain of 8 (eight) have weekly meetings for united study of the lesson, prayer for guidance and consultation as to how best to do the work of teaching the way of God. One new feature of this year's report is that 492 are returned as studying the Teacher Training Course. Your Committee is hopeful that under the helpful guidance of those who have given so much time and attention to the preparation of this course, much good will result to the Church.

III.—LESSON HELPS AND PAPERS.

Of the 2,496 Presbyterian Schools reporting, 1,588 are using "The Teachers' Monthly"; 1,607 "The Home Study Quarterly and H. S. Leaflet"; 1,408 "The Quarterly and Primary Leaflet"; 904 "King's Own Paper"; 908 "Jewels," while "East and West" has received a part of its deserved recognition in 431 schools. It will be observed, however, that "East and West," having begun only at the New Year, 1903, and the reports being on the year 1902, these 431 schools represent probably only those ordering in advance. Your Committee records with pleasure its indebtedness in many ways and at many times to the Sabbath Schools' Publications Committee. The entire management have in every possible way shown themselves zealous in co-operating with your Committee in furthering the welfare of Sabbath School work. By providing in unexcelled form the best of healthy Canadian and Christian Literature and in furnishing week by week well arranged, full, scholarly analyses of the lessons, the Publications Committee deserves the enthusiastic support of each school throughout the Church.

IV.—CHURCH RELATIONS.

The returns show that of the 183,538 scholars, 21,748 are members in full communion with the Church, 4,798 came into this relationship during 1902.

PRESBYTERIAL VISITATION.

The only Presbyteries where visitation has been undertaken to any extent are:—Pictou, with a record of 10 schools; Montreal, with 53 schools; Peterborough, 11 schools, and Owen Sound, 12 schools. In the remaining Presbyteries the oft repeated recommendations of the General Assembly have not been adopted.

ELDERS.

Two thousand six hundred and sixty-seven elders, a gain of 17, are working in our schools acting as Superintendents, officers and teachers, and by their labours and most of all by their lives lending much strength and encouragement to Sabbath School work.

"EVERGREEN" SCHOOLS.

One thousand six hundred and two live schools, 27 less than in 1901, are open twelve months of the year. Its strange but true that schools closed part of the year are schools on Mission stations and in city churches for the most part.

V.—CONTRIBUTIONS.

In 1902 for running expenses our Sabbath Schools contributed \$57,291, a gain of \$303.

To the Schemes of the Church \$26,526 were contributed either directly to the Treasurer of the Church or with or forming a part of the congregational contribution.

\$7,512 was contributed to Children's Day Fund, \$1,746 by Synod Maritime Provinces, \$1,157 by Synod Montreal and Ottawa, \$1,820 by Synod Toronto and Kingston, \$1,409 by Synod Hamilton and London, \$954 by Synod Manitoba and North-West, and \$426 by the Synod of British Columbia.

\$20,783, an increase of \$2,542, was given by our schools to purposes other than self-support or support of the Schemes of the Church. That so large a sum should be so expended surely requires very careful examination.

For all purposes the Sabbath Schools raised during 1902 \$112,461, an increase of \$351.

RESOLUTIONS.

As based on the information contained in the foregoing report and on the general conditions and necessities of the Sabbath School work of the Church, the following resolutions are offered for adoption by the General Assembly:—

1. That the resolutions of previous years be reaffirmed, namely, regarding:—

(a) The establishment of a Home Department in connection with each school.

(b) The importance of special effort to lead the young in our Sabbath Schools to decide for Christ and to declare such decision by entering into full communion with the Church.

(c) The recommending for use in our own Sabbath Schools and homes of the excellent series of Lesson Helps and Illustrated Papers, now made complete by the publication of East and West, an Illustrated Paper for the older scholars and young people.

2. That the Teacher Training Course, authorized by last General Assembly, and now in operation, be heartily recommended to all our Sabbath School teachers, and to our young people generally.

3. That the Sabbath School Committee be instructed to consider the possibility of arranging for the systematic study of missions in the Sabbath School.

4. That in view of the necessary and growing work of the Committee, and in the general interests of the Sabbath School work throughout the Church, the time has come when a Permanent Secretary should be appointed, and the Committee requests the Assembly to make the appointment.

DISPOSAL OF CHILDREN'S DAY FUND.

The General Assembly instructed your Committee to allocate the balance remaining after the payment of the charges against the Children's Day Fund to the "missionary" schemes of the Church. As there was a difference of opinion as to what was intended by "missionary" schemes your Committee as in the previous year allocated the balance, amounting in all to \$4,650, amongst all the schemes, and requested the Convener to explain the matter to the Assembly.

The financial statement is as follows:—

REPORT OF THE COMMITTEE ON YOUNG PEOPLE'S SOCIETIES FOR 1902.

To the Venerable the General Assembly:

GENERAL REMARKS.

If the reports which come to your Committee from year to year are reasonably accurate, they show a tendency on the part of the Young People's Societies to fluctuate. Last year Truro was said to be the banner Presbytery in the Church, having no less than forty-six societies. This year the number has decreased to thirty-eight. Last year Prince Edward Island reported thirty-one societies, this year only twenty-three. North Bay Presbytery shows a condition of things still more deplorable, the number of societies there declining in one year from thirty to eleven. For some years this Presbytery was regarded as almost a model, because, though largely a missionary Presbytery, its societies were among the most zealous and progressive in the whole Church. But the decline has been sudden and serious—so much so, indeed, that it is difficult to account for it.

On the other hand, there are Presbyteries which have taken a very decided step in advance. Montreal last year reported only nineteen societies, this year the number stands at twenty-seven. "Palmy Trinidad" shows a growth of thirty-three and one-third per cent. in twelve months. Last year Kingston could muster only seventeen societies, but now six more must be placed to her credit. The membership in Toronto has more than doubled. Thus the tide ebbs and flows. Emphasis must still be laid upon the truth that "it is good to be zealously affected always in a good thing."

But though there have been fluctuations in some localities, the great majority of societies have gone steadily forward, grappling with difficulties, overcoming obstacles, and reaping the fruits of industry. Though a note of discouragement comes from several of the societies in the Maritime Provinces, and though a similar note may be heard less clearly in a few other districts, nevertheless, that is not the dominant note throughout the Church. Hundreds of young people have been following the beckoning of hope, have been sustained by faith, and have been animated by love. Some of the older members have furbished anew the weapons of their warfare, many new recruits have enlisted, and have buckled on their armor, and together the veterans and their juniors are singing as they march. Though their song may not yet be the song of victory, it is at least a battle hymn with a note of triumph in it. They know what has been the cause of failure in the past; they know that they must fight if they would win, therefore are they praying that God would increase their courage till victory perch upon their banners. Pastors who take an interest in drilling these young members of the Church militant, are more and more regarding them as their most helpful and reliable allies in advancing the interests of the Master's kingdom.

DIFFICULTY IN SECURING FULL RETURNS.

In the reports which have been presented to the Assembly during the past few years complaints have been made regarding the difficulty of securing complete returns. A very earnest effort was put forth to obtain full returns this year, and yet the report is not quite satisfactory. The Convener in Bruce Presbytery removed beyond the bounds, and the Presbytery failed to appoint a successor.

The report of the Owen Sound Presbytery met with a mishap, consequently, was not available. Though the report for last year is used, the Convener assured your Committee that there has been a slight advance, especially in the matter of contributions. Two other Presbyteries failed to report in time.

When a report was received from a Presbytery it was compared with that of last year, and if it were found that a society failed to report this year, a personal letter, accompanied by a schedule, was sent to some one connected with that society. A request was made to the effect that if the society were still in existence details of its work should be forwarded; or, if disbanded, that the fact be intimated. This effort to secure information was partially successful—sufficiently so, in the opinion of your Committee, to justify the trouble and expense involved. A glance at the "Delayed Returns" at the end of the statistical table will show that 39 societies and 1406 members are now enrolled, whereas, otherwise, they would not have been. It is known also that some societies have disbanded. Whether the others unreported have ceased to exist, or only ceased to report, your Committee has no means of determining.

DIVERSITY OF NAMES.

A glance at the reports reveals the fact that the societies, in name and type, vary exceedingly. It may be an advantage to have some variety because conditions are so diversified in different congregations. The circumstances of a society in the country may be very dissimilar from those of another located in the heart of a large city. The probability is that they are confronted with entirely different problems. Efforts must be put forth along one line in a city, but along a different line in the country. It may be well, therefore, to have societies of different names and types, but have we not been running to extremes in this regard? Among the societies reported, we find Christian Endeavor, Junior Christian Endeavor, Young People's Societies, Young People's Associations, Young People's Christian Associations, Westminster Guilds, Presbyterian Guilds, Boys' Guilds, Girls' Guilds, Junior Guilds, Bible Study Guilds, Mission Bands, Missionary Societies, Hospital Bands, Boys' Brigades, Brotherhoods of Andrew and Philip, Young People's Mutual Improvement Societies, Literary Societies, Home Missionary Societies, King's Daughters and Sons. This variety is quite bewildering, and many of the names give no indication of the character of the work done by the society. If a society can be organized, and can be operated under any of the four departments provided for in the Model Constitution of the Presbyterian Guild, would it not be well to adopt the name Presbyterian Guild or such modification of it as would set forth the nature of the work done by the society? Thus there might be Presbyterian Missionary Guilds, Presbyterian Devotional Guilds, Presbyterian Educational Guilds, and Presbyterian Social Guilds. In view of the fact that the Assembly has adopted a generic name, it is very desirable for the sake of unity, and for the sake of cultivating denominational loyalty, to have societies assume the name Presbyterian Guild, so far at least as this can be done without unduly disturbing present relations.

ORGANIZATION.

The matter of organizing new societies and extending the work generally has been given earnest consideration, and although the means at the disposal of your Committee were somewhat limited, something was accomplished. Action was taken along three lines. First, the Superintendents of Home Missions were communicated with. They were asked to take a sympathetic interest in Young People's Societies, and to encourage the organization of them wherever the circumstances seemed favourable. Three of the Superintendents expressed a willingness to assist in any way possible. Second, an effort was made to visit all the Theological Colleges and confer with the students regarding the organization of societies in Mission fields. With this end in view, Rev. Dr. Wilson visited Manitoba College, Winnipeg; Mr. Gandier, Knox College, Toronto; the Convener, Queen's

University, Kingston; Mr. Dewey, the Presbyterian College, Montreal; and Prof. Falconer, Pine Hill Seminary, Halifax. The students were each presented with a copy of the Manual, so that they might familiarize themselves with the various branches of our work. It is believed that much good will result from these visits and the distribution of literature. Third, Rev. Messrs. Drummond and Reade, of St. Thomas, were appointed to issue a circular to Presbytery Conveners setting forth the importance of organization and the best methods of effecting it. The circular prepared by them was a model of its kind and its suggestions are of permanent value.

In the opinion of your Committee this work of organization should be prosecuted with greater energy. It is very desirable that Presbyterian Unions should be formed, and that these unions concentrate their energies upon some definite or specific work, such as supporting, wholly, or in part, a missionary in the home or foreign field. This would give cohesion to the Societies, direction to their aims, and stimulus to their latent energies. It would, moreover, develop a spirit of denominational loyalty, and deepen their interest in the great work of the world's evangelization. It can scarcely be expected that the young people will do their best work unless there is set before them some worthy object toward the advancement of which they can bend their energies. But such an object can be found in a great missionary enterprise.

An examination of the reports discloses the fact that much remains to be done in the way of organizing Presbyterian Societies, as such societies exist in only about one-fourth of the Presbyteries. Maitland, North Bay, Guelph, Barrie and Wallace Presbyteries have each undertaken to support, in part, a missionary in the home field. The amount contributed per society is about \$250 per annum. London supports an Atlin mission, but no particulars are given. Saugeen contributes to the support of a foreign missionary. Kingston Union, composed of Sabbath Schools and Young People's Societies has undertaken to raise \$400 per annum for three years toward the support of a foreign missionary. Minnedosa has no regular organization, but the Sabbath Schools and Young People's Societies there raise \$250 for missionary purposes. Stratford, Lanark and Renfrew, Orangeville, Miramichi, Saugeen, Minnedosa, Melita, Truro and Brockville have the subject of organization under consideration.

PLAN OF STUDY.

The plan of study has undergone considerable change. In former years it embraced studies in the history, doctrine, work and polity of our own Church. But this year the missionary note is dominant. The United Society of Christian Endeavor, when drafting a programme of studies for the current year, reserved the last meeting in each month for the study of missions. Your Committee has followed the same course, making only such changes in the subjects as would make them better suited to the needs of our own young people. The plan for the present year is as follows:

- January—Our Birthright of Privilege and Opportunity. Joshua 24 : 14-25.
- February—Re-opening of China and Present Opportunities in Honan. Acts 14 : 19-28.
- March—History and Prospects of Missions in Africa. Ps. 68 : 29-31; Isa. 43 : 3.
- April—Evangelization of the Jews. Romans 11 : 25-36.
- May—Erromanga, the Martyr Isle : (1) Its Martyrs. Acts 7 : 54-60.
- June—Erromanga the Martyr Isle : (2) Rev. H. A. Robertson's Work. Mark 16 : 15-20.
- July—Work among the Roman Catholics in North and South America. Acts 17 : 1-15.
- August—Missions in British Columbia. Luke 24 : 44-53.
 - (1) Home Missions.
 - (2) Indian Missions.
 - (3) Chinese Missions.
- September—Our Mission in Korea. Acts 11 : 19-24.

October—The Life and Work of Rev. Dr. James Robertson. Joshua 1 : 5-9.
November—Village Work in India. Zech. 8 : 1-7.

December—Rescue, Industrial, and Educational Work in India. Acts 4 : 34-37 and 6 : 1-8.

These topics are treated regularly in *The Presbyterian Record*, in *East and West*, and recently in *The Presbyterian*. The thanks of the Committee are due to the writers who have contributed articles on these special topics in *The Presbyterian Record*. The number of societies which have adopted the Plan of Study is 286.

In a circular which was sent out to societies last Autumn, they were advised to purchase the books recommended in connection with the Plan of Study and to make them the nucleus of a missionary library, or to add them to one already in existence. These missionary topics should be studied by all societies, whatever be their name or character, for they are not intended more for Christian Endeavor Societies than for any others.

MISSION STUDY.

In the circular referred to, attention was directed to mission study and the organization of mission study classes. The text-book recommended was "The Evangelization of the World in this Generation," by John R. Mott. "The Mission Study Class," by Sailer, was also recommended as a guide in the management of such a class. The year 1902 was so far advanced before the circular was issued that the reports for that year could scarcely be expected to contain anything touching the results of these suggestions. However, it is known that some such classes have been instituted, and other societies have the organization of such classes under consideration. It is to be hoped that the movement will be general. The cause of missions will scarcely occupy that place in the thinking of the young people which it should until serious and earnest attention is given to mission study, and the experience of the past seems to indicate very clearly that churches and societies alike flourish in proportion as they are loyal to the Great Commission.

Are societies now doing what might be reasonably expected of them for the Schemes of the Church? Possibly some of them are, but certainly others are not. The societies in the Presbytery of Paris, with a membership of 428, contribute only \$65; Lindsay, with 265 members, gives only \$54; Brockville, with 346 members, gives \$42; Algoma, with 204 members, gives only \$20. Doubtless some of the members of these societies contribute through other channels, nevertheless, it is quite evident that the subject of world-wide evangelization does not receive the attention it deserves. If our societies desire to have the presence of Christ with them, and His blessing upon them, they must seek to be more zealous in carrying out the Great Commission.

THE MANUAL.

Last year, for the first time, a little Manual of fifty pages was published by your Committee. It contained the Daily Readings, the Plan of Study, a course of consecutive Bible Studies, a number of Literary Studies, and the Model Constitution of The Presbyterian Guild, with explanations thereof. In addition, it contained such other information as was thought to be useful and helpful to the young people. Last October a copy was sent to each minister in the Church. The sale of the work has been fairly satisfactory. Many testimonies have been received which show that it is much appreciated. The Presbytery of Halifax strongly recommended the societies within its bounds to make use of the Manual.

MODEL CONSTITUTION.

In accordance with the instructions received from the last Assembly, your Committee printed the Model Constitution, making only such changes in it as were required by the substitution of the name Presbyterian Guild for Westminster

Guild. The demand for copies has not been great, as only 752 copies have been sold. True, it was incorporated in the Manual, about 1,634 copies of which have been sold, so that the Model Constitution may be more extensively in use than the sale of the separate copies would indicate. It is probable, however, that even though the sale has not been large, it will be continuous, because many of the societies recently organized have been Presbyterian Guilds. The Committee has under consideration the printing of a Guild Pledge Card.

OPINIONS OF PASTORS.

The forms which were sent out to societies this year were almost identical with those of last year. Only one new feature was added. From time to time statements were made on the platform and through the press, to the effect that the existing societies did not appeal to the young; that the topics were sometimes too difficult and sometimes too disconnected, and that the work was not of such a nature as to excite interest or enthusiasm. To ascertain the opinions of ministers a request was submitted to them, as follows: "Kindly give an estimate of the work done by your society. Can you indicate any way in which the value of the work might be enhanced?" Touching the first of these, it is gratifying to observe that almost without exception, the ministers speak in the highest terms of the work done by societies. A few sample quotations might be given: "The leaders make a thorough study of the lesson topic and are thus trained in Bible study and in conducting religious meetings." Another, "I find my young people a working force." Another, "I consider the Christian Endeavor Society one of the most helpful organizations in the congregation, a number of young men kept (largely by the Christian Endeavor Society) in the way of life." The Convener in Montreal Presbytery says, "Without an exception, the pastors speak in the highest terms of the work of their societies." It may be remarked that in that Presbytery nineteen of the twenty-seven societies are Christian Endeavor. It can scarcely be true, therefore, that the Endeavor Society and similar organizations do not appeal to the young people.

Your Committee hoped, when drafting the second part of the question—"Can you indicate any way in which the value of the work might be enhanced?"—that many valuable suggestions would be given. Unfortunately, however, the subject has been almost entirely ignored. One says that the meetings should have more instruction in them, and another would recommend a systematic study of the history of missions, while a third proposes more time be given to prayer. These are almost the only suggestions. Does this paucity indicate that the work in Young People's Societies has reached such a stage of perfection that little improvement can be made in it? Probably it indicates that it is much easier to point out defects in an organization than to prescribe a remedy.

In this connection it is instructive to note that two years ago your Committee undertook to prepare an alternative course of Consecutive Bible Studies. For this year a similar course was prepared. But the sale of Leaflets containing these has been somewhat disappointing. The Committee believes that the course provided was an excellent one, and it certainly was commended by some who followed it, but still, from the smallness of the sales, the conclusion is almost inevitable that the demand for Consecutive Bible Studies is not as general nor as urgent as was supposed.

This year, for the first time, a course of literary studies was prepared. Your Committee does not specially recommend societies to take up studies of this character, but, as some have already taken them up, the Committee desires to keep such studies on a high plane. Consequently, a course was outlined, and where it has been followed, it has doubtless tended to stimulate the mental activities, to refine the taste and to develop a wholesome literary appetite.

WORK.

The ingenuity of the young people in seeking out spheres of usefulness, and the energy displayed by them in working for Christ and the Church are worthy of

all praise. So many-sided are their activities that it is almost impossible to enumerate them all. But for them, many a shut-in would find time pass more drearily, many an invalid's room would be less liberally supplied with flowers, many a Sabbath school would be less effectively wrought, many a home department would be less useful, many a Church treasury would be less generously furnished, many a mission scheme would be less vigorously supported, many a lumberman in the shanties would pass less profitable Sabbaths, many a sailor on our great lakes would be without his "comfort bag" and little library, many a stranger would be less cordially welcomed at the Church door, many a mid-week prayer-meeting would be less edifying, many a choir would be less efficient, many a pastor would be less encouraged, many a hospital would be less regularly visited, many a careless one would be less strongly drawn to the Church, and many a Church would be less attractive.

THE OUTLOOK.

The outlook for Young People's Societies is by no means discouraging. In some portions of the Maritime Provinces the prospect is rather gloomy, but even there one can see gleams of sunshine. Truro Presbytery has already been mentioned as one which shows a serious decline in membership, and yet the Convener there says, "There is good evidence to show that a strong and determined effort is now put forth to strengthen the things that remain." He says, moreover, that the contributions are almost equal to those of last year.

But some other portions of the Maritime Provinces show a still better state of things. The Convener in Sydney Presbytery says, "I may say, writing so late in the year 1903, that the outlook for Christian Endeavor work in our Presbytery is decidedly better. Since the beginning of the year special services have been held in many congregations with marked success. In many instances, numbers of young people have been added to the Church and to Christian Endeavor work." The Convener in Wallace Presbytery says, "I have reason to believe that our Young People's Societies are stronger than a year ago." This cheering note comes from Miramichi: "Your Committee on Young People's Societies are pleased to be able to report more favourably than a year ago. The contributions to the Schemes of the Church have almost doubled."

Coming to the national capital we hear this encouraging word, "It is evident that the societies are in a vigorous, healthy condition." Coming up to Ontario's provincial capital we hear more in the same reassuring strain, "There is one very encouraging feature in the work, viz., the high spiritual tone aimed at in all the societies." Coming on to the Occident we hear at New Westminster the same cheering tone, "The Committee notes with pleasure the active interest taken by the young people in the work of the Church."

It may surely be taken for granted that those who furnished these quotations to your Committee knew whereof they wrote. This being the case, there is no need for Jeremiads. If pessimism has a place in the report, it must be only as an undertone. The leading notes are activity, gratitude, progress. Pastors, almost without exception, testify to the excellent work done by societies in their congregations. It means much to the Church that this testimony has been brought out so clearly and emphatically. When this comes to the knowledge of those pastors who have never organized their young people for active service in the Church, it may awaken in them a desire to enjoy what has been the means of much blessing to their brethren. When it comes to the knowledge of the young people who have never been organized into societies, it may excite in them a wish to band themselves together so that unitedly they may serve Christ and the Church. And when it comes to the knowledge of the young people who are already pledged to serve the King, may it not be expected that it will kindle in their hearts a new enthusiasm, that it will stimulate them to more earnest endeavor, and that it will encourage them to labor more diligently than ever for the advancement of the Kingdom so dear to Jesus Christ.

RECOMMENDATIONS.

1. The Assembly would reaffirm its recommendation of 1901 to the effect "that the attention of ministers and missionaries be called to the fact that all organizations of young people and all forms of work among the young, other than that of the Sabbath Schools or Mission Bands connected with the W.F.M.S., are to be reported to the Assembly's Committee on Young People's Societies, and that pastors, as members of Presbytery, are responsible to see that the information sought for through the Presbytery's Convener be given."

2. Inasmuch as there is such a variety in the names of the Societies, and that many of these names give no indication of the character of the work done, and in view of the fact that the model Constitution of the Presbyterian Guild has been officially sanctioned, the Assembly would recommend that Societies, other than Christian Endeavor, adopt the name Presbyterian Guild, or some such modification of it as would show the character of the Society, if this can be done without unduly disturbing present relations.

3. That Presbyteries be encouraged to organize Presbyterial Unions, and that Unions be urged to assume some definite work, such as the support, wholly or in part, of a missionary in the home or foreign field.

4. That societies be encouraged to purchase the books recommended in connection with the Plan of Study, and to make them the nucleus of a Missionary Library, or to add them to such a Library already in existence.

5. That the formation of Mission Study Classes be commended to the favorable consideration of Young People's Societies.

Respectfully submitted.

W. S. McTAVISH, *Convener.*

REPORT OF THE PRESBYTERIAN RECORD FOR 1902.

The total issues of the *Record*, for the year 1902, were over six hundred thousand copies, an average of more than fifty thousand copies per month; a total of over thirty-one millions of pages or more than two and a half millions of pages per month; a total of over fifty-five tons weight of magazines or nearly five tons weight per month.

The regular issue is now fifty-one thousand copies, the largest, except one great daily, with its weekly edition, of any English publication in Canada. A few hundred copies are distributed among non-subscribers with a view to increasing the circulation. The cost of the *Record* at its present enlarged size exceeds the price received for it, the balance on hand from previous years, when it was much smaller, being thus applied to its own improvement.

For the many kindly words of approval and appreciation that have come, sincere thanks are given; as also for the generous help of the fellow workers who have distributed it with such patient and constant care, thus doing good work for the Church, whose best interests it seeks to serve.

One feature of the past few months is reported with special satisfaction, and that is, the increasing measure of conformity to the oft repeated instructions of the Assembly to conveners, secretaries and missionaries, to use the *Record* for keeping the work of the Church before our people. It is hoped that even better things along this line are in store for the months and years to come.

The following is a summary of the accounts for the year:—

REPORT OF THE COMMITTEE ON SABBATH SCHOOL PUBLICATIONS.

To the Venerable the General Assembly:—

The Committee rejoices in being able to report a prosperous year.

There has been a marked gain in circulations and in the volume of general business, and the new paper, *EAST AND WEST*, for the senior scholars and young people, has been successfully launched, without any disarrangement of the finances.

That there was a demand for such a paper, thoroughly representative of Canadian and British sentiment and of the life and work of our own Church, has been made abundantly evident by the welcome it has received in all parts of the Church, and by the large circulation already attained.

The series of Lesson Helps and Illustrated Papers is now complete, and the Committee feels assured that its policy of applying profits to the continued improvement of the publications will thoroughly commend itself to the Church.

	<u>\$45,652 01</u>

A careful estimate of the assets and liabilities at date (May 1st) shows an excess of assets over liabilities of \$11,468.87, which, notwithstanding necessarily increased expenses, especially in connection with the establishing of *EAST AND WEST*, is only \$567.84 less than last year.

FRENCH PAPER.

Beginning with January, 1903, the Committee is issuing for the year, a four-page illustrated weekly paper in French, *LE RAYON DE SOLEIL*, for French Protestant children in the Province of Quebec and elsewhere. A sub-committee in Montreal, of the Board of French Evangelization, undertakes the details in regard to circulation, Revs. R. P. Duclos, and Dr. Amaron supplying the "copy". A grant, made by the General Assembly's Sabbath School Committee, meets the deficit. The editors of the Sabbath school publications give the necessary editorial supervision. It is hoped that the little paper may be of much service.

LIST OF PUBLICATIONS.

The list of publications now issued is as follows:—THE HOME STUDY SERIES: TEACHERS MONTHLY, HOME STUDY QUARTERLY, PRIMARY QUARTERLY, HOME STUDY LEAFLET, PRIMARY LEAFLET; ILLUSTRATED PAPERS: *EAST AND WEST*—For the Senior Scholars and Young People; *THE KING'S OWN*—For the Boys and Girls; *JEWELS*—For the Little Ones; *LE RAYON DE SOLEIL*, in French.

EDITORIAL ARRANGEMENTS.

The large amount of editorial work evidently required for the above list of publications, and which has been greatly increased by the publication of *EAST AND WEST*, has been done without any present increase in the editorial staff.

After full consideration, however, of the needs of the editorial department, Miss Jane W. Fraser, who has rendered valuable service in this department in connection with the illustrated papers ever since they were begun, has been appointed assistant editor of these papers.

Respectfully submitted,

ROBERT H. WARDEN, *Convener.*
R. DOUGLAS FRASER, *Secretary.*

REPORT OF THE HYMNAL COMMITTEE, 1902-3.

The sales of the Book of Praise, and the royalty received, during the year 1902-3, have been considerably larger than those of any other year with the exception of those of the year 1897-8 in which the book was first issued.

The following is a detailed statement of the various editions sold by the Oxford Press during the year ending March 31st, 1903:—

Sabbath school edition.....	14,630
Small type edition.....	41,351
Medium type edition.....	7,999
Large type edition.....	628
* Large music edition.....	3,472
Small music edition.....	4,949
Emerald 16 mo. edition.....	917
Diamond 32 mo. edition.....	162
Total.....	74,108

The total sales of the Book of Praise by the Oxford Press since 1897 were 666,046.

1897-1898.....	366,100
1898-1899.....	60,621
1899-1900.....	43,838
1900-1901.....	63,778
1901-1902.....	57,601
1902-1903.....	74,108
Total.....	666,046

The amount received for Royalty during the year 1902-03 from the Oxford Press was \$2,052.26. This was the largest amount received in a single year, since the year 1897 when the Book of Praise was first issued. Of the amount received the Committee agreed to allocate \$1,000 to the Aged and Infirm Ministers' Fund and \$500 to the Ministers' Widows' and Orphans' Fund.

The whole amount received for Royalty, since the issue of the Book of Praise in 1897, was \$19,878.97, viz.:—

1897-1898.....	\$11,904 71
1898-1899.....	1,569 83
1899-1900.....	1,205 45
1900-1901.....	1,711 70
1901-1902.....	1,435 02
1902-1903.....	2,052 26
Total.....	\$19,878 97

Of this amount the sum of \$4,500 was invested in the Aged and Infirm Ministers' and the Ministers' Widows' and Orphans' Funds, in 1898, thus yielding an annual revenue of, say, \$225 from these Funds.

It will be seen by the statement of the Treasurer, Mr. McMurrich, which is subjoined, that there is a balance in his hands of \$473.57.

During the year two meetings of the Joint Committee engaged in preparing a new metrical version of the Psalms, were held, one in Montreal and the other in New York City. Of these meetings the following report has been furnished by the Rev. W. J. Day of Simcoe.

"The Joint Committee of American and Canadian Churches for preparing a uniform version of the Psalms in meter, held a meeting in the Presbyterian College, Montreal,

from Sept. 10th to Sept. 18th, 1902; and a meeting in the Presbyterian Building, New York, from April 8th to April 15th, 1903.

"Representatives from six of the Churches co-operating were present at the Montreal meeting, and representatives from all the nine co-operating Churches appeared at the meeting in New York. The three Canadian representatives were present at both meetings.

"The Committee made a thorough revision of the Psalter from Psalm 104 to the end, but before reporting their work to the Churches, the Committee decided to review the work done, especially the first part, and while the Committee aimed at making a Psalter with only one version of each psalm, it was found that to satisfy all the interests represented, second versions in a limited number of cases had to be added. The majority of these have been decided on, but each needs to be revised in detail as the work already done is reviewed. A meeting for this purpose will be held in September at a place yet to be selected.

"The meetings of the past year were characterized by the same unanimity in aim and method, the same cordiality, and the same manifest presence of the Spirit, that characterized former meetings; and the Committee feel increasingly encouraged in their work.

"A year ago the Committee opened communication with the Commission of the Presbyterian Alliance (Western Section), and the Commission, at their meeting in Philadelphia last October, decided:—(a) To advise those Churches in the Alliance, not yet co-operating with us, to appoint representatives on our Committee; and (b) To recommend the Programme Committee of the Alliance to give the "Uniform Version" a place on the programme for the next Council.

"To meet the expense of printing and other small items, the Committee ask for the current year the sum of \$15.00 from each of the denominations co-operating. This should be sent without delay to the secretary, Rev. J. D. Steele, Ph.D., 74 West 103rd St., New York City."

REPORT OF COMMITTEE ON CENTURY FUND.

To the Venerable the General Assembly:—

The General Assembly last year resolved that the effort upon behalf of the Century Fund should terminate on December 31st, 1902, and that the services of Dr. Campbell should be continued as agent until February 28th, 1903. Steps were taken by way of correspondence and otherwise, with a view to securing the payment of all promised subscriptions prior to the date named, and, on February 28th, at the close of the ecclesiastical year, the Committee distributed the amount then on hand, pro rata, to the several funds. Since that date, additional contributions have been received, and there are still outstanding subscriptions to the amount of \$29,100.

The following is a statement of the Fund to this date:—

Salary of Agents, Sub-agents, etc.	23,874 68

\$548,459 84

Leaving a balance on hand of

\$ 11,225 49

From the balance on hand has to be met the expenses of the Memorial Volume and of souvenir cards for the children and young people of the Church. The expense of these, including the cost of distribution, will amount to nearly \$2,000.

Over and above the amount received for the Common Fund, there have been paid, in connection with the Century Scheme, the sum of \$33,667.68 for denominational objects, not directly included in the Scheme. Adding these to the amount above named received by the Treasurers of the Church, the total thus far got for the educational, benevolent and missionary work of the Church, is \$593,353.01, and there are still unpaid subscriptions amounting to \$29,100, the large bulk of which, it is hoped, will be got in within the next few months. When these are received, the actual total receipts for Common Fund purposes, in connection with the Century Scheme, will reach the \$600,000 aimed at from the beginning. In addition to this, there has been paid, in connection with the Century effort, \$984,163 for the reduction of debt on Church property, so that the total amount raised, in connection with the Century Fund, has been about \$1,600,000.

In the expenditure is included the sum of \$2,500, which your Committee, in accordance with the authority vested in them by last Assembly, presented to the Rev. Dr. Campbell as a special recognition of his faithful services as agent during his term of office. Your Committee desire, in this, their final report to the Assembly, to place upon record their cordial appreciation of the valuable services rendered by Dr. Campbell in connection with the whole work.

Your Committee received an application from the Directors of the Ottawa Ladies' College for a grant from the Common Fund, on the ground that, when the Century Scheme was launched, they had set aside a plan for raising money for the College, which had been inaugurated some time previously, and that quite a number had contributed to the Common Fund of the Century Scheme, on the understanding that the Ottawa Ladies' College would receive a share of the same. After due consideration, your Committee agreed to recommend to the General Assembly that, of the balance remaining on hand in connection with the Century Fund, the sum of \$3,000 be paid to the Ottawa Ladies' College.

Your Committee further recommend that all subscriptions not yet paid to the Century Fund be forwarded to the Agent of the Church, Western Section, and that he be instructed to distribute, at the close of the current year, the amount then on hand, pro rata, to the several funds to be benefited by the Scheme as originally launched by the Assembly.

Your Committee, in presenting their last report to the General Assembly, desire to place upon record their heartfelt gratitude for the large measure of success which by God's blessing has attended the effort.

It has been instrumental in entirely removing or greatly reducing the indebtedness upon many of our churches and manses, indebtedness which, in many cases, was felt to be embarrassing. It has put new heart and life into many of our ministers and congregations. It has greatly helped the missionary, educational and benevolent work of the Church. It has raised the scale of giving of many of our people, and has proved a means of spiritual blessing to

very many. "Not unto us, not unto us, but unto Thy name be all the glory." We append herewith a report from the Rev. Dr. Campbell, Agent of the Fund.

All of which is respectively submitted.

ROBERT H. WARDEN,
Convener.

W. G. WALLACE,
Secretary.

TORONTO, May 9th, 1903.

REPORT FROM REV. DR. CAMPBELL, AGENT OF THE CENTURY FUND.

The task assigned to me in 1899 being now completed, I beg leave to present my final report to the General Assembly.

In the prosecution of the effort, I touched all Provinces of the Dominion; journeyed from Louisburgh to Vancouver City; entered into and had conference with almost all the Presbyteries; visited most of the cities and larger towns; prosecuted the canvass, also, in many country congregations, especially in Manitoba and the Territories, where I drove nearly 1,200 miles amongst the homes of our people. Needless to say that task was laborious; for two years and a large part of the third it was night, as well as day work. The weariness of the way was brightened, however, by the unvarying kindness of brethren in the ministry, as also by the cheerful response of the majority of our people to my appeals.

Let it not be thought that I carried out this work alone; probably no one could have done that, at least, I could not; from time to time there were associated with me as helpful a band of co-workers as ever man had; to their largely voluntary efforts, as well as to those of the local canvassers, collectors and treasurers, the greater share of the credit is due. I did what I could in planning, organizing and directing; these helpers, all along the line, carried out my behests with a readiness and zeal for which I shall be ever grateful; they well deserve the thanks of the General Assembly.

Carefully computing the outcome of the work, it may be noted that in some respects it did not quite reach the aim set by the Assembly. There is apparently some lack of spiritual results—of times of great ingathering, such as would have caused us exceeding joy. Be it ours, then, still to long for this larger reaping; ours also to work and pray and trust Him whose promises are sure; in due season we shall reap, if we faint not. Again, though practically \$600,000 have been already paid into the Common Fund, with a little more expected, yet so many donors designated gifts to special objects that those first agreed upon by the Assembly will not receive quite all that was then intended. It was not found possible to confine donors to rigid limits, but probably more has come to the Common Fund proper, because some latitude was permitted.

Without discussing fully the question as to why the raising of the Common Fund was such an uphill task, it is proper to state that the initial and constant difficulty was the lack of those larger contributions which had been confidently expected from our wealthier membership. These came slowly, and, though

there were eventually a considerable number of such contributions, there were also a number of well endowed friends, whose sympathies might have been reasonably counted upon, who conspicuously stood apart even to the end. It should not have been possible that in a period of super-abundant prosperity, such as began before the Scheme was launched and continued through its prosecution, there should have been holding back on the part of any whose large stake in the country's weal made them special debtors to such work as the fund helps.

The difficulty mentioned only brings into strong relief the fact that the great body of the Church's membership were deeply stirred by the ideals presented to them, as to the helpful work for Church and country that the movement would promote. In good degree, these responded up to the measure of their ability, and not only subscribed, but paid in splendid style. 1,302 congregations, including over 2,000 stations, responded to the appeal, subscribing in all some \$625,000 to the Common Fund and nearly \$1,000,000 to the Debt Fund. Over 1,000 congregations "paid in full," and some of them over paid the amounts which they had first subscribed, whilst, in the majority of other cases, the balances that are yet due are such small amounts as may easily be accounted for by deaths, removals and business reverses. The five Presbyteries of Sydney, Inverness, Quebec, Huron and Superior have paid the full amount of their subscriptions, whilst, it is worthy of note, that such Presbyteries as North Bay, Algoma, Edmonton, Kamloops, and Kootenay, not to speak of others better situated, are just within sight of the same goal.

Indeed, no one could come into contact with our people from ocean to ocean, as I have done, without saying:—"Let us thank God and take courage," for those on whom the Church relies for the forward movements, which are even now pressing upon us, are a noble constituency of godly men and women, conscientiously in earnest in doing the Master's service.

The children also and the young people have shown such delightful readiness in responding to this appeal, at the beginning of their century, as augurs well concerning the part they will play when they take up the work, as their elders pass away.

In the archives at Toronto there will be laid up a complete "Register of Congregational subscriptions and payments"; also the "Historic Honour Roll," containing the names of the contributors as far as they have been forwarded; there will also be sent out, in due time, the promised "Historic Volume" and the "Souvenir" for the children and young people, both of which are now in the press.

So this chapter in my life service closes. I trust its record may be in some good measure satisfactory to the General Assembly and to the Church. As it is well-known to many, the great and long continued strain caused a breakdown in my health, and for the last year I have carried on my work amidst weariness and suffering, but I am led to hope that, after a prolonged rest, I may become vigorous again. I have to thank the General Assembly for the kindly consideration shown me in this respect, and may be permitted to express the hope that, if God in His Providence should make me fit for active service again, then some sphere may be opened in which I may be helpfully employed.

PERTH, May 8th, 1903.

REPORT OF THE COMMITTEE ON CORRESPONDENCE WITH OTHER CHURCHES.

The Standing Committee appointed by the last General Assembly, on correspondence with other churches, and to select deputies to represent our Church at the annual Conferences, Synods or Assemblies of other churches, beg leave to report,—

That they appointed a deputation consisting of the Rev. Principal McVicar, D.D., Rev. Dr. Barclay, Rev. Dr. R. Campbell, Rev. J. A. McDonald and Mr. David Morrice to present the greetings of this Church to the General Synod of the Church of England in Canada, which met in Montreal in September last.

The deputation was well received by the Synod and their greetings cordially reciprocated.

Your Committee also appointed the Rev. Dr. Bryce, Moderator of Assembly, Rev. Principal Patrick, D.D., Rev. C. W. Gordon, and Hon. C. H. Campbell to present the greetings of our Church to the General Conference of the Methodist Church, which met in Winnipeg in September last. The deputation was warmly welcomed.

The General Conference of the Methodist Church has forwarded to your Committee the following resolution, which is submitted to the General Assembly for such action as the Assembly deem wise:—

While this Conference declares itself in favour of a measure of organic unity wide enough to embrace all the evangelical denominations in Canada, and regrets that hitherto all efforts and negotiations have failed to result in the formulation of such a comprehensive scheme, so that at present the outlook for it does not seem practicable.

Yet inasmuch as the problem of the unification of several of these denominations appears to present much less serious obstacles, since their relations are already marked by a great degree of spiritual unity, and they have already become closely assimilated in standards and ideals of Church life, forms of worship and ecclesiastical polity.

And since further, the present conditions of our country and those in immediate prospect demand the most careful economy of the resources of the leading and aggressive evangelical denominations, both in ministers and money, in order to overtake the religious needs of the people pouring into our new settlements, which economy seems impossible without further organic unity or its equivalent.

This General Conference is of the opinion that the time is opportune for a definite practical movement concentrating attention and aiming at the practical organic unity of those denominations already led by Providence into such close fraternal relations.

And whereas a definite proposal has been discussed to some extent in the press and elsewhere looking to ultimate organic union of the Presbyterian, Congregational, and Methodist Churches in Canada, this General Conference, in no spirit of exclusiveness towards others not named, declares that it would regard a movement with this object in view with great gratification, believing that the deliberate friendly discussion of the doctrinal, practical and administrative problems involved, with the purpose of reaching agreement, would not only facilitate the finding and formulation of a Basis of Union, but would also educate the people interested into a deeper spirit of unity and into that spirit of reasonable mutual concession on which the successful consummation of such movements ultimately so largely depends.

And this General Conference would further commend this movement to the prayerful interest and sympathy of the Methodist Church in the devout and earnest hope that, if organic union of the denominations named be achieved, it may be accompanied with great blessings to the Church and to the nation at large and redound to the greater glory of God.

That a representative Committee, to be composed of the General Superintendent, seven ministers and seven laymen, be appointed to receive communications on the subject of the foregoing resolutions from the Churches named, confer with Committees that may be appointed by such Churches, and report to the next General Conference.

The following was the Committee appointed:—Rev. Dr. Carman, General Superintendent, Rev. Dr. Cleaver, Rev. Dr. Sparling, Rev. Dr. Wilson, Rev. Dr. Shaw, Rev. Dr. Rose, Rev. Dr. Sutherland, Rev. Dr. Heartz, Messrs. J. W. Flavell, W. G. Hunt, W. F. Hall, A. E. Ames, Robert Holmes, M.P., Frank Denton, K.C., C. W. Cate.

Certified as a correct copy of resolution passed by the General Conference of the Methodist Church, on September 17th, 1902.

[Signed] GEORGE STEEL,
Secretary of General Conference.

SACKVILLE, N.B., October 7th, 1902.

Further your Committee beg to report that they gave a commission to the Rev. Principal Patrick, D.D., Winnipeg, to represent the Church before the General Assembly of the United Free Church of Scotland, and to the Rev. R. A. King, Principal Elect of Indore College, to represent the Church before the General Assembly of the Church of Scotland.

All of which is respectfully submitted.

REPORT OF COMMITTEE ON AIDS FOR SOCIAL WORSHIP.

To the Venerable the General Assembly:

The special Committee on "Aids for Social Worship" beg to report. At last Assembly the Committee submitted an outline of the progress of the movement since 1893 to provide some means of aiding and promoting social worship among groups of settlers and others who, for the time being, find themselves without regular church services, and likewise the efforts made under the directions of the Assembly to prepare a manual for the purpose in view.

In its various stages of development, nearly 3,000 copies of the manual have been issued by the Committee, free of charge, to ministers, elders, missionaries and others, inviting the whole Church to participate in its preparation. The Committee, by this means, have received many valuable suggestions, and as directed by the Assembly, have from year to year made such emendations in the little work as might render it suitable for the special purposes for which it is designed.

Members of the Committee are well aware that there is still room for improvement in the manual, but notwithstanding its imperfections, they have evidence to satisfy them that it has already proved useful, not only in Canada, but in a wide field extending from the Yukon to South Africa, and Assam in farther India.

By an arrangement with the publishers (the Westminster Co.), student-missionaries sent out by the several Colleges were last year furnished with a considerable number of copies of the manual, without charge. They report that the work proved of considerable value to themselves, and in some cases, especially so to the missions which they were forced to leave when they returned to college.

In view of the remarkable immigration now going on in the vacant lands of the Dominion, and the peculiar circumstances of settlement, there can be no doubt that the efforts of the Assembly to supply a want will be received by a large number of recently arrived people with acceptance, perhaps even by those who may not primarily have been connected with our Church.

To meet the circumstances of the case referred to, arrangements have been made with the publishers to furnish student missionaries to the remote settlements, with copies of the manual free of charge, within certain limits and under desirable regulations. Groups of persons going on summer excursions, desiring to have with them "Aids for Social Worship," can likewise be supplied with copies of the manual at little more than nominal cost.

Convener.

OTTAWA, April 23rd, 1903.

REPORT OF THE COMMITTEE ON UNIFORMITY OF PUBLIC WORSHIP.

To the Venerable the General Assembly:

Your Committee begs leave to report that in accordance with the decision of last Assembly it submitted the draft of Aids for Family Worship to all the Presbyteries of the Church and invited them to report to the Convener their opinion of the book. Up to the present time the Committee has received reports from forty-six Presbyteries. Thirty-three Presbyteries approve of the Aids, offering minor criticisms and making suggestions and recommendations for the improvement of the Manual, viz., Sydney, Truro, Lunenburg and Yarmouth, Miramichi, St. John, Quebec, Montreal, Lanark and Renfrew, Brockville, Kingston, Peterborough, Lindsay, Whitby, Toronto, Barrie, Algoma, Owen Sound, Guelph, Paris, Chatham, London, Huron, Bruce, Sarnia, Rock Lake, Glenboro', Dauphin, Brandon, Minnedosa, Melita, Regina, Prince Albert and Westminister.

Six Presbyteries approve generally, but offer more extended and detailed criticisms of the draft, viz., Wallace, Halifax, Prince Edward Island, Ottawa, Hamilton and Kamloops.

Four Presbyteries approve the principle, but disapprove of the Aids, viz., Pictou, Orangeville, Superior and Winnipeg.

The Presbyteries of Stratford and Glengarry report that the draft was discussed, but that no action was taken.

The Presbytery of Saugeen approves of the principle, but counsels delay in publication until the Manual receive fuller attention.

The reports from Presbyteries were not received in time to permit the revision and publication of the Manual before the meeting of the Assembly, but the Committee is proceeding with the revision and the incorporation of the changes suggested, as far as seems desirable and practicable, and it purposes to publish the Manual as soon as possible. It is hoped that this final revision, in the light of the criticisms and suggestions received, will remove many of the objections offered by some of the Presbyteries reporting.

The Committee is still proceeding with the revision of the Directory and hopes to be able to submit a draft of its work after the Aids for Family Worship are published.

Your Committee would respectfully recommend that, inasmuch as no charge was made on the funds of the Church for printing during last year, the Convener be authorized to draw upon the Treasurer of the church this year for necessary expenses in connection with the revision of the Directory up to the sum of one hundred dollars, to be paid out of the Assembly Fund.

All of which is respectfully submitted.

Convener.

REPORT OF THE COMMITTEE ON INDIVIDUAL COMMUNION CUPS.

As it seemed impracticable to convene the Committee appointed by last General Assembly on Individual Communion Cups, the following letter was addressed, on February 20th, by the Convener to each member of the Committee:

MY DEAR SIR,—The use of the Individual Cup in the Administration of the Lord's Supper was brought before last General Assembly by a reference from the Synod of the Maritime Provinces. The Assembly appointed a committee "to consider whether any, and if so, what changes should be made or permitted in the Administration of the Lord's Supper heretofore practised in this Church, and to report to next Assembly."

The following are the members of the Committee:—

Drs. MacVicar, Patrick, Forest, Sedgwick, Lyle, McMillan, Caven, A. Falconer, Gordon, G. B. Wilson, Messrs. Ramsay, B.D., J. R. McLeod, J. H. Ratcliffe, A. Gandier, B.D., John Neil, B.A., T. F. Fullerton, W. W. Peck, LL.B., *Ministers*; and Sir Thomas Taylor, Dr. Murray, Rev. J. A. Macdonald, Judge Forbes, Dr. Gilbert Gordon, Dr. Primrose, and Messrs. Hamilton Cassels, K.C., John Charlton, M.P., G. Mitchell, *Elders*: Dr. Caven, Convener.

As it is impracticable to convene a committee so widely scattered, will you be good enough to convey to the Convener, by writing, your judgment regarding the question which the General Assembly has instructed the Committee to consider.

The opinion of the Committee is doubtless intended to be limited to the matter of using individual cups in the administration of the Communion. It is therefore suggested that your judgment may be conveniently expressed in answering the following questions:—

1. Should the General Assembly allow the use of individual cups in the administration of the Lord's Supper, or should it not?
State briefly the grounds on which your judgment rests.
2. If, in your opinion, individual cups should be allowed, should the right to decide the matter in a congregation lie entirely with the Session, or should the Session be required to ascertain that a majority of the communicants approve of the change?
3. Would you favour the view that the General Assembly should decline to act with authority in this matter, but should recommend the congregations of the Church to continue the practice which has been hitherto observed?

Should members of the Committee prefer to express their views otherwise than by reply to the above questions, they will, of course, do so.

Be good enough to let the Convener have your judgment on the matter remitted to the Committee not later than April 15th, as it may be necessary again to correspond with the members of Committee before preparing our report for the General Assembly.

To this letter replies have been received from Drs. Patrick, Gordon, Sedgwick, Falconer, Caven, and Messrs. Fullerton, Gandier, Ratcliffe and McLeod, *ministers*; and

from Messrs. John Charlton, M.P., Hamilton Cassels, K.C., Dr. Murray, Judge Forbes, and Dr. Primrose, *elders*.

Of these replies *eleven* are in favour of allowing the use of individual cups, and *three* are opposed to allowance.

Of the *eleven* who would allow the individual cup, two would desire the General Assembly, while granting liberty, to recommend congregations to continue the practice which has been hitherto observed; one of the two says, "*urgently recommend*."

The replies in favour of liberty would have any Session, in sanctioning the introduction of individual cups, carefully to ascertain that the change is in accordance with the convictions and feelings of the membership, and would not cause discord in the congregation; one reply says that the members of a congregation should be "*unanimous*" before any change is made.

It is unnecessary to recite in detail the reasons given in these replies against permitting the use of individual cups by the General Assembly, or in favour of the Assembly's allowing Sessions to have authority in the matter. The reasons mainly urged by those who would disallow the use of individual cups are, that such use would be a departure from the practice instituted by the Lord and observed by the Church to the present day; and that the unity of Christ's body is not represented in the use of the individual cup, the ordinance being thus essentially marred. Those who would grant liberty argue, that our present practice in partaking of the Lord's Supper does not conform in its details to the Institution as observed by our Lord and His apostles, or by the early Church; that the number of the cups used is non-essential; that in certain cases there are physical objections to persons using the same cup; and that the right of determining the mode in which the Communion should be dispensed, belongs constitutionally to the Session.

The large majority of the replies to the circular of the Convener being in favour of the view that the question as to the cups should be determined by the Session, your Committee recommend that the General Assembly should so decide. In dealing with this matter Sessions would doubtless be careful to consult the peace and harmony of congregations, and to avoid whatever might give pain to faithful members of the Church.

All which is respectfully submitted.

Convener.

REPORT OF THE COMMITTEE ON THE ENLARGEMENT OF THE POWERS OF SYNODS.

The Committee of Assembly appointed to prepare a plan for extending the powers of Synods, beg to report that they have met and considered the subject carefully and have agreed to recommend to the Assembly for approval the following Overture, which may be sent down to the Presbyteries under the Barrier Act, viz.:—

Whereas a majority of the Presbyteries have reported to the Assembly in favour of extending the powers of Synods,

And whereas the General Assembly, for various weighty reasons, deems it expedient to give effect to the judgment of said Presbyteries,

Therefore, The General Assembly agrees that, in addition to the powers heretofore exercised by Synods, Synods shall hereafter have vested in them, subject to the regulations which the General Assembly may from time to time adopt, the right to deal with and dispose of the following subjects, viz.:—

1. The reception of ministers from other Churches, due notice having been previously given to all the Presbyteries of the Church of the intention of the Presbytery which asks for the reception of said ministers.
2. The granting of leave to ministers to retire from the active duties of the ministry.
3. The erection of new Presbyteries within their bounds, as well as the adjusting of the bounds of Presbyteries already existing within said Synods; but when a new Presbytery requires to be erected, covering territory under the jurisdiction of two or more Synods, the sanction of the General Assembly must be obtained.
4. The reception and issuing finally of all appeals, complaints and references which come regularly before it, and which do not affect the doctrine or constitution of the Church or interfere with the administration of schemes or other matters under the direction and control of the General Assembly.

In conceding to Synods the enlarged powers above enumerated, the Assembly does not extend said powers to Presbyteries in the Foreign field which have been vested with Synodical powers. It is further declared, that in thus enlarging the powers of Synods, the Assembly does not lay aside its right to supervise and control all the proceedings of Synods as these come before it from year to year in the review of their records, or to deny to the members of the Church, or to subordinate Courts the right to approach the Supreme Court by Memorial.

All of which is respectfully submitted.

REPORT OF COMMITTEE *re* COMMISSION OF ASSEMBLY.

To the Venerable the General Assembly:

Your Committee to which it was referred by the General Assembly of 1902 to perfect the details of the scheme for the appointment of a Commission for meeting emergencies which may arise during the intervals of the Assembly, as approved by a majority of the Presbyteries, begs leave to report that it has given the subject careful consideration and recommends as follows:

1. That it be regarded as a Standing Committee of the Church, to be appointed annually by the General Assembly, like other Standing Committees.
2. That it be entitled "The Committee on Emergencies," rather than "The Commission of Assembly."
3. That it be composed of the Moderator of the General Assembly, Convener, the Clerks of Assembly, *ex-officio*, together with nine ministers and eight elders, to be annually elected by the General Assembly.
4. It will be the duty of the Committee to take action to safeguard the interests of the Church in any matter or matters which may suddenly arise, and which do not clearly fall within the sole jurisdiction of any of the General Assembly's Committees, or of any of the Chartered Boards of the Church.
5. The Convener of the Committee may call a meeting at any time, at his own discretion, by giving ten clear days' notice of the same. He shall call a meeting of the Committee whenever requested to do so by a memorial or requisition, signed by eight or more members of the Committee.
6. The Committee shall keep minutes of all their meetings and report to the next General Assembly all matters which required attention and the action taken thereon during the year.

7. The expenses of the Committee shall be paid out of the Assembly Fund.

All of which is respectfully submitted.

ROBERT CAMPBELL,
Convener.

MONTREAL, May 4th, 1903.

REMIT TABULATED.

The only remit sent to Presbyteries by last Assembly was one pertaining to the proposed amended regulations for the administration of the Aged and Infirm Ministers' Fund. The number of Presbyteries in the Church is fifty-seven. Returns were received from twenty-four Presbyteries up to May 22nd.

Of this number fifteen approve simpliciter; four approve with modification; three disapprove; and two disapprove in part.

The returns from the several Presbyteries will be laid on the table of the Assembly.

All of which is respectfully submitted.

ROBT. H. WARDEN.

TORONTO, May 21st, 1903.

OTTAWA LADIES' COLLEGE.

To the Venerable The General Assembly:

The Board of Trustees of The Ottawa Ladies' College begs leave to present the following report of the college for the session 1902-3.

The session opened with good promise. Unfortunately early in the month of November, several cases of scarlet fever developed among the resident pupils. This necessitated the closing of the school until after the Christmas holidays, and seriously affected the subsequent attendance both of day and resident pupils.

Considering this drawback, the present average of thirty boarders and sixty-two day pupils may be regarded as satisfactory.

The closing of the college for the greater part of a term, and the inevitable decrease in the number of pupils, have occasioned a marked diminution in revenue, and a consequent indebtedness of \$2,121.94, as shown by the treasurer's statement.

Under these circumstances the College Board approached the Board of French Evangelization, in whose name the property was then held, with the view of securing a loan to meet the deficiency. The French Board not being in a position to advance the money, application was made to the Century Fund Committee for a grant of \$3,000.

The committee agreed to recommend the grant, subject to the approval of the General Assembly, on condition that the College Board take over the property.

The Board has acted upon this, and has taken over the property, subject to a mortgage to the Board of French Evangelization.

The Board has pleasure in reporting that the lady principal and teachers have discharged their duties wisely and efficiently, and that, despite the disturbing element in the earlier part of the session, the school has done excellent work during the year.

The arrangement made with the Canadian Conservatory of Music, by which the musical department was transferred to them under certain terms and conditions, has so far proved satisfactory.

The Board asks permission from the General Assembly to apply to the legislature for such minor changes in the charter as will contribute to the more efficient working of the college.

The Board would record the deep sense of loss which it feels, in common with the whole church, in the death of Principal McVicar, one of its members.

In conclusion, the Board desires to make special reference to its gratification that Rev. Dr. Armstrong, whose services to the college have been invaluable, has agreed to resume the position which he formerly occupied as director or regent. The Board feels assured that, under his care, the college is destined to reach a still higher degree to prosperity.

All of which is respectfully submitted.

Secretary-Treasurer.

President of the Board.

OVERTURES.

OVERTURE I., re AGED AND INFIRM MINISTERS' FUND.

At Owen Sound, and within Division Street Hall there, March 3rd, 1903, the Presbytery of Owen Sound met and was constituted.

Sederunt:—Rev. Thos. Nelson, Moderator, etc.

Inter Alia.

There was presented to the Presbytery the following Overture to the General Assembly regarding the Aged and Infirm Ministers' Fund, which was adopted and ordered to be transmitted:

WHEREAS there is evident lack of interest in many congregations in the support of the Aged and Infirm Ministers' Fund (Western Section);

AND WHEREAS the opinion is wide-spread that this lack of interest is largely caused by dissatisfaction with the basis on which the Fund is at present administered;

The Presbytery of Owen Sound humbly overtures the Venerable the General Assembly that it send down to Sessions and Presbyteries for their judgment thereon the following outline proposal for setting the Fund upon a new basis as to the payment of annuities:—

The Aged and Infirm Ministers' Fund shall be composed of two Sections.

The capital of the First Section shall be made up of the Ministers' rates which have been paid from the beginning, with interest thereon, and of legacies left, or gifts made specifically to this Section.

The capital of the Second Section shall be the remainder of the present Capital Fund, and legacies left and gifts made in general terms to the Aged Ministers' Fund.

Ministers who have paid rates into the Fund, on being allowed to retire from the active work of the ministry by the General Assembly, shall receive such an annuity as their payment will warrant from the interest on the capital of the First Section and the annual rates paid by ministers into this First Section.

All ministers, whether rate paying or not, on being allowed by the General Assembly to retire from the active work of the ministry, shall receive an equal annuity from the interest on capital of the Second Section and the annual contributions of congregations to the Aged Ministers' Fund, it being understood that those now on the Fund shall at least continue to receive their annuities as at present, and that the Committee on the Fund shall have power to make special grants in cases of necessity; or that they (The General Assembly) do otherwise as in their wisdom they may deem best to obtain the object this Overture has in view, viz., to enlist the sympathy and co-operation of the whole Church (Western Section) if possible.

Extracted from the records of the Presbytery of Owen Sound.

JOHN SOMERVILLE, Clerk.

Rev. J. Somerville and Rev. J. C. Simpson were appointed to support the Overture before the General Assembly.

J. SOMERVILLE, Clerk.

II.—Re AGED AND INFIRM MINISTERS' FUND.

At Woodstock, and within Knox Church there, this Twenty-Eighth day of April, A.D. 1903, which day and place the Synod of Hamilton and London met and was constituted.

Inter Alia.

The Overture of Mr. J. S. Hardie regarding the Aged and Infirm Ministers' Fund was read, and Mr. Hardie heard in support of the same.

It was moved by Mr. W. J. Dey and seconded by Dr. Lyle,—

That, while not approving of the Overture, it be received and transmitted to the General Assembly with the recommendation that the regulations of the Aged and Infirm Ministers' Fund be so revised that while those at present connected with the Fund shall receive full justice, the benefits of the Fund shall be open to every infirm minister of the Church, and every minister over sixty-five years of age.

The motion was adopted.

Extracted from the Minutes of Synod.

J. H. RATCLIFFE, Clerk of Synod.

ST. CATHARINES, May 6th, 1903.

To the Venerable the General Assembly of the Presbyterian Church in Canada.

OVERTURE, FROM THE REV. J. S. HARDIE, re THE AGED AND INFIRM MINISTERS' FUND.

WHEREAS, in the very nature of things, the Aged and Infirm Minister's Fund ought to be one of the most popular and flourishing funds in connection with our Church:

WHEREAS both reports (East and West), on this Fund, presented to the last Assembly call attention to an unsatisfactory and regrettable state of matters; The Eastern report states,—“At the beginning of the year, the Committee, alarmed at the way the Fund was sinking into debt, appealed, etc. . . .” Referring to arrears in minister's rates, it says,—“An earnest attempt will be made to prevent a recurrence of such widespread neglect.”

The Western report has the following sentences:—“It is however matter of regret that, measured by the amount of congregational contributions, the liberality of our people towards this Fund has not increased during the past year.”

“Committee greatly fears that the apathy of many of the ministers, and the fact that so many have not become connected with it, is the chief reason why this Fund is less popular than it should be.”

WHEREAS, in the judgment of Mr. Hardie, the causes of the non-connection of so many ministers, of the “apathy,” of the “widespread neglect,” and of the deplored lack of liberality, etc., are to be ascribed to the present constitution and regulation of the Fund,—in particular to the reservation of benefit for a limited number of ministers upon the imperative condition of the payment of rates;

WHEREAS it must appear a right and reasonable thing, that, in a Church so large and wealthy as ours, provision should be made for the relief of all aged and infirm ministers, as the Assembly may ascertain and determine the needs in each case, without reference to the payment of rates as a limiting condition,—it being evident that there may be more urgent necessity for relief in some cases where rates have not been paid, than in cases where they have been paid;

AND WHEREAS the proposal of new regulations at the last meeting of Assembly, and the sending of these regulations down to Presbyteries for consideration, may be regarded as opening the way for criticism of these regulations, or for other suggestions.

The Synod of Hamilton and London hereby humbly makes overture to the Venerable the General Assembly, That, in amendment to the proposed new regulations, it be enacted as follows:—First. There shall be two funds, the one to be sustained by ministers' rates, and to be administered for the benefit of ratepayers according to the most approved principles of life insurance; the other to be supported by annual congregational contributions, donations, bequests, etc., and to be a purely Beneficiary Fund for the benefit of all ministers, whether connected with the other Fund or not, each case to be considered on its merits by the General Assembly.

In the regulation of the first, or Insurance Fund:—

1. The one half of the capital invested thus far under the Aged and Infirm

Ministers' Fund of the Church to be placed to the credit of this Insurance Scheme as a reserve.

2. Connection with this Fund to be obtained upon application, with medical certificate approved by the Committee.
3. Rates to be paid, according to age at the time of application, upon the lowest equitable rates of ordinary life insurance.
4. Period of connection with the Fund, during which rates shall be paid; and amounts receivable by policy-holders, either in a lump sum at the expiry of the term, or as an annuity during the remainder of life,—to be determined also upon approved principles of ordinary life insurance.
5. Rates, or premiums shall be paid half-yearly. Failure to pay premium when due shall involve liability of forfeiture of insurance, or the necessity for another medical certificate.

In regard to the second Fund:—

1. The other half of the capital invested thus far under the Aged and Infirm Ministers' Fund of the Church to be placed to the credit of this Fund as a reserve.
2. All ministers of the Presbyterian Church in Canada shall have right to participate in the benefits of this Fund,—each case to be judged on its merits by the General Assembly.
3. The question of "pastorate" shall not enter into any case as a determining element,—the only requisite being that an applicant for benefit shall be at the time in the service of the Church, an ordained minister in good and regular standing.
4. If a minister should retire from the active work of the ministry without permission of the Assembly; or should transfer his services to any other Church; he shall on this account forfeit all right to benefit from this Fund.
5. The regular procedure with a view to the retirement of a minister from active work, and placing his name upon the list of beneficiaries is as follows:—
 - (a.) When a minister, from age or infirmity, proposes to retire from the active duties of the ministry: he shall make application in writing to Presbytery within whose bounds he has been labouring and is labouring at the time, furnishing whatever information may be necessary; and, in the case of infirmity, a satisfactory medical certificate.
 - (b.) In the case of a minister holding a Pastoral Charge at the time of his application: the Presbytery shall proceed in the manner outlined in Section 7 in the list of new regulations brought before last Assembly, viz., "When a minister from age or infirmity proposes to retire from the active duties of the ministry, he shall make application in writing to the Presbytery, furnishing whatever information may be necessary, and, in the case of infirmity, a satisfactory medical certificate. The Presbytery thereupon shall visit his congregation, and summon them to appear by commissioners at a subsequent meeting that they may be heard for their interests, and that the Presbytery may confer with them anent a retiring allowance to their minister, to take effect on the acceptance of his resignation, and any other matters affected by his proposed retirement.
6. When a minister is allowed to retire from the active work of the ministry after ten years' service: he shall receive, if the state of the Fund permit, an annuity of \$75, with \$10 additional for each additional year of service up to thirty; and for each additional year of service over thirty and up to forty, \$12.50. Annuities shall be paid either in quarterly or half-yearly instalments.

7. When a minister's health is impaired, but not so as to render him wholly unable to discharge the duties of his profession, the Assembly shall grant him partial or temporary benefit as in its judgment the case may require.
8. When a minister, admitted to the benefits of the Fund on account of infirmity, recovers his health sufficiently to engage actively in the work of the ministry: the allowance shall be discontinued.
9. When a minister attains the age of 65 years, *he may claim* the privilege of retiring from the active duties of the ministry, and of being placed upon the Fund.
10. When a minister is mainly dependent upon his annuity from this Fund: the Assembly shall, after careful enquiry, grant such additional allowance as the state of the Fund will permit,—such additional allowance in no case to exceed one hundred dollars.

III.—*Re* MINISTERS' WIDOWS' AND ORPHANS' FUND.

At Owen Sound and within Division Street Hall there, on the seventeenth day of March, 1903, the Presbytery of Owen Sound met pursuant to adjournment, and was constituted.

Sederunt:—Rev. Thos. A. Nelson, etc.

Inter Alia.

There was presented the following overture to the General Assembly regarding the Widows' and Orphan's Fund, which was adopted and ordered to be transmitted to the General Assembly:—

WHEREAS a large proportion of the ministers of the Church have not connected themselves with the Ministers' Widows' and Orphans' Fund (Western Section) by payment of the rates;

WHEREAS many of these give as the reason for the non-payment of rates, their dissatisfaction with the regulations governing the administration of the Fund;

WHEREAS while but a small proportion (about one-fifth) of the total revenue is derived from ministers' rates, the widows and orphans of rate paying ministers derive exclusive benefit from the entire revenue, although much of it is contributed under the impression that the widows and orphans of all ministers share in the benefits of the Fund;

AND WHEREAS it is believed that the Fund would be much more generally and liberally supported by both ministers and congregations were the regulations governing its administration so amended as to remove this objection, while conserving the interests of those at present connected with the Fund either as rate payers or as beneficiaries; therefore the Presbytery of Owen Sound humbly overtures the Venerable the General Assembly of the Presbyterian Church in Canada:—

That the Ministers' Widows' and Orphans' Fund of the Presbyterian Church (Western Section) be divided into two Sections.

The capital of the First Section shall be made up of the ministers' rates which have been paid from the beginning of such payments with interest thereon, and of legacies left, or gifts made specifically to this section.

The capital of the Second Section shall be the remainder of the present capital Fund and legacies left and gifts made in general terms to the Ministers' Widows' and Orphans' Fund.

The widows and orphans of ministers who have paid rates shall receive an equal annuity from the interest derived from the capital of the First Section, and the rates paid by ministers to the Fund.

The widows and orphans of all ministers of the Church in good standing, whether rate paying or not, shall receive an equal annuity from the interest on capital of the Second Section, and the annual contributions of congregations to the Ministers' Widows' and Orphans' Fund. It being understood that those at present upon the Fund shall continue to receive their annuities as at present.

The Presbytery asks further that the details of this proposed scheme, if the

principles of it be adopted by a majority of the Presbyteries of the Church, be wrought out either by the Committee of Assembly on the Ministers' Widows' and Orphans' Fund, or by a special committee to be appointed by the General Assembly, and the Presbytery of Owen Sound will ever pray.

JOHN SOMERVILLE, *Clerk*.

Messrs. J. Somerville and J. L. Simpson were appointed to support this overture before the General Assembly.

IV.—Re SCHEME FOR DISTRIBUTION OF PROBATIONERS.

At Woodstock, and within Knox Church there, this twenty-eighth day of April, A.D. 1903, which day and place the Synod of Hamilton and London met and was constituted.

Inter Alia.

There was presented and read an overture from the Presbytery of Hamilton to the General Assembly asking that the Committee on the Distribution of Probationers be dispensed with, and that a Bureau of Information be established.

It was moved by Mr. W. J. Clark, seconded by Mr. C. Fletcher, that the part of the overture with reference to a Bureau of Information be dropped, and the overture as thus amended be adopted and transmitted to the General Assembly.

The motion was adopted.

Extracted from the Minutes of Synod.

J. H. RATCLIFFE, *Clerk of Synod*.

To the Venerable, the General Assembly of the Presbyterian Church in Canada.

Believing that the present Scheme for the Distribution of Probationers is unsatisfactory to many of the Presbyteries which are required to work in harmony with it because it interferes with the right of the Presbytery to supply its vacancies in the way it considers best.

The Venerable, the General Assembly is hereby humbly overtured by the Synod of Hamilton and London to dispense with the Committee on the Distribution of Probationers, and leave Presbyteries free, unfettered by the appointments of any committee, to supply the vacancies within their bounds.

J. H. RATCLIFFE, *Clerk of Synod*.

WOODSTOCK, April 28th, 1903.

V.—Re STANDING COMMITTEE ON COLLEGES.

At Toronto, within Knox Church there, on the third day of June, nineteen hundred and two, the Presbytery of Toronto met and was duly constituted.

Dr. Gregg presented and read the following overture to the General Assembly which the Presbytery agreed to transmit, and appointed Dr. Parsons and Mr. J. A. Turnbull to support the same:—

WHEREAS it is for many reasons desirable that a general, standing College Committee should be appointed, that shall have, under the General Assembly, a supervision of matters of interest to the Colleges of our Church in which students are being trained for the ministry;

It is hereby overtured, by the Presbytery of Toronto, to the General Assembly to appoint and give instructions to such a Committee.

REGULATIONS REGARDING MINISTER-EVANGELISTS.

The General Assembly in 1902 agreed to institute a special class of workers to be known as Minister-Evangelists. This is a temporary expedient to meet the deficiency in laborers in the Home Mission field and to be operative for seven years only. The following scheme for the training and employment of such Minister-Evangelists was adopted by the Assembly.

I. The course of training shall extend over five years, and shall be given in Manitoba College, concurrently with the regular College session.

II. The course shall be open to the following classes of students:

(a.) Catechists who have attended the classes prescribed and passed the required examination.

(b.) Missionaries who, prior to 1903, have served the Home Mission Committee with acceptance for at least two years.

(c.) Students who have taken the full course at any training institute whose curriculum is recognized for this purpose by the Home Mission Committee, and who have given the Committee at least twelve months' efficient service. In the case of such students, each year's attendance at the institution in which they studied previously, shall be considered to be equivalent to a session taken in the course now prescribed.

(d.) Candidates who may be considered by the Senate of Manitoba College to have equivalent standing to any of the foregoing.

III. The following entrance examination shall be required of all candidates for the course:

(a.) The writing of an English essay. (b.) English literature, of the standard for University matriculation. (c.) History, of the standard for University matriculation. (d.) One of the following optional subjects:

1. English of the first year, or junior matriculation. 2. French of the first year or junior matriculation. 3. German of the first year, or junior matriculation. 4. Latin of the first year, or junior matriculation. 5. Greek of the first year, or junior matriculation. 6. Mathematics of the first year, or junior matriculation. 7. Science of the first year, or junior matriculation.

This examination may be dispensed with in the case of candidates who are certified to have already passed an equivalent examination.

IV. The course of study shall be as follows:

First Year.—1. Scripture. 2. Greek Grammar and New Testament Greek. 3. Practical Training. 4. English.

Second Year.—1. Scripture. 2. New Testament Greek. 3. Practical Training. 4. Logic. 5. English.

Third Year.—1. Scripture. 2. New Testament Greek. 3. Practical Training. 4. English. 5. Psychology. 6. Systematic Theology.

Fourth Year.—1. Scripture. 2. New Testament Greek. 3. Practical Training. 4. Ethics. 5. Church History. 6. Systematic Theology.

Fifth Year.—1. Scripture. 2. New Testament Greek. 3. Practical Training. 4. Church History. 5. Systematic Theology.

The details shall be determined by the Senate of Manitoba College, and the number of lectures, strictly so called, shall not exceed three hours a day. Practical Training shall include the composition and delivery of sermons, the conduct of the public worship, and the treatment of all matters likely to arise in a minister's work. The whole of Scripture shall be covered in the five years.

The Senate of Manitoba College shall, in such cases as they deem fit, have power to substitute another subject for New Testament Greek.

V. Those who complete successfully the course of training as Minister-Evangelists shall be ordained, in order to do the full work required of a Missionary, and, if appointed to a Presbytery for a two-years' term, shall have seats in that court; but such Evangelists shall be eligible only for appointments by the Home Mission Committee, and not for a call to a congregation, whether of the augmented or self-sustaining class. On the completion of the course each Minister-Evangelist shall receive from the Senate of Manitoba College a diploma, embodying the terms on which he may be received into the regular ministry of the Church.

VI. The salary of a Minister-Evangelist shall be \$75 per annum less than that paid to ordained missionaries under the regulations of the Church.

VII. In the event of a Minister-Evangelist approving himself to the Home Mission Committee and the Presbytery, after four years of service, as able to do efficiently the full work of the ministry, it shall be competent for the Presbytery, with the concurrence of the Home Mission Committee, within the bounds of which he is laboring, to apply to the General Assembly, to grant him the full status of a minister of the Presbyterian Church.

REPORT OF THE COMMITTEE ON STATISTICS FOR THE YEAR 1902.

To the Venerable the General Assembly of the Presbyterian Church in Canada:—

Your Committee have had before them the overture of the Synod of Manitoba and the North-West Territories, requesting the Assembly to define the terms "Family and Adherent," as called for in the statistical returns of the Church, and which was referred to them by the Assembly in terms of the overture, for consideration. As regards the term "Adherent," it does not occur in the forms prepared by your Committee, and sent out to procure information on the subjects with which they are called upon to deal, so that no definition of it on their part is required.

With regard to the term "Family," it was before the Committee in 1894, in consequence of an overture from the Presbytery of St. John on the same point, was carefully discussed by the Committee then under appointment, and quite a full report was brought into the Assembly, which met in London in 1895, and which will be found in the appendix to the minutes of the Assembly for that year, No. 26. That report was as follows:—

"Careful and lengthened deliberation was given to the overture from St. John. The subject with which it dealt was not new to the Committee, although it had never previously been brought before them in such a form. That it has difficulties has long been felt and must be still acknowledged. It admits of being questioned whether the General Assembly can 'decern and declare,' as the overture craves, 'What shall be held to constitute a family'; that is, as your Committee presume, in connection with an ecclesiastical census, and 'What shall be held to identify a family as belonging to a certain congregation in respect of statistical returns.'"

Were the first question to be considered in its broad terms, the course of your Committee would be to refer to some dictionary of recognized authority or quote the definition it furnished. There would be no difficulty in answering the second, of all the members in a family belonged to the same congregation, but very frequently this is not the case, many families being divided in their denominational and congregational preferences and connections. Your Committee would venture to express their opinion on the following supposed cases.

If a family consists of parents, children and servants, it should be reckoned to the congregation to which the parents belonged, whatever might be the connection of the others. If the children are divided among themselves, some having placed themselves under one pastoral oversight and some under another, we think that the ecclesiastical connection of the father, or the mother, if a widow, should determine the ecclesiastical connection of the family. If both parents are dead, and the children live together, there may be one who is in loco parentis, and the connection should be determined by him. If the

majority of the members in such a household have one connection, and the minority another, should not the majority determine? But it is unprofitable to multiply suppositions. A rule cannot be laid down for "discerning and declaring what is a family, or for identifying a family as belonging to a certain congregation," which may be applied in every case. No definition can be constructed which is universally applicable. Very much must be left in many instances to the discretion of Sessions, but let it not be supposed that a family must embrace a certain number of individuals. A husband and his wife, a master and his servant, a mistress and her maid, may, according to the origin of the word, be a family as really as when there is a number of children or of household servants, whether male or female."

Your Committee are of opinion that they cannot improve on what is thus stated, and would adopt and repeat the conclusion that no rule, universally applicable, can be laid down, or which all sessions would follow. There can be no doubt as to the importance of the question, and of as full answers to it as can be given.

Your Committee have had their attention directed to the number of headings, titles or descriptions, under which some Presbyteries, and there is quite a number of these, classify their Missions. In some we have "Mission Stations," in some "Mission Charges and Mission Stations," in some "Home Mission and Missions," in some "Mission and Mission Stations," in some "Mission Fields," etc. Your Committee feel themselves unable to trace the distinction in the several instances, and think that the Assembly after it may be hearing members, or ascertaining the mind of Presbyteries, should agree upon some classification or reduced in the number of its titles so as to secure uniformity. Might not all be classed under the one heading, "Mission Fields?" And ought not an understanding be arrived at of what constitutes a "Mission Charge?" Mission Charges cannot be distinguished in the returns on the ground of number of communicants or adherents, for some Mission stations have a larger membership than charges in the same Presbytery, as, for instance, Inverness, Halifax and St. John. In the Presbytery of Owen Sound there are "Missions" and "Mission Stations." In the Synod of Manitoba and the North-West Territories the title "Mission Stations" alone is used. In the Synod of British Columbia some Presbyteries have "Mission Fields," others "Mission Stations," and one "Ordained Missionary Congregations" and "Home Mission Stations."

And here your Committee would suggest that, in answer to No. 1 of "Totals" at the foot of the sheets on which Presbyteries make their returns, the general statement, "number of congregations, Mission stations," etc., should be changed to read, "Number of pastoral charges," whether self-supporting or augmented; "Number of congregations in these charges," "Number of Mission Fields," etc. And that to "Number of Ministers on Roll of Presbytery" there be added "Number in Charge."

Returns have been received from nearly all the congregations and stations in the Church at large, and it is only in a few instances that clerks have been under the necessity of copying the report of the previous year, because of failure to report for the year 1902. An exception must be made of the Presbytery of Edmonton, from which no report was received, although applied for three times.

On the 7th of November last a parcel was mailed to each Presbytery clerk with the questions on statistics and financial statement for distribution to the congregations and stations in bounds, with the request that the latter should fill them up, and return them to the former by the 28th February, with the intimation that, if he had not received them by that date, he would copy into his report for the Committee their answers for the previous year. Altogether 3,155 copies of this form were issued, to which 127 were subsequently added, making a total of 3,282. On the 3rd January last sheets were issued to Presbytery clerks on which to collect and arrange the returns coming to their hands, with other documents and blank forms, which they were to fill in and send back. On the part of some, there was very commendable punctuality. The same cannot be said of some others. "Not later than the 15th April" was the date fixed for Presbytery reports, but, close on the end of that month, two Presbyteries in the same Synod had not sent in their returns, and not until the printer was at work on those received, and one did not send in at all.

For the forms for Presbytery returns, reference must be made to the pages of the report on which these are printed. It will be observed that in some notes are appended. Among these may be mentioned St. John and Kingston. With regard to the former, it may be stated that, while no change was made in the report as received, the judgment of your Committee was, and intimation of this given, that the sum mentioned was in reality a debt—a liability—that had to be discharged some time, although interest upon it was in the meantime covered by certain proceeds. With regard to the latter, for many years it was the practice of the Committee on Statistics to present the states of congregations, or charges, separate from Mission stations for the reason that is alleged, and the Committee has not gone against the mind of the Presbytery by incorporating the two. Calculation has been made, and it has been ascertained, that the average contributions of charges by themselves is greater than the average contributions of the two conjoined. But the question comes up, "Why should not a Presbytery collect as full and reliable statistics for this Committee of Assembly as for the Home Mission Committee?" Or might not the Presbytery have availed itself of the figures collected for that Committee?

As in former years, the reports of Presbyteries are followed by summaries, according to Synods in their order from East to West, from which will be seen, according to the Presbyteries in each, the number of congregations and Mission stations it contains; the number of ministers (a) on the roll and (b) on the appendix to the roll, the number of vacancies, with the items entering into the statistical report and financial statement. Your Committee does not follow the example of the Committee in former years by comparing the state of the Presbytery for one year with its state for that immediately preceding. Let it be hoped that every Presbytery has its time for the examination, and comparison of its report every year when submitted by its clerk, or its Committee on Statistics, for such an exercise will be profitable and suggestive in many respects.

Summaries of Presbyteries according to Synods is followed by a general summation of these Synods, giving in the compass of a few lines, but by a very interesting and instructive array of figures, the standing of the Church in the particulars noted. In some of the items there is a decrease, compared with the former year. Your Committee are pleased to say that in most, especially those which mark the progress of the Church, there is an increase.

The total number of families reported as belonging to the Church is 118,687 and of single persons 26,611. One congregation presents the peculiarity which no doubt admits of a satisfactory explanation, of having 923 families and 3,073 single persons. In 1901 families were given at 118,114 and of single persons at 20,926.

Communicants now number, according to these latest returns, 222,031, as against 219,470 the previous year, an increase of 2,561.

The additions made to communicants' rolls under the various sessions were 11,423 on profession of their faith, and 8,862 on certificate, making in all 20,285. Last year the additions were 11,259, and 8,709, respectively, an aggregate of 19,968.

In 1901 the removals by death and otherwise were 6,754, and by certificate 7,471, giving a total of 14,225. In 1902 they were respectively 6,849 and 7,600. Total, 14,449.

Of baptisms 10,722 were infants, and 1,098 adults, against 10,739, and 1,129 in the former year.

In the eldership there were 7,708; in the previous year 7,559.

Stipend, amounting to \$1,057,810, has been paid by congregations, without any outside help, and stipend from other sources \$85,320, being in the aggregate \$1,143,130.

But for information upon these and other points, your Committee refer to the Comparative Table of Statistics as given on page 452.

In the following pages of the report, a brief summary is presented of the work done in the way of augmentation, Eastern and Western sections, in the Home Mission Fields, French Evangelization, Foreign Missions as regards the centres of operation occupied, Contributions to the Schemes, Theological Colleges. If fuller information on these subjects is required, reference is made to the reports in full as they appear in the Appendix to the Minutes of General Assembly.

At its meeting in April, the Committee agreed to recommend that in the next form of statistical questions one be inserted immediately before the one calling for the number of communicants on the roll, as revised at the end of the year, asking, "When the Communion Roll was last purged by the session." That is the only recommendation your Committee have to present.

All of which is respectfully submitted.

Convener.

*There is a mortgage of \$31,000 on certain property belonging to this church, which was included last year in these columns, but it is not included this year because the rentals more than meet the interest. This is the statement of the congregation and Presbytery's Committee did not care to alter it.

In addition to the above amounts for the regular work of the Church, there was received by Dr. Warden during the year, \$36,514.19, upon behalf of the Century Fund.

REPORT OF THE BOARD OF TRUSTEES PRESBYTERIAN CHURCH IN CANADA.

To the Venerable the General Assembly :

The Board of Trustees beg to report that they have now obtained all the necessary legislation meantime required from the several Provincial Legislatures, so that there is no longer any practical difficulty in the transfer of property, and in executing discharges, etc., in connection with the schemes of the Church.

There is appended hereto the annual financial statement of the Agent of the Church of all funds connected with schemes which are not incorporated.

It is gratifying to report that the contributions for the past year have been very considerably in excess of those of any preceding year. The following is a summary of the total receipts by the Agent of the Church at Toronto. For the sake of convenience there are included the receipts for Knox College and the Presbyterian College, Montreal, for both of which institutions Dr. Warden acts as Treasurer, and also the receipts, through the Toronto office, for Queen's College and Manitoba College :—

Knox College, Toronto, Endowment Fund.....	\$5,000 00	Augmentation Reserve Fund.....	\$2,717 50
Knox College, Toronto, Ordinary Fund.....	21,927 81	Augmentation Building Fund.....	3,935 11
Knox College, Toronto, Scholarship Endowment.....	2,500 00	Foreign Mission Fund.....	99,794 96

Presbyterian College, Montreal, Endowment.....	5,027 00	Macao Mission Fund.....	796 76
Presbyterian College, Montreal, Ordinary Fund.....	19,365 68	Aged and Infirm Ministers, Capital Account.....	31,626 26
Presbyterian College, Montreal, Scholarship Endowment.....	515 00	Aged and Infirm Ministers, Ordinary Fund.....	22,838 12
Presbyterian College, Montreal, Ordinary Scholarship.....	1,880 25	Ministers', Widows and Orphans' Fund, Capital Account.....	7,505 00
Presbyterian College, Montreal, Fellowship Fund.....	500 00	Ministers', Widows and Orphans' Ordinary Fund.....	26,177 66
Queen's College, per Toronto Office.....	2,653 83	French Evangelization, Ordinary Fund.....	22,063 70
Manitoba College, per Toronto Office.....	4,264 80	French Evangelization, Reserve Fund.....	2,015 00
Home Mission, Ordinary Fund.....	108,207 80	French Evangelization, Building Fund.....	3,310 00
Home Mission, Reserve Fund.....	9,858 17	Pointe-aux-Trembles, Ordinary Fund.....	12,114 42
Home Mission, Building Fund.....	1,711 55	Assembly Fund.....	4,830 86
Augmentation Fund.....	24,117 07	Sabbath School Committee Fund.....	7,390 90
		Sundry Accounts.....	10,419 63
			<u>\$485,301 17</u>

These amounts include interest on investments in connection with the several funds. In addition to the above a considerable amount was received on behalf of the Century Fund. The total receipts of the Agent at Toronto, including repayment of loans, etc., exceeded \$1,850,000 during the year.

Not only were the contributions of our people larger than in any preceding year, but all of the schemes, with one exception, ended the year free from debt, and some of these carry over handsome balances with which to begin the work of the new year.

While the result is, to some extent, due to the prosperous condition of the country, it is also attributable to the systematized effort put forth in connection with the Century Fund, which has raised the scale of giving throughout the Church, and it is hoped that, in succeeding years, this will be even more manifest. It is worthy of note that the working balances for the several mission schemes, secured largely by means of the Century Fund effort, rendered unnecessary the discounting of notes last year. Although nearly two-thirds of the entire contributions were received during the last month of the year, yet, because of careful management, it was not only unnecessary to borrow from the banks, but many of the funds had their receipts increased by interest received from these working balances.

The Board of Trustees, however, would impress upon the congregations of the Church the propriety of raising and forwarding their money to the Agent quarterly. It is most desirable that the several committees should early in the year have an idea of the revenue they are likely to receive, so that steps might be taken to equalize expenditure with revenue. So large a proportion of the contributions coming in in the last month of the year makes it impossible for committees to know how they actually stand until the year has come to an end.

Including the salary of Agent, Secretaries, office staff, office rent, printing, postage, stationery, and everything that properly pertains to administration, the cost of administering the mission and benevolent work of the Church last year was a little less than three per cent.

All of which is respectfully submitted.

JAMES MACLENNAN,

Chairman.

TORONTO, April 29, 1903.

I have audited the books of the Rev. R. H. Warden, D.D., as Agent for the Church for the year ending February 28th, 1903, and certify that the cash receipts have been correctly accounted for. The vouchers have been examined and compared with the expenditure and agree therewith. The foregoing balance sheet and the accompanying statement shewing the details of the investments are in accordance with the ledger accounts, and the bank balance and cash are certified correct.

TORONTO, April 9th, 1903.

Auditor.

REPORT OF FINANCE COMMITTEE, 1902-1903, (EASTERN SECTION).

To the Venerable the General Assembly :

Your Finance Committee, Eastern Section, find that the contributions for the regular Schemes of the Church received from all sources during the past year once more exceed those of the preceding year.

The following comparative statement of amounts received at the Halifax office makes the fact clear :—

	1900-01.	1901-02.	1902-03.
Foreign Missions.....	\$35,298 43	\$38,761 97	\$36,475 58

College Fund.....	10,905 80	13,200 67	12,740 54
Augmentation Fund.....	8,781 42	9,157 06	9,406 50
College Library Fund.....	541 88	86 32	153 34
Bursary Fund.....	895 59	978 56	1,351 39
Aged and Infirm Ministers' Fund.....	3,970 47	5,267 08	4,823 98
Manitoba College.....	241 05	237 07	220 94
French Evangelization.....	4,120 02	4,225 92	3,830 32
Widows' and Orphans' Fund.....	198 60	417 98	254 20
Assembly Fund.....	588 26	515 62	579 80
Total	\$79,622 48	\$88,130 01	\$88,385 70

The past year has been signalized by the accomplishment of the work of consolidating the invested funds in the Eastern Section of the Church. Since the last meeting of the General Assembly, the Advisory Committee of the Board of the Presbyterian College has carried out the details of the scheme, which went into operation on September 1st, 1902.

The following is a summary statement of the several funds which form the consolidated fund :—

College Fund.....	\$118,787 40	
Foreign Mission Fund (Word Fund)	500 00	
Bursary Fund.....	11,410 88	
Geddie Memorial Fund	4,000 00	
Home Mission Fund	12,312 38	
Aged and Infirm Ministers' Fund	39,455 60	
Lawson Memorial Fund	9,854 96	
Dalhousie College Fund	29,281 00	
Foreign Mission Building Fund.....	7,500 00	
Wyllie Fund.....	5,945 03	
Library Fund.....	419 14	
Consolidated Fund. Total bearing Interest.....	—————	\$239,466 39
College Buildings which do not share in the Interest	50,000 00	
Professors' Houses, N.W. Arm	17,200 00	
	—————	\$67,200 00
		—————
		\$306,666 39

As there is no direct income from the College Buildings, the \$50,000 at which they are valued is not to draw interest from the revenue of the Consolidated Fund, and as the income from and the expenditure on the Professors' Houses fluctuates considerably, it was decided that the \$17,200 invested in these houses should not draw interest from the Consolidated Fund Revenue, but that the income from them should be credited direct to the College Fund, and the outlay be debited in the same way.

Between September 1st, 1902, and March 1st, 1903, the Consolidated Fund was increased by \$9,736.72, making a total at that date of \$316,403.11.

This amount is invested as follows:—

Bank Stocks, Bonds and Debentures.....	\$136,509 26

College Buildings.....	50,000 00
Professors' Houses.....	17 200 00
